Sunday Service Draws Big Crowd

Topic of Rev. Gregory's Sermon At Community Service Sunday Night Was The Follies of 1921. Talks Straight From The Shoulder.

The village churches have resumed their union services, to be held the first Sunday evening of each month. Last Sunday evening the first of the series was held at the M. E. church when Rev. W. A. Gregory took for his theme "The Follies of 1921."

Following we give a few quotations, the idea of the churches joining in the organization of a Y. M. C. A. thus utilizing the old East Branch school appearing to us as an exceptionally good one.

"Undoubtedly the outstanding folly of the past two years has been a wild and insensate rush for giddy pleasure, to the almost total exclusion of God and the things that make for righteousness. I believe that we are due for a return to Godliness and sobriety and this will never come about until the people who profess and call themselves Christians, will boldly take their stand for God and against Sin which has come out brazenly into the open.

"The great folly of 1921 has been the neglect of God in the public and private life of this and every community, but the awful wave of spending, high living, crime and irreligion incident to 1919-1920 is passing away."

"One folly is the lack of church attendance of our young people. I would that the heads of the local churches would publish a table of Sunday-school enrollment and compare it with the average attendance at the public worship. No wonder there is an alarming shortage of candidates for the ministry of the various churches. Too many of the young people do not know what the form and meaning of public worship is."

"The folly of dress--or shall I say undress on the part of otherwise sensible womanhood. Really I see no use advocating a censorship for the movies when we see such indecency on the public streets."

"The folly of allowing your children to be grown up before they have passed the grade schools."

"Read up the law regarding the sale of cigarettes to minors, the regulations of pool-rooms, etc., and then take a walk down the main streets at any time, day or night, and see the open defiances of the law. It is high time the church people of Tecumseh forgot the label on their church steeple and remembered that they are called to be the saving salt of the earth and to take and maintain a stand for decency and righteousness in a body."

"The unchaperoned public dance hall and automobile are patent traps for our young people and we shall never spring these traps by refusing to notice their existence."

"When I find a disease spreading cess-pool in a public place, I do not advise sprinkling the surface with perfume but that we stop contamination at the source. Can we hope for a concerted stand for the salvaging of our young people. How about that old building, now unoccupied and a disgrace on East Chicago street being utilized as Y. M. C. A. headquarters?"

"Let us resolve to be christian rather than religious. Morality which does not evolve into christianity is not worth much, and some folks have the queerest kind of morality. Some of these never go near God's house, never keep God's law and are not even courteous towards God."

"Let us unite in this resolution, 'I am resolved to go out with Christ in 1922 and do his bidding.'"

JAMES HOGAN, PROMINENT FARMER AND STOCK DEALER DIES AT CLINTON.

Mr. James Hogan, aged 78, died in Clinton at 2 p. m. Monday. He had been confined to his room for a month with gradual failure of strength until the end came.

Mr. Hogan was born in Ireland and came to Michigan with his mother when a very young boy. He was brought up in the family of Malcolm McDougal of Bridgewater and from him learned the business of farming. In 1861 he went to California, going by way of the Panama Isthmus. After spending four years in the west he came back to Michigan and soon began his career as a successful farmer and stock man. He shipped his first car load of stock from Clinton in 1870. He was at one time interested in furnishing fine wool sheep to Texas farmers. He was associated with W. B. Richmond, W. H. Gadd and his son Wilbur in handling stock.

Soon after his return from California he married Miss Nancy J. Haynes of Bridgewater who died eight years ago.

Two sons and four daughters survive him, Frank and Wilbur of Clinton, Mrs. W. R. Darling of Jackson, Mrs. Frank Burroughs, Mrs. Will Martin and Mrs. David O. Reilly.

Mr. Hogan made good use of every opportunity offered him and beginning alone as a poor boy he became independant in means and acquired an influence and reputation that was more than local.

His children marked in their devotion to their father, have sustained a great loss, so has the community where Mr. Hogan lived an upright honored life.

The funeral is to be held this afternoon at Clinton, Rev. J. J. Preston of Tecumseh officiating.

COMMUNICATION.

To the Editor,
Tecumseh Herald.
Dear Sir:

At the Union Service in the Methodist Church last Sunday Evening I ventured to suggest that we make use of the unsightly old East Branch premises and in so doing, not only improve the general appearance of that end of our main street but at the same time provide a suitable place for the young people of our community for general purposes of recreation. A town the size of Tecumseh surely can and will afford something along the lines of a Y. M. C. A. and Y. W. C. A.

It is time that the churches ceased preaching from the text "Thou Shalt Not" and began to tell the young folks what they can do. We have wasted a lot of breath telling them where they can not go, now we have an opportunity of providing a place where they can go. I have received so many proofs that the idea is favorably received by the parents of Tecumseh, that I would ask the Churches to appoint three men of large vision from each denomination, and that they with others to be added by the School Board and the Council, constitute a working committee to get the work started right away. A meeting for that purpose, i. e., organization, will be held in the S. S. Room of the Methodist Church on Tuesday evening, January 17 at 7:30. Is it asking too much to expect that every man and woman who is interested in this project will make an honest effort to be present?

Thanking you for your courtesy in publishing this letter, I am,

Faithfully yours,
W. A. Gregory.

Letters from S. P. Hesmer, now at Tarpon Springs, Fla., to J. B. Smith and others, tells of a very pleasant winter there with the thermometer at 78. He went on one fishing trip with three chums and the quartette brought in 350 lbs. of fish ranging from 3 to 16 lbs. each. Not such a bad fish yarn from our dignified Judge, eh?

MORE TRUTH THAN POETRY.

"Tell me not in mournful numbers advertising is a dream, for the business man who slumbers has no chance to skim the cream. Life is real! Life is earnest! Competion's something fierce, if for dividends thou yearnest, learn the parry thurst and pierce. In the business field of battle, molly-coddles have no place; be not like dumb driven cattle, be a live one in the race. Lives of great men all remind us we must bring the bacon home, and departing leave behind us footprints on another's dome. Let us then be up and doing, otherwise we may be done; still achieving, still pursuing—advertise and get the Moon."

THE NEW YEAR.

That's the annual topic for this season, and not only that but it is really the most important topic for the whole human family that peoples this oblate spheroid.

And it is fitting that a few observations should be made upon such a world wide topic even by the small mites of editors who assemble the news of the day and do various and sundry other things common to the duties of the craft.

Someone said that "hope springs eternal in the human breast" and it is this element of hope or belief in the ultimate good for ourselves that keeps us going ahead expecting that time will cast the fruits of victory into our lap. Without this belief in the goodness of the world, we would revert to a world of preying animals, the savagery of which no man has ever seen.

Thus the New Year starts as unerringly as the planets follow their prescribed course, and just as certain as the mortality of man. Life comes and goes in endless procession, in one home the joy of a new life comes to gladden its parents and just across the way the flickering flame of another is watched until its last faint light goes out and a soul is borne to that land from which no traveler ever returns.

Yet hope assures us that though hidden by mysteries we cannot solve, there is "a land that is fairer than day" to which the weary traveler through this vale of tears is borne by unseen hands there to wait until the final plans of the great Creator have been fulfilled and we shall rise to meet Him face to face.

Throughout the great 1922 we must not forget the only great object for which the human family was placed here below. Faith or hope tells every mortal man what that is. None will deny the Supreme Architect of our fate has builded well. One look at nature in all its lovliness or a fleeting glance at the stars which shed their soft light over the firmament is enough to convince any rational being that there is a great and over-ruling plan which makes the sun rise in the East and the seasons bring forth their fruit with unerring precision. The greatest scientists of all times have never been able to breath the breath of life into the most lowly form of either plant or animal existence. Life is the one thing reserved unto Him and He alone gives and takes it in His own mysterious way which the mind of man is not expected to fathom until that day "when we shall know as we are known."

Lets all look ahead with renewed hope that everyone will try the more to live closer to the plans of Him who holds our mortal existence by a slender thread. If 1922 could see each one doing only those things which are right, honorable, just, merciful and charitable, and if each person would follow the commandments of Him who moulded mother Earth and sent us here to dwell as a fitting place where we are to be tested as to our fitness for the better world, what a year would be 1922.

But whether we shall all do that or not, we must strive to live more in harmony with the Divine plans or reap the harvest of wild oats, and such a harvest is like gall to the lips of him who sows. True we are and should be free moral agents for otherwise we would be mere mechanical toys, and as such be without a soul. We can do right or wrong but the natural laws of the world are as inflexible and unbeatable as the sun that shines. If we put our hand in the fire we will certainly be burned and thus we must choose between obeying the law and evading it. The one brings happiness and eternal life and the other sorrow and death.

We hope that the world will grow steadily better and that each person will adopt the true christian spirit as the basis for all his worldly acts. This does not mean that much talking and many promises takes the place of christian acts. It does not even mean that church relationship is always Christian activity. It does mean that following the ten commandments is the only law by which we can safely reach the other shore. The choice rests with you and to you comes the fruits of your own choice. Choose and follow your own pathway.

LAW IS PLAIN ON RIGHT OF WAY.

The following explanation and the law governing who has the right of way at roads or street intersections is plain and should leave no doubt in the minds of motorists concerning their duties and rights at such places.

There are motorists who are imbued with the idea that persons driving on north and southbound streets have the right of way over those running east and west; that automobiles driving on streets where there are street car tracks have the right over those on streets without tracks; that those approaching an intersection slightly in advance of other automobiles have the right of way; and similar erroneous ideas will be found to exist when talking to a great number of the motoring public. All these ideas, which have been brought to the minds of the motorists on account of ill-advice, should be obliterated by the enforcement of the positive obligation which our Motor Vehicle Laws place upon persons driving automobiles over intersections.

What the Law Says.

Section 37 of the Michigan Motor Vehicle Laws provides as follows:

"When vehicles approach an intersection of two or more public highways the (vehicle approaching from the right of the driver shall have the right of way): Porvided, however that in cities where there is a traffic officer stationed at any intersection of highways or where traffic on specified throughfares is granted preference by local ordinance or regulation shall take precedence over the rule last above stated."

It will be noted from the reading of this statute that the legislature intended to place a positive obligation on the part of the person approaching on intersecting street from the left. They also intended by the enactment of this statute to create a "legal right" in the other driver, assuring him that when he is placed in that position he may proceed across, knowing that the duty is placed on the driver of the vehicle to the left to slow down or stop.

HIGHLY RESPECTED CITIZEN DIES IN TIPTON.

William Pentecost, a resident of this vicinity all his life and a Tecumseh citizen several years, passed away Tuesday afternoon at the home of his nephew, Thurlow Pentecost, in Tipton, where he has made his home most of the time since his home was broken up here. He had been ill only a few days with pneumonia.

Mr. Pentecost was born 71 years ago in Franklin township, of the old Pentecost family for whom Pentecost was named. He was of a jolly disposition and a royal good friend. He is survived by one son, Chauncey of Onsted, and two daughters, Mrs. C. D. Beebe of Ann Arbor and Meriel of Jackson. Also two sisters and one brother survive, Mrs. Carrie Baker of Jackson, Mrs. Anna Pentecost of Tipton and John Pentecost of Tecumseh.

The funeral will be held Friday at 2 p. m. from the Tipton Congregational church. Rev. S. N. Oliver of Morenci officiating.

GOVE—NEWTON.

At the Baptist parsonage Saturday afternoon occurred the marriage of Miss Helen Luseba Newton and Ernest Gove. Rev. W. R. Curtis officiating. The couple were accompanied by Miss Claudine Newton, sister of the bride, and Chauncey Harrison. The bride wore a gown of blue canton crepe and her attendant black velvet.

After the ceremony the wedding party returned to the home of the bride's parents, Mr. and Mrs. Clarence Cole, on west Pottawatamie street where a fine wedding dinner was served to the immediate families. The table was decorated in pink carantions while the brides cake of pink and white carried out the dainty color.

Miss Newton was born in Onsted, coming to Tecumseh only last July with her family, while Mr. Gove, who is the son of Mr. and Mrs. Freeman Gove, always lived here. The newly-weds will for a time live with the groom's parents, west of town.

A NEW YEARS GATHERING.

Albert Vandewalker and granddaughter, Miss Veva Hardcastle entertained as New Year's guests Mr. and Mrs. Frank Pawson, Mr. and Mrs. Vivian Pawson, Kenneth and Blankford Pawson of Tipton, Mr. and Mrs. Elmer Owens and Elwood Hardcastle of Wamplers Lake, Mr. and Mrs. Earl Hardcastle and Mrs. Mary Hardcastle of Brooklyn and Mrs. Redfield.

BETTER LIGHT with LESS CURRENT

In many cases the use of DENZAR in stores and offices actually gives more light for less money, for it consumes no more current than you are now using and it is so designed that all of the light rays are utilized to the best advantage. Hence, when DENZAR is used better illumination is often obtained with fewer lighting units.

The illumination furnished by DENZAR is of the true daylight quality—free from glare and harsh shadows—and the graceful appearance of the unit itself makes DENZAR an ornament to any store or office. Descriptive booklet on request.

McCANN & BOWEN

Sale FOURTH 1/4 OFF **Sale**

The Biggest Buying Opportunity in Tecumseh's Mercantile History

In order to meet the present market conditions and carry out the policy of this store never to carry merchandise from one season to the next, we have decided to cut our already low prices for the next 16 days to an extent never before attempted by us in order to clean up and make room for new Spring goods.

A McCann & Bowen sale always has been, and always will be, an EVENT UNUSUAL. We are now taking these heavy losses to get back to normal conditions and are offering merchandise at less than manufacturers' prices.

There will be other "specials" arranged later. Come in each day and let us show you what they are.

We have always sold for strictly one price and every article will be discounted from the original marking. We will make anyone a present of $100 who finds anything in this store marked up for this sale.

This Sale Starts Friday, Jan. 6, Ends Sat, Night, Jan. 21, 1922

GOOD-BYE FOREVER---

To Every Bit of Merchandise--on Hand--Bought for the New Year

THE TIME HAS COME

You're about to read of the greatest decision the owners of this store ever made.

It is a decision without precedent—it is a decision which has taken all our courage. The newspapers have been pretty well filled up of late with adds of winter clearaways of retailers' odd lots and factory disposals of merchandise that is hard to sell.

Here is a sale that is not a winter clearaway, that is not a distribution of a bargain lot—that is not an over-lot of any factory with an over-production of unpopular styles, but a sale that is a sweeping reduction of entire stock—2 floors and stock room.

A sale that provides opportunity for thousands and thousands of customers to buy the seasonable merchandise that has been their favorite brands for years at virtually away less than the ruling market prices. A sale that includes all merchandise recognized in fashion and good sense. A sale that is almost an asset to this city. In fact it's a $40,000 sale of the very best in America. Includes our entire stock. Signed, Webster Anderson Co.,
R. W. Puffer, General Manager.

HAD FINE MEETING.

The Ridgeway Community Club held a hard times social at the Gleaners Hall last week at which over 75 were present. It was a real hard times affair judging by the costumes and Delbert Jones won the first prize for being dressed correctly while Mrs. Glenn Jones won the ladies prize for the same reason.

At this meeting it was decided to put up and maintain lights on the streets at their own expense and the money is all raised for putting up the lights, thanks to some assistance from Tecumseh and Britton.

Dr. Rumley of Britton spoke at this meeting and he was greatly appreciated. The Club now has a membership of 63 families which is an extraordinary good showing and they certainly are doing things for Ridgeway. Its a mighty fine movement and will put our sister town on the map very quickly. Let the good work go on and keep up the community spirit.

THE NEW MINISTER.

A house full of people enjoyed the play given at the Baptist Church last Friday evening by twenty-eight young people. As the title suggests "The New Minister" is a church play, bringing out the many peculiar things that develop in church life. The Virtues were emphasized while the faults were mentioned in satire. A great deal of good acting was done by the young people. The play was full of wit and humor.

As a preliminary, a reading was given by the Pastor Curtis entitled "Sockery Kodacut's Kat." The impersonator was transformed so that he was "Not very pig oop and down, but pretty pig all the way roun in re middle." When called back he rendered "How Sockery set a hen." Each of the productions were applauded. The play started with the choir assembled for practice.

The music committee was a myrth making outfit. The Ladies Aid society came in for their share of the responsibility. While the "Old maid's club" were "Sorry to say that they were still single." Uncle Alec the sexton tried to please everybody and failed, but "told the bell." Mrs. Gusta Wind, "who wouldn't listen to gossip," and the college student, Ralph Bunter played their part to much credit. Daisy Lovejoy won her way into the hearts of all while the New Minister made us think he had missed his calling. Many have asked that the play be repeated at some future date. It is planned to give it at some of the neighboring towns.

Capt. and Mrs. Frank Williams were hosts at a New Years dinner when Mr. and Mrs. John Harwood and their children and Miss Florence Sherrard of North Rome were their guests.

MASONS AND EASTERN STARS ATTEND BAPTIST CHURCH.

About one hundred members of the Masonic and Eastern Star orders attended the Baptist church Sunday evening in response to an invitation from Rev. W. R. Curtis. He preached a short sermon from the text, "Know ye not that ye are the temple of God." He likened the work of "building the temple" to that of character building, asserting that these organizations have to do with the making of the world soul. Love is the great factor in the world, we being bound together by bonds of love like a string of pearls. "I touch you in brotherhood, I find God." The spirit of the world today is Greed. It is not wealth which brings joy but it is found in love, in brotherhood.

Afterward the crowd were shown a five-reel picture entitled, "Greed."

Taxes In Michigan Top Other States

Cleveland-Cliffs Mining Co. Official Presents Comparative Figures; Says State's Expenditures Should Be Reduced, Not New Ways Devised For Raising Money.

The following letter was handed to us by P. W. A. Fitzsimmons of Detroit and is such a clear explanation of the tax situation in Michigan that we herewith publish it for the benefit of our readers. There is no more vital question to the people of this state right now than taxes and it has become so serious that unless a positive and adequate retrenchment is made at once in extravagant expenditures, Michigan is going to experience some mighty bad times.

"An illuminating review of the tax situation in this state has been prepared by Murray M. Duncan, vice president of the Cleveland-Cliffs Mining Company, one of Michigan's most public spirited corporations. It has been submitted to the Michigan Legislative Tax Commission. The showing that while *Michigan direct taxes* have increased from $7,220,331 in 1916 to the huge total of $17,378,028 in 1920, in the same period Wisconsin's taxes have increased only from $4,579,758 to $7,555,371, and Minnesota's from $5,943,940 to $9,751,000, is startling.

What Mr. Duncan Says.

Mr. Duncan's letter to the commission follows:

"As your committee has requested taxpayers to express their views, I desire to call your attention to what, in my opinion, is the subject of greatest practical importance at this time, viz: The enormous increase in public expenditures and the imperative necessity of reducing them. This subject already has been vigor-

THE MONDAY CLUB.

The Monday Club met in regular session on Monday afternoon, with the president, Mrs. Turner presiding. The business meeting was dispensed with and Mrs. S. W. Boyce acted as leader for the program.

This being a southern program, the music was confined to the negro melodies and the following charming numbers were given with Mrs. F. B. Wood accompanying: "Go Down Moses," Mrs. Billings; a negro spiritual "Didn't It Rain," Mrs. R. S. Moore; and two old-fashioned songs, "Mammy's Lullaby" and "My Little Sunbeam," Mrs. Charles Jones.

Mrs. J. J. Orr gave a splendid paper on the subject "From Baltimore to New Orleans over the land of the sky" including in her paper a description also of Asheville, N. C. and Mobile, Alabama. "Through Kentucky and the Blue Grass Region," was given by Mrs. E. T. Armstrong with stereopticon views of both papers.

Community singing was led by Mrs. R. S. Moore and a number of southern songs were enjoyed.

Owing to the fact that Mr. P. W. A. Fitzsimmons will be unable to be present Monday to give his address as announced, the program for January twenty-third will be given this coming Monday with Mrs. H. E. Mitchell leader, and two papers, "A Trip Down the St. Lawrence," Mrs. Herbert Temple; "Highways and Byways of the Southwest," Mrs. Guy Pocklington.

COMMERCE CLUB BANQUET.

The next meeting of the Commerce Club will be held at the high school on Tuesday evening, Jan. 17 at six thirty. Hon. Burton L. Hart of Adrian will be the speaker of the evening and this should insure a splendid attendance as Judge Hart is always worth hearing and is one of Lenawee County's foremost sons.

This will also be the annual meeting and election of officers. Come out and enjoy the evening. The usual dinner will be served at the regular price.

A GREAT BROTHERHOOD MEETING.

The Brotherhood of the Presbyterian church held the biggest meeting of the season at the home of S. W. Boyce on Monday evening. The attendance has been steadily growing, and the prospect is that it will go far beyond its present record. The spacious rooms in the Boyce home were filled to overflowing. After a short business session the pastor introduced a speaker whom he had secured in Adrian, Dr. Walker. Mr. Walker is a Presbyterian minister who has held prominent pulpits in Liverpool and London. Having suffered a nervous collapse, he gave up his pastrate. Since coming to this country he has been engaged in historical research work in Detroit. He is giving some time to the Near East Relief work. This was his mission in Adrian. In his address to the Brotherhood, he gave many illuminating facts in regard to Turkey and Armenia. In answer to questions, he explained why the civilized governments have failed to put an end to Turkish atrocities and why American government refused to accept the mandate for the Near East. Fear of a Mohammedan uprising and political prejudices were assigned as the reasons for the failures.

The success of the campaign for funds to establish the club room was made certain by subscriptions received at this meeting.

After the singing of favorite songs, refreshments and contests the men took their departure for home. It was truly marvelous how many terms of love the men were able to express in the names of flowers. Everyone declared that it was a very successful meeting.

CELEBRATED WEDDING ANNIVERSARY.

On Sunday Mr. and Mrs. Nathan Dibble were married just forty [illegible] evening forty of their friends from their old neighborhood in South Saline gave them a real surprise visit. Through their daughter, Mrs. Willard Hall, of Saline word had come that an uncle and aunt would come Saturday night for a Sunday visit so Mr. Nathan stayed at home to receive them but Mrs. Dibble went to the medicine show as she held many coupons on the prizes to be distributed. Her surprise was complete upon arriving home to fine her husband entertaining so many guests.

The company first enjoyed a great pot luck feed and with music and cards the evening passed too quickly.

BASKET BALL SEASON OPENS.

Local Girls Win Over Chelsea. Our Boys Defeated By Grass Lake. Close With A Dance At The K. of P. Hall.

A great crowd attended the opening games of the basket ball season at the high school "gym" Friday night when the out of town teams were the Chelsea girls and Grass Lake boys. Both teams were of unusual interest to Tecumseh, the girls being the first team Mrs. Glen Tansley had coached and the Grass Lake boys being this year coached by C. W. Price, our principal of last year.

The girls game ended in our teams favor 30 to 13 with Ruth Collins of the U. of M. the efficient referee.

In the boys game our local captain, Sam Sisson, could not play as he had a weak wrist. The boys were otherwise handicapped so lost to Grass Lake 14 to 9. The referee in this last game was Ridge of Adrian. Many subs were used on both local teams.

A great crowd of rooters drove over from Chelsea, surprising that girls team most pleasingly.

After the game the guests and most of the home high school, chaperoned by several teachers, went to the K. of P. hall for a dancing party.

The Onsted News Faces Suspension

Excellent Paper In Splendid Village Is About To Suspend On Account Of Lack Of Patronage. Editor Says He Cannot Cont'nue Much Longer Under Present Conditions.

It is with sincere regret that we learn that Editor Alderfer of the Onsted News is about to suspend that paper on account of lack of patronage. We have not always agreed with what the Editor of that paper said, but we do agree that it will be a terrific blow to the village of Onsted to have the paper quit.

Many villages do not fully appreciate what a good newspaper means to the town, and often merchants and others fail to properly support this most important part of their community life. This lack of support comes from various causes. In some cases there is a clique or gang headed by someone who desires to control the policy of the paper for selfish reasons either to further his own financial political or social standing *and* failing to do so throws his whole weight into embarrassing the local paper not thinking or caring how much injury he does to his community. Such an individual is a full fledged "town knocker" in every sense of the word. Sometimes the merchants fail to grasp the importance of effective advertising or spend their money for publicity in some "wild cat" scheme neglecting to use the best possible means to increase their home paper.

Oft times the merchants and others fail to say a good word for their local paper and never try to gain a new subscriber for him but speak lightly or even disparagingly of it, little realizing how surely they are knocking their own interests.

No town is better than its newspaper. It is the publicity end of the whole business and whenever it suffers, the whole business interests as well as the social and educational forces suffer likewise.

No newspaper editor ever pleased everyone, and no self respecting editor ever tried to do the impossible, neither will [illegible] some small bore politician or some "rule or ruin" individual to use

NEW HYDRO PLANT [illegible]

The new Hydro Electric Power Plant, located on the Raisin River at the Wm. Hayden water power site, after a week's operation, has proven satisfactory to the owner and also the Tecumseh Electric Company, who have a lease on the entire water power.

The novel feature of this new power plant is that it is controlled from the Tecumseh Electric Company's main plant, a mile up the Raisin River. This plant can be started and brought in synchronism with the generators at the main plant, or stopped by the engineer at the main plant.

The generator is a 250 kw capacity, built by the General Electric Company, and the Automatic Control is also of General Electric design, and another new feature in General Electrical engineering.

The water wheel was built by the James Liffel Company, who designed the flume and penstock and installed the wheel and governor. The generator and automatic switch board were erected by G. H. Church, Chief Engineer and Manager of the Tecumseh Electric Company.

The erection of the plant was under the supervision of Perry Satterthwaite, manager of the Wm. Hayden Milling Company, and George Wilson, mill-right for the company.

The Tecumseh Electric Company have at their main plant over 1000 kw capacity in water power and steam, and the new plant will add about 25% to their capacity.

The Tecumseh Electric Company has purchased the Quaker Mill Power of Mr. Pliny Gratz. This power, when developed, will give another additional 250 or 300 kw. capacity.

FROM THE WARINGS NOW IN OMAHA.

In a letter from H. S. Waring, now in Omaha, he tells of their excellent mail service. It took Mr. and Mrs. Waring 26 hours to reach Omaha from Tecumseh, but letters take 3 days and the Herald is mighty quick to get there from 5 days to a week.

To quote Mr. Waring, "We are having a wonderful time and find a very nice city at Omaha, people are, we think, much mor efriendly than in some of the eastern cities we have visited........Will be away from home till last week in January, as our present plans are framed up. Be good and keep on trying to renovate the old town. You're the only man that has had the nerve to peep out loud in years for a clean-up."

SEBASTIAN MINKLE BURIED IN MANCHESTER SATURDAY.

The funeral services in memory of Sebastian Minkle were held Saturday from his late home on West Pottawatamie street. Rev. Escolme conducted the services and the burial took place at Manchester. The bearers were brothers from the Woodmen order. Present from out of town were Oscar Underkircher, Fred and Dr. Walter Briegel of Detroit, Mr. and Mrs. August Bode of Toledo, Mrs. Frank Higgins and family, J. J. Briegel, Mr. and Mrs. Will Fry, the Misses Lillah and Mildred Kern of Manchester, Miss Mabel and Raymond Rudesiler of Clinton.

Sebastian Minkle was born in Baden, Germany, June 19, 1861. He came to America some 30 years ago and until five years ago was in the employment of the N. Y. C. Ry. Since then he has worked for the D. T. & I. Twenty years ago he married Phoebe Bauer at Manchester, bringing his wife to Tecumseh to live in the house which has since been their home.

This last fall he was given a job at Trenton but soon became ill and returned home. He grew gradually worse until death came last Wednesday night. He is survived by the faithful helpmate.

Mr. Minkle was both a Woodman and Forester. He was a true friend, an honest man and the community sympathizes with the widow in her great sorrow.

Card of Thanks.

Appreciating keenly the kindness of our neighbors and friends during the long illness of Mr. Minkle, I wish to thank them through the Herald, also for the many flowers and Rev. Escolme for his words of sympathy.

MISS HAND WILL ASSIST IN STARTING SOUTHERN SCHOOL.

The Berean Circle of the Baptist church met Monday evening with Mrs. J. K. Waldron. Mrs. Ira Ashley gave a splendid paper on "Self Denial," followed by a general discussion. Miss Holly Hand, recently from the Oneida Institute, Kentucky, read a story which she verified as a true description of the life of the mountaineer.

Miss Hand, with several co-workers of the Institute, have taken land further south in the mountains which they propose to homestead and make the campus for another such institution.

CLINTON

CLINTON CULTURE CLUB HOLDS INTERESTING MEETING.

Clinton, Jan. 9, 1922. The last meeting of the Culture Club was unique in character and results. It was known as "Gentlemen's Night." The ladies provided a bountiful supper to which their husbands were invited. Other guests were present also, about one hundred and forty were served. Mrs. M. Wallace catered and a group of high school girls assisted in the dining room. Mrs. Addie Halladay, president of the club introduced Mrs. Eva Rawson, toastmaster for the ocassion, she called upon Mr. W. S. Kimball, who responded to the toast, "A Community House." He showed clearly that the best interests of Clinton citizens would be served if such a building could be secured. He promised his help if the project were launched. Rev. G. R. Millard's topic was "Side-lights on a Community House." Altho a resident here for only a short time Mr. Millard has proved himself a booster for the best for Clinton. Mr. H. H. Halladay of Lansing took for his subject "Animal Industries." He outlined the work in which he is interested in Lansing. His remarks were very well received not only for the sake of the work itself but because a former Clinton boy has it in charge.

The ladies chorus of the club furnished some very fine music.

The company was representative of Clinton and vicinity both as to what has been accomplished in the past that has been worth doing and as to plans and ambitions for the future..

ONSTED NEWS FACES SUSPENSION.

(Continued from Page One)

their paper to further his own selfish interests either financially, politically or socially. The editor worth while will do all in his power to boost the whole community impartially, he will stand for right and for exact justice without fear or favor. He will hold up the hands of everyone trying to advance the best interests of the community and will if necessary put the spot light of publicity upon every unworthy act, public or private, if it does hurt the pet schemes of those who seek to defraud the public or use an office to which they have been elected by the people to boost their own greedy interests to the damage of the public.

We are indeed very sorry to learn of the proposed demise of so good a paper as the Onsted News and the following very able article from Editor Perry of the Telegram who has been through the whole game is so timely and so full of sound logical truth that we print it herewith in part that every Tecumsehite may know what others think of neglecting to support the local paper.

VILLAGE PAPERS

When Editor Alderfer of the Onsted News appealed last week to his community to save The News from suspension, he broached a subject that is much bigger than his personal interest in the paper. His stake in the affair is comparatively small, because he is only one man in the village and his business in only one of many. But the community's stake is large, because his business is a community asset.

It is somewhat depressing to see as good a village paper as The News, published in as live and prosperous a town as Onsted, facing death by starvation; yet that is the situation, as the publisher explains clearly. Nothing but an increase in patronage, he says, can save him from the necessity of suspending publication within a few months and removing to some other field. It is a frank confession, made without bitterness. It is in no sense an humiliating confession; it is simply a plain statement of facts, and one that raises an important question for that community and for all small villages where similar conditions exist.

A good newspaper is a valuable asset for any town. No enterprise or institution is more important, either for the business interests or for the civic spirit and civic activities of the community. This is generally recognized, and it is true of all towns from the largest to the smallest.

But in the small village the case is different, because the community often wants and needs a better paper than the normal and natural amount of patronage will support. In such a case the community must do a little more than it naturally and normally would do for its home paper, if it wants the benefits of such a paper. People must go out of their way a little, both to subscribe for it and to advertise in it. Call it cooperation, subsidy, community spirit, or what you will; but whatever it is, it is the price of having a local paper when the natural and normal patronage falls short.

We hope such support will develop, not only in Onsted but in all other villages where local papers may be up against similar obstacles. The expense of running newspapers is still very high—almost at the peak yet, in spite of easier prices on paper, because all costs other than paper are as high as ever and some of them even higher. For the larger papers this means reduced profits, perhaps very much reduced; but for many small weeklies it means a real crisis.

If the village paper is an asset worth preserving, then every small community ought to patronize its home paper with extra liberality during these lean years, enough to tide the publishers over until times are easier for the newspaper business. It is one of the most effective ways of preserving and of promoting local civic spirit, and in such matters ground once lost is hard to regain.

There are true friends of Irish freedom and then also there are friends of a free fight.—New York Morning Telegraph.

Taxes in Mich. top other states

(Continued from Page One)

ously commented upon by Governor Groesbeck and is, I know, receiving his careful consideration, but his efforts should have the backing of strong public opinion. The conditions to which I refer arose prior to his administration.

"While it is well known that public expenditures have increased rapidly in recent years, I do not believe it is generally known that the cost of State Government in Michigan, which has always been high, has increased much more rapidly than in adjoining states.

Gives Comparative Figures.

"I have taken for comparison Michigan, Wisconsin and Minnesota, all of which are located in the Great Lakes district, and are states in which the mining industry is largely developed. The figures given below were obtained either from reports published by the tax commissions of these states, or else directly from their offices. The five years covered represent, of course, the period of great increases in all costs, but these conditions applied equally to all the states. The figures cover all tax raised for state purposes by direct assessment as distinguished from special taxes derived from railroads and other sources.

"In some states there were other sources of income, as for example, the income derived by Minnesota from iron ore royalities, and Wisconsin had an income tax law. However, these figures will serve as an approximate basis for comparison.

	1916	1920
Michigan	$7,220,331	$17,878,023
Wisconsin	4,579,758	7,755,371
Minnesota	5,943,940	9,751,000

Paid Bonus by Taxation.

"In addition to these taxes, Wisconsin raised by direct levy approximately $7,000,000 to pay the soldier's bonus. Michigan, on the other hand, was compelled to issue bonds to pay its soldier's bonus. Furthermore, Michigan now has a corporation franchise fee law. In explanation of the large State taxes in Minnesota for 1919, I am advised that the total above given includes the payment of the soldiers' bonus and large amounts for fire relief and other special purposes.

"I cannot find accurate figures for comparing the property valuation of these states, but the following will give a rough idea of the situation: In 1920 the equalized valuation of Michigan was $4,500,000,000 which was considerable less than its total assessed valuation; in Wisconsin the total assessed valuation was $4,570,698,530; in Minnesota the full property value was placed at $6,201,541,397 but under its method of assessing at partial value the assessed valuation was placed at $2,552,066,737.

Michigan Spends More.

"Allowing for all differences in circumstances, it is clearly apparent that Michigan has outstripped its neighbors not only in the high cost of State Government, but in the rapid and, I believe, wholly unwarranted increase of its State expenditures. This situation not only places a heavy burden of taxation on business interests in Michigan, but tends to penalize them in comparison with their competitors in adjoining states.

"I do not comment on the increase in local taxes. That is a matter which each locality must deal with for itself, but extravagance in state expenditures affect all taxpayers alike.

"In these difficult times, when all industry is struggling to revive from unprecedented depression, and business operation, even on a small scale, can only be conducted by the exercise of rigid economy and often by financial sacrifice in order to give employment, the great service which your committee can render the State consists, it seems to me, not so much in looking for new means of raising money, but rather in presenting, in the most forceful and convincing way possible, the great necessity for expending less money in state affairs."

STATE TO PAY TWICE FOR ROADS.

Interest on Bonds Running 20 Years to Double Cost, is Claim.

The $50,000,000 worth of roads to be built by the state in the five-year program authorized by the legislature, will cost the people of the state about $100,000,000.

The reason is found in the fact that highway construction work is largely financed by bond issues. A majority of the highway bonds mature in 20 years and most of them bear interest at a rate around 5 per cent. If the bonds run their full term the interest will have cost as much as the original expenditure for highways.

The only solution to the problem of paying twice for road work is to devise some scheme whereby money for the highway department can be raised, from the regular revenue raising sources of the state, in advance. If this could be done the interest item would be eliminated and the highways would stand as costing just the amount expended for their construction.

The $50,000,000 program authorized by the legislature limits the issuance of bonds to $10,000,000 a year. Seventeen million and fifty thousand dollars worth of highway bonds are now outstanding. The highway department has planned a $13,000,000 program for 1922, of which the state will bear about $10,000,000 and the counties and the government the rest.

Whether or not the state is getting its money's worth out of its highways, under the system which now governs their construction, is a topic that is coming in for more and more discussion. A recent convention of farmers had that topic listed as one of the principal ones on its program. Other organizations have recently discussed the highway system and have written in asking for information concerning the state's activities in highway work.

RURAL-CARRIER EXAMINATION.

The United States Civil Service Commission has announced an examination for the County of Lenawee, Mich., to be held at Adrian, Hudson and Tecumseh on January 28, 1922 to fill the position of rural carrier at Tipton and vacancies that may later occur on rural routes from other post offices in the above-mentioned county. The salary of a rural carrier on a standard daily wagon route of 24 miles is $1,800 per annum, with an additional $30 per mile per annum for each mile or major fraction thereof in access of 24 miles. The salary on motor routes ranges from $2,450 to $2,600 per annum, according to length. Separate examinations for motor routes and wagon routes are no longer held. Appointments to both positions will be made from the same register. The examination will be open only to citizens who are actually domiciled in the territory of a post office in the county and who meet the other requirements set forth in Form 1977.

The fire department were called to the home of A. H. Allison on North Pearl street yesterday where the fire was found in the siding on the back of thehouse. It seems Mr. Allison had hung his sweater in the stairway which is on the east side of the dining room and in the pocket was his pipe in which must have been lighted tobacco. The fire worked into the garment then into the plaster and through to the siding. It was only the work of a few minutes to cut a hole for the chemical to do its work. The loss is small both for the tenants and the owner, Mrs. P. C. Snell.

ISN'T IT THE TRUTH?

The following article handed us by S. W. Cadmus and which was sent to him by a friend who clipped it from an exchange is mighty pat when it comes to making a word picture of just how the finances of the farm operate. Cut it out and paste it in your hat for future reference.

Mysteries of Finance

With one 200-pound hog I can buy a pair of glasses.

With 27 bushels of wheat I can buy a spring drag.

With 737 bushels of rye I can buy a power sprayer.

With 11 sheep I can buy one of the sheep back from the butcher.

With 13 bushels of potatoes I can buy my wife a dress.

With one ton of alfalfa hay I can get the dress made.

With one bushel apples I can buy my friend in Chicago fifteen pounds of the same apples.

With 4¼ pounds of wool I can buy one pair of wool socks.

With two tons clover hay I can buy one ton coal.

With 68 lambs I can buy a manure spreader.

With the corn from one shock I can hire a man to husk two.

With the total live stock and crops of this farm I could be sick and have a nurse and doctor every day for thirteen and a half days.

With a large crib of corn I could pay the veterinary for eighteen visits.

With a car load of sheep I can have two of the children fitted with glasses and pay one-third of my taxes.

With 734 sheep pelts I could buy a mower.

With the corn from twenty-one acres I could buy a fertilizer drill and with good credit I could borrow the money to buy the fertilizer to raise another corn crop.

With the crop from five and a half acres of potatoes and my note for $97 I could pay a reasonable price for all the seed and labor on the potatoes.

If I could sell 100 head of poultry, 100 head sheep, 100 bushels wheat, 100 bushels rye, 100 bushels oats, 100 bushels corn, 6 colts and 5 cows I could purchase an electric lighting plant.

All crops raised on this farm this year if sold now would pay the local teacher forty-seven days.

STATE'S FUNDS ARE DEPLETED

Interest and U. of M. Mill Tax Drain Treasury; Won't Look to Wayne for Aid.

Lansing, Mich., Dec. 29.—The state treasury is practically empty, according to O. B. Fuller, auditor-general, and the government of Michigan probably will experience unusual financial difficulties during the first two weeks of 1922, because it does not feel that Wayne county can be called upon to make its usual advance tax payment.

Although the counties are not required to make tax payments to the state until January 15 each year, it has been customary to call upon Wayne to make payments before this date, to tide the state over the first two weeks of the year. The Wayne officials always have responded.

Fears Many Delinquents.

This year, however, owing to the difficulties that have arisen between the county and the state with regard to Wayne's share of the state tax, Mr. Fuller does not feel that the state is in a position to ask favors of officials at Detroit. It is understood, also, that tax payments in Wayne have not been as prompt as usual and that the county might not be able to make advance payments even if it were so disposed.

Mr. Fuller says that reports indicate that the delinquent tax this year will be greater than ever before in the history of the state. In his opinion it may amount to a sufficient percentage of the total tax so that the state and the counties will experience difficulty making the amounts actually paid meet appropriation needs.

U. of M. Fund Empties Strongbox.

The state treasury, at least the general fund from which most state expenses are paid, has been empty in November or early December during each recent year. This year, however, there will be approximately $1,500,000 in it January 1, although there will be upwards of $3,000,000 of bills due and awaiting payment that will have to be delayed some time. The $1,700,000 in the general fund tonight belongs wholly to the industrial fund of the prisons, a new fund created by the 1921 legislature, but it is available for other uses so long as the prisons do not need it.

The increase in the mill tax allowance to the university, amounting to $1,312, 500 over last year, is responsible to a large degree for the present condition of the treasury.

$2,000,000 Just Paid Out.

The increase results from the change made in the rate by the 1921 legislature and the increase in the valuation of the state made by the state board of equalization. Although the increased tax is not collected until the end of the year and the beginning of the next, the supreme court has held that the university has a right to it from the year in which the equalization is made.

The state is now paying $1,400 interest a day on highway, soldier bonus and war loan bonds, Mr. Fuller points out, and this has had a large effect in depleting the treasury which would otherwise have been in the best condition of the past few years. Approximately $2,000,000 has been paid out today and yesterday in interest and to the university.—Free Press.

OBITUARY.

Florida Marjorie, infant daughter of Opal and Ernest Burdett, of Detroit, came into their home on the 12th of last March. She had not spent a single day in sickness, until on the 1st day of October, she became seriously ill with infantile paralysis. Since then her little smiles have beamed forth from her little bed in such abundance that all who saw her could not but feel that she was a sunbeam given, as it seems, to this earth for but a short time.

She departed her little life on the morning after New Years, having enjoyed the holidays to the extent that one could hardly believe possible. The fact that her little body was slowly but steadily improving, had caused the greatest of cheer in the hearts of all.

The tender memories of this darling little one, cherished as they shall always be, will ever be among the richest of blessings that Heaven could ever give.

The little one was thegranddaughter of Eugene Burdette of Tecumseh.

OBITUARY.

John Henry Bachman was born of German parentage in Hanover, Germany on Oct. 10, 1830 and departed this life Jan. 3, 1922 at the ripe old age of 91 years, 2 months and twenty-three days. His death followed a stroke of apoplexy which he had the Thursday previous.

When fourteen years old he came to this country with his parents, four brothers and four sisters who have long since passed away. The family settled in Mercer Co., Penn. where he lived for about twelve years.

Soon after his marriage on Oct. 10, 1854 to Miss Margaret Miller he came to Michigan and settled in Macon township where their family of eleven children were reared and where they spent so many happy days. Twenty three years ago he moved here and two years later his companion was called to her long home. Since that time he has made his home with his daughter Caroline.

Of the eleven children he is survived by six sons, Henry Bachman of this place, George Bachman of Toledo, Edward and Michael Bachman of Adrian, John Bachman of California, Louis Bachman of Monroe and two daughters, Mrs. Hannah Daykin and Miss Caroline. Three daughters, Mina Schmeder, Mary L. and Christina Bachman passed away several years ago. He is also survived by nineteen grandchildren and twenty-three great grand-children, several near relatives and hosts of friends who will miss the smiling face and cheerful word of "Grandpa Bachman" as he was familiarly called.

When very young he gave his heart to his Master Jesus Christ and throughout his entire life did all he could in all the ways he could to emulate the teaching of the Divine Master.

He was the last of twelve who sixty one years ago founded the German Lutheran church on the Ridge, and took an active part in the work of that church. The result of his work can to a certain extent be seen when one takes into consideration the church and the church home that has been established there.

Truly his name is recorded with much honor in the Heavenly Record. Politically he was a staunch Democrat and held many offices of trust, being for a couple of terms President of the village.

The funeral services were held Friday morning at ten o'clock at the home and at ten thirty at the Lutheran Church with the Pastor Rev. Fred Schwede, officiating. The remains were laid to rest in Lake Ridge cemetery by the side of his companion. The pall bearers were the five sons, Henry, George, Edward, Michael, Louis and the son-in-law, Edgar Daykin.

Those from away atending the funeral services were: Mr. and Mrs. E. A. Bachman, Mr. and Mrs. Michael Bachman of Adrian, Mr. and Mrs. George Bachman of Toledo, Ed. Schmeder and family, Walter Schmeder and Rev. Hahn of Detroit, Mrs. Carrie Reudel, George Miller and Miss Mary Miller of Milan, Miss Lena Miller of Saline, Mrs. Grace Bachman of Dundee, Louis Bachman and daughters Illah and Margaret of Monroe.

NEW HYDRO PLANT IS WORKING FINE.

Planned And Designed By Perry Satterthwaite, It Has Many New Features Which Are Proving Of Interest To Noted Engineers. Will Give Immense Power At Small Cost.

Tecumseh certainly has one of the finest water power plants along the Raisin River and due to the splendid ability of one of our sons, Perry Satterthwaite, we now have one of the best and latest pattern hydro-electric plants to be found in the state.

The new plant is situated at the east end of the city and affords ample power for lighting and power purposes and is so constructed as to be easily operated from distant points. The following article appeared in the Jackson Citizen-Patriot.

At the close of its first week of operation, the new hydro-electric power plant at the Globe Mill pond has proven itself entirely satisfactory in every way.

This plant which has been under construction for some time, started operation Saturday evening, Dec. 31, with a capacity of 325 horsepower. It was planned and designed by Perry Satterthwaite, present manager of the William Hayden Milling Company. Mr. Satterthwaite is a Tecumseh boy, a son of J. N. Satterthwaite, a graduate of the Tecumseh High School and of the U. of M. in the college of engineering.

The plant is owned by the William Hayden Milling Company and the current is sold to the Tecumseh Electric Company, who use it in connection with their own electric plant to furnish power and light for the villages of Britton, Deerfield, Holloway, Petersburg and Ridgeway, as well as Tecumseh and 40 miles of rural district.

Several unique features are included in the new plant, one of which is the automatic control which will bring the machinery to a full stop instantly at any time. The machinery is controlled by switches at the Tecumseh Electric Company plant, one mile distant. Several prominent electrical engineering experts, attracted by the novel features of the plant, among them L. N. Beoford, of Detroit, and F. E. Place and R. B. Purington of Chicago, have been in Tecumseh studying the installation of the control features.

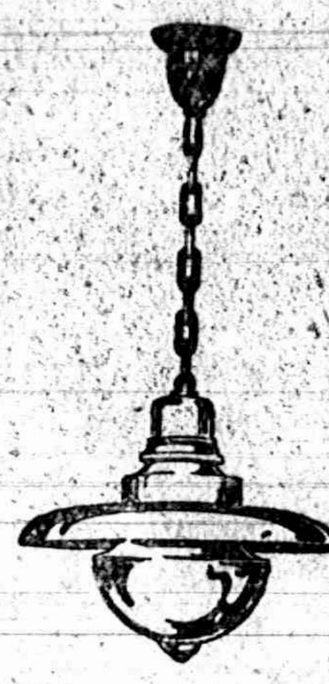
DENZAR



You will see this light—DENZAR—wherever you go in stores, offices, banks, schools, churches, hotels—wherever, in short, good light is needed.

You can recognize it by its graceful appearance, by its dust-proof construction (a closed glass globe instead of a dust-catching open bowl), by its milk-white enameled glassware, and by the soft, evenly distributed light it gives—an illumination possessing the true daylight quality, free from blinding glare and harsh shadows.

The DENZAR illustrated is only one of several types and sizes. We carry the complete line in stock and need only know the size of space to be illuminated and height of ceiling in order to give you a lighting plan that will exactly suit your requirement.

Let us have these particulars and we will gladly show you how little good light really costs.

Giant's Wit Makes Hit

"There are more poor fish on land than in the water." No this is not one of Abe Lincoln's axioms, but original with the Boy you can see standing in front of Ridgeway Garage any day or night.

The editor who interviewed this boy was surprised to find him a veritable dynamo of knowledge. His sayings on the topics of the day were as peppery and humorous as his smiling rosy cheeked face.

Here's some new ones unearthed on new styles,—"Short dresses are many a girl's long suit." "With shocking styles many are willing to be shock absorbers" and "Short skirts are great for getting up stairs."

Prohibition has already celebrated its second anniversary, but even so, some are always ready to listen to a discussion on this subject. Here's the way this clever boy sizes up the prohibition question—"Some have a little still, others still have a little." "It doesn't take moonshine to make the son seem brighter." "Raisins, yeast, sugar, water, trouble." "An optimist is one who carries a cork screw."

The National Refining Company, Cleveland, Ohio, sponsor for this boy, sent him to E. C. BARNES' Garage to help sell EN-AR-CO MOTOR OIL, [illegible]

Few people realize it but statistics show that most repairs to a motor are due to faulty lubrication—the faulty lubrication being caused by poor oil. En-ar-co Motor Oil eliminates unnecessary repair bills and gives your motor capacity for more and harder work. The boy is here, not only to amuse but to educate. Come and visit him. You can count on a friendly greeting that will make you smile. His name is En-ar-co.

Stork Leaves Monster Boy

It's a boy! His weight is a mystery. But he is six feet two inches high. His father lives in Cleveland, Ohio and is employed by The National Refining Company. The boy has been christened "En-ar-co."
He is the most remarkable boy you ever saw. Smiles continually. Wonderful eyes! Eminent physicians are at a loss to understand why he never sleeps.
He not only knows the A B C's but can put the alphabet together into such witty sayingsas—

"Dad makes up his mind to stay home and Ma makes up her face to go out."

"The future of the shimmy is shaky."

"Don't lose your temper if you would hold your edge."

"Many a car is driven from the back seat."

"Prohibition agents find too much 'whisk' in whiskey."

We can't tell here all the clever things this remarkable boy said. It would not be fair, anyway. We will tell you this much. This boy is employed at Ridgeway Garage and is here to help them sell EN-AR-CO MOTOR OIL, the Scientific Refined Oil.
The use of EN-AR-CO MOTOR OIL will keep your engine remarkably free from engine trouble, repair costs and other similiar annoyances. It will make your motor run sweetly and prolong the motor's life.

HOW ABOUT CHICAGO STREET BOULEVARD?

The question of "boulevarding" Chicago street is being discussed about town. Some think that instead of the contracted 20 ft. wide cement road, to build 12 feet on each side with a parked strip through the center, making the roadside two feet less than it now stands. The question is to be discussed when the road contractor meets with the street committee.

GRATZ GRAIN & MILLING CO. BUILDING NEW PLANT

The concrete foundation is being laid for the new mill to be erected on South Pearl street by the Gratz Grain & Milling Co. George Kempf is contractor and this beautiful weather has helped things right along.

The building will be 32 x 56, three stories and basement, of steel, with the outer surface ironclad. It will join the elevator on the Pearl street side.

Since the water power at the Quaker pond has been sold to the Electric Co., the old mill will be demolished and the timbers used in the building of the new mill. Electric power will be used, it being planned to later generate their own power from the steam power which they will have to use anyway.

Mr. Gratz will follow his old line of the manufacture of white flour, whole wheat, rye and graham, utilizing much of the best of the machinery of the old mill.

The building of this big mill is a good forecast of the business to open with the spring and much interest is manifested in Mr. Gratz' venture.

The Just-a-Mere Club were the guests of Mrs. E. T. Rosacrans Thursday evening, Mrs. D. C. Heesen of Carrolton, Ill., being present from out of town. Refreshments followed the usual games. Mrs. Paul Hunt will entertain the club at their next meeting.

A BIG CAMPAIGN IS LAUNCHED TO PUT HERALD OVER 2,000 MARK

OLD AND NEW SUBSCRIBERS TO REAP BENEFIT OF BIG OFFER OF LENAWEE COUNTY'S BEST WEEKLY PAPER. FRIENDS OF THE HERALD TO HELP PUT IT OVER 2,000 MARK.

Established 73 Years, Herald Is Best Weekly Paper In The County. A Fearless Advocate Of The Rights And Interests Of The Common People And Against Public Waste And Extravagance. The Herald Commands Respect Of Every Tax Payer In The County. Big Special Bargain Open Until Saturday, February 4th.

The Herald is going over the 2,000 mark with its subscription list.

And as an incentive to gain the new subscribers necessary to do this and in fairness to its big list of loyal old subscribers, we have decided to give the people the GREATEST SPECIAL BARGAIN ever offered by any reputable newspaper in many years, but for a limited time only.

We are going to do this for three reasons. First, we are suddenly notified of a slight reduction in the price of print paper which though very small, nevertheless is sufficient to reduce the production cost of the paper very slightly. Second, we have the assistance of a large number of friends of the Herald who want Tecumseh represented by the biggest and best weekly paper in the county. Third, everyone and especially the farmers are very hard hit by falling prices and high operating expenses and we are going to stand for a part of the common hardship of all.

The Herald has always been an ardent booster for the best interests of the community, and we are very glad to say, that this community richly deserves all the boosting we can do, as it is in fact one of the best on earth. And right now of all times, every town needs all the assistance it can command to promote its growth and prosperity.

The Herald is one of the best and cleanest family newspapers published anywhere, and it puts more than twice the expense into its news department than any other weekly in the county. It is independent, newsy, conservative, and absolutely fearless in standing squarely for the best interests of the common people as against special favors to the few who desire to use newspapers as well as other means for the sole purpose of advancing their own private interests. The Herald has always done its part in helping along every worthy cause but refuses to be the special agent of any political organization, selfish interest, sect or creed. We believe thoroughly that peace and harmony in all things is a great asset to any community, and we have always refrained from publishing anything that could stir up strife or ill feeling [illegible] the heart burdens of any person whenever the vital interests of the common people are not at stake. The Herald is not and never will be the tool of any special interest, individual, or institution. It is absolutely free and independent and devoted to giving all the news of the day to its subscribers correctly and impartially, and especially concerning every public question in which the readers of the paper should be and are vitally interested. When a newspaper fails to do this it is not a newspaper but a personal organ of some special interest seeking their own advancement to the utter disregard for the rights or destruction of the common people.

Muzzle the independent press and the common people are slaves.

The Herald stands among the very best country papers in the state of Michigan and it is proud of it. Its readers are legion and from the many compliments we daily receive we know that it is most highly appreciated as a high grade newspaper, and now comes an opportunity for you. Read the following offer and take advantage of it at once. Get your friends to do likewise and help put the paper whose whole purpose is to develop and boost YOUR interests over the 2,000 mark and thus increase its influence for further assistance in helping to bring about better conditions for the common people and less infringement on them by greedy special interests. Read the Herald and keep posted on all the events of the day. Here is our BIG SPECIAL OFFER.

9 MONTHS FOR ONE DOLLAR.

Beginning today, the Herald will accept subscriptions from OLD or NEW subscribers NINE MONTHS for ONE DOLLAR providing that old subscribers must be paid up to date or in advance.

This means that new subscribers will get the paper until Nov. 1st, 1922 for ONE dollar, and that all old subscribers whose subscription is paid up to date or in advance can set their subscription ahead nine months for one dollar.

And when you sign for the Herald you are sure of getting the paper for the length of time you subscribe. The Herald has been established for 73 years and will be here for 73 more.

Offer is good until Saturday night February 4th.

The above offer is good ONLY until Saturday night, February 4th and no longer. Take advantage of it at once and save money. On our bargain day last October, we made a splendid increase in our list and we feel sure that this wonderful bargain offer will put us over the 2,000 mark. For the many assurances we have had of the appreciation of the paper, we are confident that the goal will be reached and passed before this offer expires. It's the one big bargain of the year, and as this is going to be a year of intense activity in all lines, you cannot afford to miss reading the Herald every week. We assure you it will be especially full of interest to us common people and you'll say so too after you have read it awhile. Now is the time to take advantage of this wonderful offer. Do it today. Remember the time expires, Saturday night, Feb. 4th.

MARRIED FIFTY YEARS

Mr. and Mrs. Eli Abbott Celebrate Golden Wedding.

Mr. and Mrs. Eli Abobtt were married fifty years ago Monday so on that day they were invited across the street to the home of their neighbors, Mr. and Mrs. Clarence Allison for dinner as a celebration. There they found a company of forty assembled, nearly all members of the old Tecumseh-Franklin Farmers club who were their old neighbors.

As far as possible the golden and white color scheme was carried out and the tables were bountifully laden.

Mr. and Mrs. Abbott were the recipients of many gifts, tokens of the high esteem in which they are held in this vicinity.

Present from away were Mr. and Mrs. Harry Van Doren, Mr. and Mrs. Hugh Herbison of Adrian, Mrs. Allen Wells of Toledo, Mr. and Mrs. Ambrose Welch of Clinton, Dr. and Mrs. Britton of Hudson.

Mr. and Mrs. Abbott were both born at Tiffin, Ohio, and there they were married. They came to Tecumseh in 1880.

They have two children, Mrs. Maude Van Doren of Adrian and Harry Abbott of Tecumseh, and two grandsons, Leslie Abbott of the U. of M. and Russell Abbott of Albion College.

AUXILIARY HOLDS MEETING.

The American Legion Auxiliary held its regular meeting Tuesday evening in the Legion rooms. Arrangements were made to entertain the Legion boys at a supper and card party some time within the next two weeks, the date to be announced later. The dance committee reported that they would have their next dance Tuesday evening, Feb. 14, and that they had hired the Saxo Dixie Orchestra, consisting of these instruments, piano, traps and drums, 2 saxaphones, 1 banjo. They have been highly recommended and as this is their first appearance in Tecumseh the ladies hope that they will have a large crowd.

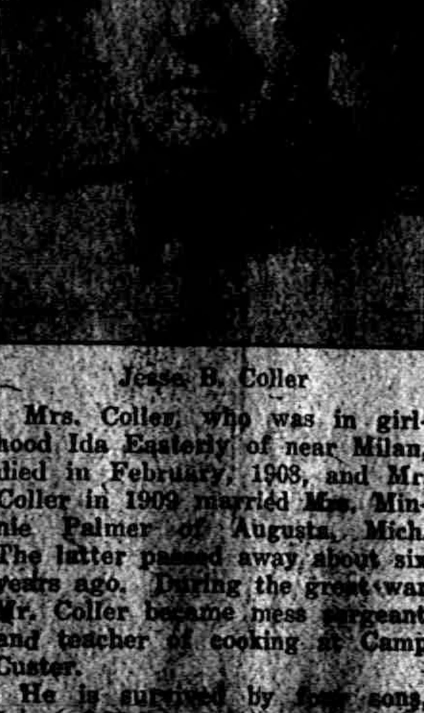
Mrs. Frank Temple's Sunday-school class meet tomorrow evening at the M. E. church.

Well Known Man Is Called By Death

Well Known Resident Dies After Long Illness. Genial Ways Had Won Him A Host Of Friends.

Jesse B. Coller, well known over this part of the county passed away at 1 o'clock Monday morning after a long illness with Brights' disease. He has been at the home of his brother, Lewis Coller, in Macon several months and it was there he died, having been confined to his bed 13 weeks.

Mr. Coller was born in Macon 60 years ago and lived there until 23 years ago when he moved to Tecumseh as a rural mail carrier. Later he and Mrs. Coller ran very successfully the Coller House where the new Big Chief garage now stands.



Jesse B. Coller

Mrs. Coller, who was in girlhood Ida Easterly of near Milan, died in February, 1908, and Mr. Coller in 1909 married Mrs. Minnie Palmer of Augusta, Mich. The latter passed away about six years ago. During the great war Mr. Coller became mess sergeant and teacher of cooking at Camp Custer.

He is survived by four sons, Leon of Hollywood, Calif., Earl of Lansing and [illegible] of Tecumseh, [illegible]

A military service was held Wednesday afternoon at the Methodist church, Rev. W. A. Gregory being in charge. Rev. W. R. Curtis, who was a comrade of Mr. Coller at Camp Custer, delivered the address in accordance with a frequently mentioned wish of Mr. Coller.

Rev. Curtis took for his text "I have fought the good fight," applying it to the courage of the deceased who was always so cheerful in spite of his long illness. He told of his comradeship with Mr. Coller in Custer saying, "I feel as though I should be with the mourners for I have lost my friend." He closed with the beautiful poem, "Crossing the Bar."

The Ladies Band, who were all especially fond of "Dad" as he was lovingly called over town, rendered several selections in the church.

The American Legion attended in a body and acted as the escort to Brookside where the body was laid at rest with military honors.

Present from away for the service were Mr. and Mrs. Earl Coller of Lansing, Mr. Beuel of Hanover and hosts of relatives and friends from Macon.

YOUNG PEOPLE RALLY AT M. E. CHURCH.

Dr. H. Addis Leeson, superintendent of the Ann Arbor district of the M. E. church was present at the quarterly conference of that church Monday evening. He congratulated the local church membership on the good showing of their missionary offerings. An increase of over 400% was reported at the annual conference. In spite of the financial depression the support of the church is better than usual.

Mrs. Peter Stair of Detroit was also present. She outlined the program for the Crusaders conference to be held here January 27, 28 and 29, when 250 young people are expected from this and nearby counties. A team of 14 U. of M. students will present a missionary play on Saturday. On Friday a banquet will be served at 6:30. Every League and Sunday-school should send from 10 to 25 delegates.

Mr. and Mrs. R. N. Lowe and Mr. and Mrs. Leon Rosacrans will entertain the Merry-Go-Round Club at the Lowe home next Tuesday evening.

The Woman's Home Missionary Society of the Methodist Episcopal church will meet with Mrs. Frank Temple, Thursday, Jan. 26th, at 2 o'clock with Mrs. B. Hurry as leader. Theme: "Strangers in a Strange Land." Mrs. John McIntyre will have charge of the Enigmas.

Boulevarding Is Put Up To The People

Council Passes Act Of Necessity Submitting Question Of Boulevarding Chicago St. To Vote Of The People. Did So Upon Request Of Many Citizens Who Want Street Beautified. Will Require Bond Issue Of $15,000.

At a special meeting of the village council last Monday night the question of boulevarding Chicago St. from Adrian St. to the dip of the hill at the east end was given careful consideration, and an act of necessity passed which will submit the whole question to a vote of the people.

The question of boulevarding Chicago St. with two sixteen foot strips of concrete roadway on either side of a sixteen foot boulevard in the center from Adrian St. to the dip of the hill at the east end has been quietly discussed for some little time. To John Schreder probably belongs the honor of being the first if not the first to advocate thus beautifing our city main street and last Friday Frank F. Rogers state highway commissioner E. G. Willemin, district engineer of the highway department and John R. Richard, Lenawee County highway engineer, met here with the menbers of the village council to discuss plans for the pavement of Chicago street in connection with the improvement of La Plaisance Bay turnpike through Tecumseh Township during the coming summer. A plan is under consideration for paving the full width of the street in the retail section, instead of making the pavement the same width as the trunk line outside the village. The project of boulevarding the three blocks east of the business section and five blocks west was also taken under consideration. The estimated cost of the projects would be about $35,000, it was estimated.

A banquet was served at the Paramount hotel previous to the meeting, covers being laid for F. E. Rogers, E. G. Willemin, John

MONDAY CLUB ENJOYS FINE PROGRAM.

The Monday Club met in regular session last Monday afternoon at the club rooms. In the absence of the President, Mrs. Turner, the Vice-President, Mrs. R. S. Moore, presided. At the business session two new members were presented for membership and duly elected, Mrs. Vern De Pugh and Mrs. H. E. Gill. Mrs. Pauline Bredow gave her report of the sale of Tuberculosis Seals which amounted to $82.50, one third of the amount is sent to headquarters and the remainder retained by the club for use in the vicinity.

Community singing was led by Mrs. Billings and Mrs. H. E. Mitchell acted as leader for the afternoon. Mrs. H. E. Temple gave a delightful description of a trip "Down the St. Lawrence," including the Thousand Islands, Montre[illegible]morency and the shrine of St. Anne. A charming piano number "Album Leaf" by Alexander MacFayden was given by Mrs. Wilfred Waldron and as an encore she responded with "Romance" by Reginald DeKoven. "Highways and Byways of the Southwest," by Mrs. Guy Pocklington took one through the cities of Denver, Santa Fe, Albuquerque, Salt Lake City and ended with the Yellowstone Park. It was interspersed with descriptions that might well rank the scenery with that of the old world and the authors suggestion to "See America First" might well be used to advantage by the thousands that hunt new scenes each year in the old world.

Stereopticon views of both papers were shown.

WIT AND WISDOM CLUB MEET AT TURNER HOME.

At the home of Mr. and Mrs. F. Turner the Wit and Wisdom club spent a very delightful evening on Monday, when Miss Mildren Boyce was leader of the program. The theme for the evening was "The Measure of Wisdom and Test of Wit" with the program as follows:

Piano solo—Mrs. Wilfred Waldron.

Paper, "Edison's Questionaire"—F. S. Turner.

Many of Edison's questions were asked the company, making an interesting part of the program.

Vocal solo—(a) "Morning Wind"
(b) "Evening Wind"
—Mrs. R. S. Moore, Mrs. Maude Elder accompanying.

"Test of Wit"—Earl McNeil, followed with a contest of "Tests"

Mrs. Elder gave several splendid piano numbers during the program.

The hosts served refreshments during the hour of visiting which followed.

Mrs. Julia Cameron of Oneida, Ky., was the out of town guest.

Excitement Is High In New Oil Fields

Interesting Letter From J. R. Keeney Describes Oil Scenes at Mexia, Texas. Following Are Excerpts Therefrom.

(There were 175,000 barrels produced daily before these wells were shot in the vicinity of Mexia. When I reached Mexia you might think that they were pulling off one of our Wednesday night programs as the streets were as congested as on any Wednesday night "in the greatest town on earth." I have some friends in Mexia who hired a taxi to take me to see the well described in the paper I am sending you. The well was connected with tanks that had been placed there, anticipating a big flow, so I saw no oil but the large tank was on top of the ground. The oil was flowing so rapidly through the pipe that it was quite warm.

I saw one well that when the pipe was held level with the ground the pressure was so great that it carried the oil 300 feet before it fell to the ground and when directed upward went far over the top of the derrick which is over 100 feet high. This well is out about 4½ miles and the road was as congested as though a Wednesday night performance had just broken up. We estimated that there were 150 wagons on the road loaded with material for new derricks, oil tanks and piping. Some had 6 large horses to a wagon. Trucks

PYTHIAN GRAND LODGE TO GIVE PRIZES TO STUDENTS

"Americanism" is receiving a boost by the Grand Lodge Knights of Pythias in a contest they are arranging in which all junior and senior high schools in the state are to join. These students are asked to write essays on the subject, "American Citizenship, its Aims, Ideals and Responsibilities." The best paper in each school will be forwarded to the Grand Lodge and will be passed upon by judges chosen by Supt. of Public Instruction, T. E. Judge Hart Gives Splendid Address

Community Banquet Enjoys One Of Best Programs Of Entire Series. Baptist Ladies Furnish Elegant Dinner. Annual Meeting Selects Strong Executive Board For Next Year.

One of the best programs yet enjoyed by the Commerce Club was given in the high school gym, last Tuesday evening when about 100 men sat down to a splendid dinner served by the ladies of the Baptist church.

It being the annual meeting, not quite so large an attendance as usual came out (probably because they might be afraid of getting on the work committee) but nevertheless there were over 100 men there to listen to one of the ablest addresses yet given before the club.

After the sumptuous dinner the "pep" singing led by our genial Wade Jones, put the whole crowd in fine spirits for the speaking to come. Joe Sletten, Secy of the Adrian Chamber of Commerce was called on and gave a fine snappy practical talk that struck right home and made an excellent impression with everyone.

The President then introduced our good friend Judge B. L. Hart of Adrian who is always a prime favorite with Tecumsehites. The

The lower floor was filled and many had to find seats in the gallery. There were many present from Tipton, several from Dundee and others from Adrian, Brooklyn, Clinton, Manchester and Saline.

Between the acts of the little drama Mrs. E. T. [illegible] and John Keeney delighted the audience with some beautiful solos, Mrs. Ella Hodges accompanying Mrs. Rosacrans and Miss [illegible] Taylor performing the same for Mr. Keeney.

After the performance at the opera house the visiting brothers were given a lunch at the K. of P. hall.

The following took part in the beautiful drama telling the story of the friendship of Damon and Pythias on which the Pythian lodge is founded:

Damon—E. T. White, P. C. of Lapeer.

Pythias—Charles W. Lasher, G. C. of Plainwell.

Dionysius—Charles W. Smith, P. G. C. of Lapeer.

Philistius—Will E. Hampton, G. K. of R. and S., of Ann Arbor.

Procles—J. F. Elliott.

The Headsman—C. E. Allison.

Guards—E. H. Van Vleet and [illegible]

Senators—Virgil Moore, W. G. Bryan, Lynn Butrick, Ed Smalledge, Earl Updyke, Claude Gray, Will Jewell, Fritz Gygi, L. G. Harrison, John Show, Faye Young and Charles L. Hooten.

To Earl Haughn, the chancellor, and his committee go much credit for the success of the evening.

THE BASKET BALL GAMES.

Our Girls Defeated The Hillsdale Girls But The Boys Team Was Outclassed.

At the high school "gym" Friday night another big crowd met to see their favorites, the basket ball team come up against the teams from the Hillsdale high school. Our girls team kept up their record defeating their guests 32 to 16 but some way our boys seem to be playing in hard luck, the Hillsdale boys outclassing them completely by a score of 39 to 15. Both our teams were substituted during the game and we bid fare to keep at the head in the basket ball field for years to come as far as our girls end of the game is concerned by the snappy players now "subbing." Some of those J. H. girls are wonders, even showing up now as good as the subs from the older grades now being used.

The Ladies Band played many selections to the delight of everybody.

FIRE AT ALBION COLLEGE.

Miss Marjorie Field writes her parents from Albion College that the other morning the old "gym" building caught fire during chapel. The students carried out the piano and some of the athletic equipment and seeing the building was doomed, gathered around the piano and sang, "Keep the Home Fires Burning." An appropriation has already been made for a new "gym."

ARE WE POOR ?

So much is said right now concerning hard times that it seems very fitting that we should turn our eyes backward for just a few years and view the situation as it was then.

Do you remember when Lucius Lilley used to drive a $500 team? If not, many of the older people do and they certainly were beauties. When he drove past the country side it was an event and the farmers would stop to see that wonderful team go by and reflect how rich he must be to drive such an expensive team.

Today if a man drives a $500 automobile on the road he is not considered to be more than in very common circumstances. It even makes the farmers smile for most of them drive a much higher priced car themselves and use the $500 one to do their milk hauling and trucking. Yea, verily, are we hard up?

Your dad and my dad never indulged in such a luxuary as a $500 team or automobile and could not have done so had he wanted to. Only the very rich could have such luxuries and today their sons are skimming along the road in a $2,000 car thinking nothing of it, and in fact, it is quite the common thing.

And the auto is not the only place where we have outdistanced our dads and what he would have considered as an extreme luxury capable of being had only by the extremely rich, we are using as a necessity today and think nothing of it.

Queen Victoria in the height of her reign never enjoyed one-half the [illegible] the common people have today and use as necessities. True they are necessities for we are living in a fast age, but it also shows conclusively that we as a people are rich in many ways through perhaps hard up right now as a result of getting in too deep with extravagant public expenditures which can and should be curtailed to the very bottom.

Its really a matter of the way we think that has produced the feeling that we are hard up for when it comes to an anylsis of then and now we can easily see why it takes so much more ready money to run a home and family today than it did when Lucius Lilley was driving his beautiful $500 team. Fitting our expenses to our income is what we need right now more than anything else, but we are far from being poor.

SAYS FIERCE COMPETITION WILL RESULT.

"According to Roger Babson, economic authority, the actual amount of goods sold today is larger than in 1913," said Mr. H. S. Temple, Cashier of the Lilley State Bank yesterday in discussing the 1922 business outlook.

"'This holds true'," says Mr. Babson, '"for sales in dollars as well as in pounds, bushels and barrels of products. Railroad statistics show that about 20% more goods are being shipped than in 1913, that the same amount of fuel is being used and that farmers are selling 10% more grain and as much cotton as in 1913 while prices are considerably higher. Even allowing for the country's normal growth, the present volume of business is about as large as it was before the war when people thought times were fairly good. The reason that business is suffering at the present time is due to the fact that capacity and cost production were increased during and following the world war to fit a much larger volume of business than can be maintained.'"

"Businessmen everywhere are beginning to realize that the only way to maintain volume is through the fiercest kind of competition." Mr. Temple continued, "and as a result of this commodity prices in general are going to be lowered. Signs all point to better conditions in 1922. The critical part of the business depression has passed and although the period of readjustment is not over, improvement is going forward slowly but surely."

VISIT FROM ANN ARBOR TEAM.

Four young men of the Wesley Guild, Ann Arbor, under the captaincy of Mr. Glasgow, were guests of the Methodist church Saturday and Sunday. Saturday evening a party of 75 of the young people of the Epworth League and Sunday-school entertained the Ann Arbor boys. After a big pot luck supper the evening was spent with games.

The visitors had charge of the morning service Sunday, also teaching various classes in the Sunday-school and conducting the Epworth League service.

In the evening the churches of the town joined in a union service at the Methodist church when again these young men led the singing and made the addresses. A large choir assisted in the song service and the addresses along the theme of "The Minimum of Christianity" were very inspiring.

Wilbur Werve took the boys back to Ann Arbor that evening.

Electricity Makes Things Easy

With an ordinary treadle machine a woman has to pedal about 10,000 strokes in making an ordinary dress. This is a tremendous strain even for the strongest.

By using an electric sewing machine her health is saved and the work is turned out quicker and better.

The cost per year, for electric current, is only about $1.50.

If you have an old machine we will attach a new motor and fix it up complete with speed regulator, plug and cord.

Glad to let you try a Western Electric in our store any time you are passing. You'll like it.

STATE RULING BOARD COSTS $31.025 OVER FORMER PLAN.

Costing $38,880 in Three Months, It Replaces Two Old Boards Which Cost $7,855 In Same Period; Paying Several $30 Daily; Payroll Gaining $1,000 Monthly.

The following article is carried in the State Journal published at Lansing under date of Nov. 16th and as it gives an account of how our new state administrative board is operating our government, we publish it to show the people how their money is being spent and why taxes in Michigan are jumping up by leaps and bounds while other states (see article, The Meat of The Tax Question) are being operated at much less cost to the people and just as effectively.

If you are a tax payer it will be interesting to read the appended article from a newspaper published at our state capital and one which favored the new administrative plan to begin with.

"Excepting two minor departments from the standpoint of overhead expense in state government under the new Groesbeck system, the state administrative board is the one new creation of the 1921 legislature. It is therefore obviously logical that consideration should be given to the added expense in state government which is occasioned by this new state agency.

That a new overhead expense, if overbalanced by added efficiency, may be a good business proposition, is admitted by all. But state government is not a business proposition in the generally accepted sense of that term. State government, or any other government for that matter, is only a money spending agency. No profit is attached to it, and the only consideration to be received is service for the financial outlay. Therefore any claim that consideration of the expense of a form of government is in any measure beside the issue, is without defense.

For the first three months of this present fiscal year the total expense of the state administrative board was $38,881,06. Those three months are July, August and September of this year. The fiscal year for the state begins on July 1 of each year and ends June 30 the following year.

At the rate of the above figure for one-fourth of the year the total expense of the state administrative board for this year would be approximately $155,000. As a matter of fact the expense of the board has consistently increased since the beginning of the fiscal year and the figures showing that increase, with reference to the payroll, will be given in the course of this article.

As was above stated, the administrative board does absorb and assume the duties and the expenses of two state agencies which existed under the old system and which have been entirely taken over by the board. They are the state budget commission and the state purchasing department.

For the year 1920, under the old system, the state budget commission cost $4,753.56. The average cost for one-quarter of the year on that basis would be $1,188.89. The overhead expense of the state purchasing department for the year 1920 was $26,668.94. The average cost for one-quarter of a year on that basis was $6,667.26.

The combined cost of the state budget commission and the state purchasing department for one-quarter of a year on that basis of their annual cost for the year ending June 30, 1921, was $7,855.65. Therefore, the difference between that total and the total expense of the state administrative board for the first quarter of the present fiscal year would give some definite indication of the probable added expense to the taxpayers of the state of the state administrative board over the old system.

$31,025 Increase.

By subtracting from the total cost of the state administrative board for the first quarter of the present year the cost of the two agencies of 1920, the excess of cost to be charged against the administrative board is $31,025.41. Multiply that by four and the result is $124,501.64, which represents the new cost to the taxpayers of the state administrative board for one year of operation.

But according to the payrolls of the administrative board its expense is rapidly increasing. While for September the total payroll was $6,131.72, for October, the fourth month, and which is not included in the comparisons here made on the basis of the first quarter of the year with the same period of last year, the payroll was $8,253.06, or an increase in the fourth month of more than $1,000 on the payroll alone.

The organization of the state administrative board is divided into three divisions, the administrative, the purchasing and the accounting. The secretary of the board receives $5,000 a year, and he has about the most busy, and one of the most responsible positions in Michigan's government today. He is required to keep in touch with and know absolutely every detail of the vast amount of business that is transacted by and supervised by the board. That really takes in the entire business of state government. His assistant receives $2,500 a year, and in consideration of the responsibility of that position the salary is meagre. Then there are clerks and hearing stenographers at $1,700 a year, an engineer at $3,000, an architect at $3,000, an examiner at $3,200, an investigator at $2,500, and two messengers at $1,000 a year each.

At the present time there are four buyers in the purchasing division at $4,000 a year each, and a stenographer is provided for each buyer at $1,200 a year.

For the first quarter of this year there was an average of 41 employes in the accounting division of the administrative board. The approximate salaries of these 41 employes per month has been about $6,000.

Men Get $30 Daily.

But this is not all of the expense of the accounting division of the state administrative board. There is an accounting firm in Detroit by the name of Parker & Maxworthy, Inc. That firm is profiting generously at the present time by employment from the state.

From Aug. 18 to Sept. 3 the salaries paid that firm amounted to $960, and their total expense, including salaries, was $1,286.65. From Sept. 3 to Sept. 30 the total expense to the state of that firm was $1,984.55, of which $1,560 was salaries. From Oct. 1 to Oct. 22 the total expense of this firm was $1,627, of which $1,252.50 was salaries.

Four members of this accounting firm have been in the employ of the state. Mr. Parker receives $30 a day and expenses; Mr. Maxworthy receives also $30 a day and expenses; Mr. Klein receives $25 a day and Mr. Dickerson receives $20 a day and expenses.

The state administrative board has thus incurred a new expense in state government. Is it contributing to governmental efficiency and in other ways curtailing state expenses? That is the question which must be answered by the facts developed in the three months of operation under the new system."

Well, we'll scrap the ships. But we still cling to the conviction that we could have licked any other navy in the world.—Akron Beacon-Journal.

BOULEVARDING IS PUT UP TO THE PEOPLE.

(Continued from Page One)

E. Rogers, Village President John McIntyre, Village Attorney G. A. Rathbun, Supervisor John Schrader and the members of the council, E. M. Campbell, Perry Satterthwaite, Dr. E. E. Hendershott, B. E. Pulver, Charles Hanna and R. K. Anderson.

At the council meeting Monday night three men were named as a board of special assessors to go over the special assessment district and determine the front foot valuation of each lot for the purpose of making the special assessment. They were Frank Snell Guy Belding and M. G. Spitler. The assessors have the power to lower but not raise the front valuation of any lot in the special assessment district.

The section to be boulevarded was divided into three districts viz: the west part from Pearl St. to Adrian St. in which the special assessment will be 35% on the frontage and 65% on the village at large, and the business district for two blocks through the business section of the town which will raise the special taxes on this property about 3%, and the East district from Ottawa St. to the dip of the hill which will be divided 20% as the special assessment and 80% on the village at large. It was explained the difference between the percents assessed as special assessment on the west and east districts is due to the higher valuation of property in the west end which enables a higher assessment to be made and still come within the limits of the law and because the property owners in that end are better able to stand a higher assessment.

The whole cost of the boulevarding will not exceed $35 000 and it will necessitate a bond issue of not to exceed $15 000 as the highway funds available will help take care of the rest and the state and federal government put in a strip 20 feet wide at their own expense leaving the rest for the people of the village to pay.

Two reasons were given for submitting the question at this time. First, it must either be done before the new road comes through this summer or it can never be done at all as the expense of tearing up a concrete road would prohibit any such movement. Second, it would make one of the most beautiful streets to be found in this or any other state in the country. Naturally wide and level with beautiful lawns on either side it would make a most beautiful drive.

For these two reasons the council decided to submit the question to the people for their approval or rejection, and this will be done at either a special or the next regular election, the latter, if sufficient time remains to do it before the plans of the new road are put into operation.

All members of the council were present and all concurred in the resolutions giving the people an opportunity to say whether they wanted it or not.

The Best Battery
Made is Now Manufactured
Right in Tecumseh

Read the following and you will agree we have it. Battery has been severely tested in many makes of cars for 14 months, and it delivers the goods:

THE MIRACLE BATTERY

This battery is built of the best material obtainable to withstand the most severe use, and with ordinary care will more than equal the best batteries built today.

We have taken every precaution in selecting the material used in the Miracle battery and absolutely know that there is nothing on the market which it itsequal.

Commencing with the box which is made from the best grade of seasoned oak which is not covered up with paint, you can see that part is quality second to none.

Next is the plates used in the battery which are made from the best material obtainable, made heavy enough to withstand the most severe use and still light enough to enable easy charging and a snappy turnover of the starter which it is called upon to operate.

The separators used to insulate the plates are of wild cherry which is the best wood known to the battery industry for this purpose because they last longer than the softer woods and prevent the plates from buckling which is a common ailment to many batteries otherwise first class.

The locking type pillar post is another feature of the Miracle battery which should not be overlooked as the lock which holds the plate group to the hard rubber cover, compresses two soft rubber gaskets one on either side of the cover tightly into place making it impossible for acid to leak by this point and cause corrosion to the connections at the top of the battery, also supports the plates so that they do not rest heavily on the bottom of the jar which would cause the partitions of the sediment compartments in the bottom of the jars to saw notches in the lower side of the plates and allow them to settle to the bottom which is sure to cause a short between the positive and negative plates.

The Miracle battery is built by men who know battery material and know how to, and do put these materials together for long use and to satisfy the most exacting user.

Let your next battery be a Miracle and you will know what real battery service means and more than this you will save dollars by it, real hard earned dollars.

OIL FLOWS IN TORRENTS.

(Continued from Page One)

and automobiles were so thick one could make but little progress and we were paying $4.00 an hour for the taxi. At one time I counted 88 derricks and that was only a small number of those in the vicinity.

The oil is found on a ridge or decline of a ridge. The land was too poor for the whites and much of it is owned by the colored people. I saw one old colored woman that looked like two cents that is worth about one-half millon, she said [illegible] going to remain in her shack and raise chickens and make butter to sell. She was as calm as an oyster. I was wondering how I would feel under like circumstances.

Last June Mexia had perhaps 8000 people and today has 25000 and you can guess how things look about Mexia, tents and new houses in every direction and of every description adapted to this climate. The formation in which this oil is found is easily traced by the soil, rocks and trees found in the state, geologists have located it and these wells were found on this strength. They are about 3000 ft. deep. There are many shallow wells about here that have been in operation for several years, they are of small outfits but have been paying. You see the effect of this production in Dallas, there are many wealthy people and large comfortable houses, one block contains this hotel 25 stories high and built by an oil man.

It has been dry in northern Texas for months and the crops in consequence poor and farmers having hard time to pay their taxes as in some other places that we know of, but the oil production is making Texas rich. When I was in Dallas in '96 and '97 it had a population of 50 to 60 thousand people and now claims 200,000 and a beautiful city for having grown so fast. The homes having large yards and are very modern in architecture which makes for beauty. We do not know just when we will go on with our trip.

P. S. The oil is found in what is known as oil sand and in some wells is found to be 150 feet deep.

Unpaid bills	87.78
Net balance in treasury Jan. 7	$270.20

Tecumseh should be proud of an Athletic Association that is self supporting and do its best to lend all support possible.

Unless the unlooked for happens the present surplus will be pretty well "shot" by the time the base ball season is over. Consequently the Athletic Association is unable to buy these lockers. As soon as a permanent surplus accumulates, according to the President of the School Board, Joseph Smith, that surplus will be turned in toward buying further equipment for the gymnasium. However, until a balance accumulates over and above what possible expenses there might be, the funds of the H. S. Athletic Association must not be drawn upon.

JUDGE HART GIVES SPLENDID ADDRESS.

(Continued from Page One)

Judge was laboring with a hard cold, but he gave one of the best most practical and interesting talks yet given before the club and we have had some big men at that.

The Judge took for his theme, the home, the church and the school and in straight-from-the shoulder talk showed how each must perform its proper function in order to give us that well balanced government so desirable to all humanity. He said that every worthy idea must spring right from the community, that if we have good communities we have good counties and with good counties we have good states and nations and then the whole world will come into line for right and justice. The Judge also took up the subject of successful business and the way he handled that subject was sufficient to show the audience that the man who is alive, alert to the needs of the community, and fills that need with true service is bound to succeed. It was a most practical and forceful description of excellent business principles applied with sound common sense and it held the closest attention of the men to the last syllable.

The spontaneous and vigorous applause that greeted the Judge at the close of his remarks showed the intense appreciation with which his talk had been received. Judge Hart is held in the highest esteem and affection throughout this his home county and by everyone for the reason that he is intensely human and sympathetic yet withal a man and a Judge of keenest mind whose every effort is bent toward dispensing exact justice but with that human touch that shows a mighty broad intellect and a human heart.

It is always a great pleasure to listen to the Judge and last Tuesday evening was one of the finest efforts we have heard him make in many a day. It surely was a fitting close for the year's work.

The regular annual meeting was then held and the President appointed Geo. Rathbun, John Nyland, and Louis Schneider as a nominating committee to name the executive committee for next year. The committee reported the names of Wade L. Jones, Leon Rosacrans, Lester Rogers, James Artman and H. S. Temple and moved their election which was unanimously carried. This will make a most excellent board and speaks volumes for the success of next year's program. Two of the board were members of the old board and the other three are among Tecumseh's most progressive and prominent young business men, hence the work should be a great success.

During the program John Keeney favored the club with a beautiful solo and responded to a vigorous encore. His singing was greatly appreciated.

[illegible] Rev. Gregory brought forward two most excellent ideas, that of looking after the shade trees of the town and taking immediate steps to protect them from decay and death, and the other the use of the old school building for a local Y. M. C. A. He presented the matter in a very forceful manner and was listened to with close attention and it is hoped that prompt action will result that will put both of these excellent ideas into action. There is no subject bigger nor dearer than the boys and girls so that the matter of a recreation center for them is one of the biggest and best projects that can be undertaken by any town or city.

It was indeed a fine meeting and closed the year most successfully. A rising vote of thanks was given the ladies for their efforts and the same was extended the old executive board for its work of the past year which has been by far the most conspicuous success in many years.

A STORY WORTH READING.

Do you know that statistics reveal that out of every 100 men at the age of 35, 5 have died, 10 are wealthy, 10 are well-to-do, 40 live on their earnings and 35 show no improvement.

At the age of 45, 16 have died, 1 is wealthy, 3 are well-to-do, 65 live on their earnings and 15 are no longer self supporting.

At the age of 55, 20 have died, 1 is wealthy, 3 are well-to-do, 46 live on their earnings and 30 are not self supporting.

At the age of 65, 36 have died, 1 is wealthy, 4 are well-to-do, 5 live on their earnings, and 54 are not self supporting.

At the age of 75, 63 have died, 1 is wealthy, 2 are well-to-do, and 34 are dependent.

And out of every 100 men who pass on, 1 leaves wealth, 2 leave comfort, 15 leave from $2,000 to $10,000 and 82 leave nothing.

And out of every 100 widows, 18 live on their income, 47 help earn their own living and 35 are dependent. Surely something to think about.

WHY SUFFER SO ?

Why suffer from a bad back, from sharp, shooting twinges, headaches, dizziness and distressing urinary ills? Tecumseh people recommend Doan's Kidney Pills. Ask your neighbor! Could you ask for stronger proof of merit?

J. H. Hall, 210 W. Logan St., Tecumseh, says: "I have had considerable trouble with my kidneys for eight or ten years and at times my back has almost doubled me up with pain. My kidneys didn't act regularly and in various ways, showed signs of disorder. I also suffered from rheumatic trouble and this was very painful in my lower limbs, especially in damp weather. I saw Doan's Kidney Pills advertised and went to Pulver's Drug Store for them. I used two boxes as directed and they fixed me up in good shape. The rheumatic trouble never bothers me and the backache is a thing of the past. I gladly endorse Doan's Kidney Pills."

WINTER STORAGE OF BATTERIES TAKEN CARE OF CORRECTLY

A discharged battery will freeze at a temperature above 0. A fully charged battery at something near 80 degrees below 0.

An idle battery unless kept fully charged will deteriorate. It is for this reason that in laying up your car that some provision should be made to keep the battery fully charged.

If you have battery trouble, come to see us with it and we will explain to you the little black box of mystery so it will no longer be mysterious.

HARRY COUSINO ACQUITTED.

Harry Cousino, who has twice before been in the circuit court for an offense committed against a young girl, was acquitted last Friday when he was again brought up for trial. The first time the case was tried the jury brought in a verdict of guilty. On the strength of more evidence the case was again brought into court and this time the jury disagreed. Tecumseh people have watched the case closely as many of his former patrons and friends here did not believe him guilty.

He ran a milk business here, selling out last spring to W. L. Fair.

Mr. and Mrs. Earl Coller came Tuesday evening from Lansing to attend the funeral of his father, Jesse B. Coller.

K. A. Braman spent the first of the week with his parents at Berrien Springs, going to be with his mother, over her birthday.

CRUSADERS CONFERENCE AT M. E. CHURCH.

Beginning tomorrow evening and lasting until Sunday afternoon there will be something unusual doing at the M. E. Church, called a Crusaders Conference of the Ann Arbor district. Every church in the district is expected to send delegates of their young people who will be cared for as far as their lodging and breakfast is concerned by the Tecumseh people. Every session beginning with Friday nights banquet will be full of "pep, push and punch" and an excellent program will be given.

Congress would accomplish more with fewer "blocs" and more tackle.—Columbia Record.

Wade Jones Heads Commerce Club

Elected President For Ensuing Year. Has Been Vigorous Worker And Richly Deserves Leadership. Committees Appointed. Year Promises To Be Most Successful Yet.

The executive committee elected at the last annual meeting of the commerce club held their first meeting and electen Wade L. Jones as President of the organization which position he will fill with much credit to himself and the community. When it comes to hard work, there isn't anyone that can put it over on Wade Jones for he is the incarnation of pep and enthusiasm. He has carried the load of our Wednesday specials for years and he has put it over successfully every time and it is due to his hard work and unlimited enthusiasm that these days which have advertised Tecumseh from "Hell Gate" to Pikes Peak have been such a conspicuous success, hence it is very fitting that he should head the entire commerce club.

And the line up of committees shows that the executive board were wide awake when they were named for each committee is composed of men who know the game and will see that their end of the program is kept up at every step.

Perry Hayden is the new secretary and Perry is a very live wire from the pegs in his shoes to the part in his hair, so that whatever work is assigned the new secretary, it will be given prompt and vigorous attention. In fact Perry is just the man for the place as he represents one of our largest interests and he is as full of enthusiasm as a barrel of old wine which is one of the necessary elements to keep up the work of any commerce club, and we predict that Perry will fill the bill to the "Queen's taste" and make one of the best Secy's that Tecumseh has ever had.

The following are the officers and committees named: President Wade L. Jones; vice president, L. J. Rogers; secretary, Perry Hayden; directors, H. E. Temple, J. M. Artman and Leon Rosacrans. The following committees were appointed: membership, the Rev. W. R. Curtis, F. S. Bell, F. S. Turner, William Martin, William Gibson, Ray Carr, Ed Schreder and Perry Hayden. Retail merchants, R. W. Puffer, R. S. Moore, and John Snow; banquet, G. J. Ziehr, L. E. Temple, Percy Bowen, Fred Rector and Henry Beard; sprinkling, R. W. Puffer, Thomas McCann, C. N. Graebner; soliciting, L. J. Coller, Fred Rosacrans, F. D. Wright and G. E. Isaacson; new industries, R. A. Heesen, J. H. Smith, R. J. McCoy, J. R. Nyland, and L. E. Temple; bargain day manager, W. L. Jones; speakers, F. S. Turner, G. A. Rathbun, W. L. Jones.

A SPLENDID INDUSTRY.

Last Tuesday morning a casting was broken on one of the important machines at the Herald office and it was taken over to the City Welding Shop where it was welded and made just as good as new in less than one hour.

Such an industry as this is of prime importance to a town like ours for farmers, mechanics and manufacturers are bound to break their machinery and by taking the parts to the City Welding Shop, they can get them almost instantly repaired and at a very nominal sum and the repaired part is just as strong and sometimes stronger than the new one was. Take your welding to this shop and get results that will make you smile. Thats what we say.

BAKED SALE.

The Monday Club will hold a baked sale at Tansley's Market on Saturday, Jan 28th at 2 p. m.

Hundreds Grab Up Herald's Big Offer

Realizing Herald Is Best Weekly Paper In The County If Not In The State, New Subscribers And Old Ones Flock To Take Advantage Of Big Nine Months For One Dollar Offer. Special Offer Closes [illegible]

Realizing that the Herald is the best weekly newspaper in the county if not in the state, hundreds have flocked to the Herald office or sent their subscriptions in by mail to take advantage of the big special 9 MONTHS FOR ONE DOLLAR offer made last week.

It is indeed very gratifying to know that so many people appreciate the fact that the Herald is a first class newspaper and that it with the greatest credit represents the best town on earth. That is what we have continuously heard from city folks, farmers and from all walks of life as the people dropped in to take advantage of our big special offer. At one time we took in ten subscriptions in less than one hour and six of them were new ones several of whom had come at the solictation of friends who had recommended the Herald to them as one of the best weekly papers.

Sometimes one doesn't know how many friends he has until he makes some move that gives them an opportunity to show their appreciation of his efforts, and to us this is one of the times. Publishing a good newspaper is a real man's job and it not only takes hard work but capable management and considerable capital and the Herald is delighted to know that it is so highly appreciated as a first class paper completely filling the needs of this splendid community.

If you live within ten miles of Tecumseh a subscription to the Herald is one of the best and most enjoyable investments that you can make and right now is the time to make it. Tell your friends about this big offer and the Herald will go over the 2,000 mark with many to spare. Remember the offer lasts only until Saturday night, Feb. 4th. Until that time you can get nine months for one dollar no matter whether you are an old or a new subscriber. Come in and see us about it today.

JUST LIKE HIS DAD.

Like father like son is true in more ways than one. When Dr. Hammel found himself the daddy of a bouncing son the other morning he of course just stooped to adore this smiling faced Cherub and shortly afterward Doc. dived into his pocket for his favorite Havana and found his pocket like Mother Hubbard's cupboard. Doc. just simply knew he had a nice fat cigar in that particular pocket and couldn't account for its sudden disappearance but thought to console himself by taking another peep at son and if that young rascal hadn't pilfered Doc's pocket of that nice fat cigar and was serenely chewing away on it just like dad.

Some boy that and if he don't make good in the world it won't be from lack of pep anyway.

BROTHERHOOD MEETING.

The Presbyterian Men's Brotherhood were entertained Monday evening at the John Pyle home when one of their very pleasant gatherings is the report. Rev. J. F. Kiskaddon told of the people of India and F. B. Wood of the Brotherhood movement. Many were the songs sung and the whole company took their initation into the Siam Club. Mrs. Pyle treated the men to an excellent lunch.

The next meeting will be held in two weeks with J. F. Rector.

Farmers' Institute Draws Big Crowd

Splendid Program On Various Farm Topics Makes Day Interesting. [illegible] And Low Prices Are [illegible] For Speakers. [illegible] Constantly [illegible] To Tax But Fail [illegible] Down Expen[illegible]

A very interesting Farmer's Institute was held Tuesday at the Grange Hall under the authority of that organization. The morning session did not begin until about 11 as the intense cold made the farm work slow. The following was the morning program, W E Wilson presiding at all the sessions:

Alfalfa on Every Farm—N. C. McConnell.

Discussion, led by Art Green.

Insurance—George Smith.

Limestone and Soil — County Agent Ralph Carr.

Dinner was served by the Grange ladies at noon and the afternoon program began with a talk on "Farm Sanitation" led by Prof. C. E. Robey of the M. A. C. Mr. Carr followed with a talk on Testing Poultry. He told his audience how to pick the valuable pullets asserting that show birds certainly don't make the best layers. He demonstrated his theory by showing several fine specimens of white leghorns.

Rev. W. R. Curtis took for his theme, "The Church for County Folk." The young folk from the county are filling the high stations of life and for this reason the county church must be kept up, and it should be interested in all phases of the life about it.

Miss Potts, who is located in county work in Marquette, made a forceful address on "Home Making as a profession." She lauded the home keeper whose task it is to prepare over 1000 meals a year for her family, having in the menu the food necessary for both the very old and the little child. Too

GIRLS BASKET BALL TEAM WINS AT EATON RAPIDS.

The Tecumseh Girls Basket Ball team added another victory to their list Friday evening at Eaton Rapids when they won over the girls of that high school 29 to 10. The referee was Mrs. Ruth Collins of the U. of M. who has proved so just in her decisions this year.

The party from Tecumseh were the Misses Marion Harrington, Marguerite Wilson, Frances Alderdyce, Velna Crittenden, Ellen McCook, Mary Pennington, Frances Mominee, Arlene Gillespie, Geneva Crampton, accompanied by Miss Ella Holmberg and Supt. E. E. Crampton.

This Friday night the girls go to Birmingham for the hardest battle of the year.

The boys team were also playing on out of town courts Friday night. The high school team journeyed to Dundee with their coach, Principal French. The score of this game stood 10 to 6 in favor of Dundee.

The second boys' team played the second team at Adrian the latter being the victors. Earl McNell accompanied them.

Crusaders Coming Here This Week

They Are Holding Big Meetings Throughout This District. Papers Give Glowing Account Of Their Work. Programs Draw Large Attendance Wherever Given.

The following article from the Plymouth paper shows that the meetings conducted by the Crusaders are very interesting and draw capacity houses wherever they appear. They will be in Tecumseh for three days on Friday, Saturday and Sunday, Jan. 27, 28 and 29th and it is hoped that the good people of this vicinity will turn out in crowds to hear these interesting programs. Here is what the Plymouth paper says:

Plymouth, Jan. 16.—Though it was Friday, and also the thirteenth, this did not seem to frighten the young people of the Methodist faith in the north half of the Ann Arbor district, if the large attendance at the sub-district Crusader's conference at Plymouth during the week end is any criterion. So great was the outpouring of Epworth League and Sunday school young folks that the capacity of the entertaining ability of the Plymouth church was taxed. There was a paid registration of 226 outside of Plymouth, and many other outsiders attended, the total paid attendance holding second place in the entire state of Michigan.

This record attendance is said to be the direct result of Dr. and Mrs. Peter F. Stair making a personal visit to all Methodist churches in the territory and the work of the Epworth League cabinet.

Nearly 300 young people sat down to the banquet Friday even-

THE MONDAY CLUB.

This thriving organization now boasts of a membership roll of 185, putting them with the larger clubs of the state. And every member is a booster for not one has failed with her share of the work for the year. Each responding with her paper most graciously or whatever was asked of her. Such is the report of the president, Mrs. F. S. Turner who by the way, is one of the most faithful.

This week at a short business session, the name of Mrs. E. E. Howard was ballotted to membership and it was decided to have a quartette from the U. of M. Glee Club here in February for a concert, the proceeds to add to the fund for the community house. For this fund also will be held several baked sales in the ensuing weeks, for which the membership will be divided into committees.

The program scheduled for January 30 was given this week with Mrs. George Routson leader. John Keeney gave two delightful numbers with Mrs. F. B. Wood accompanist. Mrs. Lora Billington's paper on "The Fruit Growing and Intensive Farming in the West" was indeed interesting. Mrs. E. S. Tate of Clinton gave a graphic description of "Our Switzerland" which was illustrated with many beautiful views by the radiopticon manipulated by Dr. Pauline Bredow.

Next week the day will be taken up as a sewing day for the Michigan Children's Home at St. Joseph. The ladies will gather at 10 o'clock. Then at noon will be served a pot luck dinner. At 2:30 they will have a short business session.

GAVE EXCELLENT CONCERT.

Our popular Red Cross Concert Company which gave such excellent concerts during the war netting large sums for the Red Cross gave another splendid concert in Britton last night for the fund for Near East relief.

Mrs. Hardy gave a lecture on Hawaii, which was illustrated by radiopticon views by Dr. Pauline Bredow. The following musical numbers were also arranged by Mrs. F. B. Wood.

Piano Duet—Mrs. Ella Hodges, Mrs. F. B. Wood.

Vocal Duet, "Waiting" (Croke)—Mrs. R. S. Moore, Mr. Fred Dickinson.

Solo, "Who'll Buy My Lavender" (Edward German) — Mrs. Eugene Rosacrans.

Solo, "The Magpie is a Gypsy Bird" (Lohr)—Mr. Dickinson.

Ladies Quartette, (a) "My Lady Chloe" (Clough Leighter); (b) "Ashes of Roses" (Rossetter Cole)—Mrs. Rosacrans, Mrs. Mead, Miss Caldwell, Mrs. Hodges.

Duet—Mrs. Wood, Mrs. Hodges.

Duet, "Something" from "The Firefly" (Friml)—Mrs. Moore, Mr. Dickinson.

An enthusiastic audience greeted them, encoring every number. The Britton community who have been active toward the success of the concert were Mrs. Roy Britton, Mrs. Leon Exelby and Mrs. Ernest Palmer.

Union Services Start Jan. 29th

F. L. Curry, State Evangelist To Conduct A Two Weeks Campaign At The Baptist Church. Five Churches Join In The Campaign. Noted Singer To Be Present.

Commencing on Sunday night, Jan. 29th, a two weeks evangelistic campaign conducted by Rev. F. L. Curry, a State Evangelist, will be held at the Baptist church with all five of the local churches joining in the services.

Rev. Curry is a noted speaker and evangelist and he will be assisted by one of the finest singers now appearing in such work. He is a colored man and the newspapers in the towns where he has appeared give him great praise for his fine voice.

A county campaign will be conducted all over this county at the same time and every community is joining in the services. Other teams will do the work in the towns and communities outside of Tecumseh.

The services will undoubtedly attract large crowds as they have elsewhere on account of the excellent sermons and the splendid music. Everyone is welcome to these services which will be conducted each evening commencing at 7:30.

MERRY-GO-ROUND ENTERTAINED TUESDAY EVENING.

The Merry-Go-Round Club was entertained by Mr. and Mrs. R. N. Lowe assisted by Mr. and Mrs. Leon Rosacrans at the very hospitable home of the former last Tuesday evening.

A very delicious dinner was served at 7 and forty guests sat down to the tables. Lighted candles in the center of each table cast a pleasing glow over the animated scene and this together with the sparkling conversation made the hour one of great enjoyment.

After dinner the men enjoyed the usual smoker while the ladies prepared the tables for "500." Ten tables vied with each other for the honor of being named the winner and for the ladies Mrs. J. H. Smith took coveted honor while several young matrons stood an equal chance for the consolation. For the gentlemen, H. W. McClure tied with Dr. E. E. Hendershott for first place and then beat the genial Doctor out in the cut.

It was an evening of great enjoyment to the guests and although the mercury was very low outside, all was warmth and gaiety within, and to their gracious hosts, everyone was indebted for an evening of much pleasure.

Out of town guests were Mr. and Mrs. Harry Rosacrans of Toledo, Mrs. Don Heesen of Carrollton, Ill., and Mrs. James Boyd of South Bend, Indiana.

CRAIG—PALMER.

A wedding that came as a surprise to their many friends, took place Saturday afternoon at the M. E. parsonage in Adrian when Miss Leah Palmer became the wife of Harold Craig, the Rev. Mr. Rice performing the ceremony. They were unattended. The bride was neatly gowned in blue georgette with coat and hat to match. Mrs. Craig, the daughter of Wm. Palmer of Milan, and popular in the younger set, is a graduate of the Milan schools and has been among the successful teachers in the public schools in Monroe Co. Mr. Craig the son of James Craig, is well and favorably known in this vicinity where he has spent his entire life.

After a short wedding trip they have returned to his fathers' farm north of town where they will reside, and where they are pleased to welcome their friends, who join in hearty congratulations.

Greatest Strike In History Is Now On

Thirteen Million Farm Families Cannot Buy Goods, And That Is Exactly The Cause Of All The Hard Times In America Today. Tecumseh Suffers Little Because Merchants Have Reduced Prices Heavily, Thus Taking Up Part Of The Farmer's Loss.

(By S. T. Hughes)

Washington, D. C.—The American farmer never strikes.

Paradoxically he is on a strike now.

But it's a strike he has not "called," that he is against, one that has been forced on him.

It's no riddle. The farmer's strike is a buying strike and he doesn't buy for the simple reason that he can't.

And because more than thirteen million farming families in the United States can not buy, the business of the whole country is suffering.

What's going to be done about it?

Well, the great financiers of the country are beginning to see that the farmer must have money so that he can go to the stores and the factories and big dealers and buy goods. They are beginning to see there will be no prosperity for themselves and for manufacturers and business men generally until the members of those thirteen million families can buy the necessities, and more. They are beginning to wake up to the fact that closed factories and idle workingmen in the cities are only an effect of the inability of the farming folks to buy the products of shop and of mechanical labor.

The government is beginning to see it too, as witness the loaning of ten millions by the U. S. War Finance Corporation to hundreds of country banks for the sole purpose of lending that money cheaply to farmers. As witness President Harding's urgent advice to Congress to get bsuy.

And so, in New York and Washington, I find captains of finance and captains of government putting their heads together to find the way out.

The farmer is on a forced buying strike, but he never strikes against work. He is always producing—always—year in and year out, good times or bad, good weather or bad, even though he knows that he will lose money on his crops.

What The Farmer Must Pay
(Average prices)

	1921	1913
Farm wagons	$146.60	$77.00
Mowers	84.35	48.70
Fertilizer, ton	35.00	23.75
Harness	28.25	15.00
Plows	40.50	14.75
Shoes	4.00	2.25
Coal	10.50	5.75
Harrow	29.50	11.50
Salt, bbl.	3.26	1.68
Overalls	1.00	.80

This winter he is losing five billions of dollars on the 1921 things he produced in toil and sweat.

The purchasing value of his dollar is only 36 cents.

He must spend $2.59 for the necessities he bought in 1913 for $1, or 159 per cent more.

The year before the war he got 70 cents a bushel for his corn; now he gets about 40 cents. But before the war he paid $5.75 a ton for his coal (on the average). This winter he pays about $10.50 a ton.

BABSON SAYS:

In a recent statement Roger Babson, the statistician most consulted of any man in the U. S., says: At this stage of depression the main problem is selling. Cut down your production expenses as far as you can, do without further expansion in new buildings and equipment, but DON'T SKIMP ON YOUR SELLING EFFORTS. Now is the time to use every bit of reserve you may have in redoubling your selling efforts. Increase your advertising but do it intelligently. Cultivate your local field thoroughly WITHOUT DUPLICATION of your efforts. Take the aggressive but wise course. There will be plenty of business for the firm which goes after it and they alone will bring home the bacon.

And Mr. Babson knows what he is talking about. He is consulted more than any other business man in the whole country for the perfectly good reason that his advice has been found to be the very best obtainable and if followed is quite certain to work out exactly as he predicts. Modern business is not a haphazard affair, it is a well organized institution which functions true to the course mapped out and produces exactly as it is wisely and capably managed. Take Babson's advice and cultivate your local field thoroughly without throwing your money away. The best and most completely acknowledged "business getter" is through the colums of your local paper which covers the field you draw from and which is a weekly visitor appreciated in every home for miles around.

And just in proportion to the success of your paper is your success assured. A strong vigorous newsy paper commands the respect and attention of a large list of readers, and your message goes with it into the homes of all the people, and that is the kind of a paper the Herald is. It is the best weekly paper in the best town in Michigan and its circulation is steadily increasing because it gives the people all the news thats news and that is what they want and pay for. And the people have found that to read the ads and profit by them saves them hundreds of dollars every year, hence they look for these sales talks and bargain offers with increasing watchfulness, and it pays both buyer and seller. Babson's advice is surely worth following.

McLAIN—HAMMEL.

Friends are receiving from Mr. and Mrs. O. D. Hammel of Detroit announcements of the marriage of their daughter, Miss Lilas M., to Raynor E. McLain of Tecumseh. The wedding took place in Detroit Saturday afternoon.

Miss Hammel is well known in Tecumseh having lived in the family of her brother, Dr. H. H. Hammel nearly all of the year 1920. Both she and Mr. McLain were in the junior class of last year. She returned to Detroit with her mother last winter and has since been in school.

Mr. McLain, who is the son of Mr. and Mrs. Henry McLain of Raisin, has been working in Detroit but will bring his bride here to reside at the old home.

NEBRASKA PREACHER SAYS IT PAYS TO ADVERTISE.

Kearney, Neb.—The Rev. Oliver Kene has been pastor of the First Methodist Episcopal Church here four years.

In that time he's quadrupled his membership.

Changed his church from an open-one-day-in-seven institution to a seven-day-a-week one.

Established a church cafeteria and community center.

How did he do it?

"By advertising!" he'll tell you enthusiastically. "That makes a big business organization go, so why shouldn't it work with a church?"

Kene often inserts full page advertisements in newspapers here. He uses posters and signs at the church.

"Publicity," he says, "changes the automobile from an enemy to a friend of the church. When the people of the whole region know of your church and its work, the car will carry them to the church instead of away from it.

"The expense of publicity may be met by increased collections—more people come and more is given. No church board need be afraid of the extra expense if the advertising is wisely placed and backed by the 'goods.'

"What is the use of preaching to 40 people and 100 empty pews when by publicity you can have a house full, or nearly so.

"Christ said to go out and compel them to come in. Compelling advertising is one modern way.

"Nothing can take the place of the gospel. Not movies, nor music, nor half-baked addresses on current topics. Advertising must be, backed by a full-orbed gospel message from the pulpit."

Kene's success has been so spectacular that investigating committees have been sent here by eastern churches to find out how he did it.

CASE AFTER CASE.

Plenty More Like This in Tecumseh.

Scores of Tecumseh people can tell you about Doan's Kidney Pills. Many a happy citizen makes a public statement of his experience. Here is a case of it. What better proof of merit can be had than such indorsement?

Thomas Russell, retired farmer, 209 Pearl St., Tecumseh, says: "I have used Doan's Kidney Pills on different occasions and have always found them beneficial. My back gave out on me, due to heavy lifting when working on the farm and my kidneys acted irregularly and showed signs of disorder in other ways. I suffered from rheumatic pains in my lower limbs. Whenever I felt these symptoms coming on I got a box of Doan's Kidney Pills at Pulver's Drug Store and they soon relieved me."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Russell had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—Advertisement.

MRS. TEMPLE'S CLASS ENTERTAIN THEIR HUSBANDS.

The ladies of Mrs. Frank Temple's Sunday school class gave their men folks a very delightful evening at the M. E. Church Friday in accordance with their plans for their quarterly meetings. A roast pork supper was served the whole number of 65 being served at once, Mrs. Newsome being in charge of this feature. The following program was given, announced by Mrs. Wm. Lockhard.

Singing by company.
Reading—Rev. W. A. Gregory.
Reading—Mrs. Floyd Waring.
Vocal solo—Mrs. S. N. Wyman.
Reading—Mrs. J. S. Temple.

The men were then asked to write receipes for certain baked goods such as fried cakes and brown bread. Some of them would certainly cause a hurry up call for the physician. A guessing contest also interested the ladies to the great glee of the men.

This class which is composed of some of the best workers of that church meets every month but every three months holds these very pleasant affairs at which their husbands are their guests.

LITTLE BOY DIES AFTER THREE YEARS ILLNESS.

Raymond, the 8 year old son of Friday night at the U. of M. hospital, Ann Arbor, to which institution he had been taken for treatment on Thursday.

For three years the little fellow has been a sufferer from diabetes and last week Mrs. Sanford decided to go to the hospital with him to learn to prepare the food he should have to add to the diet to which he has adhered so patiently, but death followed shortly.

Raymond was born Feb. 9 1913 and has always lived at the farm home northeast of town. The parents survive, also one little sister, Helen Louise and the two grandmothers, Mrs. Eliza Sanford and Mrs. A. W. Mills, besides several uncles and aunts.

The funeral was held from the home Monday afternoon, Rev. J. F. Kiskaddon officiating.

The bearers were four of the little lad's school-mates from the Culberston school. Two appropriate selections were rendered by Mrs. Frances Stone and Wilbur Boyce.

Among the many friends coming from away for the sad service were Wilfred Mills of East Lansing, Miss Margaret Belden and Mr. and Mrs. C. M. Crittenden of Detroit, Mrs. Archer Babcock, Mrs. Bess Patch and Mr. and Mrs. Leon Wilson of Adrian, Frank Sanford of Albion, Mr. and Mrs. Ernest Denton, Claude Meade and J. L. Ackerson of Milan, Guy Davidson of Ann Arbor, Mr. and Mrs. Elmer Ellis of Dundee, Mrs. Silas Smith and Miss Eva Van Vleet of Britton. A profession of beautiful flowers attested the sympathy of the hosts of friends.

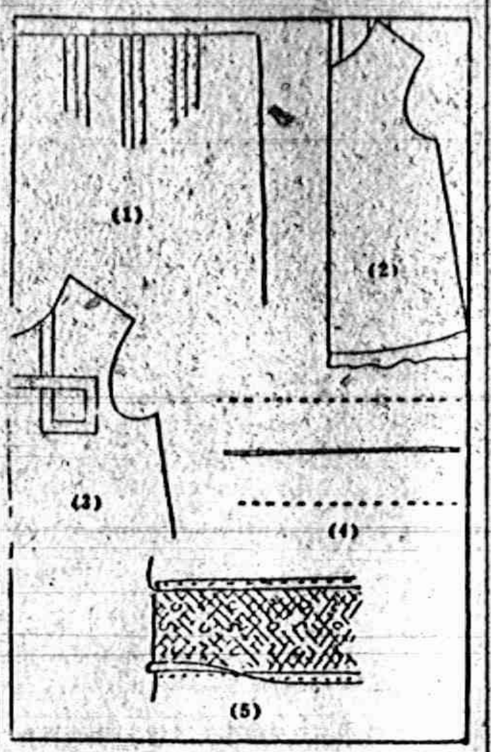
HOW TO ADD THE PIN TUCKS

Directions Will Aid Home Dressmaker in Construction of New or Remodeling of Old Garments.

How often do you want to add a few pin tucks or change the style of collar, when you are making a dress? Copy the pattern that you are using as a foundation pattern in strong wrapping paper. If you want to add pin tucks to the front of a dress, cut off a length of goods, an inch or so longer than the front of your pattern. Tuck it, as shown in Fig. 1. Fold the goods through the center and lay on the pattern, as shown in Fig.



2, bringing the fullness of the tucks straight down in the front. Pin the pattern to the goods and cut out the front.

If you want to add a wide tuck to the front, mark on the pattern where you want the tuck to come, marking all the way from the top to the bottom of the pattern. Take another piece of paper and lay in a tuck just this width. Place the pattern on it, bringing the marks on the pattern directly over the tuck in the paper and mark around the outside of the pattern. It will give you a pattern with the tuck allowed.

It's an easy matter to add insertion in any fancy design, if you mark the design on the pattern first. Mark exactly where the insertion will go on the pattern. See Fig. 3. Mark two lines the width of the insertion apart. You can put it on in squares, ovals, circles, bow-knots. After you have your design carefully marked on the pattern, lay the pattern on the goods and trace over the marks with a tracing wheel.

Lay the insertion on the right side of the goods along the marks and baste it in place. From the right side of the goods, stitch either side of the insertion. Then, on the wrong side of the goods, split the goods centerway of the lace. See Fig. 4. Cut off the raw edges, leaving only enough to turn a narrow hem on either side. Roll the raw edges and hand fell them in place or machine stitch them a second time. See Fig. 5.

STYLE NOTES

Dyed lace is used for evening frocks. It is dyed green, red, blue or any other color that is desired, and it is made up over tulle or crepe.

Some of the frocks made of heavy cloth are belted with narrow cloth girdles, which are tied and hang in long-tasseled ends below the hem of the skirt.

Fur hems are a part of some of the new suits. If there is a hem of fur there is, of course, a collar of fur to the jacket, and usually there are deep cuffs of fur.

Hatpins have a decidedly decorative place on many of the new hats. They are made of jet, pearl, jade and other colored stones.

A black evening frock has a novel train consisting of a panel attached at the shoulders, split into two parts, each ending in a long point finished with a jet tassel on the floor, and caught in at the waist with a jet girdle.

A smart gown recently shown was made of ivory canton crepe cut on chemise lines, and trimmed with wide bands of silver cloth, which hung lower than the canton crepe skirt. The girdle was a rope of ruby beads, knotted at one side and falling in long tassels.

A frock made of all lace is shown in lavender, with a graceful pattern. At the sides, chiffon panels in the same shade are used, with long ends reaching to the floor. The all lace dress in black is shown in a type known as the reception dress, a model designed for a woman's figure, with slim panels of satin to give the effect of slenderness. Flowers of jet are used at the waistline.

Millinery Styles.

In the millinery lineup all black hats are sharing honors about equally with bright colored bits of headgear, and there is no rule at all to govern size. Small, medium and large hats are shown, the question of "which shall it be" being decided by individual becomingness. The Spanish note continues strong, and much uncurled plumage is seen in the trimmings. Regular fringes of burnt ostrich extend all around many hats, half veiling the eyes of the wearer.

Tams Match Scarfs.

Tam effect hats of crocheted fabrics with narrow sweater width scarfs of the same fabrics form novel sets.

EGG-EATING HEN IS DIFFICULT TO CURE

Cut Her Head Off as Habit Is Practically Incurable.

Providing Well-Balanced Ration Is Insurance Against Development of Practice—Causes for Feather Pulling.

(Prepared by the United States Department of Agriculture.)

An egg-eating hen is a bolshevik that is liable to corrupt the rest of the flock with her uneconomic notions regarding rations. She should be removed to a place where her example will have no effect on her sisters, or she should have her head cut off, for the habit is practically incurable. Poultrymen of the United States Department of Agriculture say it can be prevented by taking proper precautions,

Eating eggs begins usually when an egg has broken in the nest, or when it has been cracked by freezing and then thawed out. Keeping the nests well supplied with straw or other nesting material will reduce the danger of breakage, and darkening them will reduce the chances of broken eggs being found by hens. It is a good idea to gather the eggs twice a day in cold weather so that none will be frozen.

Hens that are not properly fed will have a ravenous appetite for eggs, both the shells and the contents, so that providing a well-balanced ration is some insurance against the development of the habit. In winter there is particular danger that some lack in the feed will develop an abnormal appetite, so plenty of animal matter, such as meat scraps, and lime in the form of oyster shells or bone, should be taken to provide it.

Another bad habit enjoyed by these dietetic bolshevists is feather plucking from themselves or from other members of the flock. Improper feeding, insect pests, and too close confinement are the usual causes for starting this habit. But it is not so hard to cure as egg eating. A plentiful supply of animal and green feed and good range or plenty of exercise by feeding in a deep litter, and freedom from insect pests will usually bring the fowls back to a normal appetite.

FLY-WHEEL AIDS GRINDSTONE

Jerky Movement That Is Destructive to Good Work on Ax or Chisel Is Eliminated.

To sharpen tools many people have to turn the grindstone without assistance, using the foot on a treadle and the hands on the article to be sharpened. This gives a jerky move[illegible] to good work in putting an edge upon an ax or chisel. One needs a fly-wheel, and this can cheaply be found in a second stone of cement, and mounted on a frame beside the grindstone, as shown. Make a circle of stiff pasteboard upon a smooth surface and fill in with cement, with a few old wires to bind the whole together. Extend the iron shaft of the grindstone to enter the cement, with a square section made on the shaft, but leaving the shaft round on either side for bearings.—Farm Journal.

MILKING THREE TIMES DAILY

Additional Amount of Milk and Butter-fat May Hardly Pay the Extra Expense.

Cows milked and fed three times daily will produce more milk and the average test will be higher than though they were milked only twice. The rule is that milking three times daily is advisable where records are being made, or where cows are milking so largely it is burdensome for them to carry their milk-making nutriments for periods of twelve hours each. Under practical conditions the question of time is the determining factor. It costs more to milk three times daily than only twice and if extra help must be hired the additional amount of milk may hardly pay the extra expense.

HIGH SCHOOL ENGLISH CLASS VISITS HERALD OFFICE.

Last Friday afternoon the tenth grade English class of the high school in charge of their teacher, Miss Mildred Boyce, visited the Herald office to see at first hand how a modern newspaper is made.

The class was shown through the office which is one of the best equipped country offices to be found and the making of a newspaper was explained from the copy desk to the finished paper.

The linotype machine was explained and the wonderful work of this almost human piece of mechanism was interesting to everyone. It is (by the way) the most intricate single machine made. To see the operator fingered a key board and a finished line of type come through ready for the paper just as fast as one could spell it out on a typewriter is one of the wonders of mechanics.

The class was shown the forms and how they are made up and the press room where the paper is printed. The different grades of paper were discussed and as much information given as could be handed out to such a large class in a short time. The young people were very attentive and certainly their behavior and interest in the question speaks mighty well for their splendid training and their future success in life. It is hoped that they gained a slight knowledge of how a newspaper is made and the Herald wishes to receive a call again from such good listeners. Good luck and may you all get an A on your efforts.

CRUSADERS' COMING HERE THIS WEEK.

ing, which opened the three days' gathering. In opening the program that followed the banquet, Toastmaster T. O. Huckle announced "In Quest of the Best," as the conference theme. Following some short responses to toasts, Dr. Howard Field of Detroit responded to "The Challenge," and his talk is said to have a great deal to do with the enthusiasm that continued through the meetings that followed.

Saturday's program was in charge of Dr. Peter F. Stair, who is director of religious education in the Detroit area, and Mrs. Stair who is superintendent of young people's work in the area. Following short talks during the morning Dr. Stair conducted a group conference of Sunday school workers, and District President T. O. Huckle a conference of Epworth League workers.

In the afternoon Miss Josephine Warner of Ypsilanti, second vice president of the Ann Arbor district Epworth League, spoke on "The Crusader's Field of Conquest." and also conducted a demonstration of a mission study class. Following this a group from Wayne composed of Ansel Baker, Vira Butler, Laura Butler, Clinton Whitney, Lawrence Steinhauer, with Miss Ellen Martin as teacher, conducted a demonstration of the worship period.

Saturday evening the church was crowded when a group of Epworth Leaguers from Ann Arbor First church gave a Chinese play, entitled "The Winning of the Honorable Mrs. Ling." The players were dressed in expensive Chinese costumes which they secured from the University Chinese students, and the stage was appropriately decorated with Chinese furnishings. This is said to have been one of the outstanding features of the entire conference, and gave the young people a new vision of the work being done by Miss Geraldine Townsend, a Michigan Epworth League young lady, who is being supported by Michigan Epworthians in her missionary work in China.

Sunday morning the conference sermon was delivered by District Superintendent H. Addis Leesen, and in the afternoon the conference was brought to a close with a life work service in charge of Dr. Stair. During this period nearly 100 young people went forward and signed Life Service cards and joined the Three W.'s

From here Dr. and Mrs. Stair go to the south part of the Ann Arbor district, where they will prepare the young people for a similar gathering to be held at Tecumseh, Jan. 27, 28 and 29.

GREATEST STRIKE IN HISTORY IS ON.

(Continued from Page One)

So, the purchasing value in coal of the 40 cents he gets this winter for his corn, is only about 21 or 22 cents.

Before the war the farmer got $7.60 per hundred pounds for his hogs; now he gets about $7.30. For a wagon to haul the hogs to the railroad, he paid $77 in 1913—and now he pays $145 to $150 for the same wagon.

I could cite instance after instance like these—it works on almost everything the farmer produces, and buys.

Look at the table that accompanies this article: That tells the story in figures.

Now, what is your congress going to do to change the situation? What is the country going to do to start the farmer buying again and return prosperity not only to him but to all business and all workingmen?

That's a question that must be answered during the next three months.

Watch 'em!

FARMERS INSTITUTE DRAWS BIG CROWD.

(Continued from Page One)

often we feed to all, rather than to eat, for 90% of the sickness of the county can be traced back to our food. Our food should be only 10% meat but her appeal was for milk for every body, a quart a day for every child and a pint for an adult. She would cut out pancakes and all fried foods. This last part was repeatedly referred to by every speaker showing the great hold pancakes have on us.

In the discussion following Mrs. A. O. Howard asked how we could be careful of our diet when we have pot luck dinners served every where we go.

Mr. Howard heartily praised the farm women and appealed for more consideration for her by her families.

Mr. Hartman of the newly formed state board of agriculture then spoke on "The Farmer's Problems" which he says are finance, markets, transportation and taxation. He stands for a high protective tariff on our products of which sugar is a big item.

By far the best speech, showing the deepest study in the farmers present difficulties and the legislation necessary to help was made by Mrs. Dora Stockman of Lansing. First she went after the question of saving the babies, of whom she says 60% in this state have a cow for stepmother and death takes one out of ten. She advanced strongly the gasoline tax to not make the farmer who drives little pay for the upkeep of the roads which are worn out by the great freight traffic between the cities. She also asserted that an enforcement of the income tax law would relieve our tax situation completely.

For the evening session only a small crowd appeared but were well repaid as everyone joined in the discussions informally and many points of the farmers troubles discussed.

Prof. W. D. Henderson of the U. of M. spoke on "Education for the Child." Teach the child our language and to spell it, to master the fundamentals. The great trouble with our county schools is the constant stream of teachers passing through. Put sense in the education of your child but above all make them obey.

Jim Helme of Adrian, than whom probably no man in Lenawee is better known gave the final speech of the day using the "Farmer's Finance" as his topic. The farmer is between the upper millstone of taxation and the lower millstone of low prices, but when Europe comes to her senses and takes up manufacture again we will see better conditions. We've got to stop on the program of road building and catch our breath. That tax is a burden. Then the income tax has got to be enforced and the joker the manufacturer placed in the law regarding the rate, pulled out. We make an appropriation of $2,113,000 for the M. A. C. and create a department of agriculture which works over much of the same ground and in which are 86 employed with a pay roll of $150,000 yearly. We keep up a military department yet preach disarmament. To every company organized the state will give $25,000 for an armory, so Adrian organized two companies and the state is all the time keeping a company of state police.

Henry Raymond led in the discussion which was also taken part in by Culver Wilcox, the "Ag" teacher, Lee McConnell, James Cupples, N. C. McConnell and others.

Through the whole institute the farmers low prices and high upkeep was the topic and every speaker was trying to find a way out, and it was an exceedingly interesting institute as are the others being held over the county this week.

The Best Battery
Made is Now Manufactured
Right in Tecumseh

Read the following and you will agree we have it. Battery has been severely tested in many makes of cars for 14 months, and it delivers the goods:

THE MIRACLE BATTERY

This battery is built of the best material obtainable to withstand the most severe use, and with ordinary care will more than equal the best batteries built today.

We have taken every precaution in selecting the material used in the Miracle battery and absolutely know that there is nothing on the market which it itsequal.

Commencing with the box which is made from the best grade of seasoned oak which is not covered up with paint, you can see that part is quality second to none.

Next is the plates used in the battery which are made from the best material obtainable, made heavy enough to withstand the most severe use and still light enough to enable easy charging and a snappy turnover of the starter which it is called upon to operate.

The separators used to insulate the plates are of wild cherry which is the best wood known to the battery industry for this purpose because they last longer than the softer woods and prevent the plates from buckling which is a common ailment to many batteries otherwise first class.

The locking type pillar post is another feature of the Miracle battery which should not be overlooked as the lock which holds the plate group to the hard rubber cover, compresses two soft rubber gaskets one on either side of the cover tightly into place making it impossible for acid to leak by this point and cause corrosion to the connections at the top of the battery, also supports the plates so that they do not rest heavily on the bottom of the jar which would cause the partitions of the sediment compartments in the bottom of the jars to saw notches in the lower side of the plates and allow them to settle to the bottom which is sure to cause a short between the positive and negative plates.

The Miracle battery is built by men who know battery material and know how to, and do put these materials together for long use and to satisfy the most exacting user.

Let your next battery be a Miracle and you will know what real battery service means and more than this you will save dollars by it, real hard earned dollars.

AN UNFORTUNATE KIDDIE.

Frederick, the little son of Mr. and Mrs. Floyd Bryan, is nursing two badly burned hands. A few days ago his big dog ran against him, pushing him onto a hot stove with the result that both hands and one wrist were cruelly burned.

Then in a few days the men butchered and little Frederick was standing around watching Dad cut up the meat. The dog thought one of those pitifully bandaged hands was another bone for him so grabbed it, biting through the hand. The little fellow is a brave little chap and still loves that big clumsy play fellow of his.

AMUSEMENTS.

Undoubtedly one of the biggest screen offerings to be shown at the Bradley Opera House this year is the production of Mary Pickford's newest picture, "Little Lord Fauntleroy" which is booked for three nights, Sunday, Monday and Tuesday, February 5, 6, 7.

"Little Lord Fauntleroy" is Mary Pickford's ideal picture, never has the charming little star been seen in a role better suited to her personality than in the duel roles of the little Lord and as Dearest, his mother, in this charming play of Frances Hodgson Burnett's appealing story.

The photography is wonderful and the camera work so artistic that it surpasses anything of the kind ever before attempted.

Wonderfully appealing and charming, positively her greatest triumph best describes Miss Pickford's work in this screen classic and the story which has been read by millions will now hold these same millions spell-bound when presented on the screen.

Ever since the first "Cappy Ricks" story was published in the "Saturday Evening Post" people have been asking for a "Cappy Ricks" picture. Next Sunday and Monday, January 29-30 the management of the Bradley will present your screen favorite Thomas Meighan in "Cappy Ricks"—its got everything a picture can have and a whole lot no picture ever had before and just to make it doubly good Miss Agnes Ayres, the handsome star just recently seen in "The Sheik" was choosen to play opposite Mr. Meighan.

You'll find "Cappy Ricks" a real evenings entertainment and well worth driving in to see and in it you'll find a romance of the South Sea Isles; the glory and charm of the sea and the picturesque life of old San Francisco.

NEW INDUSTRY PROMISES BIG THING.

Very few people know that there is a new industry starting in a small way but which promises to be a big thing for Tecumseh.

For the past 14 months VanDoren and Houseman have been making a new battery for autos and they have put them out in many different makes of cars and to date not one has gone bad or given the least sign of trouble. That surely is a good record and from these tests they have developed a battery that promises to be one of the best made and the fact that it is to be made right here in Tecumseh is a mighty good thing for the town and should be encouraged by everyone.

The makers of the battery have said nothing but kept right on experimenting and working out the details of a better battery and they have brought it to a state of perfection where they feel satisfied in announcing it to the public.

If the industry develops as it looks now and as the battery itself has proved its worth, there certainly is a big thing in store for the manufacturers of this new necessity. We are glad to announce this to the people and the firm will have the co-operation of everyone who desires to see a new and especially a home industry succeed.

OBITUARY.

Raymond Wesley Sanford was born in Tecumseh, Michigan, February 9th, 1913 and died at the U. of M. hospital, Ann Arbor, January 20th, 1922.

Contending for over three years with Diabetis Mellitus he had been taken to Ann Arbor only the day previously hoping to be benefited by their diet system. He had a cold which aided the disease to develop quickly into acute acidosis and he passed peacefully away Friday evening.

A brief story of a life lived bravely and patiently but in a losing fight. We shall miss his happy smile and cheery "Allwite" but his influence will stay with us and we cannot but rejoice that he is in that happy land where sickness and sorrow never come.

"I think the Angels knew him,
And had gathered to await
His coming, and run to him

LADIES BAND WILL GIVE DANCE.

The Ladies Band will give a dancing party at Witherell Hall on Feb. 8th for the benefit of the band. A concert will be given before the dancing commences and it promises to be a very enjoyable affair.

The Ladies Band is one of the finest organizations in the state and is a distinct pride to every loyal Tecumsehite consequently when they put on anything every person in the town should get behind the movement and boost as hard as he can. The band certainly does its part to help along every other cause when their services are asked for and now it is up to us to help them along and show our appreciation for the splendid services they give to the town. Come on everyone, buy a ticket and go if you can but buy that ticket anyway.

"NEW MINISTER" PLEASES PEOPLE.

The play "The New Minister" put on by the B. Y. P. U. of the Baptist church certainly is a "scream" when it comes to pleasing the people with its funny situations and local color.

This is the second time it has played here and again it drew a good sized crowd ond those who saw it were loud in their praises of the entire performance. The cast was made up of the young people assisted by some of the older ones and each one took his part like a veteran bringing out the laughs in a solid chorus whenever the funny parts were reached. It was a great success and the young people can feel well repaid for their efforts.

PARENT-TEACHERS MEETING FEBRUARY 2.

Don't forget the Parent-Teachers meeting next week Thursday night at the school house. Dr. W. D. Henderson will be the speaker. He is at the head of the civic department of the U. of M. and his talk will be very interesting.

A program is also arranged and every member is urged to come and enjoy the event.

MEN'S COMMUNITY STUDY CLUB HOLD VERY INTERESTING MEET.

The first meeting of the Men's Community Study Club of Clinton was held in the parlors of the Methodist church Monday evening. The club is what its name implies and its organization promises benefit to the town and community.

Two brief addresses were given by F. I. Hard and Rev. W. A. Gregory of Tecumseh.

One item mentioned by Mr. Hard is of special interest. It is known that additional school room must soon be provided and he suggested that it would be well to make the new Community House which is being talked of a part of the school building, adding some new school rooms at the same time, thus tending to make the school a social center.

The chief address was given by Rev. Matt Mullen of Port Huron. It was a strong, focreful talk by a practical man. The one hundred fifty men who heard him appreciate the efforts of the committee bringing him here.

Fine music was furnished by the combined orchestras of the M. E. and Congregational Sunday schools.

The Ladies Aid of the Methodist church served a bountiful supper to which the men did full justice.

Altogether it was a most successful meeting. Rev. B. A. Warren invited the Club to meet next month in the Congregational church.

PYTHIAN SISTERS INSTALLATION AND DANCE.

Last evening the Pythian Sisters made a very pleasant party for many people. It was their annual installation when the officers elected in December were placed in office with the exception of the manager who is now Mrs. Bessie Foster. The installing officer was the grand chief, Mrs. Adams of Litchfield. A short program followed with these numbers.

Song—Margaret Leighton.
Recitation—Rena Marsh.
Solo—Ernest Church.
Recitation—Lorain Herring.
Reading—Mrs. Billington of Tipton.

The balance of the evening was spent in dancing to music rendered by Mrs. W. L. Coller and son Morris, the company augmented by many K. of P. members and their wives.

At 6 o'clock the company had been served a bountiful pot-luck supper.

THE FRESHMAN PARTY.

The Freshmen held forth at the high school gym Friday evening, there being about fifty present. Gaston Burridge, the class president announced the following program:

Piano solo—Alice Barber.
Poem by Edgar Guest—Raymond Austin.
Solo, "Let Rest of World Go By"—Alice Collins, accompanied by Madeline Boyce.
Piano solo—Maxine Wyrill.
Reading, "How My Pa Played Base Balll"—Alice Barber.
Solo, "The Beautiful Ohio"—Harold McCann.
Harold McCann, accompanied by Madeline Boyce and Raymond Austin.

They were chaperoned by Miss Bogart and Mr. Wilcox.

LOCAL AND PERSONAL.

Miss Marjorie Boyce went to Adrian Tuesday to be a guest of her aunt, Miss Julia Gilmore, and attend the McComb-Clase meetings.

Miss Myrna Van Vleet has been visiting her Ypsilanti relatives since Tuesday, taking advantage of her success in evading those semester tests.

Mrs. L. Beckman of Toledo came Wednesday to the home of R. A. Heesen for a short visit. On Feb. 1, Mrs. Beckman leaves for a tour of the Holy Land and will visit France, Germany and other countries of Europe before returning. She sails on the famous George Washington.

Letters received by Mrs. Alva Waring tell of a serious accident which befell her niece, Miss Adelaide Putnam at Duluth. With a party of young people she was coasting down a hill when their sled skidded and she was thrown against an auto parked beside the road. Her knee was broken and ligaments torn so she was taken to a hospital where she now lies with her leg in a cast from her hip to her toes.

Crusaders Hold Rousing Meetings

Large Delegations Of Epworth Leaguers Come From All Nearby Points. 190 Sit Down To Banquet Friday Night. Dr. And Mrs. Stair Prove Great Organizers. T. O. Huckle Of Ypsilanti Is Chief Assistant.

One of the biggest things in the way of young peoples work ever held in Tecumseh was The Crusaders Conference held at the M. E. church beginning Friday evening with a banquet at which 190 were served and lasting until the consecration service of Sunday afternoon. Dr. and Mrs. Peter Stair of Ann Arbor have been placed in charge of the young people's work in the Detroit conference and the manner in which they conducted this gathering proved Bishop Henderson's knowledge of them.

They had visited the churches in this district and the response sent in the form of delegations to Tecumseh was truly amazing. There were 280 registrations, the largest delegation, 26, coming from Clinton, Saline sent 23, Manchester 22, Morenci 16, Hudson 15, Deerfield 14, Clayton 14, Dundee, 13 and Tipton 13. All the other churches of the district were represented, many coming from Monroe, Petersburg, Flat Rock, Milan, Weston, etc.

T. O. Huckle of Ypsilanti, president of the District Epworth League, was ever present and an important factor in the success of the meetings. Rev. W. A. Gregory, between helping to care for his sick babies, waiting on the Ladies Aid and looking after everybodies comfort, was on the jump every minute.

Robert Kneebone of Ann Arbor is a whirlwind as a play captain and both Friday and Saturday evenings conducted play hours in which new stunts and games were enthusiastically enjoyed by the young folk.

The [illegible] society served the [illegible] Friday evening and [illegible] and supper on Saturday and those church ladies are [illegible] Mrs. Oscar Ladue and Mrs. A. W. [illegible] had charge of the kitchen while Mrs. H. W. Whaley was in charge of the dining room for all three meals.

The Ladies Band played during the banquet of Friday night and were highly appreciated. The tables were prettily laid, were lighted with candles and decorated with potted plants in bloom.

After the banquet came several toasts, with T. O. Huckle, as toastmaster. He has a great fund of jolly stories and started off the conference in a very pleasant vein.

Rev. W. A. Gregory gave a hearty welcome to the Crusaders which was responded to by Rev. H. Addis Leeson, superintendent of this district. In his address he thanked the Tecumseh board of commerce for the neat white silk badges each delegate wore.

Miss Katherine Reed responded to the toast "In Quest of the Best." "Putting Pep, Push, and Punch into the Program" was the toast of Rev. Smart of Manchester. "The Challenge," was the theme of the final address by Rev. Guy Hoard of Detroit. He made the challenge mean "Tune Up," appealing to the young people to take up the work of the cross.

Saturday morning Dr. E. L. Adams of Hudson was the chairman with addresses made by Rev. Leeson, Rev. Edwards, Rev. and Mrs. Stair and Mr. Huckle.

After dinner the McComb-Clase evangelistic party who have just closed a service of splendid ser-

Union Services Started Sunday

Evangelistic Work With All Five Churches Uniting Commenced Last Sunday At Baptist Church. Service Attract Big Audiences. Singer With Wonderful Voice Leads Big Choir.

Union evangelistic services were begun Sunday night at the Baptist church, but in which all five churches of the town are joining. The services are to continue thru next week. Rev. F. L. Curry, secretary of evangelism of the Baptist State Convention, is the speaker with Prof. Albert E. Greenlaw of Detroit leading the song service.

At the first service Sunday night Prof. Greenlaw had the assistance of a choir of fifty voices, coming from the different churches. He has a wonderful voice, showing excellent training and his solos are appreciated heartily. On Sunday evening he sang "Open the Gate of the Temple" and "He Lifted Me" as solos and received great applause.

Rev. Curry took for his theme, "The Mission of the Church." He is a forceful talker, but does not take sensational methods to reach the hearts of his audience, rather talking in a common sense way, appealing to the real man and woman and laying aside all frills. Here are a few thoughts of that sermon:

"What is your spiritual contribution to the church in Tecumseh? We want new appreciation of the church, the most unselfish force in the world. It is in the church we realize God, the pillar and ground of the truth. The great purpose of the church is to express the redempted love of Christ, to win men and bring them to God."

Monday nights there are no services. On Tuesday evening Rev. Curry took for his theme, "Preparedness."

In addition to the evening services cottage prayer meetings are being held each afternoon, the hostesses up to today being Mrs. A. W. Stahley, Mrs. Clarence Allison, Mrs. A. J. Winder, Mrs. Charles Orr, Mrs. George Hines, Mrs. Adeline Holdridge, Mrs. F. D. Avery, Mrs. G. R. Newsome, Mrs. Charles Harper and Mrs. Alvin Brazee. The different pastors conduct these services and they are a splendid help in the spirit of the evening service.

PARENT-TEACHERS MEETING

Do not miss the lecture this evening on the "Boy Problem" by Prof. Henderson of Ann Arbor, at the High School building at 7:30. Prof. Henderson spoke last week before the Farmers' Institute and those who heard him assure us that it will be well worth your while to hear him on this vital subject.

Your Last Chance!

The Herald list is growing rapidly toward the 2,000 mark and far exceeds our expectations from merely offering the people **9 MONTHS FOR A DOLLAR.**

And remember that this offer expires on Saturday night, Feb. 4th. All orders mailed before the expiration on that date will be received and credited. Come in before Saturday or mail your order before the time expires. We have already gone over the 1800 mark and the big rush is yet to come.

And the Herald is proud of what the people say about it. We have heard nothing but commendation from every side for the splendid paper we are offering at such a bargain price when all other county papers whose circulation comes with five hundred of ours are asking straight $2.00 per year, and they have to do it in order to make expenses.

The best weekly in Lenawee County is offered until Saturday night, February 4th, 9 months for one dollar. Come in and take advantage of it.

RIDGEWAY COMMUNITY MEETING.

The Ridgeway Community Club held their regular meeting last Friday evening at the Gleaner Hall. There were one hundred and twenty one people present, representing seventy families and it is safe to say that this is the liveliest community club in southern Michigan. H. A. Friedlander is president and neglects nothing that will serve to benefit and interest the meetings.

At the meeting Friday evening the program was prepared by the ladies and proved to be a most enjoyable one, while the gentlemen furnished the supper. Old time songs were sung and as one member expressed it, "it was the livest meeting he had attended since the war days." The program was as follows:

[illegible] by [illegible] Grace Aldrich and Gladys Baker; dialogue, "When Pa is Sick and When Ma is Sick" Phylis Jones and Arlie Haviland; solo, Mrs. Irvin Barnes; reading, Lillian Dibble; solo with chorus, Mrs. Warren Jones; dialogue "The Sewing Society," Mesdames Amos Sheriff, Henry McCarbery, Walter Haviland, J. O. Aldrich, Raleigh Dunham, Albert Filter and Miss Mildred Filter; reading, Fern DePuy; dialogue, "Unsuccessful Adventures" Mrs. Horace Dibble and Mrs. Glen Jones; vocal quartette, Mrs. Guy Pocklington, Mrs. Ed. Palmer, Mrs. Frances Stone and Miss Julia Gilmore; reading, Mrs. Moorehouse; recitation, Mrs. Will Allen; reading, Mrs. Henry Wood; closing song, chorus.

FORMER RESIDENT DIES IN DETROIT.

Lamont C. Bidwell, a boyhood resident of Tecumseh and again in later life, passed away Saturday at his home in Detroit where he has resided for more than twenty years. He had been an invalid for some 15 years.

Mr. Bidwell was born in Tecumseh 77 years ago, one of the sons of Mr. and Mrs. B. J. Bidwell, well known throughout this region as a prominent pioneer family. Mr. Bidwell married Mrs. Dora Clark, daughter of George J. Keyser of this place and with her survive the daughter, Mrs. Walter Briegel also of Detroit. He also leaves one nephew, R. J. Bidwell of San Francisco.

The funeral services were held from the home Tuesday with burial in Detroit. Mr. Keyser attended the service.

The American Legion Auxiliary well entertain the Legion members at a supper and card party next Tuesday evening, instead of Monday evening. Supper will be served in the Legion rooms at 6:30.

LIBRARY ANNEX AT HIGH SCHOOL.

Much reference work will be hereafter done at the high school instead of the library and in a measure relieve the congestion there at certain hours. A good sized room just north of the gallery of the auditorium has heretofore been unused, but it is heated and lighted sufficiently, so this week a load of reference books have been transferred there from the library and as soon as shelving is placed will be convenient for the students use. The teachers will have charge of the room and books.

This scheme is the work of C. F. Patterson, secretary of the board of education and he [illegible] of the labor of the removal of the books to the school.

COME TO THE JUNIOR PLAY.

The Junior Play of the Tecumseh High School will be held at the high school auditorium, March 1st and 2nd.

Never before in history has such a play been produced as "Aaron Boggs, Freshman." It has not yet been surpassed in its luxury of fun and vim. Gently mixed into this element of humor is the dreamy romance of love.

It gives a vivid picture of college life and how money influences the feelings of the college aristocrats, as when they believe Aaron Boggs to be rich and therefore elect him president of the Freshman Class.

Other characters of the play are likewise important, such as Lizzy, the charming waiter, and Cherry, the pretty little cherry blossom.

The characters of the play are as follows: John E. Anderson as [illegible] Boggs, Sr.; Donald Brown as Mr. Chubbs; Charles Walton as Second-hand Abey; Lawrence Harrington as Happy Jimmie Jamieson; Robert Collins as Pepper Jervis; Thomas Meade as Bean Carter; Raymond Platt as Kasey Jones; Dwight Hodges as First Student; Mary Pennington as Lizzy; Alice Hall as Mrs. Chubs; Thelma Ruesink as Mrs. Pickens; Bernice Austin as Cherry Carruthers; Luella Colson as Lois Hunter; Mabel Gill as Miss Evelyn Newcombe; Juanita Goheen as Loretta Rea; Ellen McCook as Miss Dollie de Cliffe.

MRS. J. B. PATTISON DIES IN RIDGEWAY.

Mrs. John B. Pattison passed away Wednesday morning at her home in Ridgeway aged 84 last September. She had been in failing health for the past three years.

Mrs. Pattison was in her youth Mary J. Dyer. She was born on a farm east of Ridgeway and with the exception of two years spent in Tecumseh she has lived all her long life in Ridgeway.

She is survived by two daughters and one son, Mrs. Harrie Wood and Mrs. Sidney Hathaway of Ridgeway and Marvin Pattison of Lenore, California.

Mrs. Pattison was an ardent Methodist, working energetically for that church while her strength would permit. She was a splendid friend, a good mother and a true christian. Short funeral services will be held at the home Saturday at 1 o'clock, standard time, with service at the Ridgeway church at 1:30 conducted by Rev. Cole. The remains will be laid at rest in the family lot in the Ridgeway cemetery.

Ford Will Make Nitrate at Shoals

Tells Senator Harris Contract Guarantees He Will Make Cheap Fertilizer.

Washington, Jan. 28.—Henry Ford Saturday renewed his guarantee to manufacture fertilizers at Muscle Shoals in event the government accepts his offer to lease the project.

The guarantee, Ford said through his secretary, was contained in his original proposal. His position was reiterated in reply to a telegram sent him by Senator Harris, Democrat, of Georgia.

Inquiry of Harris.

The inquiry from Senator Harris follows:

"Hon. Henry Ford, Detroit, Mich

"In news article yesterday statement is made relative to your contract for Muscle Shoals saying:

"One phase of the report, it was understood, will call attention of congress to the absence from the contract of a provision definitely guaranteeing the manufacture of fertilizers by the plants after they are made operative under the Ford offer. Mr. Weeks steadfastly favored the inclusion of such a provision in the contract but was unable to get the negotiations to persuade Mr. Ford to accept the suggestion in the form desired by the secretary of war.

"If this statement is correct members of the senate and the house, including the agricultural bloc and delegates of farmers' conference and millions of farmers who approved your efforts will be greatly disappointed to know the farmers will be left at the mercy of the fertilizer trust. I recall press dispatches at one time said you would guarantee to sell fertilizers at profit not exceeding seven per cent.

Hopes For Agreement.

"The farmers are in deplorable condition and very despondent, and one hope of [illegible] has been that Henry [illegible] arrange through [illegible] to get them cheap fertilizers. [illegible] you will furnish the farmers fertilizers. [illegible] the inclusion of such a proposition would not be objectionable on your part.

"Signed, William J. Harris."

Ford's reply, sent by his secretary, read:

"Hon. William J. Harris"

"Replying to your telegram, am sending you copy Henry Ford's proposal by mail tonight, which contains provision referred to.

"Signed E. C. Liebold,
"General secretary to Henry Ford."

Delay in Submission.

Secretary Weeks announced Saturday afternoon that the contract governing Henry Ford's offer for the government's Muscle Shoals property probably will not be submitted to congress until Tuesday.

Weeks had intended to transmit the contract together with his recommendations on Monday, but it was indicated that his comments on the offer cannot be completed by that time. [illegible]

Birmingham Girls Defeat Tecumseh

Local Boys Teams Win From Morenci And Monroe Reserves. Girls Go Down To Crushing Defeat By Old Opponents 52 To 12.

Tecumseh basket ball teams had the usual order of things reversed last Friday when the two boys teams won and the girls suffered a crushing defeat at the hands of their old opponents at Birmingham.

The boys first team won from Morenci by a score of 27 to 15 and the second team beat the Monroe reserves 15 to 10. The first of the boys games was a hard fought battle introducing many rough tactics that are not usually seen on the floor. This was the first game of the county schedule and will give the home boys a good start.

The girls did not fare so well and went down before the fast Birmingham team by the score of 52 to 12. Evidently the home girls were either not in the best of condition or else the other team is mighty fast to administer such a defeat as that. This probably puts the local team out of any claim to championship honors this year.

Supt. E. E. Crampton accompanied the team as usual.

TAKES 32nd DEGREE.

Eighty two candidates were in Detroit last week taking the 32nd degree in Masonry. This is a very coveted honor and the work is said to be the finest thing ever seen in ritualistic work.

Our townsmen, H. S. Temple and Wm. Fisher, took the work and are now full fledged 32nds. Congratulations.

Old Resident Dies Wednesday

Wm. Witherell, Life Long Resident Of Tecumseh And Vicinity Passed Away At Home Of Will Coller, Has Been Ill Long Time, Leaves One Daughter And Two Sons.

William C. Witherell, a well known farmer, passed away yesterday afternoon at the home of his daughter and husband, Mr. and Mrs. Will L. Coller, after an extended illness. A year ago last summer he suffered his first stroke of paralysis and has been an invalid since. Last fall he and Mrs. Witherell came from their farm just west of town to spend a few weeks at the Coller home. Mr. Witherell became worse on Christmas day and has been confined to his bed since.

Mr. Witherell was born near Manchester Jan. 12, 1850. He married Miss Emma Knapp also of a prominent pioneer family, in 1877. To them were born four children. One little girl died when five months old. The surviving are Clarence Witherell of Jackson, Mrs. W. L. Coller and George Witherell who has been caring for the home farm. Seven grandchildren also are left. Mr. Witherell was the sole remaining member of his family, his last brother, Henry Witherell, passing away a few weeks ago.

The funeral will be held from the Coller home Saturday at 10:30, Rev. W. A. Gregory officiating. The burial will be in Brookside.

Mr. and Mrs. John Loomis are both very sick.

Mrs. John Lee is suffering with tonsilitis.

DANIELS—HILTON.

A quiet wedding was solemnized Jan. 28th at the home of Mr. and Mrs. H. C. Daniels of Tecumseh when their eldest granddaughter, Miss Louise Daniels, daughter of Mr. and Mrs. J. M. Daniels of Adrian, was united in marriage to Mr. Orrin Hilton of [illegible] [illegible] of Adrian performed the ceremony [illegible] ring service. [illegible] of the bride and her parents she was married at the home of her grandparents that they might witness the ceremony, it being near their 57th wedding anniversary and they were unable to go to Adrian.

The bride was employed for several years in one of the National Banks of Chicago and last August moved to Adrian with her parents where she has made a host of friends among the younger set. Mr. Hilton is a World War Veteran and spent considerable time over seas. After a short wedding trip to Detroit and Canada the couple will go to Grayling to make their new home where the groom is engaged in the furniture business.

AUCTION SERVICE THATS RIGHT AT A PRICE THATS RIGHT.

The Herald carries the advertisements of several auctions in this issue and expects many more as the season advances. This paper circulates in almost every home in north east Lenawee and the splendid display that we give auction advertising insures that every person in these parts knows just when the sale takes place, what is advertised and the location.

And we do this at an expense far below what other papers with far less circulation are charging. Bring your auction ads to the Herald and get the kind of service that brings results and pleases you and at a price you can afford to pay. Just ASK ANY OF THOSE WHO HAVE USED OUR SERVICE. We refer to everyone who has ever advertised a sale in the Herald. Isn't that a good recommendation?

ALWAYS MORE.

It is very interesting to note that nearly every state speaker who appears on any program throughout the state whether they be talking to the farmers or anyone else, uses the theme of "how to raise more money by finding something else to tax."

It has not been our good fortune to hear any of them say a word about reducing expenses and thereby cut down taxes but always it is the same old story of finding something else to tax. And to those who are alert it is plain to be seen that finding something else to tax means just one thing—that real estate and tangible property is going to get soaked again for whatever the camouflage is to deceive the tax payer, it is just the same old story, the things in sight have to pay the taxes in the last analysis.

One of the speakers on the farmers institute program advocated a tax on gasoline saying that it would help the farmers by compelling truck owners to pay a big share of keeping up the roads. It would mean simply that every driver of an auto must pay out a nice fat sum every year for the politicians to spend while they toiled the harder to keep up expenses.

It seems to us that the auto has had about its share of the tax burden. Sometime ago it occurred to the state spenders that they must have some more money and they decided to make every driver of an auto get a drivers license at 50 cents per. They did this on the excuse that it would help the officers, the state police, etc to weed out the careless drivers. They got fifty cents alright but has it done anything to keep down careless driving or accidents? If so it has not been our observation to see where. Again, the spenders found they must have another bunch of money and they decided to again hit the auto by passing a law make every auto owner after he has paid for his car, take out an owners registration of title. Again is was said it would help the officers to stop car stealing etc. The law was passed and every auto owner must now contribute his dollar to the fund for the estate to spend. Does it do anything but furnish a little more money for the spenders to use? If so we have not discovered it. And now we hear the same crowd saying put a tax on gasoline to help keep up the roads. Wonderful idea to get more money from the already hard pressed tax payer and probably they will get it. They surely will if the same bunch is returned to the legislature this summer that did the work for the political crowd last session.

What will it be next? Will they tax the battery, the horn, the headlights, the tires and fine you for every squeak in the springs?

Always more to tax—never a [illegible]

The good farmers have tried hard to be good citizens and fall for the beautiful talks of the state speakers and when they go to Lansing to attend the annual roundup they will get a beautiful lesson in flowing words about their patriotism, their great hearts, their stalwart backs and horny hands. Oh, how the tears will flow as they are eulogized and praised and worshiped and dined and possibly a few cheap smokes will be handed out to these gallant citizens to prime them up to go home and sow the seeds of follow the commandments of the great statesmen who are at the helm of our glorious commonwealth. Yea, verily more to tax must be forthcoming if the ever growing horde of public leeches who are fattening on the public pocket book are to be kept well supplied with good eats and little to do.

You didn't hear a word about the new $60.000 swiming pool at the Adrian Industrial Home. It used to be called a reform school and now resembles more a castle for housing the girls of parents who didn't bring them up right. You dont hear a word about the enormous expense being piled up for the new office building at Lansing to house the fast increasing horde of office holders and their retinue of clerks.

About 80% of all the extortionate taxes of the country is paid on real estate because it is out where the assessor can see it. If you paint your house or barn to keep it from decay, the assessor boosts your assessment. If you put a new board in the porch floor to keep your self or family from breaking their necks, your assessment is raised. In fact you are viciously penalized for owning a home or for keeping it in repair if you do own one.

The real estate dealers of the state have found that such an extortionate system of taxation is fast ruining their business as the people cannot and will not buy real estate under such conditions. hence they are interceding with the state to do something to remedy this state of affairs. How long such a condition can last remains to be seen.

It is largely the taxpayers own fault. They have just been content to let the smiling politician run things while they were too busy or too careless to attend caucuses and have a say in who will go to Lansing to make the appropriations, consequently its their own fault that they have been robbed so mercilessly. Maybe after while the people will wake up and send someone up there who don't want to go and who has been pinched himself until he will stop some of these outrageous appropriations. For just remember one thing that when the money is appropriated, you will have to pay it as the tax collector is going to get it or sell you out. The place to stop it is in not making the appropriation.

Yes sir, let the tax-hounds loose and find something else to tax but dont think for one minute of stopping the expenses.

Just remember brother that this is the year to pick your man to go to Lansing and help the crowd find something else to tax and then be too busy or too lazy to help pick out the man who will fight for less appropriations for if you did you might actually get relief.

GOING STRONGER.

The following item clipped from a Detroit paper shows how merchants go after business during the times when it would otherwise be slack.

A certain Detroit firm which has been in the habit of spending $650,000 a year in newspaper advertising is raising the ante, so to speak, by at least $100,000 this year. Why?

"Because advertising in the newspaper is the only way of keeping one's business continually before the public in a time like the present," said this company's publicity director, Saturday.

Somebody ought to frame up a separate peace between the Friends of Irish Freedom and friends of the Irish Free State.—New York Morning Telegraph.

CHIMNEY-CORNER SCHOOL BIG AID

Latest Information on All Subjects Is Available for Improving Farm Work.

MANY BULLETINS PUBLISHED

Important That Farmer Should Read Up on Textbooks for Purpose of Making Better Crops and Raise Better Stock.

(Prepared by the United States Department of Agriculture.)

Old pioneer stories tell of boys who, after working all summer in the clearing, attended school in the winter. Conditions have changed but little today so far as spare time for study in the summer is concerned, but winter still offers its opportunities, and no matter how old or young the farmer is he can generally find time at this season for a few extra licks at "reading up" on some phase of farming that will come in handy next year.

A School Around Fireplace.

His schoolhouse may well be in his own chimney corner. He has a wide range of subjects to pick from and is bound to find something on practically every question of farming with which he is concerned. During the year there have been printed a considerable number of good textbooks on farming. The United States Department of Agriculture, as well as the various state agricultural colleges, has embodied in bulletins the results of long and patient labor on various things pertaining to farming, and have put into type facts that will mean dollars to the farmer who learns them and puts them into practice.

The Chimney-Corner College of Agriculture May Well Be Coeducational.

Of course, this chimney-corner school of agriculture allows its students much leeway. The curriculum is largely elective. The farmer may study one subject and leave another alone, as his interests and his business may dictate.

The Department of Agriculture has been publishing bulletins for a great many years. Hundreds of Farmers' Bulletins have been issued and every one of them discusses something that means money or better living to a large class of farmers. Many of the subjects have been supplemented and localized by state agencies—the agricultural college or the state department of agriculture.

There is no reason why any farmer may not have all the scientific information that exists on all phases of agriculture that mean anything in his particular operations. All he has to do is to read and study by his own fireside. If he needs tutoring, there is the county agent, whom he can consult when he goes to town on Saturday—or he might possibly have the agent out to supper and a session by the fireside some night.

The Department of Agriculture has printed lists of its various publications. Any farmer—or any city dweller or suburbanite who is interested in chickens or a garden or any of the things that pertain to farming—can have a copy merely by writing for it.

Then he can mail this checked list to the Department of Agriculture, and the bulletins checked will be sent to him without charge. There are a few bulletins the supply of which has become exhausted and copies are no longer given away, but they may be bought for a few cents each from the superintendent of documents at Washington. The procedure is explained on the list that is furnished by the department.

It Pays to Go to School.

Every farmer owes it to himself and his family to find a little time to go to school every winter—to read 5, 10 or 20 bulletins that will help him to make better crops, better live stock, to carry on his operations with less exhausting strain on himself.

It should be mentioned, too, that this chimney-corner college of agriculture is coeducational. A large number of the bulletins are devoted to household subjects. They contain information that will enable the farmer's wife better to carry her half of the load—to feed the family better with less work, to realize more for the portion of the farm output that comes under her direction, to have the minimum of inconvenience in the house and to get the maximum of comfort out of it—a thousand things that will help along in making farm life pleasanter and more profitable.

SAFETY + SERVICE

A Tin Box

One of our patrons in renting his first Safe Deposit Box was surprised to find it made of tin but when we showed him that this tin box was securely locked in an individual compartment, in a fire and burglar-proof vault, he realized that he was buying absolute safety for his valuable papers at $2.00 per year.

Wouldn't it be worth this small amount to keep deeds, policies, contracts, etc., here where only you could gain access to them?

vices in Adrian, appeared. Mr. Clase led a song service and Mr. McComb gave an excellent address. The whole party sang one song, "Over the Blue" which will long remain in the memory of the many present.

Saturday afternoon Rev. Harry Biddlecombe of Detroit was chairman. Here the addresses were made by Miss Josephine Warner of Ypsilanti and Miss Mabel Chapman of Ann Arbor. During this session was given a demonstration of the opening exercises of a Sunday-school by six young people from Clinton. Then everybody adjourned to the high school "gym" where the Methodist team played the Dundee church team, losing to the visitors.

Rev. F. M. Purdy of Dundee was chairman of the Saturday evening session when a party of Ann Arbor high school students put on a quaint little sketch, "The Winning of the Honorable Mrs. Ling." This was a missionary story with a Chinese setting. The charms and prayer records were the work of Chinese students at the U. of M. and also they had loaned several of the costumes.

Sunday morning the sermon was delivered by Rev. Leeson and the closing service that afternoon was in charge of Rev. Stair when many of the young people enlisted in the Lord's work.

AMUSEMENTS.

In presenting Mary Pickford in her newest and best production "Little Lord Fauntleroy" at the Bradley next Sunday, Monday and Tuesday, February 5-6-7, Mr. Mark is offering his patrons one of the finest and most expensive productions ever seen on the screen and the engagement can truthfully be called "the artistic event of the year." Never has Miss Pickford appeared in a picture that could be compared to this masterpiece taken from the well read story by Frances Hodgson Burnett.

The touching appeal and quaint, fine humor, the wonderful art of the never-to-be-forgotten dual portrayal (Miss Pickford being seen in two different roles) the expuisite beauty of the entire production—all of these have captured the hearts of everyone who has seen this photoplay, where ripples of delight check the trembling tears and "Little Lord Fauntleroy" will be appreciated just as much by the grown-ups as by the children.

In ten magnificent acts "Little Lord Fauntleroy" is an evenings entertainment well worth any effort to see and we challenge anyone to come away from this exceptional screen offering without a tingling feeling of good cheer and good will. People with the warm blood of life in their viens will appreciate this wonderful entertainment. The picture is booked for three days at the Bradley so that everyone will have an opportunity of seeing it.

* * *

Saturday evening Miss Katherine McDonald, known to all screen fans as the most beautiful woman in pictures, will be seen in her newest production "Curtain"—Miss MacDonald, always charming and delightful to look at is seen in a role in this play especially suited to her personality and with the exceptionally good story makes "Curtain" an extra good feature for Saturday night.

* * *

We noticed in Sunday's "Free Press" that the big headline advertised for this week at Detroit's beautiful Madison theatre, is the "Royal Marimba Band of Guatemala, C. A." and advertised as one of the biggest musical novelties ever seen in Detroit. We are very proud to say that patrons of the Bradley had an opportunity of seeing this same big musical act about three weeks ago when they played a two night engagement at our popular play house. Yes, Tecumseh is "The Biggest Little Town on Earth" in more ways than one and patrons of the Bradley can be justly proud of the class of attractions, both pictures and otherwise, offered for your entertainment.

The Best Battery
Made is Now Manufactured
Right in Tecumseh

Read the following and you will agree we have it. Battery has been severely tested in many makes of cars for 14 months, and it delivers the goods:

THE MIRACLE BATTERY

This battery is built of the best material obtainable to withstand the most severe use, and with ordinary care will more than equal the best batteries built today.

We have taken every precaution in selecting the material used in the Miracle battery and absolutely know that there is nothing on the market which it itsequal.

Commencing with the box which is made from the best grade of seasoned oak which is not covered up with paint, you can see that part is quality second to none.

Next is the plates used in the battery which are made from the best material obtainable, made heavy enough to withstand the most severe use and still light enough to enable easy charging and a snappy turnover of the starter which it is called upon to operate.

The separators used to insulate the plates are of wild cherry which is the best wood known to the battery industry for this purpose because they last longer than the softer woods and prevent the plates from buckling which is a common ailment to many batteries otherwise first class.

The locking type pillar post is another feature of the Miracle battery, which should not be overlooked as the lock which holds the plate group to the hard rubber cover, compresses two soft rubber gaskets one on either side of the cover tightly into place making it impossible for acid to leak by this point and cause corrosion to the connections at the top of the battery, also supports the plates so that they do not rest heavily on the bottom of the jar which would cause the partitions of the sediment compartments in the bottom of the jars to saw notches in the lower side of the plates and allow them to settle to the bottom which is sure to cause a short between the positive and negative plates.

The Miracle battery is built by men who know battery material and know how to, and do put these materials together for long use and to satisfy the most exacting user.

Let your next battery be a Miracle and you will know what real battery service means and more than this you will save dollars by it, real hard earned dollars.

For further prticulars communicate with Van Doren & Houseman, manufacturers of the Miracle battery, Tecumseh, Mich.

Held Annual Meeting.

The 39th Annual Meeting of the Ridgeway and Macon Township Sunday-school Association was held Jan. 28, 1922 in the Christian church. The day being an ideal one for a convention, the attendance was very good, thus making the sessions very interesting.

The meeting was opened by President Mr. G. D. Ellis. The song service was led by E. L. Palmer and Rev. J. C. DeRemer had charge of the devotional service.

A solo "He leads me still" was given by Miss Rena Underwood, after which Mr. Ellis introduced the main speaker of the day, Rev. S. N. Oliver of Morenci, who took for his subject, "Habit, the Servant and Master." Mr. Oliver brought very clearly to his audience what a large part our habits as Sunday-school people have to do with the principle of the world today, and how good habits formed are servants and stepping stones on which we can reach out and help the Hereditary environment and show a more God-like sperit and thus serve our Master.

After a short business session an adjournment was taken for noon. A delicious dinner was served in the dining room by the ladies of the church.

The afternoon service had a larger attendance which opened with an inspiring song service. Rev. R. C. Powell led in the devotional after which Frank E. Smith gave an interesting reading. Rev. Oliver then gave another very interesting address, using for his subject, "Religious Education" showing how religious education should start in the home, then in the public school thus making it easy to hold the young people in the Sunday-school and in the church. He told how the American home had lost its influence on young people, also how the Bible had been taken from the school thus causing to a large extent the tremendous wave of crime which is sweeping America today, which can only be checked by religious education obtained only from our Sunday-schools and churches and for this reason our churches have the first purpose of the land and their ideals should now be higher than in any previous age.

A question box was conducted by the President of the Convention at which time Rev. Chas Bragg of eRa gave some very helpful and interesting thoughts.

At the business session the following officers were elected:

Pres.—G. D. Ellis.

Vice Pres.—Harry Wood.

Who? Yes! Who?

Who wants to get rich? Everybody. Who is going to get rich? Only the prudent, hard working, hustler who saves his money and puts it to work for him. You can't amass a fortune by saving, alone—you have to make your dollars earn more dollars. They certainly won't earn anything tied up in an old sock or buried in a hollow stump. Put your dollars in a good, reliable bank like ours. Let them work with our dollars. Teach them to have "cents." They like to work. Give them a good job. They will make you rich in time.

DAILY NEWS' MORNING EDITION DROPPED; MARKS 2nd FAILURE.

The following news item from the Free Press shows just how successful the biggest and richest paper in the state is when it comes to trying to cover a field already fully covered by a good newspaper. If the Detroit News with its unlimited capital, latest type plant and a highly specialized organization cannot succeed in crowding into a newspaper field already fully covered, it is very plain that it simply can't be done and the evening papers are reported to be ready to unite to cut down expenses.

"The morning edition of the Detroit News, published since last September, failed to appear Monday, the management apparently heving decided to abandon it, as its reception by the public did not warrant its continuance as a business enterprise.

Suspension of the News' morning edition marks the failure of the second effort of the News to publish a morning paper in Detroit, its Tribune having been abandoned seven years ago after a continued heavy loss[illegible]

The News' recent morning edition was a creditable output, finished as to makeup, with extensive telegraph and local service. Its reception by the public is proof that the Detroit field is so thoroughly covered by The Fress Press that no room is left for a rival. Certainly, if another morning paper were a possibility here the best effort of the News, with its great wealth, and making use of its efficient organization and magnificent newspaper building and plant, thus eliminating overhead expense, should have met with success. These two failures tell an eloquent story. Detroit is best served by having but one carefully complied, conscientious, unhampered and prosperous morning paper.

In connection with the fate of the News' morning paper, there were rumors yesterday among newspaper men (sadly unconfirmed) to the effect the publishers of the three evening papers contemplated a get-together arrangement whereby funds now thrown after circulation of shadowy value through free insurance, 40-cent insurance, 50-cent insurance, bread-baking contests, "Limericks and Galways" and gold coupons will be used along lines less emotional, thus tending more to solid results and the general benefit of all afternoon readers."

THREE GOOD BASKET BALL GAMES LAST FRIDAY.

The basket ball fans enjoyed Friday evening to the full. The "gym" was packed and the Coller orchestra kept things lively. The yell masters, Wiley McCann and Harry Duncan, led the school in their yells.

The first game was between the Tecumseh boys second team and theAdrian Reserves. The Adrian boys were big huskies, but the Tecumseh boys were hustling every minute.

The final score was in Adrian's favor, 18 to 6, but the home boys lost honorably. The outlook for the boys team in the next few years is great. Those youngsters play the game in more ways than one and best of all are good losers.

The girls team from Eaton Rapids were our guests and played a hard game but lost to the Tecumseh girls 24 to 10.

Men from the church ofChrist, Adrian, next played our first boys team, but the local boys lost them somewhere in the dust. The Adrian men had some splendid foot ball material but the score of 28 to 6 for Tecumseh shows them out played in basket ball.

Leroy VanWinkle was sent from the Normal as referee and the fact that he was impartial and stood for his own rights made him more a favorite with his Tecumseh friends than ever.

Miss Rynn of Ypsilanti was the referee for the girls game but is not so efficient as Mrs. Collins of the U. of M. who has been working in that capacity for the Tecumseh games this season. Mrs. Collins accompanied Miss Rynn and acted as umpire.

HERALD GOES OVER COVETED MARK IN BIG CAMPAIGN FOR SUBSCRIBERS

Whirlwind Finish Puts Herald Circulation Highest Of Any Weekly In Lenawee Co. Covers Northeastern Lenawee Like The Dew And Ranks Among The Best Weekly's In The State. Service To Readers And Advertisers Is Of Highest Quality. Hundreds Of Letters Received Giving Laudatory Comment On Excellent Service It Renders This Community.

The circulation of the Herald is now the largest of any weekly in Lenawee County and stands in a position to give the best of service to both its readers and advertisers.

It has always been the ambition of the Herald to accomplish two distinct purposes, viz., to give its readers and its advertisers the best possible service, and this we have accomplished. A subscriber takes a paper for the reliable reading matter it contains that is of prime importance to him from a local point of view, and to keep in touch with the splendid values given by the merchants in the town where he naturally trades. And the Herald gives its readers every bit of news in this part of Lenawee Co. We pay more than three times as much for news gathering than any other weekly paper in the county and by this service we give our readers all the news. You cannot get news anyother way than by having reporters constantly on the job gathering it and although that is expensive, the Herald maintains the best staff of reporters to be found on any weekly of which we have knowledge. This gives its readers the real valuable service for which they pay and which it is needless to say they appreciate judging by the enormous list of subscribers that took advantage of our special offer and the hundreds of laudatory comments we received from people everywhere. We are proud of the most excellent news service we give and we are very grateful for the manifest appreciation that the people have for the paper. [illegible]

The second purpose is to give the best possible service to our advertisers and this we have also accomplished. The two things an advertiser wants is large circulation and the right display of the message that he sends the people. Both of these things the Herald gives most excellently and as a consequence the advertisers in this paper are given the highest grade of real service which too is greatly appreciated.

Giving full value in any line of business always succeeds in building up a stong vigorous trade with the people, that is the reason why the merchants of Tecumseh enjoy such a wide and ever growing trade. Their motto has always been full value and more for the money and that together with the high grade personal service and excellent publicity has made Tecumseh truly "The biggest little town on earth."

The newspaper is the publicity end of the town and any modern business concern will tell you that the publicity end of their own business is the most important part of the selling game. Without it the best article on earth will go begging for the people have learned that anything worth while and of real merit will be advertised constantly before their eyes in order to interest them in its use. This is the American way of doing business and a most excellent plan for getting quick results. Consequently every community must have a live vigorous and widely circulated newspaper that stands high with the people in order for that community to thrive by correct publicity. And when a community has that kind of a paper it serves a splendid purpose and deserves the best possible support from every person interested in the growth and welfare of that community.

The Herald has been established in Tecumseh since 1849. A long time it has carried its message of life hope and progress to a wide circle of readers and it has always been faithful to its trust. It is now entering on its 73d year and with the brightest prospects for still greater service to the entire community. It is one of the cleanest, most newsy and well composed papers in the state and we are proud to say gives far more value to its readers and advertisers than any other weekly paper in the county and at a far less cost. It represents "the biggest little town on earth" fully and adequately and so much superior to other county weekly's many of whom charge much higher rates for both subscription and advertising, that we are proud to say its the greatest value giving paper in this or any other county.

When you boost the Herald, you are helping to make Tecumseh and vicinity a still better community in which to work and live. We fully appreciate that our growth has been largely due to the splendid assistance given us by everyone far and wide and we take this opportunity to sincerely thank our legion of friends, hundreds of whom we have never met, for the good words they have expressed and the great assistance they have been to us. We shall try to deserve it and give you every week the best paper in the best town on earth. May you all prosper in the highest degree and continue to enjoy the best of health and succeed in every laudable undertaking gathering to yourself and families all the comforts and pleasures of a life well spent.

Beside the guests thus honored others present from out of town were Mrs. George Adamson and Mrs. L. D. Diamond of Chicago, Mrs. Anderson of Cincinnati and Miss Alice Hardenburgh of Ann Arbor.

BROOKYLN REBEKAHS VISIT TECUMSEH.

Brooklyn Rebekahs came in goodly numbers Friday night to be the guest of the Tecumseh lodge on the first of the Pike League visits of that organization. The visitors put on the work very efficiently with Jennie Hodge and Goldie Topper the candidates. Following the lodge session a nice supper was served to 79 members by Mrs. Leila Thurlby and her committee. Later dancing amused the guests until a late hour with Mrs. Thomas Denniston presiding at the piano.

Mrs. May Jones Riggs of Ithaca, N. Y., is visiting her father, Warren Jones and her many friends in this vicinity.

EARL COLLER TAKES RESPONSIBLE POSITION.

News comes from Lansing thru a state paper that Earl Coller who has long been in the employ of J. F. Blanding [illegible] of Lansing has joined the [illegible] Sales Co. and will be placed in charge of the sales department of both new and used cars.

The Lansing paper states that Mr. Coller has made a most excellent record while connected with the Blanding Co. and has a wide acquaintance in the Lansing territory which will be very valuable to him in his new position which is a responsible one.

Mr. Coller is a brother of W. L. and J. Lester of this city and again shows that the Tecumseh boys make good wherever they go. Good luck and much success is the wish of his many friends.

The Monday Club Elects Officers

Interesting Session Held At Club Rooms. Names Officers For Ensuing Year. Dr. Pauline Bredow Elected President. Delegates Are Elected. Two Interesting Papers Are Given.

The regular meeting of the Monday Club was held last Monday afternoon at the club rooms, with the President Mrs. F. S. Turner presiding. At the business meeting the following names were presented and duly elected to membership, Mrs. J. D. VanVleet, Mrs. Emma Waldron, Mrs. Amos Sherriff and Mrs. George Kidman.

Mrs. C. N. [illegible] gave a short report of the work done at the last meeting, forty six garments having been completed and are now ready to send to St. Joseph's home. Mrs. Shull, chairman of the Ways and Means Committee announced that the next bake sale would be held Saturday at the Electric Light office and would be in charge of Mrs. George Church and committee.

This being the regular meeting for the election of officers, the chairman of the nominating committee, Mrs. [illegible], gave her report which resulted in the election of the following:

President, Dr. Pauline Bredow; first vice president, Mrs. W. D. Reed; second vice president, Mrs. Charles Williamson; secretary, Mrs. Dell Cairns; treasurer, Mrs. Jay Morse; corresponding secretary, Mrs. George Rathbun; delegates to the state federation Dr. Pauline Bredow and Mrs. W. D. Reed; delegates to the county federation, Mrs. S. W. Boyce and Mrs. E. T. Armstrong; alternates Mrs. J. F. Rector and Mrs. Perry Satterthwaite; new members to executive committee, Mesdames J. J. Orr, George Sanford, F. S. Turner and H. R. Conklin.

The program for the afternoon consisted of two papers, "Our Auto Trips" by Mrs. H. S. Waring and Mrs. Wilfred Waldron. Mrs. Waring gave a splendid description of the trip taken with the [illegible] Association which gathered at the farm home of George B. Horton for their start and which wended its way through Ohio, Pennsylvania and West Virginia stopping at all points of interest. Mrs. Waring included stories of their camping and entertainment in the different towns.

Mrs. Waldron who with her husband took the same trip but left the touring party at Pittsburg, Pa. and journeyed on to Washington, Gettysburg, Atlantic City and return by the way of New York gave some delightful memory pictures of the beautiful scenes visited. A vivid description of the Battle of Geettysburg as told them by a guide employed in the National Park was of intense interest. Pictures and radiopticon views of both trips were shown.

Both papers were so full of interest that no doubt others will have a great desire to join the touring party on the trip to be made this summer. They will convene again at the Geo. B. Horton farm in Lenawee County.

Dr. W. D. Henderson Gives Fine Address

Parent Teachers Association Listens To Some Very Practical [illegible] Concerning The Boy Problem. Speaker Says Greatest Need Is Teach Boy To Obey. Large Crowd Listens Intently.

As was anticipated, the lecture given by Prof. W. D. Henderson of the U. of M. Thursday evening before the Parent-Teachers Association was splendid. In fact the whole evening was interesting indeed.

Mrs. W. D. Reed, the association president, opened the program by reading two poems which made a fitting opening for the lecture the theme of which was "The Boy Problem" or the evolution of the boy into the man.

A few of the speakers sentences it might be well for every parent to remember, "The most interesting thing in the world is the boy and there are as many problems as there are boys. The factor of heredity is more important than environment.

The Parent-Teachers association may tackle things they know nothing about or do nothing. They too have their problems but there is nothing parents can do to help teachers more than to teach the child to obey. The salvation of America lies in her schools. In that sense are we now our brothers keeper.

The boy begins life as an animal and has a right to a first class animal body. He is a little savage, cruel, independent, with no self control. It is the home influence which governs these. A real home is the place where the boy lives with his parents, not the parents with the boy. It is the business of society not to take the boy too seriously. Teach him self control. There is no factor in a boy's life like the daily mastery of self. As he grows he begins to think of others and as in foot ball, plays the game as a team not for self.

One of the greatest problems is that of bad companions. These over balance the love of the parents. Yet the boy is a sociable animal. He must have company. It is the solitude of the farm which drives most of the boys into the city.

The professor is a strong adherent of co-education, but the boys and girls must mingle in favorable conditions.

The solution of the problems must be the companions of good books, the companionship of work and the companionship of the Spirit of the Master.

Prof. A. E. Greenlaw closed the program with two wonderful solos, Miss Edna Taylor being his accompanist.

PUTS OUT FINE CIRCULAR.

Ira Ladd one of Tecumseh's popular rural carriers has just completed a very fine circular on the rural mail service which is being handed out by the rural carriers of the county. [illegible] He had first delivered the contents of the pamphlet as a paper read at one of the carrier meetings and it met with such splendid appreciation that a large number of copies were at once ordered and he was instructed to have it put in pamphlet form for general use.

The subject matter was sent to Washington and O. Kd by the fourth assistant P. M. General and the work was done at the Herald office. Every patron of the rural carriers should have a copy of this interesting and instructive pamphlet as it contains the meat of the subject cleverly written and right to the point. Doubtless your carrier will leave one for your use if you have not already received it.

COMMITTEE PLANS BIG MEETING.

A committee representing the Odd Fellows and Rebekah lodges of Onsted, Brooklyn, Britton and Tecumseh met at the local I. O. O. F. hall Sunday to arrange for a great get-together meeting in Tecumseh in March. These lodges have banded themselves into what they term "The Along the Pike League" and are enjoying a series of lodge visits which are truly delightful. The March meeting will be the culmination of these visits when the grand officers of both lodges will be their guests.

CELEBRATED BIRTHDAYS WITH FAMILY DINNER

Wesley B. Keyser and Mrs. Fred Aylesworth are celebrating their birthdays this week.

A party of relatives made merry in commemoration of the events Sunday at the home of Mr. Keyser with a big pot luck dinner where chickens were served most deliciously. The afternoon was spent socially. Mr. Keyser was 71 years young yesterday but really the reporter just didn't ask Mrs. Aylesworth's age.

FINE PROGRAM AT BROTHERHOOD MEETING.

Forty men assembled at the home of J. F. Rector on Monday evening for the regular meeting of the Presbyterian Brotherhood. The program was one of unusual interest. Prof. C. D. Wilcox gave a talk on "The Religion of India." He traced the development of the Indian race, its caste system and religious history. He emphasized the fact that Christianity effectively breaks down the social barrier of caste and that without the teaching of the Christian religion the people are incapable of self-government. The speaker paid a warm tribute to the British Government for what it is doing in that country.

Dr. North gave a very fine address on "Egypt." He dealt particularly with the physical conditions of the country which was the birth place of civilization. The Nile River gives fertility and wealth to the Egyptian people. He told many interesting facts with which many are unacquainted. With the establishment of a great irrigation system, under the direction of the British Government the Nile valley may take the world's lead in the production of cotton. Within the last twenty years the farmers there have increased their wealth very rapidly.

Mr. Greenlaw sang two selections which were much appreciated.

Mrs. Rector served delicious refreshments. In a contest that followed Harold Davidson won the first prize and Grant Schreder was consoled.

During the business session an executive committee was elected from the Men's class to direct the activities of the club room. Officers elected from Mr. Brockway's class. The meeting adjourned to meet in two weeks with George Kidman.

ELECTION OF GUILD OFFICERS.

The Westminster Guild held their annual election of officers Monday evening at the home of Mrs. Floyd Russell. Mrs. Russell was assisted in entertaining by Mrs. Margaret Carr and Miss Edith Gray.

After devotionals conducted by Mrs. Franc Gillespie, the business session was called to order by the president, Mrs. Frank Nyland, and the election resulted as follows:

President—Miss Grace Gillespie.
Vice President—Mrs. F. C. Dickinson.
Secretary—Mrs. Floyd Russell.
Treasurer—Mrs. E. C. Heilman.
Treasurer of Flower Fund—Mrs. John R. Nyland.

Dr. Pauline Bredow gave the review of the last chapter of the book "From Survey to Service." While the Guild work was in progress the ladies busied their hands with rolling bandages for a Presbyterian hospital in Porto Rico.

At the next meeting a new study book, "The Why and How of Foreign Missions" will be begun.

[illegible]

Miss Mildred Price, only daughter of Mr. and Mrs. Thomas Price, former well known residents here, was on January 18th married to Joe Drulia of Detroit, the ceremony being performed January 18 in St. John's Catholic church on 8th street in that city.

Miss Price has many friends here among the young people who extend congratulations.

The family left Tecumseh three years ago, going first to Holloway, then to Pontiac and now reside in Detroit, where Mr. and Mrs. Drulia will also make their home, Mr. Drulia being in the garage business.

Mr. and Mrs. Drulia, Mr. and Mrs. Price and son Earl visited Mrs. Price's mother, Mrs. Mary Stelzer, and family here Sunday.

TECUMSEH PEOPLE HURT IN TIPTON.

Saturday noon Mr. and Mrs. E. M. Brees met with an accident on the four corners at Tipton which might have been pretty serious. They were enroute to the Grange dinner at Tipton when an auto coming from the north at a fast rate collided with them. The Brees sedan swerved on the icy pavement until it hit the earth road when over it went. The occupants were picked out of the broken glass and smashed dishes of jelly and other eatables bound for the dinner. Mrs. Brees suffered a sprained arm but Mr. Brees was unhurt.

The car was some broken up and glass smashed. The unknown autoist suffered no damage.

A daughter was born to Mr. and Mrs. Robt. McKee of Dixon, Neb., Saturday at the home of the latters' parents, Mr. and Mrs. Wm. McKendry. Mrs. McKee and two little daughters came from Nebraska before Christmas and have since been guests of her parents.

Commerce Club To Put On Big Drive

Executive Board Is Going After 250 Members. Two Teams Appointed To Secure Members. Losing Team Will Give Dinner To Winners. Everything Set For Prosperous Year. Next Banquet Is February 16th.

The Commerce Club headed by Wade Jones and most ably assisted by a strong executive committee with Perry Hayden as the first lieutenant and field manager is geting set for a record breaking year and from what we know of the personel, they are going to do it.

They are out after 250 members for the commerce club and these boys are just going to clean up on that job and we'll bet an alfalfa filler cigar that they get nearer 300 than they do 250 for everyone is becoming interested in the doings of the commerce club, their fine dinners and excellent speakers and they have found its a mighty pleasant affair to take dinner in our fine gym and enjoy an evening full of physical and mental pleasure.

Of course everyone is going to join. Why not? Its for the best interests of everyone, yourself included, and besides it gives more for the money than other organisation we know of so of course, the membership will go to the 300 mark. Two teams will do the work and the losers will buy the winners a dinner.

Everyone in Tecumseh is a booster, we haven't any such animal as a knocker or Perry Hayden would have his picture nailed on the town flag pole that everyone might see what a queer looking specimen of humanity he was so begosh when the members of teams come around, put on your booster smile and jine right then and there. Gid dap Lizzie for we are off to see who buys that dinner and if the loosers don't invite the editor of this sheet to help eat it we will consign them to the Devil in this shop and let him stew their homely remains in the pig kettle down stairs.

Here is the line up of the two teams and they are said to be the handsomest looking bunch in Tecumseh. Gid dap again Lizzie for here we go with Perry and Wade at the helm and you know that means some ride.

The two teams are Judge Ray Carr, W. R. Curtis, F. S. Turner, J. L. Coller, F. S. Bell, W. L. Jones and Wm. Gibson on one team and Perry Hayden, Ed Screder, Lester Rogers, H. S. Temple, L. F. Rosacrans, J. M. Artman, and Frank Snell on the other. Go to it fellows and may the winner win.

MRS. EUGENE ROSACRANS ENTERTAINS.

Honoring her sisters Mrs. George Adamson and Mrs. L. B. Dimond of Chicago, Mrs. Eugene Rosacrans entertained at a beautifully ap[illegible] day afternoon.

The home was most attractive with its Valentine decorations of hearts and cupids. Places were found at the tables by the score cards given out by little Miss Helen Rosacrans who was a real fairy valentine.

A delicious two course luncheon was served and the remainder of the afternoon spent in playing bridge. At the close of the games Mrs. George Rathbun and Miss Marian Bills held the high and low scores respectively and received dainty awards.

On Friday Mrs. Rosacrans entertained another company of friends at "500" when luncheon was daintily served at 1 o'clock. At "500" the high honors went to Miss Genevieve Halladay with Mrs. E. E. Berry capturing the consolation.

Among the guests at the last party were Mrs. Harry Rosacrans of Toledo, Miss Halladay of Lansing, Mrs. J. D. Service of Blissfield, Mrs. Amos Paley of Grand Rapids, Mrs. Faunt Leonardson of Britton and Mrs. Athol Brainard of Springville.

CAPTURED BIG PICKEREL.

While fishing through the ice at Mud Lake last Saturday, Harry Mattis speared a pickerel that weighed 14½lbs. It was a beautiful specimen of fish and was 39 inches long from tip to tip.

The fish was on display in W. L. Coller's window during the day and evening attracting the attention of many passersby. It sure made the fishermen recount their big fish stories, but this one was as fine a specimen as one often sees.

Miss Zillah Mills plans to start Saturday for Bakersfield, Cal. to resume her work in the University extension department. She is leaving her mother, Mrs. A. W. Mills, materially improved in health.

PUBLIC OPINION.

There is no force in the world so potent as public opinion. It is the main-spring of social, political and commercial activity.

Without public opinion behind it, no law however strongly it is worded and by whatever majority it is passed has sufficient effect to give it real active life. But public opinion is slow to become operative and often very hard to determine until some problem brings it to the front with powerful effect.

When the great Lincoln said "you can always trust the common people" he meant that public opinion was entirely sound in its judgment concerning all things for the common good. However, public opinion is slow to become operative until it is stirred by the public press or the pulpit. "What is everybody's business is nobody's business" is often allowed to interfere with a pronouncement from the public on any question that does not vitally concern a great number of the people, consequently advantage is often taken of this condition to put one over on the people and keep it there by crowding other matters to the front and distracting the people's attention from the real issue.

But the American people are very well educated and great readers hence they are quite alert and it is becoming daily harder to put one over and keep it there for any great length of time, and it is the news paper more than any other one influence that keeps the people posted on what is going on and consequently brings public opinion to the active stage which quickly spells disaster for those who essay to use the people as a means for self evelation or for selfish purposes.

A newspaper is merely like the spot light which shows up the darkened places and allows the people to see what is going on among those who desire to keep their work securely hidden from the public gaze. Lee White of the Detroit News told the students of journalism at Northwestern University some very potent truths when he said:

There is a vast amount of opportunity in journalism, as there is in other professions and businesses, Mr. White said, but he added, strong-hearted and sincere devotion to the public weal and confidence in the public prevails in most newspaper offices.

It takes courage to determine upon a course and pursue it in the face of a declining circulation. But more than one editor, in Chicago and wherever else you find robust newspapers, has by courageous persistence in a course in which he believed, won back those who deserted, and earned compound interest in the shape of new readers who found his conduct laudable."

It has proved true over and over again that you can trust the plain people once they are aroused. However, the greatest need of the times right now is HONEST MEN IN OFFICE.

Not party men or educated men or tall men or secular men but ABSOLUTELY HONEST MEN in the full sense of the word that means men who are solely and unflinchingly devoted to serving the best interests of the greatest number on every quesiton that comes before them. Public opinion will say this is right, but it is up to public opinion to bestir itself and see to it that the entire people are taking part in selecting such men for office.

And when a man is found who is efficient and faithful to the trust imposed upon him he should have the united support of every person no matter what party or creed he represents. He must feel that the people do appreciate his efforts and are supporting him or he very naturally becomes discouraged fighting for the people whom it seems are often amused to see him defeated by professionaly politicians after he has made a gallant fight for the best interests of the aforesaid common people. And we fear that is the very condition we face today and is the very strongest reason why honest men who are capable and would make the very best of office holders will not consent to hold office.

In the analysis, it is the people who are to blame for every act that in any way puts hardship upon them and gives special privileges to the few. Petty jealousies and neighborhood gossip based upon impossible premises often destroy the usefulness of great men, and it is a lamentable condition we have to admit that strong hearted, big minded, patriotic business men, farmers and professional men shrink from assuming the duty of serving the public because the public has shown itself so fickle minded and easily mislead into actually heaping anathema on their greatest benefactors.

This is not due to any special malevolence on the part of the public but to blindly following a party or creed or to feelings of hatred ffalsely aroused and heatedly fanned by those who are wolves in sheeps clothing and are using every [illegible] known to the unscrupulous [illegible] astute politician who is seeking selfish ends.

To be sure the public soon sees its mistake and often erects the finest monuments to the memory of those it reviled, but not every person cares to be stoned to death in order to have a fine monument erected for future generations to behold. Consequently, it has become not uncommon for men of ability, strength of character, and special fitness for serving the public to refuse point blank to enter the field of politics to be crucified by those who make a business of using the enactments of our representatives for special favors and personal ends.

If there are pressing problems to be solved and urgent need of legislation designed to relieve the hard pressed common people, it is up to the common people to take an ardent and active part in electing representatives who are able and will represent their interests and then uphold them in their work to the last ditch, analyzing the clever work of the politician who seeks to belittle them and chasing such individuals back into the brush whenever they show their head. It is up to the people to hold up the hands of the newspaper editors who dare to offend such individuals and not do their bidding for if the newspapers become the agents of the professional politician or those who fail in their duty to the people, then where will the people get their information as to the doings of their representatives.

It is all nice to say "sick 'em" but very few are brave enough to incur the displeasure of the politician unless the public shows itself ready to back them up quickly and actively, in which case the politicians find it easier to serve the people than brave the wrath of an infuriated constituency. That alone is the crying need of the day.

The common people must become active in selecting public servants of real worth and then must back them up unflinchingly so that honest efforts are rewarded right here and now instead of by monuments for those whom they thoughtlessly crucified. Then the best men will get into politics and the common people will promptly come into their own rights as the great constitution of this country guarantees.

TEACHERS URGE RETENTION OF HIGH SALARY SCHEDULE.

Farmers Demand Reduction According To Prof. Hover Of Ypsilanti. School Commissioners Being Criticised For Campaigning For High Wages. Lenawee Commissioners Get His Own Salary Boosted As Well.

Prof. Hover of the Ypsilanti Normal College at Saturday afternoon's meeting of the Jackson County Teacher's Association stated that he was present in the interests of the extension work of Ypsilanti Normal College.

After the transaction of routine business of the association a discussion regarding the pay of teachers followed. Attention was called to the fact that this question is to the front already in almost every county of the southern part of the state. It was said the farmers were in favor of reductions being made in the salaries now being paid to rural school teachers and school commissioners were in some cases being somewhat severely criticised by farmers because they were said to be holding up the scale of salaries to levels, higher than should be maintained in view of financial conditions.

The meeting was strongly in favor of keeping salaries at their present level. The minimum wage in this county was said to be $100 a month for experienced teachers and $85 a month for those inexperienced.

It will be remembered that Commissioner Tripp succeeded in getting his own salary boosted about $800 at the time the teachers wages was going up to the present level. Farmers will probably remember the activity of Commissioner Tripp in sending out the alarm about a shortage of teachers to assist in boosting their salaries to the present highest level ever known while the farmers' products are at rock bottom.

SHIMMY? DOES ONE DRINK IT? NO, SHAKE IT.

Lady Wolseley, Visiting in Chicago Doesn't Know What "Jazz" Is.

Chicago, Feb. 4.—Lady Wolseley, niece of the present Lord Knollys and wife of Captain Sir Capel Wolseley and former private secretary to Edward VII and George V, admitted today she was unacquainted with jazz.

"Jazz, jazz?—I don't believe I quite comprehend—"

"The shimmy, y'know, Lady Wolseley, the shimmy—"

"The shimmy? Oh yes, quite so, how very stupid of me! I'm sorry to say I've never tasted one—"

"But you don't drink it, your [illegible] you shake it but you don't—"

"How very strange! murmured her ladyship, "now why should one shake a drink and then not consume it?"

The reporter laid off the shimmy line right there and began a new tack.

"By the way your ladyship, what do you think of the American girls who 'roll their own'?

"I dare say you allude to cigarettes? I do not favor smoking by young girls—"

"No, your ladyship, I mean—" and the reporter proceeded to demonstrate.

"I beg your pardon!" said her ladyship very haughtily and the next moment the reporter found himself gazing at a pair of cold eyes through a lorgnette which doubtless has figured many times in Burke's peerage. It was evident the interview was at an end. —Chicago Tribune.

Communities whose influence extends farther than town or city limits are invariably those whose citizens realize their community's part in national life and are willing to help her play it.

Tecumseh is such a community! The thrift, industry, and community-building spirit of her citizens help to maintain America in her world- position of prosperity and greatness.

PREVENT WINTER ROUP.

The cold drafts of the winter nights are what play havoc with the health of the hens consequently cuts down the egg production of many a flock. Drafts and dampness are the two greatest enemies of poultry and in the winter they too often go hand in hand. It is possible to eliminate them from the hen-house by very simple means which will be amply justified by the increased production and performance of the flock. One of the most important duties in the poultry yard is the hen-house. Hens need plenty of fresh air, but they dont need drafts. Drafts causes roup frosted combs and feet and a foul that is so badly handled will not break any egg records.

Let the south side of the house be practically open, but so constructed that it can be closed with muslin frames, when storms are blowing from that direction. If you intend on building a hen-house build it 20 ft. wide; build a solid partition through the center in order to cut off draft that will otherwise occur when you have the open front house.

Keep this fact in mind and you will be able to prevent this evil of the winter roup by eliminatinon of the drafts and the dampness. You will be really putting money in your own pocket, as well as adding to the comfort of the hens for it will soon be shown in the amount of eggs. There are comparatively few farm flocks that are properly fed during the winter months. They should have mash containing animal protein. How many are feeding enough animal protein to produce eggs? It is said that it takes twenty-four ounces of protein to feed one hundred hens a day, you will hear poultrymen complaining of the fact that during the season when the breeding hens are laying to full capacity many of the eggs are infertile. This is true because of improper feeding and can be averted by a carefully prepared feeding schedule. There are two methods of feeding for laying and breeding stock. In the case of the laying hens, it is large number of eggs that is desired and you feed the birds all you can compel them to eat and force production all you possibly can. In that case it is lay or bust but in the other case of your breeding stock it is fertile hatchable eggs and strong liveachicks that you desire, so we force the breeding stock to take a lot of exercise by throwing all their grain in a deep straw litter. Cut the amount of green bone beef scraps, dry mash and the amount of highly concentrated food used, at least permit the breeding stock to have access to dry mash only in the afternoon. Do not allow them to become overly fat. Compel them to exercise for all of their food and feed them practically on hard grain and green food.

PAVING QUESTION PUT UP TO PEOPLE.

Boulevarding Chicago St. To Be Voted On At Regular Election, March 13th. Details Of Costs Published Elsewhere In This Paper. Must Be Done Now Or Never. Every Elector Can Vote Whether A Tax Payer Or Not.

The council of Tecumseh has completed arrangements to give the people a chance to say whether they will boulevard Chicago St. from Adrian St. to the crest of the hill near the Hayden Mill or not.

The full details of the costs etc. are published elsewhere in this paper for the information of everyone. At first it was decided to pave only sixteen feet wide on each side of a center strip 16 feet wide, but at the last minute the council was informed that the federal authorities which is helping to build this highway would not consider anything but a strip 18 feet wide on each side of the center, consequently, it was found necessary to plan for only a 14 foot strip in the center in order to save the trees along part of the route, but it is thought that this is entirely wide enough for all purposes and would reduce the maintainance costs should the proposition carry.

The whole question has arisen from the agitation of those who believe this would be a great improvement to the village and the fact that the new highway is to be built this summer and if it is ever to be done, it must be done before the new pavement comes through.

Three special assessors who will place the cost against each property have been appointed. Pres. McIntyre appointed Frank Snell, Guy E. Belding and M. G. Spitler as the three assessors who have the power to lower but not to raise any particular assessment. By referring to the details published elsewhere you can see how each district is to be assessed.

It's the Solid Comfort Car

You might as well take solid comfort when you ride as to ride in the cold and expose yourself and family to the icy blasts or winter, if not to the sickness such exposure often causes. And in summer the closed car is, PRESTO, the most open car you ever saw. That insures solid comfort in summer just the same as in winter.

The Modern Car is Now Used Every Day--Winter or Summer

Good roads have made the car just as useful in winter as summer. It is an all 'round every-day-in-the-year vehicle of necessity It's no more a mere luxury. It saves time and cost of transportation and adds years of pleasureable existence to your life. Why not live while we are alive?

And just remember that when you are thinking about a car, the

EVANGELISTIC MEETINGS.

Series Now Being Held Drawing Large Crowds. Much Interest Manifested.

The evangelistic services in progress at the Baptist church are steadily growing in atendance and interest. Sunday night the church was packed to the back of the gallery. A great choir filled the choir loft and the pulpit to overflowing.

Dr. F. L. Currey took for his theme "The Menace of the American Home " and "the close attention given him proved how close the home comes to the heart. He said in part:

The only solution of evolution of the race is a christian home, God made the home the first university. The christian home is the strength of American.The restoration of the christian home should be our first concern. Women in high society now fondle dogs instead of babies, the nation spending $200,000 on her fancy dogs yearly. That phase must be done away with and the child take its rightful place.

The speaker also asserted another menace was the movie, calling it one of the most fruitful sources of crime.

But the lack of God and interest in His work in the home was the greatest menace.

Prof. A. E. Greenlaw, whose wonderful voice has been such a drawing power in the meetings led the choir and gave two excellent solos. At the close of his rendition of "Tell Mother I'll Be There" there was scarcely a dry eye in the house.

Both these men were generous on Sunday, helping out in the churches of the town with addresses that day.

The men's meeting in the afternoon was attended by over 100 of the workers of the various churches and was a very interesting session. At this service also Prof. Greenlaw gave a couple of his splendid songs and Dr. Curry gave an earnest appeal.

Prayer services are being held each afternoon, on Tuesday and Wednesday the hostesses being Mrs. F. D. Avery, Mrs. Clarence Gilmore, Mrs. George Hines, Mrs. B. Hurry, Mrs. John Pyle, Miss Emma Rogers, Mrs. Jay Morse, Mrs. J. N. Satterthwaite, Mrs. Tom Hamilton, Mrs. Alva Knight.

Tuesday was Sunday-school night when the classes were invited to come as units. Reuben Van-Winkle and his Sunday-school from the Friends church made the largest showing as a unit.

Another mass meeting for men will be held Sunday afternoon at 3 o'clock with the last meeting of the series that evening.

This is now the only organized charitable organization in town and as the society is composed entirely of energetic whole hearted hustlers they certainly do accomplish great things. Many a needy youngster has shoes and a warmer bed through their efforts and many a basket of good things to eat meets a warm welcome, all done quietly for the Almoners live up to the command given by the Great Almoner, "Let not thy right hand know what thy left hand doest."

PAIN AND MISERY CURED BY CHIROPRACTOR.

For the benefit of those who may be suffering as I was and wish to try something different from pills and dope I would advise an examination at least by a chiropractor. After suffering for years with rheumatism, neuralgia and later with a very severe case of neuritis which nearly had me in the asylum I decided from the advice of friends to try chiropractic adjustments. I did so with the result of being cured at a very reasonable expense, compared with what I had spent for pills and linament.

Upon advice of Dr. Myers, D. C. I concluded to go farther and get help for liver, kidney and bowel trouble. Now though I am nearly 60 years of age I find myself in better condition than many younger men and feeling better than I have for 30 years. I am publishing this at my own expense, partly to thank the D. C. and more to help some one that may be suffering as I was and that have tried pills long enough, I would be glad to give anyone advice but the better way is to have an examination from one who knows.

I began my treatments with Dr. Charles Tennant, D. C., Detroit and finished with Dr. Myers, D. C. Tecumseh and both have been wonderful help to me. Now friends give this a thought, life is a struggle when we are well and much worse when we are in misery which I believe in many cases can be helped.

I have 100 pullets that laid from Nov. 1 to Feb. 1, 3166 eggs. In Jan. 1621 eggs, an average of 54 eggs a day and an average of 378 eggs a week. The eggs were sold on the market and we received $127.88. A good hen will lay 9 to 10 months at this rate this pen will receive $383.58 for their work.

We are going to start our incubator March 1 and we have decided to sell day old chicks at $15.00 per hundred.

Commerce Club Jumps Over Top

Judge Carr Shows 'Em All How To Get Members. Wm. Gibson Is Close Sec[illegible] Team Thoroughly Trounced. 264 Members Gathered In First Day Of Campaign.

When it comes to literally jumping over the top, the Tecumseh Chamber of Commerce did that acrobatic stunt in the finest shape ever seen in these parts last Monday when two teams started out to solicit new members with the result that ere the day closed 264 members had joined making it the livest club for a town of our size in this state.

Judge Ray Carr is the hero of the drive for that dispensor of justice set his alarm for the zero hour and ere the morning mists had been dissipated by the rising sun, he was on the war path and before Perry Hayden had rubbed old Morpheus out of his eyes and hopped out of his pajimmies the wily Judge had listed over forty members for his team and then taking the bit in his teeth he went round the course at such a terrific speed that the rest just yelled "Gangway" and let him go. Result 86 members before supper. How is that for going some?

And his team mates did yeoman service swelling the list to about three times what the other team could gather in. Wm. Gibson threw a surprise into some of his neighbors by calling them from the land of nod and taking their two "bones" with a genial smile and a hearty thanks which added to the list gathered in by Floyd Bell and others just literally put the Judge's team way to the good. In fact, it was just a joy ride for the jurist bunch to come under the wire in a walk.

Well, the other fellows were losers and smiled broadly at the great success of a drive which made the Tecumseh Chamber of Commerce the biggest and best in the state for a town anywhere near our size or in fact, many times larger.

The Judge and his pals are going to eat chicken dinner on the other team alright and the other fellows say they are tickled to buy when such a drive is put on that nets 264 members in one day for that was the real object of the drive. Good work and may the final result put the membership over the 300 mark which it will doubtless do.

PACKED HOUSE ATTEND GREENLAW RECITAL.

Prof. and Mrs. A. E. Greenlaw of Detroit gave a very pleasing entertainment at the Baptist church Monday evening when the audience filled every seat possible to pack in the house. Prof. Greenlaw had been assisting Dr. F. L. Currey in a series of evangelistic services for two weeks previously and his wonderful voice had been a splendid feature of the [illegible]

The concert consisted of several groups of songs by the professor and charming readings by Mrs. Greenlaw. Mr. Greenlaw was especially good in his camp-meeting songs and negro melodies, but "Thora" was his splendid closing effort.

Mrs. Ella Hodges was the accompanist.

MRS. CUMMINGS CELEBRATES BIRTHDAY.

Celebrating her birthday, Mrs. Will Cummings on Friday entertained a party of her friends at progressive pedro. Mrs. Charles Saul won first honors, Mrs. Jensen drew second score and Mrs. Charles McDermott of Adrian, Mrs. Cummings sister, was consoled.

Mrs. Cummings served her guests a delicious supper and they presented her a set of cut glass goblets as a birthday gift.

WEDDED NEARLY HALF CENTURY

Just 48 years ago Tuesday Mr. and Mrs. B. G. Swift were married. Most of their children were home Sunday for a quiet little celebration. In the party were Mr. and Mrs. Howard Schaffer, Mr. and Mrs. Jesse Swift and Miss McQuillan of Toledo, Mr. and Mrs. Fred Davis of Tipton and Mr. and Mrs. Russell Hall and two little daughters.

SCHOOL VALENTINE SOCIAL.

Mr. and Mrs. Lavern Russell opened their home Monday evening for a valentine social given by their school district, Sectional District No. 1. Mrs. Vollmer, the teacher, had arranged a nice entertainment and the rooms were gay with red hearts. There were 75 in the company.

The condition of John Wyrill remains the same. He has been ill for three weeks.

CELEBRATED GOLDEN WEDDING.

Mr. and Mrs. John Wuerthner, residents of Manchester for 43 years and well known in Northern Lenawee, celebrated their golden wedding Sunday with their six children about them as follows: Mrs. Peter Stuckey, and Julius J. Wuerthner of Great Falls, Mont.; Mrs. A. S. Kiebler, Carl and Gust A. of Manchester and Miss Lellah Wuerthner of Tecumseh.

At the fine banquet served in the afternoon covers were laid for 35 of the close relatives and neighbors. As a center piece was an immense cake bearing 50 candles.

Two of the honored guests were Rev. and Mrs. Jacob W. Wuerthner of Saginaw, the former, who is a brother of John Wuerthner, having performed the wedding ceremony 50 yeas ago. Mrs. Julius Wuerthner and baby, John Pierce, had accompanied Mr. Wuerthner here from Montana to be present at the happy event.

Telephone Co. Now In New Home

Moved Into Hough Building Last Saturday And Sunday. Have Splendid Quarters Fitted Up Perfectly For Their Use. Manager Pruyne Certainly Handled The Situation Expertly.

Last Saturday and Sunday and during the night between, the local Telephone Co. moved from their old quarters over McCann & Bowen's store into their new quarters in the Hough building on E. Chicago St. which had been prepared for them and which now gives them as fine a home as could be asked for.

The work has been carried on under the personal direction of Manager Pruyne who is an expert in this line of work and who in his energetic and tireless method of going after the task turned the trick hardly without a bit of interruption in the service. At least the interruption was so short that except in a very few cases was it noticed at all.

In the new home every convenience is provided for the comfort and work of the employees as well as for the conduct of the service. The cables come into the building from under the ground and the operating room is on the first floor with everything needing attention within easy reach. Plenty of room and a systematic arrangement of the wires, and other intricate machinery needed in the service are within easy access which will reduce troubles to the minimum.

The offices are commodious and fitted to fill every need of the business. A pay station is located in the front reception office and the business offices immediately adjacent which will greatly facilitate dealing with the public and provide the patrons of the office with every facility for transacting business easily.

New and costly equipment of the latest pattern is being install[illegible] which will make this office second to none in its physical capability for fast and accurate transfer of messages.

Manager Pruyne and the board of directors are to be congratulated upon the success of the undertaking and the public will soon be in touch with one of the best equipped offices to be found anywhere.

DEATH OF ONE OF THE OLDEST RESIDENTS.

James Nobles Died, Aged 90 Years

James Nobles, one of the oldest residents of this vicinity, passed away Thursday afternoon at the home of his son, Willis, in Raisin, after a stroke of apoplexy. Mr. Nobles was born over 90 years ago at Bath, Steuben county, N. Y. When he was six years of age he made the trip to Ridgeway, Michigan, with his family, his father driving an ox team. Afterward the family located on what is known as the Morley farm northeast of town and that was the home of James Nobles the greater part of his life.

His wife was Lydia Vosburg, also of New York. They were the parents of six children, Mrs. John Sisson, Willis, Charles, Gaylord and Miss Nellie all of this vicinity and Fred Nobles of Detroit. Mrs. Nobles died some four years ago and since her death Mr. Nobles has lived with Mrs. Sisson and his son Willis and family.

The funeral was held from the home of Mr. and Mrs. Willis Nobles Saturday afternoon, Rev. W. R. Curtis officiating. Rev. and Mrs. Curtis sang two appropriate selections. The bearers were the four sons and two grandsons. Prsent from away were Mr. and Mrs. Fred Nobles of Detroit and Mr. and Mrs. Frank Hydon of Charlotte.

Clark Gallup was in Flint Tuesday on business.

D. L. Whitenack Called By Death

D. L. WHITENACK IS CALLED BY DEATH

Was in Business 49 Years in the Same Store.—A Keen Minded Man of Affairs, Kindly, True to His Convictions, Honest to the Last Degree and an Ideal Home Man, He Will be Greatly Missed

Delos L. Whitenack, one of the best known and most highly respected of the substantial business men of the city, passed away Monday afternoon after being confined to his home only one week. He suffered from a nervous collapse brought on by his too close application to business during the past 49 years. The immediate cause of death was toxic confusional pyschosis.

He and his friend, J. Newton Satterthwaite, began their business life on Tecumseh's business street at about the same time. Mr. Whitenack when only 17 went into the hardware store of his father March 4, 1873. In the same week Mr. Satterthwaite commenced his training in the rival hardware store and through the years the two have kept up their friendship, having each the highest respect for the honor and integrity of the other.

No man on the street would more firmly stand for what he considered right than D. L. Whitenack. Always kindly and courteous, no man could be more sincerely missed from the business life of the town.

Delos Leverier Whitenack was born in Tecumseh on Decoration Day of 1855, the only son of John and Almeida Whitenack. Of the six children of the family Mrs. M. F. Bordine of Tecumseh alone survives.

Mr. Whitenack on June 1, 1881, married Miss Myra Graves of Adrian and their married life has been ideal.

The father died in 1890 and his son-in-law, S. Wesley Bordine, resigned from the firm, which then passed to the management of D. L. Whitenack, under the new firm name of D. L. Whitenack & Co. and this name it has carried since.

The family has always been adherents of the Presbyterian church and the pastor of that church, Rev. J. F. Kiskaddon will conduct the funeral service from the home this afternoon at 3 o'clock, with burial in Brookside cemetery.

So we mark the passing of a good neighbor, a loyal friend, a kind husband and brother, an honest man, who will be sadly missed by the people of this vicinity.

RUTH CHAPTER, O. E. S. OF DUNDEE VISITS TECUMSEH.

Forty were in the party of Dundee people who came to visit the Tecumseh Eastern Star chapter Thursday evening. They were guests at a banquet served at the M. E. church at 6 o'clock, by the February and March committees [illegible] Mrs. H. W. Whaley were the chairmen.

The tables were daintily laid with covers for over 200. Red and green nut cups made the bright dashes of color with potted plants as decoration and tiny valentines as favors. The men of the committees were the waiters.

The company reassembled in the Masonic temple where the Dundee officers conferred the degree on Mr. and Mrs. Mervin Furgason and Mr. and Mrs. James Artman.

Different members of both lodges spoke and a delightful program was given which had been arranged by Mrs. F. B. Wood, the chapter pianist. This program was announced by F. C. Dickinson as follows:

Piano duet—Mrs. Ella Hodges and Mrs. Wood.
Vocal solo—F. C. Dickinson.
Violin solo—Miss Florence Chilson of Painesville, Ohio.
Vocal solo—John Keeney.
Vocal solo—Mrs. J. M. Mulvany.

Before their departure for home the Dundee people were served lunch and the members from both chapters expressed their delight in the pleasure of the evening.

AMERICAN LEGION OFFERS ROOM FOR USE OF BOYS.

The American Legion has offered the full use of their club room to boys between 15 and 21 years old one night each week the same to be in charge of someone appointed by the churches.

This certainly is a very public spirited thing for the Legion boys to do and would practically solve the question for a suitable place for boys to have indoor entertainment. Doubtless the offer will be promptly accepted and put to excellent use.

Any Legion man out of work should apply at once to Glenn Tansley who is chairman of the committee to look after those who happen to be out of work and need it.

ENTERTAINED MERRY-GO-ROUND.

The Merry-Go-Round was entertained at one of the prettiest parties of the season on Tuesday evening when Mr. and Mrs. Floyd Heesen and Mr. and Mrs. Harry Moore were hosts and hostesses to the club at the beautiful home of the former on Pottawatamie St.

It being Valentine's Day, hearts and cupids were used in profusion in the decorations and the guests found their places at the tables by means of small valentines.

At seven o'clock a delicious dinner was served, each table being centered with a large red heart, with tiny hearts marking each place. After dinner the gentlemen enjoyed the usual smoker, and later tables were formed for "500." At the close of the games honors for first place were held by Mrs. R. N. Lowe and Mrs. H. C. McClure and by Messrs. Jos. Smith and John Heesen. In the cut that followed Mrs. R. N. Lowe and John Heesen obtained first place.

SURPRISED ON WEDDING ANNIVERSARY.

Mr. and Mrs. Charles Dodge put in a very happy day Monday, it being the 50th anniversary of their marriage. In the afternoon a party of relatives made them a surprise visit. A pot luck supper was served, the tables being decorated in gold and white, honoring the event. Mr. and Mrs. Dodge were remembered with several presents in gold from both their Tecumseh people and others away. In the company were Mrs. Dodge's two sisters, Mrs. M. J. Jones of Dundee and Mrs. Wm. Drake. The others were Mr. and Mrs. Don Ferguson of Jackson, Mr. Drake and Mrs. and Mrs. Leslie Drake.

Mr. and Mrs. Dodge moved here from Shephard, Mich., about two years ago. They were married in Dundee and that was their home for some years. They have but one child, Thomas Dodge, now proprietor of the King Edward hotel in Los Angeles.

Prsident—A. O. Howard.

Trasurer—S. W. Boyce.

The manager has not been chosen.

VERY PRETTY BIRTHDAY PARTY

Miss Eleanor, the little daughter of Dr. and Mrs. W. D. Reed, was eleven years old Monday so in celebration entertained a party of her little friends. Hearts were everywhere in the dining room, on the curtains, on broad streamers from the chandelier to the corners of the table and on the table itself. The place cards were tiny valentines and the favors Brownies on red hearts.

Mrs. B. J. Pulver and Mrs. L. C. Hayden assisted Mrs. Reed in serving the small guests.

In the company were Phyllis and Caroline Gregory, Josephine Crampton, Helen and Jean Hodges, Katherine Heesen, Meredith Jones, Helen Pocklington, Thelma Priestep, Benjamin Pulver, Jr., Louise and Barbara Williamson, Elizabeth Snow, Virginia Wilson, Katherine Jean Wood, Anna Knight of Clinton and the tiniest guest of all, Joyce Ardis Harkness. Games in plenty made a delightful party for the little folks.

VALENTINE PARTY CELEBRATING BIRTHDAY.

As her little Jane was eight years old Tuesday a real valentine, Mrs. Charles Gillen that afternoon entertained ten little girls and their teacher, Miss Bertha LaPointe at a valentine party. Games and fun galore made the afternoon delightful and the dainty supper was served at a table illuminated with candles and gay with hearts. The birthday cake bearing its eight candles was the center piece and small valentines the favors.

Among the guests were Glenola Whelan, Helen and Jean Hodges, Ruth Anderson, Margaret Dove, Norma Skinner, Catherine Whaley, Hazel Boyce, Rena Marsh and Lillian Sutfin.

The little hostess received many nice presents, showing the love of her little friends.

TWO GREAT BASKET BALL GAMES.

Two of the best games of basket ball ever played in Tecumseh was witnessed by a great crowd at the high school "gym" Friday night. The local girls team played the champions from Birmingham the score ending much better for Tecumseh than the game at Birmingham two weeks ago, 36 to 20 in favor of the visitors. This shows our girls are improving with training and their outlook for victory for the balance of the season looks bright.

The boys played Monroe's strong team winning 20 to 16. The Monroe boys were big strong fellows and this is their first defeat this year. They were accompanied by their coach, Chester Smith, formerly of Hilsdlale and known by many here through his visits to Tecumseh while his wife, then Miss Ilda Bosworth, was a teacher here. The boy's teams ran close together in scores through the contest, not until the last minute of the play was it anybody's game.

The referee for the girls game was Miss Brooks of Detroit with Mrs. Collins of Ann Arbor the umpire. For the boys Shatford of the Normal was the referee.

Several of the fomer teachers were present as the game was looked forward to as one of the big ones. Among them were C. W. Price of Grass Lake, Mrs. Smith of Monroe, Mrs. Dorris Cooley Way of Clinton and Miss Anna Carson of Detroit. There was a big crowd of Britton young people present, also many from Adrian and Monroe and Supt. Corey and a large group of Clinton fans. Homer Hanham of Ypsilanti, Misses Hardenburgh and Turner of Ann Arbor were also present.

Two of the players were so badly hurt that they will probably be knocked out of the game the balance of the year. Miss Edith, a substitute player of the Birmingham team, suffered a twisted knee after she had been in the game only a few minutes. She was taken from the room and Dr. H. H. Hammel called. Then she was removed to the hotel and upon her arrival home was to be placed in a hospital. Miss Arlene Gillespie playing as left forward, was again injured, hurting her back where it was injued in the East Lansing game a year ago and from which she has since suffered. This finishes Miss Gillespie's part in the basket ball team which she has enjoyed most heartily and which decision she as heartily regrets.

COMMERCE BANQUET GREAT SUCCESS.

Over two hundred members of the Chamber of Commerce gathered at the high school gym last Wednesday night to listen to an address by Robt. Darnton of Adrian and enjoy the usual good feed.

Mr. Darnton is a forceful vigorous speaker and he gave one of the best talks heard yet. Lester Coller gave a very delightful cor[illegible] gave a much appreciated vocal solo. Both these gentlemen received hearty enchores.

Atty. Geo. Rathbun then presented a survey of the new boulevarding question and he gave those present a very accurate and explicit understanding of just how, why and what the whole question means. In his usual clear and analytical style, the whole subject was explained so that everyone present would know exactly why the matter was taken up at this time, what the taxes would amount to and why it would mean so much to the city. The talk was received with the closest attention and everyone present gained a clear and comprehensive understanding of the question to be voted on March 13th.

Perry Hayden was elected to attend the state meeting of commerce secretary's.

It was a big meeting full of life and energy and predicts for this village an exceptionally successful year in their work.

The ladies of the Methodist church served a most delicious dinner as is their usual custom.

People To Vote On Eastern Time

Question Of Advancing Time Between May And October To Be Voted On At Village Election March 13th. Boulevarding Of Chicago Street To Be Settled At Same Time. Caucuses Next Friday And Saturday Night.

The question of whether the village will advance the time from Central standard to Eastern standard time (one hour) between May 1st and Oct. 1st will be decided by a vote of the people at the next election held March 13th. This was decided by the council at an adjourned meeting last Monday night. It is now up to the people to say what they wish in the matter of time.

The remaining necessary steps to submit the question of boulevarding Chicago St. were taken up and the whole matter will be submitted to the people at the next village election. The total bond issue found necessary to do this work will be $15,500 which means on our assessed valuation of over 2 million that the rate will be of one per cent. On this basis a man owning property (outside the special assessment district which is only on Chicago St.) valued at $2,000 would have a total of $1 special tax to pay and this would be distributed over a period of five years which means he would pay three dollars tax each year for this purpose and no more.

Other valuations would be in exact proportion. We give these figures so that everyone may know exactly what his assessment on such an improvement would be and vote as he then sees fit.

Three Councilmen will be elected to fill the terms of R. K. Anderson, B. J. Pulver and Chas. Hanna whose term of office expires. The village will also elect a President, Clerk and Treasurer.

Two caucuses have been called to meet one on Fiday night, The People's, and one, The Citizens, to meet on Saturday night both at the council building at 7 o'clock p. m.

The board of review on this special assessment district will meet on Monday, Feb. 27th at p. m. at the council rooms to hear any objections that might be raised to the assessment as fixed by the board of special assessors already appointed. If any resident has any objection or question to ask this is the time and place to do so. The council will be glad to give all information possible.

REV. S. LOUISA HAIGHT'S WORK ON EARTH ENDED.

The many Tecumseh friends of Rev. S. Louisa Haight will be deeply grieved to hear of her death which occurred January 5, 1922, very suddenly.

Twenty years ago Miss Haight occupied the Universalist Church in Tecumseh for some two years and made hosts of friends over the town. She was an energetic club worker also and very valuable in the Monday club.

After serving in the ministry for 15 years Miss Haight supervised a girls club in Chicago and did other institutional work in Philadelphia. Five years ago she was made superintendent of the Schofield School at Aiken, S. C., an academic and industrial school for colored people. Her work in this institution has been of inestimable value. To quote from a beautiful eulogy for Miss Haight in the Friend's Intelligencer. "The call from earth came with startling suddenness, but it found Louisa Haight with every important detail of her life's work finished to that day. Others will carry on the service, but spirits such as hers are sorely needed at this time. The loss to friendship and service is great.

The Misses Caroline and Dorothy Dixon of Dundee visited their cousin, Mr. and Mrs. F. G. Heesen from Friday to Sunday when their parents, Mr. and Mrs. Seth Dixon came for the day, returning home with them that evening.

THE DIFFERENCE.

Someone said "Character is what you are, reputation is what you are thought to be." Men may steal your reputation but no one can take away one jot from your character.

Character is the foundation of all success. No matter what your work is or what your plans are, they will both fail unless you build on the one principle of character which is but another word for truth.

Every invention we enjoy today whether in mechanics, art, medicine, surgery or life itself comes from but one thing—someone found out the truth and by building according to the absolute laws of the world, they gave us a still more wonderful knowledge of life.

Could it be possible that when man is permitted to "know as we are known" that Heaven will stand revealed and the "clouds be rolled back like a scroll?"

At any rate the one inalienable and unalterable fact remains that he who builds on the principle of character is anchored to a firm foundation which the winds of discontent, the floods of hatred or fires of malice fanned by the venomous breath of ignorance can never destroy.

In business or in personal life, it is not what we may think people think of us, it is the absolute standard of character that holds us true to the course and commands the respect and admiration of all—even our enemies. Only straw and chaff are caught up by the whirlwind, the rocks remain immovable.

Deceit and fraud often get the jump on truth and ride high like a prairie fire threatening to engulf everything in their path but truth drops down from on high even as the dew and soon quenches the fire of untruth leaving it but a blackened and repulsive form—the disgust of all men.

Character is the greatest asset of business or of personal utility. It commands the respect and reverence of all men. To be what is claimed for it made Marshall Field the merchant prince. To live up to the truest ideals of life made Lincoln and Washington the best beloved Americans whose achievements are engraved upon the hearts of the yet unborn and whose adoration is a part of our American life.

Truly without character we are as nothing—a mere whirlwind that catches up the dust and is as soon forgotten.

OF GREAT IMPORTANCE.

Probably no week in the whole year is of so much importance to individuals, to our community and to our country as "Father and Son Week."

Without question we have drifted away from the good old fashioned home training that built the strong virile and true character of our ancestors.The lure of the dollar has completely weaned many a father from an active participation in shaping the life of his sons and daughters. Not because he does not love them ardently but because the demands of business have pressed him so hard he has gradually lost contact with his growing children, babies at first but ere he is aware they are grown up and his opportunity is gone.

Educators and religious leaders have recognized the peril into which we are drifting and to reawaken a new interest in our own flesh and blood children, especially the boys, they have organized a national movement to bring father back to realization of his imperative duty to his growing sons.

It is a fact of deepest concern that every son needs a real father. He must have one in all that the word implies or he will wander far from the beaten path and may fall into the pits of temptation and there go down to a shamless end instead of being a crowning glory to the declining years of his parent's life.

There is nothing so wonderful so absolutely beautiful as to behold a son grown to manhood who has followed a straight life and now is the adoration of parents whose wrinkled brow is covered by locks of whitened hair and in whose fast dimming eyes there shines the light of love that never never dies.

When we cross the brow of the hill of life and enter the lengthening shadows toward that "long long trail awinding" there goes with every father and every mother the ever present thoughts of sons and daughters grown to full life and who are standing stalwart and strong, the true characterization of a worthy life moulded by the hands of loving parents now grown feeble with time, their life well spent and only waiting the call to start on that long last journey to the other shore.

Truly this is a week of opportunity which no man can pass by without knowing that his duty to his family, to his country, and himself demands that he put uppermost and foremost in his daily life, his duty to his own son and to the sons of all men.

BAIT CASTING BY W. L. COLLER.

Notwithstanding the fact that bait casting from the reel with a short rod has been in vogue since the early nineties, comparative few anglers use the proper kind of tackle to get the best results from this style of fishing, nor can the proper tackle be found in the average tackle stores.

Under general conditions more fish of one pound weight or over can be taken on a bait casting rod than can be taken with any other style of angling, providing however, the angler uses the proper kind of rod, reel, line and lure and the object of this article is to acquaint him with such equipment.

Game fish cannot be caught to any great extent except with a small lure, a small lure cannot be cast successfully except with an easy running reel and light line, and a light line cannot be used successfully except with a flexible rod.

The rod should be a split bamboo, 5½ or 6 feet long, the latter preferred, and weighing under 1 oz. to the foot. A shoter rod than this if made flexible enough to cast a half ounce lure successfully would be entirely too frail to withstand the abuse a rod is put to at times. It should have not over 8 agate guides and tip. The socket for the reel base should be towards the butt and the locking device for the reel base towards the tip. The hand grip of cork, one inch in diameter, slightly tapered at the ends. A one piece rod would be perfect but for carrying, a two piece rod is better.

The reel should be an easy running geared, quadruple, multiplying one of some standard make. A good high grade reel will last a lifetime if oiled once or twice daily when in use. The beginner must understand that there are two things most essential to perfect casting. First, the line must be wound upon the spool approximately level. Second, the thumb must never be taken from the spool until the retrieve is started. If these rules are followed it will be impossible to "backlash."

Medium hard, braided silk lines are the best and for bass fishing should be from 8 to 12 lbs. test, though lighter the line the more effectively the lure can be controlled, and more fish can be taken. A heavy line is out of question for casting. If you use a flexible rod a s suggested above there will be no danger of breaking the light line while to use the light line with a heavy stiff rod would be impossible. There are some good line dressings that make the line water proof, making it flow through the guides freely and makes it last much longer, and is also less conspicuous in the water.

The lure should be no less than ½ ounce and not over ¾ ounces. It should be large enough to interest the fish and small enough not to frighten them when it drops on the water. No fish will strike an artificial lure if it knows it is an artificial lure. It is obvious then to handle your lure fast, make it strike the water coming toward you, getting it into action quickly and only giving the fish a chance to get a flash at it and not have time to look it over too carefully.

Your success depends mostly on your keenness to detect a strike and your speed in setting the hook before the fish decides that your lure is something that it does not want. The fish must be "struck" immediately when it strikes, and with force enough to drive the points of the hooks in beyond the barb.

Boat casting should be from a sitting position, and the side cast, over head, used when possible, which allows the angler to get nearer to the fish without detection. Unless the water is very clear, casts of from 25 to 35 feet will be sufficient. If the water is real clear and has much depth, it is useless to try to catch fish, unless the surface of the water is camouflaged by some means such as a ripple, rain, swift current or darkness.

When casting in a strong wind cast either with or against it and avoid casting across it. Do not try to "hoss" a fish through thick [illegible] the weeds, ease up on it and give it a chance to work free of the weeds. Should you try to force it through, you can generally add it to the long list of "big ones" that get away—and the big ones sometimes get away.

FED PURINA BALANCED RATION
FED GRAIN ALONE

The first six weeks of a chick's life put it in the profit or loss column. Sturdy development from the start means eggs next winter. A "slow start" means a winter loafer.

Purina Chicken Chowder provides the necessary nutrients that are largely lacking in grain feeds,—such as proteins for blood, lean meat and feathers, and phosphates for bones. Purina Chicken Chowder fed chicks therefore develop about twice as fast as those fed on grain alone.

MOTOR CARS

"Not how much allowance you can get for your used-car, but how much car you can get in a BUICK" is really the vital question in purchasing an automobile today.

20 years successful automobile building has not only placed the BUICK first in the eyes of the people but first place at the national automobile shows for four years, because of the largest volume of business, excluding Ford.

HOW GIRLS WEAR THEIR HAIR

Head Dresses That Simulate Bobbed Cut Are More in Favor at Present.

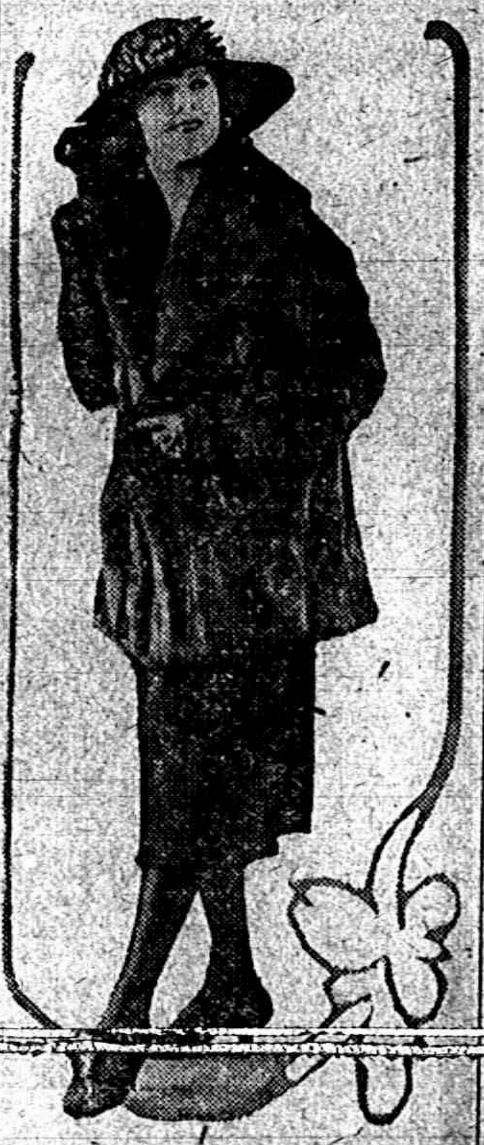
Then there are the head dresses which, among the younger set, have taken a very prominent place. The coiffures are simple enough—more often than not being those that have been bobbed and made comfortable in the last degree. But there is usually some sort of extra adornment somewhere about the head, if it is only a slightly jeweled comb, that is pushed in carelessly to keep the front locks of a Dutch cut in position.

The head dresses that simulate a bobbed cut are even more in the public eye than are those which are actually cut short. Many are the young ladies who prefer to keep the full length of their locks intact, and then to make them look as though they had been clipped off. On these hair arrangements there is usually imposed some sort of decoration if it is only a band of jewels across the forehead.

When the contour of the face can stand the strain, the hair is pulled straight back from the forehead, and then further augmented with little puffs of hair over the ears, for it is this covering of the ears that still seems to be necessary as a matter of strict fashion and good sense. No one leaves a tip of the ear showing, unless it is just enough from which to dangle a length of earring conspicuously necessary to the finish of the costume with which it is worn.

Wreaths of silver and golden leaves are favorite hair adornments for the younger girls. They are neither very heavy nor large, but they are just accentuated enough to add that extra finish to a simple frock which can be so much the making of its last effect. Bracelets with the short sleeves, and with the entire lack of sleeves, are favorite adornments, and, while they are not over conspicuous in their designs, they are still distinctly brilliant, and a girl wears many of them in different jewels and colorings if the fancy strikes her.

NOW USE DYED RABBIT SKIN



None would guess this coat to be of rabbit; yet it really is dyed bunny fur. The comfy shawl collar, belt, and invisible pockets are features.

BEST WAY TO CLEANSE SILKS

Fabric Should Be Scrubbed With Brush Instead of Rubbing Between Hands or on Board.

The best way to clean pongee, tussah and novelty silks is to wash them in lukewarm water with good soap.

Instead of rubbing between the hands or on a board, material of this sort should be scrubbed with a brush and it will need rinsing in at least three waters.

The greatest danger in handling material of this kind is in using water which is too hot, for very hot water causes heat wrinkles which will not disappear even under the iron.

Oil Stains—Stains made by machine oil or any of the ordinary oils can be removed with carbon tetrachloride.

Oil Paints—A mixture of carbon tetrachloride and chloroform in equal parts will remove oil paint marks.

Nickel—Stains and marks on nickel can be removed by rubbing them with a paste made of whiting and ammonia.

Vivid Colors.

Bright colors and striking color combinations are in high favor for children's apparel. One group of smart frocks for girls of four to ten years recently seen were made of bright red serge and trimmed with black embroidery, heavy white linen collars and cuffs supplying a dainty finishing touch.

The Furs of Fashion.

Black caracul, tan caracul and Persian lamb are used for entire garments as well as for trimming. Kolinsky, sable and fitch are also smart, while chinchilla and ermine hold royal places and cost correspondingly.

CREDIT RISKS MADE SAFE BY BUSINESS MEN OF JONESVILLE.

Jonesville, Feb. 3.—One of the objects in the formation of Jonesville's new business men's association had to do with a system of credit. Falling prices which means less profit for retail dealers, and unsettled industrial conditions have brought about an acute situation calling for some kind of action. As a result, an attempt is being made at Jonesville to list all residents, classifying them as good pay, slow pay, or no pay, as the case may be. This list will be in the hands of local business concerns. With the data available it is up to the firm in question whether or not it cares to trust those with undesirable credit records.

The man who has always shown a willingness and desire to pay but who, because of present industrial conditions, is temporarily unable to do so, will be given a square deal. The work of the credit committee is in the interest of all who care to do the right thing, and will react unfavorably, only on the professional dead beats of the community.

FORD AND DODGE BROTHERS HEAD LIST OF MOTOR CAR MANUFACTURERS FOR 1921.

The total number of passenger cars built during the year, according to an estimate published recently by the Wall Street Journal, was 1,535,000, as compared with 1,883,150 for 1920.

Commenting on the general condition of the automotive industry just prior to the close of the year the Boston News Bureau published the following, which was subsequently confirmed by Dodge Brothers:

"Dodge Brothers in the third quarter of this year ranked next to Ford among the world's automobile producers, with a monthly shipment record of better than 11,000 cars. This average is nearly maintained—within several hundred cars—in October, an unusual achievement in this year of unsettlement and competition in the motor industry.

It is understood that Dodge Brothers finished the year with a total production of 92,476 cars which is over 12,000 cars greater production than the next nearest competitor, not including Ford thereby making good the News Bureau's prediction of Dodge Brothers continued leadership.

FIVE AMENDMENTS TO CONSTITUTION LIKELY AT FALL ELECTION.

This year promises to be notable in a political way for the struggle over constitutional amendments, which may divide interest among the voters with the contest for the United States senatorship. There are at least five big constitutional amendments on their way to the decision of the voters at the November election and every one of these will attract a great deal of attention. It may be that, collectively, the amendments will attract more attention than the contests for offices.

Under the initiative provision of the state constitution, some 105,000 signatures are required this year to put a proposed amendment to the constitution on the ballot and, perhaps, some of these proposals may not receive that amount of popular support. But it is more likely that the signatures will be had.

First of all, there is the threat of another fight over the parochial school amendment, decisively beaten [illegible] state fight. It was thought that the legislature had shelved this issue by putting private schools denominational or otherwise—under the supervision of the superintendent of public instruction of the state. Superintendent of Public Instruction Tom Johnson appears to have been having considerable difficulty in finding the right man to carry out the provisions of the law. Anyway, the petitions for resubmission of this amendment are out and a great number of signatures have already been obtained.

* * *

Then there is the proposal to repeal or greatly alter the prohibition clause of the constitution. The form of this proposal is not definitely known, but organization work is going on all the time and this question may start a bitter fight next fall. It would seem that the last verdict given by the people of the state on the question of the prohibition of manufacture and sale of intoxicating beverages was quite convincing. That verdict was given with regard to the "beer and light wine" [illegible] before national prohibition came into effect. Just what would be the effect of removing the state's constitutional restriction against liquor while the national constitutional and Volstead act, enacted under its provision, are still in force, is something that is quite a puzzle. But it makes a good campaign subject, anyway.

* * *

Then there is the income tax proposal. There are a great many statesmen in the rural sections who are anticipating this proposal as a vehicle for their own election and there will be no doubt as to the vehemence with which it will be urged. However, they may be disappointed by receiving less opposition than they expect. Since the adjournment of the second special session of the 1921 legislature, conditions have changed somewhat. the finding of the state supreme court upholding the corporation franchise fee law has made many business men feel that they would be better off under a state income tax, with 4 per cent limitation, than they are at present under the corporation franchise fee law and they might be willing to trade the one for the other. The classes which would be hurt worst by the income tax, as conditions now stand, are the professional classes, the teachers, salesmen, private individuals doing business under their own names, and the higher paid mechanics and workers. tions generally are expected to be against it. Another two years of education may be required to persuade the people of the state to adopt it.

THE ABE MARTIN WEDDING.

Rustic Party Enjoyed By Wit and Wisdom Club.

Mr. and Mrs. Chas Kemp and Rev. and Mrs. J. F. Kiskaddon were hosts for the Wit and Wisdow club Tuesday evening at the Kemp home, with Rev. Kiskaddon the leader. The entertainment was an "Abe Martin Wedding" and laughable in the extreme. The personnel of the wedding party were Tilford Moots (H. S. Waring) the groom; Miss Tawney Apple (F. C. Dickinson) the bride; Mr. Crabapple (Charles Kemp) the bride's father; Mrs. Crabapple (E. E. Crampton) bride's mother; Lafe Budd (F. S. Turner) best man; Miss Fawn Lippincutt (Dr. E. D. Brown) bridesmaid; Miss Lima Bean (A. O. Howard) flower girl; Rev. Ezra Hardscrabble (Rev. W. A. Gregory) officiating clergyman; Jay Savergrass (J. F. Rector) usher; Constable Newt Plum (J. T. Boyce); Mrs. Newt Plum (J. O. Eaton); Miss Mazie Budd (W. G. Waldron) musician; Corn Van Tassel (Rev. Kiskaddon) farmer; Abe Martin (Rev. W. R. Curtis) sage of Plumtown.

As the wedding guests assembled there was much humorous conversation. Corn Van Tassel gave a reading, "Wakin' the Young Uns." Then the colored washlady (Mrs. Kemp) brought the washing to Mrs. Crabapple and told of "Mandy's Wedding."

The wedding party solemnly wended its way to the altar profusely decorated with ribbons, bells, and a horse shoe for good luck. The wedding march was played on the trombone by Miss Mazie Budd. She used a medley consisting of parts of "Lohengrin" and "Just Before the Battle Mother." The groom read his license in which the young couple asserted that they were of legal age and sound mind, had a year's courtship and claimed the right of entering the state of matrimony.

The beautiful double yoke service was used. When this badge of servitude and hard labor had been placed on the necks of the contracting parties, they were declared "married." Supper was served in which good cheer flowed freely. Able Martin told the groom "How to be happy though married." Constable Newt Plum gave a dissertation on "Modern styles and keeping the peace." He showed the perils of modern dress to domestic peace. Mrs. Crab-Apple told what she had learned in the "School of matrimony." Mrs. Crab Apple is a beautiful and portly woman. Miss Mazie Budd and Mrs. Newt Plum wore dresses of most striking design which was shocking to the men who had not seen such fashions before.

NOTICE.

Whelan's Scotland and Barron improved S. C. White Leghorns with an egg record of 298 eggs per hen. When you get into the chicken business, get into it right. I have 100 pullets that laid from Nov. 1 to Feb. 1, 3166 eggs. In Jan. 1621 eggs, an average of 54 eggs a day and an average of 378 eggs a week. The eggs were sold on the market and we received $127.88. A good hen will lay 9 to 10 months at this rate this pen will receive $383.58 for their work.

We are going to start our incubator March 1 and we have decided to sell day old chicks at $15.00 per hundred.

The reason of our prices being low is because we do not issue elaborate catalougue and our customers get the benefit of it.

[illegible] BIRTHDAY PARTY.

The whole nation celebrated February 22 and one boy in Tecumseh remembers it as his own natal day as well as that of the Father of his country. Marian Alderdyce is the lad and the party given him Tuesday evening by a large company of his young friends ushered in the day most happily.

The party was a complete surprise to the boy and all sorts of games and stunts filled the evening to overflowing with fun. Of course Marian's father, Clarence, was the biggest "kid" there and did his share of the entertaining with gusto.

Mrs. Alderdyce and Miss Frances served a fine lunch where birthday candles in red and white gleamed brightly and the favors were Washington's hatchets.

The guests presented Marian with a fountain pen as a souvenir of their happy evening.

METHODIST EPISCOPAL CHURCH

"The Church of the Lighted Cross"

Two Full Tickets Are Nominated

Caucuses Are Held Friday And Saturday Nights. Small Attendance At Both. John McIntyre And Dr. Hendershott Heads Tickets. Big Vote Looked For On Account Of Time And Boulevarding Questions.

The People's Caucus was held at the council rooms last Friday night with F. J. Temple in the chair. The meeting was called to order promptly at 7 o'clock and the nomination of a ticket took but a few minutes. John McIntyre was again nominated for President, Will Coller for Clerk, Lucy Train for Treasurer and for Trustees R. K. Anderson, B. J. Pulver and Oscar Lidke. Chas. Hanna refused to run again and Oscar Lidke was nominated in his place. The nominations were entirely without contest.

Geo. Field was nominated for assessor also without question.

The Citizens Caucus was held Saturday night with about 40 in attendance. Dr. E. E. Hendershott was nominated for President and Ed. Schreder for Clerk. Lucy Train was the choice for Treas. and for Trustees, Leon Williamson, R. S. Moore and Geo. Kempf were nominated. Wm. Gibson was nominated for assessor.

At the election which occurs March 13th, the people will have to decide on whether they will boulevard Chicago St. or not and they will also be called on to say whether we shall advance the time one hour to Eastern Standard during the summer months or not. These two questions will doubtless bring out a big vote.

There may also be some interesting developments in other quarters that will help to call out the vote, hence it appears now we will have a regular election.

GAVE UNIQUE PARTY.

On Thursday evening Mrs. Thomas McCann was hostess to the 500 Club and to a few friends at a costume party at her home on Pottawatamie street.

Each guest appeared in a regalia which created much merriment. There were present little boys, little girls, Buster Brown and his teddy bear, distinguished looking men, brides and dignified matrons of a decade ago, farmers, bathing beauties, clowns, Japanese girls, red cross nurses and real vamps.

Seven tables were filled for "500" and at the close of the games high score was held by Mrs. Emma Kloffenstein and low by Mrs. Leon Williamson. A delicious two course lunch was served late in the evening.

The prize for the most original costume fell to Mrs. L. P. Williamson. Out of town guests were Mrs. Katheryn Harrison of Jackson and Mrs. May Riggs of Oswego, N. Y.

JUNIOR PLAY COMING NEXT.

Everyone is interested in our schools and the best interests of [illegible] essary for it to be thus. To be really interested means that we must support all the student undertakings and really show the young folks that we are interested.

Next comes the Junior Play on March 1st and 2nd. It is one of the good entertainments of the year and those who go will be thoroughly entertained by our young amateur players. They have selected a play that is full of fun and frolic and that is what the people like so come an lets loosen up on our "fo-bits" and pack the high school auditorium from orchestra to balcony. If you don't go you will sure miss one of the best entertainments of the year. Come on, lets go.

The ladies of the Berean Circle were guests of Mrs. A. C. Bryan Monday evening. Mrs. Fay Van Valkenburg gave a splendid paper on "Co-Operation" with Mrs. Jay Morse leading the discussion. To close the program the ladies enjoyed a Washington contest.

Local Men Invent New Type Machine

Put Radiator Repair Machine On The Market. Patent Is Pending. Production Is Oversold Right Now. Fills Need Of Garage Men For Special Machine.

Van Doren & Houseman have just perfected a new radiator repair machine that gives promise of filling a long felt need for this type of a machine. A patent has been applied for and notice has been received that it will be granted.

The machine is a marvel of simplicity and compactness embodying every feature that will enable an operator to repair auto radiators easily, perfectly and without marring the radiator or even cutting away the fins on the tubular type of radiator.

The castings and the machine is built in a compact way that fills the purpose for which it is intended perfectly and its cost is small and the expense of operating it very low. It is being built by one of the local factories and is very neat in appearance and very durable. The machine is being handled by the Miracle Mfg. Co. under which trade name it goes.

There is a wide demand for such a machine and already they are sold beyond production which looks mighty well for the new firm.

MONDAY CLUB BEGIN STUDY OF JAPAN.

The Monday Club met in regular session last Monday afternoon at the club rooms with the President, Mrs. Turner presiding. At the regular business session a delightful letter was read by Mrs. Hardy from the little French girl supported by the club, Nellie DuMeige of Druell, France, and also one from her mother. It was voted to continue the support another year.

A bake Sale will be held Saturday at 2 p. m. at Glenn Tansley's Meat Market with Mrs. Louis Jones, chairman of the committee.

Miss Ethel Keyser acted as leader for the afternoon, and the program began the study of Japan, "The Country Where the Day Begins." Two very excellent papers were given, "Japanese Religions" by Mrs. Milburn Keyser and "A Forsaken City, Kamakura" by Mrs. Floyd Heesen. Community singing was led by Mrs. E. N. Billings.

At the meeting next Monday afternoon, Mrs. George Field will be leader and the program will be as follows: "Legends of Old Japan" by Mrs. F. C. Dickinson and "From Yokohama to Tokyo," Miss Schlegelmilch of Adrian. There will be special music during the afternoon.

Benjamin Ellis Called By Death

Passed On Early Sunday Morning At His Home On Union Street. Was Well Known And Most Highly Respected By Everyone. His Genial Ways Had Won Him A Host Of Friends.

Again in the week has there been the closed shutters in the business street with the emblems of saddness on the door, this time was the clothing store of McCann & Bowen, closed on account of the death of their salesman, Benjamin C. Ellis, a man well known in this vicinity and respected highly for his sterling worth.

It has been about four weeks since Mr. Ellis was at first taken sick with liver trouble and grew steadily worse until typhoid fever developed and his death occurred Sunday in the early morning. Mr. Ellis has been connected with the business interests of this village many years, first with the Seaton W. Anderson dry goods firm, later as salesman for the Baumgartner Company of Toledo, and for the past four years with McCann & Bowen. He had held the office of both village and township treasurer, proving the reliance placed in him by the people.

Benjamin C. Ellis was born in Clinton, June 8, 1863, the son of Mr. and Mrs. C. K. Ellis. While a young boy he moved with his parents to Hillsdale which was his home until he reached man's estate. Later he went to Clinton to take a position with his uncle, E. W. Freese, coming to Tecumseh about thirty years ago.

His wife was Miss Margaret Beamish, a Tecumseh lady, and their life together has been ideal. Surviving also are three sisters, Mrs. F. H. Stone, Mrs. Harry Phillips and Miss Agnes Ellis, all of Hillsdale and the sister-in-law, Miss Elizabeth Beamish.

Mr. Ellis was a member of the Masonic order and Maccabees.

The funeral services were held at the home Tuesday afternoon, Rev. W. A. Gregory officiating. Mrs. R. T. Meade and Mrs. Ella Hodges sang several beautiful hymns. The bearers were Thos. McCann, Percy Bowen, Frank Turner, Raynor Anderson, Charles Patterson and Leon Rosacrans.

Present from out of town were Mr. and Mrs. F. H. Stone, Mr. and Mrs. H. M. Phillips and son Hubert of Hillsdale; Mrs. Fannie Whittlesey of Battle Creek; Mr. and Mrs. Percy Hubbard of Springville; Mrs. Edward Green of Bellevue; Miss Emma Green of Olivet; Mr. and Mrs. Reed Cartney, Mr. and Mrs. Alfred Cartney of Albion; Mrs. George Freese, Mr. and Mrs. L. W. Kimball, E. S. Tate with others from Clinton.

So we mark the passing of B. C. Ellis, than whom no one on the business street is respected more deeply, an honorable, courteous gentleman whom we will miss most sadly.

BIG DOINGS IN APRIL.

Don't you remember? Of course you do. The big play [illegible] on by the American Legion last fall? Everyone went and everyone was delightfully entertained. Tecumseh has the best local talent for a play that can be produced and the Legion has never failed yet to give the people two evenings of the best entertainment ever put on. Thats why everybody remembers and says its worth the money and much more.

We all need just such entertainments. They drive away heavy business cares and bring out the laughs we have almost forgotten; thats why it is the best of tonics to go and laugh at the antics of our young folks, and enjoy the catchy music. And everyone goes for the reason that the shows given by the Legion are the best ever witnessed in the town and give the people real enjoyment for their money.

Clear the decks for April 27th and 28th for the boys and girls are going to put on another play that will please the people and bring another smile to the old town. Watch for announcements and keep your dates clear for days above mentioned.

BUYS FARMS FOR GRAVEL PITS.

A company of Detroit men have bought the Ira Ashley farm of 82 acres and the Williamson Bros. farm of 45 acres adjacent thereto for the purpose of opening a gravel pit.

They estimate that there is 10 million tons of gravel on the two properties and plan to open it up about June 15th. The gentlemen who have promoted the deal stated that they plan to pump the gravel up with a centrifugal pump and install apparatus that will handle 25 cars per day.

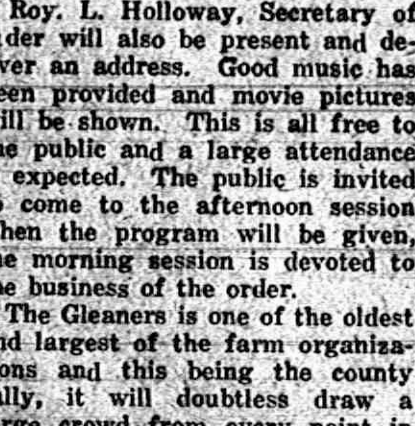
The property will have both D. T. & I. and N. Y. C. siding for shipping purposes.

Big Gleaner Men Coming Here Soon

Grant Slocum and Roy L. Holloway To Be Speakers At County Round-Up Of Gleaners To Be Held At Bradley, Wednesday, March 8th. Public Invited To Afternoon Session.

There will be a county rally of the Gleaners at the Bradley Opera House on Wednesday, March 8th. The afternoon session will be open for the public and a splendid program has been provided.

Grant Slocum, State Pres. of the order will be one of the principal speakers and anyone who has ever heard this talented man knows that he will give a splendid address.



G. H. Slocum

Roy. L. Holloway, Secretary of order will also be present and deliver an address. Good music has been provided and movie pictures will be shown. This is all free to the public and a large attendance is expected. The public is invited to come to the afternoon session when the program will be given, the morning session is devoted to the business of the order.

The Gleaners is one of the oldest and largest of the farm organizations and this being the county rally, it will doubtless draw a large crowd from every point in the county.

Ross L. Holloway

The farmers are fast being converted to the necessity of a strong organization of some kind to look after their interests and for this and other reasons every farm organization is at present becoming very active. It will doubtless be a big day.

C. C. Latham, district representative was in town last Tuesday completing the arrangements for the big meet and he said the outlook for a big meeting was very encouraging.

BROTHERHOOD MEETING.

The Presbyterian Brotherhood met on Monday evening with George Kidman host. Hoyt Whelan converted his truck into a big touring car and took a load of men to the country home of Mr. Kidman. There was a good crowd present to hear an interesting program.

The program opened with the singing of several rousing songs. Mr. Waring reviewed the chapter in the study book on "Islam and the Near East." The war effected the unity of Mohammedonism. Before the war all Mohammedan nations had stood together in political matters. For them it was a sin to fight Mohammedons and it was a deed of merit to fight Christians. In the war the Mohammedon nations fouund themselves divided, some supported the Allies and others supported Germany., The Mohammedon people are more receptive of Christianity since they have seen that it is a red blooded religion.

W. G. Waldron gave an interesting account of his automobile trip down east last summer. He told of the "real hills" of Pennsylvania and of many historic places which he saw. His description of the Gettysburg Battlefield was particularly impressive.

Lester Waring sang two entertaining songs. W. G. Waldron gave a trombone solo, and responded to an encore. Elizabeth Kidman, the little daughter of the host, sang "Jesus Loves Me" in a very pleasing manner. Refreshments were served and it was with great difficulty that some of the men were constrained to desist from eating the chicken sandwiches.

Mrs. E. J. Haines who was operated upon at Bixby hospital, Adrian, four weeks ago, has improved so greatly that she plans to return home the last of the week.

GIRLS FROM INDUSTRIAL HOME FOUND HERE.

The other evening while a group of our ladies were giving an entertainment at the Industrial Home, two of the girls escaped. It was a bitter cold night and when along in the night Maynard Mulvaney was accosted by two young damsels near the Ives farm and asked for a lift toward Tecumseh, he could not refuse. He let the girls out of his machine at his home and notified Deputy J. B. Smith as he thought the girls should not be out in the cold.

Mr. Smith thought at once they were fugitives from the Industrial Home so phoned Adrian. The officers there had been warned of the escape and with two of the Home people came right over. They assisted Mr. Smith in the search and at last about 2 o'clock the officers found the culprits east of town some two miles.

Girls' Team Wins From Hudson City

Boy's First Team Loses To Adrian College Reserves. Second Team Too Much For Deerfield. Hudson Game Said To Have Been Quite Unsatisfactory As Spectators Interfered.

The two boys basket ball teams played good games here Friday evening when the first team played the Reserves of Adrian College and the second team met the first team from Deerfield.

Three of the college men were from their first team and all big fellows so Coach French was delighted to see our boys run up a score of 22 even if Adrian did make 30.

The second team played a wonderful game, beating Deerfield 24 to 12 and the visitors were older boys. Leroy Van Winkle of the Normal refereed both very efficiently, giving what is so unusual—satisfaction to both sides.

The girl's team went to Hudson and simply outplayed the girls of that city, 20 to 13. Mrs. Collins of Ann Arbor was their referee and their team admitted her decisions were just. Wm. Eccles, George Hines and F. C. Snell took the team to Hudson with Supt. E. E. Crampton and Miss Nina Lowry as escorts.

The Hudson girls play a return game here March 17. It is reported that the Hudson game was very unsatisfactory because of interferrence from the spectators.

AGED RESIDENT GIVEN BIRTHDAY PARTY.

Tuesday was the 85th birthday of Mrs. P. A. Kelsey who for so many years has resided with her daughter, Mrs. W. W. Shurtz. Honoring the event twenty of her friends and neighbors gave her a complete surprise, bringing their dinner and spending the afternoon.

Mrs. Kelsey was especially delighted to welcome another daughter, Mrs. Fred Guy, who was accompanied by Mrs. George Edwards and Mrs. Dick Easlick, all of Milan.

The honored lady received many cards of congratulation and pretty gifts.

LITTLE EMMA ANN KENNEDY BIRTHDAY.

A Pensacola, Fla., paper contains a write-up of a very pretty party given by Mrs. Gerald S. Kennedy honoring the fourth birthday of her little daughter, Emma Ann. The event took place Saturday, Feb. 11, and as it was so near Valentine's Day red hearts were used in the decoration and valentines as place cards. The usual games were enjoyed as well as a peanut hunt. The little lady received many nice gifts. Little Emma Ann is the granddaughter of Mr. and Mrs. Arthur Kennedy of Tecumseh.

G. A. R. Program Very Interesting

Rev. W. A. Gregory And John Shull Gives Splendid Addresses. Pot Luck Supper Enjoyed By Everyone. E. T. Armstrong Gives Talk. Boys Of '61 Recall Old Times.

The annual Lincoln, Washington and Grant program was given at the G. A. R. hall last Tuesday evening.

Henry Stevens very ably presided and announced the following numbers.

The first on the program was a pot-luck supper to which all did ample justice and which was very enjoyable indeed. As the evening was quite stormy and the walks very slippery only a fair sized crowd was present.

The first speaker was Rev. W. A. Gregory who delivered a splendid address. He gave a forceful eulogy of the services rendered by the boys who wore the blue and then recounted the needs of the present times to carry out the great achievement that our forefathers and the G. A. R. had sacrificed so much to accomplish. E. T. Armstrong gave a short talk which was well received.

John Shull then spoke on Washington, Lincoln and Grant and he gave one of the finest addresses it has been our privilege to hear in many a day. His personal knowledge of scenes of the war, he having been brought up in South Penn. near where lay the scenes of action of such great import during the civil war and his sojourn in the home surroundings of Washington, gave him a great fund of knowlege from which he drew a word picture intensely interesting and instructive.

Mr. Shull is a very forceful and pleasant speaker, a man of wide reading and of sterling worth whose words held the closest attention of his audience, The intimate personal characteristics of these great men were given in such a clear and concise manner that its a pity the room was not crowded with the younger generation to hear such a splendid tribute to our nation's great men.

It was indeed a very enjoyable program full of much meaning.

GROUP PLAN ADOPTED BY PRESBYTERIANS.

Rev. J. F. Kiskaddon has organized the work of the Presbyterian church into groups which idea is meeting with general favor and seems bound to work efficiently. The organization is a permanent one and for that reason will be of greater benefit.

The groups have leaders whose duties shall be to look after the work of their church in their neighborhood, to report sick members or anyone in trouble to the pastor, and call on new comers. The town is divided evenly as regards the church membership and the leaders will first call on the church people and inspire their enthusiasm and loyalty. Each carries letters from Rev. Kiskaddon to the membership which are sure to be well received.

The leaders are Mrs. Hugh McElroy, Mrs. R. J. W. Bowen, Mrs. John Schreder, Miss Grace Gillespie, James Lowry, Mrs. J. J. Orr, Mrs. J. B. Kennedy, Mrs. C. A. Hooten, Mrs. Esther Goheen, Mrs. Charles Gillen, Mrs. James Aten, Mrs. M. E. Bordine, Mrs. H. S. Waring, Mrs. Floyd Russell, Mrs. C. H. Kemp, John Pyle, Irving Boltz, Mrs. George Kidman, Mrs. Fred Aylesworth and H. B. Tallman.

BAPTIST BROTHERHOOD DISCUSS CO-OPERATION.

The Baptist Men's Brotherhood held a very inspiring session at their church Monday evening, "Co-Operation" was the theme, a paper on this subject being given by Floyd Bryan and a talk by R. S. Moore who also led the discussion which waxed general and very interesting.

A proposal was also discussed whereby the American Legion invite the churches to co-operate in furnishing men to supervise their Post room for the boys on Wednesday nights.

Plans were also made for the Brotherhood's annual Father and Son banquet.

SONS OF VETERANS ELECT OFFICERS.

Beers Camp of V met at the home of Martin Frayer last Monday night and after enjoying a fine pot luck supper proceeded to elect officers for the coming year. The following were elected: Martin Frayer, Com.; Jim McKinney, Sr. V.; Clarence Gilmore, Jr. V. It is hoped to interest every member in their meetings this coming year and an urgent invitation is extended to all members to come out to the meetings.

TWO BIG QUESTIONS.

Dr. Marion Leroy Burton, Pres. of the U. of M. said recently in a speech at Mt. Clemens that "an undue respect for our laws is today one of our most serious problems. ****Those who defy them should have the ultimatum of getting into American citizenship or getting out of America."

This is very plain language and comes from one of the greatest men in the educational world as well as an equally great man of affairs, and must challenge the attention of every thinking person who has the good of his family and country at heart.

We take it that Dr. Burton did not mean that all law breakers are foreigners but rather that law breakers are un-American no matter where or who they are.

Is it a fact that we are becoming a race of law breakers? Have we so many laws and restrictions that we cannot obey them or are we just losing respect for law and order? If so what is the cause and what the remedy?

Another statement that challenges our attention is the following from a noted educator also. "Licentiousness and luxuriousness have come into the schools of the nation through student dances, which must be curbed if there is to be a solution of the moral problems of the country" said Dr. Jay W. Hudson of the University of Missouri today at a state teachers' meeting. "We have come upon a reign of moral looseness and debauchery he said. It was never so hard to get a child to go the way he should go as it is today."

Such a statement coming from a noted educator in intimate contact with students cannot go without serious reflection on the part of those parents who desire their children to grow up in a clean wholesome atmosphere that will make them into good citizens of high ideals and attainments.

The article is headed "Student dances are licentious." Moral looseness and debauchery rampant in the nation's schools. Isn't that a startling statement to make and print broadcast over the country? Is it a fact or has the Dr. overdrawn the picture? At any rate isnt it about time that the whole matter was given thoughtful consideration by the fathers and mothers of this country to ascertain what the real true situation is. If it is true, what is the cause and what the remedy? No remedy is efficacious unless it is applied directly to the cause, hence such a startling statement demands careful analysis.

Are the schools to blame or is it the parents neglect that produces such a state of affairs or is it both?

These two statements of greatest importance to home and country coming from men of great minds and broad views on life should be very thoughtfully considered by every parent in the land.

What is it that develops such a state of affairs and what the proper remedy is one of the biggest questions now confronting the American home. It must be settled and the sooner the better. How? If you are the parent of a boy or girl it is of more importance than your business affairs. Is it worth while to think of it or are you sure your children are perfect and that it must apply to your neighbors?

Is it worth while to give it any attention at all? These are the questions that must be answered.

FAKES AND FAKIRS.

Someone said that "a fake is something labelled what it ain't" and he told the story.

Fakes and fakirs do not confine themselves to any particular spot or locality. They travel because they have to travel. They come and disappear like a skyrocket. When they first appear it is usually with the familiar roaring swish of the rocket that challenges attention and sounds like something big was going to happen. They mount up in a glow of fire that fascinates and charms but if given just a little time they bust with the familiar pop and disappear midst a few harmless sparks into nothingness.

Fakes and fakirs do the esame, but with the exception that they usually take along with them all the collateral they collect and often leave behind them a trail of broken hearts and many empty pocket-books.

Getting something for nothing is an utter impossibility and when any proposition is urged upon the people by those of unknown origin, they better look the individual up closely who offers it and find out what his reputation for honesty and square dealing has been in other places in order to know what kind of treatment to expect from him under present conditions. A skyrocket is a pretty thing and makes a great roar but its end is known ere it sails away into space there to blow up and drop in small pieces never to be found again.

If you are ever tempted to ride with the rocket, better remember to think it over before you find yourself too far from a firm foundation. Consult with those in whom you have confidence—it pays.

MAKING IT PAY.

Making it pay is the chief end and aim of all business. It has been thus since the advent of time and it has been the subject of deepest study by trained and experienced experts. The total experience of the world has been reviewed, analyzed and investigated by the most skilled and successful of the business men with the single object reducing to a few simple rules the essence of business success.

And one of the first commandments of business success is the CONSISTENT use of ADVERTISING. One glance at any paper, magazine or periodical will prove this.

Consistent advertising means paying for what you get and that only. A page of advertising in the Ladies Home Journal costs $11,000 and it is worth it or no one would use such space. It is worth it solely for one reason and only one—its large circulation. An advertiser buys only one thing—circulation. Because he sees his advertisement in the printed form brings no returns unless that same advertisement goes into the homes of the people he desires to reach.

When we post a sign we put it where most people will see it as that alone makes it valuable. Successful business men buy their advertising from papers they are sure have a genuine circulation in the territory they wish to reach on the same sound principle that they buy their goods and for the very same reason that it pays to do so.

Buying advertising for any other reason than for the number of homes you reach through that ad is just like buying goods that you do not get and it cannot give anything but poor results. Large users of advertising space buy their space solely according to the circulation of the paper and they make it pay. What is good business for them is good for us and to the credit of our progressive merchants it is quite exclusively followed for the simple reason that it is sound business.

And it pays every reader of our paper to study the ads, for in them and by them you are kept informed when, what and how to get the very best of service from your home merchants. It is a money maker for you to make the best use of the offers made by the merchants through their ads. Thousands are making money by it—are you one of them?

Trade with the merchants who are the town builders and carry the best and cleanest stocks to be found. They are progressive, up-to-date and everything you buy of them or any business you do with them helps you get still better values for it turns their stocks over quicker and gives them a still better knowledge of what you need and expect from them. You can always bank on anything advertised in this paper—its right or if found unsatisfactory through fault only use could detect, the merchants will promptly make it good for they are here to make good on every article or service sold.

Buy from our advertisers and we will guarantee that it will pay you many dollars in the course of a few months.

The Car Sensation

OF THE MOTOR WORLD IS THE WAY THE NEW CHEVROLET SEDAN IS DESCRIBED AT THE AUTO SHOWS WHEREVER THE CAR IS SHOWN.

And for the perfectly good reason that it is the finest car shown for anywhere near the price. In fact it rivals those cars which sell for many times its cost. That is why it stands supreme in its class.

The New 4-Door
Chevrolet Sedan

has all the refinements of the high priced closed car and in its performance, it cannot be beaten by any car made. That is a big claim but we stand ready to demonstrate it whenever challenged. But you pay only a small part of what the other cars sell for that are equipped and built as good as the CHEVROLET. Come in and ask us to show you what we claim for this great car and you be the judge of whether it is not all we claim for it.—THE BIGGEST CAR VALUE IN AMERICA.

SAND LAKE IN HISTORY.

By H. C. Daniels.

It was in the sheep-washing season of 1851, that I stood on the banks of Sand Lake and viewed the deep, blue waters with over hanging branches droping their leaves in its placid waters, the swallows skimmed its surface and the fish came up to catch the insects that dropped into the water.

At this date there was no road from the LaPlaisance Bay, Monroe turnpike so that we had to drive our sheep part of the way through unbroken forests, but when we reached the lake shore, we built a pen to herd and wash our sheep in, this pen remained for many years or until the cottagers began to camplain of the impurities it caused about their homes.

About this time a public road was laid out and worked on the east side of the lake from one landing to another. Sand Lake has been a great resort for many years without accident but somewhere in the fifties, while William Mason, James Miller and Calvin Lewis were on the lake the boat sprang a leak and as Lewis could not swim, Mason remained with him while Miller swam ashore, procured another boat, returned and rescued the other two. They all lost their clothes and Miller a silver watch.

People began coming to the Lake for the warm weather about 1876; that summer Mr. Wheeler and J. C. Rowley of Adrian lived on the east bank of the lake in a tent. The next season Dr. Stevenson and a friend each built a cottage, the next year Fitch Dewey of Toledo and M. E. Chittenden of Adrian built cottages, then John Mason of Adrian came with a fine cottage, and about this time William Hayden of Tecumseh built a cottage, barn and ice-house.

In 1876 as near as we can remember J. J. Putman bought a piece of land on the east side of the lake, built the Hotel that bears his name and beautified and leveled the grounds, the Silas Huburt house on the corner was used for a store and dwelling house. The next season he built a real log house in which to live.

About this time Charles Adams of Tecumseh built the North Shore Hotel, which he ran for two years and then rented it to Sidney Decker, later it changed hands again, but the Putman Hotel retains its name and grows in beuaty and population each year.

I always thought that some time Sand Lake would become a great summer resort for it certainly is the most beautiful lake in Lenawee Co. and has furnished more fish than any other lake and is in the midst of a prosperous country and people.

SOLDIER BROUGHT TO TECUMSEH FOR BURIAL.

Roy Allen, only son of Archie Allen, passed away at Mr. Allen's home in Litchfield Sunday night. [illegible] who was born in Tecumseh had contracted tuberculosis while in the service over seas where he was a truck driver. For some time he was in a tuberculosis camp near Denver and was brought home only a few weeks ago.

The boy's mother was Miss Tasie Cook, who died here while he was a little boy. He is survived by the father and both grandmothers, Mrs. Mary Allen of Tecumseh and Mrs. Mary Cook of Clinton.

The Litchfield American Legion had charge of the funeral at the home yesterday and the remains were brought here for burial beside the mother. Underwood-Orr Post conducted the services at the grave.

The Underwood-Orr Post sent their firing squad, color guard, bugler and quite a delegation of members to meet the funeral cortege at Brookside cemetery and there they buried the soldier boy bearers were men from the Litchfield Legion.

WESTMINSTER GUILD BEGINS NEW STUDY.

Miss Keyser and Mrs. J. L. Coller, who assisted in entertaining served lunch after the meeting.

Emphasizing the fact that not half of the people in and around Tecumseh are going to church. Those coming to church and Sunday-school are members of the church now. The time to begin preparation for next year's revival is now. Conversions within the church are in evidence of life, and a natural result.

Two were given the right hand of fellowship into the church in the morning service. In the evening the pastor preached upon the theme, "The man who wanted his own way." Naaman thot a scheme of his own was better than the one prescribed by the prophet, but finally gave way to God's way and obeyed. Following the sermon four were baptised. During the baptismal service strains of "Just as I am without one plea" came softly from the organ which added to the impressiveness of the service. The right hand of fellowship will be given to these next Sunday.

ENJOYED BIG FEED.

The losing side in the recent contest to get members for the chamber of commerce paid their indebtedness to the winners last Wednesday night by inviting them to a big feed at the hotel Paramount.

Eighteen sat down to the tables and they were sure loaded with good things to eat. The hotel management is certainly to be congratulated upon the service he gave and those who lost seemed to enjoy the feed as much as the others. Perry Hayden and his crew demonstrated that they are royal hosts and game losers. The whole affair was most enjoyable.

"....directly beside the window and without warning a face appeared within a few inches of her own.

"It was a white drawn face with disheveled hair and with eyes which stared wildly into hers for a moment while she held her breath in surprise and terror."

This was what terrified beautiful Fay Tudor as she sat alone in the library on the night of her return from France.

Then swiftly flowed the current of mystery and crime.

Whose was the wrong face? Who fatally gassed innocent Laurel Tudor on her betrothal night with lethal monoxide? How did Fay, sleeping in the same room, escape? What part did the gas mask play? Had Fay's war shattered nerves made her the murderess of her cousin?

She didn't know!

A plot of startling originality, yet logically and convincingly developed into a surprising denouement, makes "The Wrong Face" a brilliant addition to the novels of America's greatest detective story writer.

FORMER TECUMSEH BOY WRITES INTERESTING LETTER.

The following letter received by our former townman, P. W. A. Fitzsimmons will be of great interest to Tecumseh people especially to the boyhood friends of Prof. C. H. Van Tyne. We appreciate the privilege of publishing it.

Government House
Bombay
December 16, 1921.

Dear Fitzsimmons:-

I have been hobnobbing now for some days with Sinbad the Sailor, with Alladin, and with Haroun al Rashid and many other orientals.

While I was yet 1000 miles away I received a wireless inviting me to stay while in Bombay with "Their Excellencies," the Governor and his wife. As the boat neared the wharf I saw five or six red liveries, and three or four A. D. C's in white and gold laced uniforms, whom my friend, Padisson, Magistrate of Madras, informed me were the Government House people sent for me. They came aboard, set aside all custom's house regulations, took me out to a very swell car, upholstered in white leather, in which with another car trailing in the rear I and my retinue rode around the edge of the beautiful bay, 4 miles to the Government House. The last half mile was through a most beautiful drive lined with banyan and mangoes trees and every kind of tropical plant and vine.

Every few yards a tall Afghan guard, in red uniform (Gov't House exclusive color) stood stiffly by a tall spear, and held one hand over his eyes as if dazzled by our splendor. At Gov't House servants in all kinds of Oriental livery stood at every turn. They have 1200 such servants around the place. I have one who stands at my door by day, and lies there by night. When we go in to dinner we pass between lines of guards, and a liveried band in a room on one side plays "God save the King." The servants in most fantastic livery stand on both sides of the room salaaming until we, "His or Her Excellency" and the guests are seated. I feel as if I were staying with the Sultan. Indeed his Excellency rules forty millions of Parsees, Hindus and Moslems.

Besides four or five long talks with the Governor himself, I have talked with a lot of Indian politicians whom he has invited to dine with me, Sir Jamsetjee Jeejeebloy, Sir Narayan Chondavarkar, and Sir Sankaran Nair, Councillors, assemblymen, etc. I have arranged to talk with Gandhi, the agitators and leaders of several other factions. I am really getting a fair understanding of the scheme of government. I shall have a lot of fine pictures to show you. I [illegible] kinds of fellows because they hardly know what I am doing.

With kind regards,
C. H. Van Tyne.

L. W. Hanham of Jackson has just received a telegram from Portland, Oregon, stating that his brother, Andrew W. Hanham, had passed away in that city. No cause for his death was given. Mr. Hanham is a son of Wm. Hanham of this city and has been in Potland for the last 12 years.

IMMUNITY AND HOW IT IS OBTAINED.

C. E. Moorman, D. V. M.

Immunity is resistance to disease and is divided into natural and artificial.

Natural immunity is the term that has been applied to the ability or condition possessed by some species or races of animals which enables them to resist natural invasion of certain infecting organisms, and this condition is transmitted to its offsprings. For example the disease known as blackleg is a disease of cattle, the horse is naturally immune.

The term artificial immunity has been applied to immunity brought about after the birth of the individual. It is brought about by either recovering from an attack of an infectious disease as small-pox and yellow fever in humans or by vaccination.

Immunity by means of vaccination is made by introducing into the living animals body virus or the germ causing the disease, as in vaccinating hogs to prevent their contracting cholera, a quantity of serum is also given.

Virus is the defibrinated blood of an animal very sick with, or from one that has died with the disease. For example take hog cholera, which only effects hogs and pigs.

In manufacturing anti-hog cholera serum a healthy hog is selected. This animal is given a quantity of virus and serum. After a certain length of time it is given a larger dose of virus and less serum until it can withstand large doses of virus alone without any ill effects.

The idea being that as soon as the germ causing the disease enters the body, the body immediately starts producing substances to kill or destroy the disease germs, and this product or substance we call anti-bodies. If the body overcomes the disease the blood contains a quantity of anti-bodies, but if the body fails the blood stream contains the germ and its products. So by giving small doses of virus and serum the body overcomes the germ and the blood contains a quantity of anti-bodies so after a time the aniaml can stand large doses of virus alone, as the anti-bodies kill the germ before any harm is done.

Serum is the defibrinated blood of the animal that can withstand the large doses of virus. The animal is either killed and the blood collected under sterile conditions into a sterile container, or just a certain amount is taken from a vein and the animal put through the same process again.

The defibrinating process is sometimes accomplished by machinery or sometimes by hand. When accomplished by hand the freshly drawn blood is stirred with a glass rod until it refuses to coagulate or clot, and the fibrin has collected on the rod.

By injecting into the animals body this serum, the body is supplied artificially with a given number of antibodies, while if the virus or disease germs have already gained entrance into the body through feed, water or abrasions on the skin, the antibodies attack and destroy the germs and only a light form of the disease is the result.

The same is true if the virus is injected the same time the serum is. The serum alone only produces immunity for a short time, for all the antibodics then contained in [illegible] are injected. This is spoken of as the single treatment for hog cholera. The double treatment is where virus is also injected and a more lasting immunity is obtained.

The making of anti-tetanic serum is similar only the horse is used in its production. This serum is used in treating animals as well as humans that are suffering with an attack of tetanus or as it is commenly spoken of "lock jaw."

The dosage is figured out by experimenting with the serum and virus on guinea pigs.

A bacterin is not made by introducing the germ or virus of a disease into any living animal. It is made by growing the germ in an incubator, the germs are placed upon an artificial media as bouillon. It is then placed in the incubator and kept at a certain tempature of heat for a certain length of time. Then they are filtered from the bouillon boiled to kill the bacteria or germs, a certain amount of glycerine is added with phenol for preservative. So a bacterin is the dead bacteria or germ and its product, for a germ thows off a product during its process of growth and multiplication which assists itself in growing.

A dead germ has the same effect on the living body as the live one in regard to producing antibodies but will not produce the disease.

BUGS AND BIRDS

By W. L. Coller.

Sportsman Spare The Birds— You are not an American sportsman if you kill them. This has been a fine winter for the quail and pheasants to live and the outlook is good for restocking Michigan of these two birds. Anyone wishing pheasant's eggs for hatching next summer should send me their name and address now and I'll see that you get an application blank for eggs. If the propagation of pheasants and quail was as fast as that of the Colorado Beetle, our common potato bug we would have plenty in a short time. If "one pair" of the potato bug was allowed to breed unmolested for one season, it would, at the end of that period, be responsible for a family running well over 60,000,000.

The only good thing I can say for the potato bug, is that they make good bait for fishing sometimes. The tussock and [illegible] moth, if unchecked, would produce sufficient progeny within ten years to destroy the foliage of every tree in America.

Over 300,000 species of insects have been described and identified. The number unidentified is perhaps as large. The damage of these insect pests is beyond the imagination. Caterpillars and other leaf eating insects have been known to consume as much as 200 times their weight in food each day.

The only life beyond complete control of man, is that of insects. How destructive their reign would be if it were not for the insect eating birds; no one could answer. You cannot over-estimate the economic value of our insectiverous birds. So it is up to us all to let the birds live and help to protect them.

JUST A SUGGESTION ON STANDARD OR EASTERN TIME

(Contributed)

Through our Commerce Club arrange with the business houses, factories, and schools to start and close, one hour earlier, on present time, during the summer months.

We would thus secure all the benefits of Eastern time, and save the confusion of two times, as the rail roads and busses will not change.

MISSIONARY SCHOOL HOLDS FINAL PROGRAM.

Sunday night's service at the Presbyterian church was a splendid culmination of the series of church school meetings just finished at that church when the missionary work of that denomination has been the subject.

This school has been well attended throughout the course, the interest being very evident from the youngest, to the oldest classes and the program of the Sunday evening service was given by representatives of each classes. The program was as follows with Rev. J. F. Kiskaddon presiding:

Organ prelude—Mrs. F. C. Dickinson.

Hymn, "Onward Christian Soldiers."

Invocation, with Lord's Prayer.

Song, "Rally the Juniors"—The Juniors.

A story, "The House that Moved Away"—Esther Brewer.

Paper, "The Races in America"—Written by Mrs. H. E. Mitchell, read by Mr. Mitchell.

Violin solo, "Somewhere A Voice is Calling" (Tate)—Lester Waring.

Sketches, "The Light Bearers"—Katherine Hoag, Margaret Murphy, Hazel Beevers.

A story, "The Hermit of the Himalayas"—Madeline Boyce.

Hymn, "From Greenland's Icy Mountains."

Offertory.

Address, "The Children in the Church"—R. M. Moiles.

A review, "A Noble Army"—Mrs. Kiskaddon's class of seventeen boys.

Hymn, "Stand Up for Jesus."

Reading of Scripture, Matthew 28:16-20.

Address, "Why and How"—Mrs. F. D. Rector. This was a stirring appeal to the people to remember the missionary work of the church not only occasionally but continually, for we are commanded by the Master to "go into all the world and preach the Gospel" and we have only one-third of our task completed in twenty centuries.

Prayer—The pastor.

Hymn, "Fling out the Banner."

Benediction.

Organ Postlude.

HONORING BLISSFIELD LADIES.

Honoring her guests Mrs. Lawrence Rappleye, Mrs. J. D. Service and Mrs. (Dr.) Lamley of Blissfield Mrs. Vera Hodges entertained a party of ladies at 1 o'clock luncheon Friday. Her tables were pretty with hyacinths and narcissus and her prizes were more flowers. The guests played bridge during the afternoon, the high score being the fortune of Mrs. Paul Bowen with the low score going to Mrs. F. E. Barritt of Lansing also an out of town guest. More flowers were the guest prizes.

MAXWELL SMITH CELEBRATES BIRTHDAY.

Mrs. S. Henry Smith entertained a party of nine small boys Friday honoring her little son Maxwell who was celebrating [illegible] birthday. It was a George Washington party with the usual decorations of flags and tiny hatchets. Streamers of red and white draped from the table to the chandelier above. At 5 o'clock dinner was served with the centerpiece a great birthday cake. Mrs. Smith was assisted in serving by Mrs. Ralph Smith.

Games made the hours pass swiftly and Maxwell received many pretty gifts.

Annual Report Is Published

Detailed Statement Of Receipts And Expenditures Given. People Can See Where Every Penny Has Gone. Clerk's Books Balance To A Cent With Treasurer.

Elsewhere in this paper is given the usual annual village report which shows where every penny of the people's money has gone and exactly how every cent was raised to meet our expenses.

The state law of Michigan requires that the village clerk shall cause this report to be published each year at least one week before the annual spring election in a newspaper published in that village and in keeping with that law we herewith present the report in detail.

Probably no single state law has been the means of keeping the people as fully informed on the doings of its officials as the publication of this report, and doubtless it has also been the means of a great saving to the people in many localities.

Village Clerk, W. L. Coller, is the author of the report as required by law and it must be said that it is not only complete in every detail but that it shows with what exactness he has kept the books of the village for in checking up with the Treasurer, the books balanced to a penny and it took but a few moments to check every account.

It is generally conceded that W. L. Coller has made one of the best clerks the village ever had. His books are kept in perfect order and up to the very minute, and he can tell at any time just how every account stands or give you any other information you may desire. Further he is always ready and willing to give you any information you may want regarding the village business and he does so with an obliging spirit that makes him one of the most efficient clerks the village ever had.

And being in business, on the Main St. he is easily accessible and those who have business to transact with the clerk do not have to wait until he can be located. This accomodation alone is worth much to the many people who have to pay water taxes and transact other business with the village clerk and is greatly appreciated.

Study the report carefully and you will find many interesting things contained therein. We expect to give a digest of some of them next week.

ENTERTAINS SUNDY-SCHOOL CLASS.

Mrs. Eaton's class of the M. E. church held their February meeting at the home of Mrs. Robt. McCoy last Friday p. m. After the business meeting, Mrs. Thurman who with her husband had been manager of the Rest home for girls in the employment of Montgomery, Ward & Co. at Warrenville, Ill., gave a very interesting description of the home.

Then a letter from Mrs. Buler, [illegible] spending the winter in St. Petersburg, Fla., was read by Mrs. Quackenbush.

Ms. Grace Austin then favored us with two readings.

A song by the class followed by prayer by Mrs. Lowel Waring closed the program.

A pot-luck supper was enjoyed which with visiting ended another very pleasant class party.

DEMOCRATIC TOWNSHIP CAUCUS.

Notice is hereby given that a Democratic Township Caucus for the purpose of placing in nomination candidates for Township Offices of the Township of Tecumseh, County of Lenawee, State of Michigan, and for the purpose of transacting such other business as may properly come before it, will be held at Council Building on Thursday, the 9th day of March, A. D. 1922, at 7 o'clock p. m.

By order of Committee.

ARRESTED FOR DRIVING WHILE INTOXICATED.

Maurice Adams of Britton, formerly of Tecumseh, collided with a party of Monroe motorists Saturday night near Justin Camp's farm east of town.

No one was seriously injured but both cars were badly wrecked. Adams was arrested for driving while intoxicated and taken to the Adrian jail. When arraigned on Monday he pleaded not guilty and his trial was set for March 5 with his bail fixed at $300.00.

FOR TOWNSHIP TREASURER.

I hereby announce myself as a candidate for the office of Treasurer of Tecumseh Township on the Republican ticket, subject to the decision of the voters at their caucus.

BROUGHT HOME FROM OREGON FOR BURIAL.

The remains of Andrew Hanham, who died in Portland, Oregon, the Wednesday before, arrived here Monday morning and were taken to the home of his parents, Mr. and Mrs. William Hanham. They were accompanied by Eugene [illegible], a Portland friend. Mr. Hanham had been ill with bronchial pneumonia which followed influenza.

Andrew Hanham was born in Manchester [illegible] years ago. When the family came to Tecumseh he remained, learning the baker's trade which he followed through life. Twelve years ago he went west and with the exception of five months spent in China, lived nearly all that time in Oregon.

Surviving are the parents, three sisters and two brothers: Mrs. H. C. Howard of Ypsilanti, Mrs. Alfred Travers of Buffalo, Mrs. Roy Alderdyce and Roy Hanham of Jackson and Homer Hanham of Ypsilanti. Two brothers, Earl and Emory, died in 1920, so this makes the third time in two years that Mr. and Mrs. Hanham have been called to lay away a son. Earl died Feb. 27, 1920, just two years before the arrival of Andrew's body home.

Mr. Hanham belonged to the Elks and Eagles.

The funeral was held from the home Tuesday afternoon, all the children being home but Mrs. Travers.

The service was conducted by Rev. W. A. Gregory of the Methodist chuch. The bearers were Wade Jones, Hugh and Charles Hanna, Kenneth Hay, Claude Gray and Percy Bowen. The burial was in the family lot in Brookside.

Those from out of town attending the funeral were Mr. and Mrs. H. C. Howard, Mr. and Mrs. Alfred Travis, Homer Hanham.

Card of Thanks.

We wish to thank all of our friends for the many kindnesses shown during the hour of our grief in the loss of our son. Also the minister and all others who so kindly assisted and helped to make our grief the less, especially those who donated [illegible] and flowers.

Mr. and Mrs. Wm. Hanham,
Mr. and Mrs. H. C. Howard,
Mr. and Mrs. Roy Alderdyce,
Mr. and Mrs. Leroy Hanham,
Homer Hanham,
Mr. and Mrs. Alfred Travis.

NEW AGENT FOR INTERNATIONAL HARVESTER CO.

Clyde Drewyor and Leo Robinson have contracted with the International Harvester Co. for the sale of their inplements for this year. Both men have been in the farming implement business several years, working for Hoyt Whelan in this line last season. Previous to that Mr. Drewyor was in the employ of Leon Temple when he had the International agency and Mr. Robinson was connected with the implement business for six years in Britton. Both have a large acquaintance in this vicinity where they are known as honest, hustling young fellows and are sure to be a fine acquisition for the International people.

They have rented of H. C. Moore the old Dr. Waldron barn on Logan street which they will overhaul and make their storage and business headquarters for the present.

TECUMSEH REBEKAHS GO TO ONSTED.

Quite a party of Tecumseh Rebekahs went to Onsted Tuesday evening, accompanying their staff who initiated six candidates into the degree. This is another of the series of their "Down the Pike" visits and as usual proved most delightful. After the lodge session a lunch was served and dancing enjoyed.

The local lodge entertain the Britton organization tomorrow night, when the guests will be served a pot luck supper.

BLANCHARD COUNCIL INITIATE SEVENTEEN.

Seventeen candidates were initiated Tuesday evening in Blanchard Council No. 34, R. & S. M. follow a banquet served at 6:30. The candidates were Wm. Curry, Jr., Fay Wiggins, Carl Thompson, Millard Cheever, Dewey Hoagland, A. W. Lee, Lavern J. Russell, all of Britton, Arthur Ferrick, Dr. McKennon and Leman Bailey of Clinton, C. N. Graebner, E. M. Campbell, Rev. J. F. Kiskaddon and Wilmot Collins.

There were fifteen visitors from Adrian, about as many from Manchester, others from Brooklyn and Clinton. Among the honor guests were J. H. Kingsley, past thrice illustrious grand master, and Matt Blosser, T. I. M., both of Manchester.

The Monday Club Has 192 Members

Gives Splendid Programs And Is Most Enjoyable. Work Is Broad And Instructive. New Members Are Being Added. Is Now One Of The Largest Clubs In The County.

Miss Schlegelmilch of Adrian gave a charming address on Japan at the Monday Club meeting Monday afternoon, and made many friends who will be more than pleased to hear her again on April 3rd.

One new member was added to the roll, Mrs. J. O. Aldrich of Ridgeway, bringing the list to 192 members.

A committee was appointed to collect the funds for the support of the French orphan as follows: Mrs. Jenny C. Law Hardy, Mrs. John McIntyre, Mrs. J. F. Rector, Mrs. Fred Sheldon and Miss Ethel Keyser.

Mrs. George S. Field was leader of the afternoon, announcing this program:

Vocal solo, "The Garden of My Soul"—Mrs. E. N. Billings.

Paper, "Legends of Old Japan"—Mrs. W. D. Reed.

Vocal solo—Lester Waring.

"From Yokohama to Tokio" was to be the theme of a paper by Mrs. W. E. Wilson, but she invited Miss Schlegelmilch to come in her stead. The visitor did not confine herself to the named caption but took Japan as a whole and her lecture was intensely interesting.

Mrs. John T. Clark of Clinton, chairman of the extension work of the County Federation, was present and made an ardent appeal for the ladies to help form a woman's club at Britton.

The room was gay with great jars of hyacinths and jonquils making a beautiful setting for the club meeting.

The club has been giving a series of very profitable baked sales of which another will be held Saturday afternoon at Pulver's drug store with Mrs. J. F. Rector in charge.

Next week Mrs. Ida Spencer will be leader with the following papers:

Industries of Japan—Mrs. W. R. Curtis.

Satsuma and other Potteries.—Mrs. Clarence Starkweather.

The story of the Willow Ware—Mrs. E. E. Berry.

BAND DANCE FRIDAY NIGHT.

The ladies of the T. L. B. will give another benefit dance at Witherell Hall tomorow (Friday) night. These dances are very popular with the home folks and Coller's Orchestra furnishes ideal music so that everyone has a genuine good time.

Don't forget the date and come along if you want a genuine good time and also help one of the most worthy enterprises in Tecumseh, the Ladies Band.

NEW RUG DEPARTMENT.

The Webster Anderson Co. has [illegible] in their east room which shows their large line of rugs in a very clever and artistic manner.

The rugs are hung on heavy arms that swing back and forth so any rug on the rack can be shown full length by simply swinging the arms around. It also keeps the rugs stretched straight at all times and in perfect condition.

It is a distinct addition to the equipment of this enterprising firm and in keeping with their up-to-date merchandising methods.

HONORING DEPARTING FRIENDS.

As a farewell party for Mr. and Mrs. David Linton who leave today for their former home in California after a year in Michigan, a company of their neighbors from northeast of town met Tuesday evening at the home of Mr. Linton's sister, Mrs. Charles Orr. There were about fifty present and they amused themselves with progressive pedro. Charles Allen, Clarence Sherman, Mrs. James Foster and Mrs. Thomas Murphy cut for first honors.

A bountiful pot-luck supper was served.

YOU ARE INVITED

GIRLS BEAT IN A GREAT GAME AT BATTLE CREEK.

It was no disgrace for the high school boys to be defeated by the Toledo Scott High Reserves Friday as the Ohio boys were big rangy fellows, just formed for basket ball they played a fast game, in fact went such a pace that our boys had them winded at the end while the home team were then just right to go on and play a real game. One Toledo boy said after the game that their boys were all in and if they had had ten minutes more to play our boys would have won.

The score stood 31 to 20 for the Scott boys.

Lawrence Harrington played a wonderful game, making five field goals. Aylesworth was a new man on the first team and gave a good account of himself. Hendershott subed for Bowen as guard a few minutes, but Bowen did splendid service for his team.

The Clayton team came for their return game with our second team, the latter boys winning 22 to 12.

Our second team are a lively bunch of young hustlers and show up better all the time under Coach French's training.

Leroy VanWinkle of Ypsilanti refereed both games.

The girls team played at Battle Creek that evening winning for the third successive year from the Food City damsels. This score was 43 to 18. The score surprised the home folk as well as delighted them which was evident when Referee Van Winkle announced the receipt of the message from Battle Creek. The crowd applauded again and again, proving Supt. Crampton's girl team have a warm spot in the hearts of the basket ball fans. As Miss Ellen McCook, one of the regular guards, is laid up with an injured knee, brought on in a practice game, Miss Margaret Turner played in that position and by the wonderful score must have been on the job every minute. Miss Mabel Gill was taken as sub also. At the close of the first half the score stood 13 to 15 for Battle Creek so our girls must have worked some to make 30 points in the last half.

EPISCOPAL RECTOR OCCUPIES METHODIST PULPIT.

As Rev. W. A. Gregory was unable to be present at his church service Sunday evening, through services at the Union church at Tipton, Rev. J. J. Preston of the Episcopal church occupied the Methodist pulpit. He took for his theme "The Necessity for Religion in Life" and gave a splendid address. The gist of his sermon is contained in the one sentence, "For the development of a strong, vigorous moral and spiritual life, man needs religion."

"500" AT THE RUSSELL HOME.

The "500" club and their husbands were guests of Mr. and Mrs. Lavern Russell Monday evening at a St. Patrick party, celebrating the Irish saint a little prematurely as it was their last party before Lent. [illegible] everywhere, the table for the six o'clock dinner being laid very prettily with green hearts for place cards and shamrock used plentifully.

After the feast cards were brought forth and at "500" the high score went to Mrs. G. A. Rathbun and Norman Taylor with Mrs. J. M. Artman and F. C. Dickinson consoled.

ANNOUNCES CANDIDACY.

Elsewhere in this paper is the announcement of Ivan Spitler for Township Treasurer on the Republican ticket.

We are glad to see Mr. Spitler come out for this office as he is one of the boys who went across the seas and did his bit for eleven months. He was in the service over two years and withal he is a young man fully capable of assuming the responsibilities of the office and a Tecumseh boy who is well and vey favorably known by his many friends. His candidacy will doubtless be very carefully considered by his party.

H. B. ROBERTS CALLED BY DEATH.

H. B. Roberts, a well known and highly respected resident of this locality, was called to his reward Sunday, aged 79 years. He had been in failing health several months, his three daughters taking turns in caring for him.

Henry Brant Roberts was born in Sparta, Livingston County, N. Y., Feb. 28, 1843, the third son of Jacob G. and Sarah Roberts. He came to Tecumseh when a boy of eleven years and with his family made their home on the farm where he died.

He atended the Tecumseh high school and played in both the orchestra and band. During the Civil War he served in the commissary department, most of the time at City Point, Va.

When a young man he taught in the Culberston and Waldron schools. In the early '80s he purchased a farm on the Clinton road where he resided until 1903, moving from there to the old homestead after the death of his father.

Mr. Roberts is survived by the three daughters: Mrs. Bertha Anglemeyer of Chicago, Mrs. Blanche Thayer of Grand Rapids and Mrs. Hazel McLachlin of Monroe. He also leaves three grandchildren and one nephew, Lynn C. Roberts of Toledo, Ohio.

Mr. Roberts was a refined, courtly gentleman, reserved to a high degree but a home-loving man and a most devoted father.

The funeral of Mr. Roberts was held from the home Wednesday afternoon, Rev. J. F. Kiskaddon officiating. Mrs. S. W. Boyce and Wilbur Boyce sang two beautiful hymns, "Nearer My Home Today" and "Beautiful Isle of Somewhere." The bearers were Glen Thayer, Leon McLachlin, John E. Murphy, Willis Schreder, Wesley Keyser and George Sanford. The remains were laid at rest in Brookside in the family lot.

Present for the service from out of town were Mr. and Mrs. Glen Thayer and son of Grand Rapids, Mrs. Bertha Anglemeyer and daughter Leona of Chicago, Mr. and Mrs. Leon McLachlin and son of Monroe, Mrs. James R. Davis of Lansing, Mrs. Mary Halladay, Frank Anglemeyer, Mr. and Mrs. Henry Way, Mr. and Mrs. Ed. Young of Clinton and Mr. and Mrs. Bert Anglemeyer of Manchester.

JUNIOR PLAY GREAT SUCCESS

"Aaron Boggs, Freshman," is the title of the play given last night and again tonight by the Junior class at the high school auditorium. The young actors played to a full house and their auditors enjoyed hugely the whole performance.

As a raw country kid John Erwin Anderson is the cap sheaf and with Mary Pennington as Lizzy, the maid, the scheming, saucey leading woman character, the show was sure of success. There were seventeen in the cast and it is hard to choose favorites. Just go tonight and see for yourself.

Lawrence Harrington [illegible] sentimental Senior, Alice Heilman and Thelma Ruesink as boarding house keepers, were unusually good but Rollo Theilan as Aaron's "paw," Harry Duncan, the loafing husband of the house, Charles Walton, the second-hand Jew, Robert Collins, Thomas Meade, Raymond Platt and Dwight Hodges as college men, Bernice Austin, Luella Colson, Mabel Gill and Juanita Goheen as co-eds and Ellen McCook as a vaudeville star, were all just right. Again, go tonight.

Prof. Wilcox and his high-school orchestra furnished the music.

WIT AND WISDOM CLUB MEET AT BAPTIST PARSONAGE.

Hyacinths and othe spring flowers made gay the home of Rev. and Mrs. W. R. Curtis when they entertained the Wit and Wisdom Club Monday evening for their Irish Night. Rev. Curtis was the leader, announcing the following program:

Saxophone solo—Lester Waring, accompanied by Mrs. J. F. Kiskaddon.

Paper, "Irish Wisdom"—Mrs. J. O. Eaton.

Vocal solo—Mr. Waring.

Paper, "Irish Wit"—John T. Boyce.

Reading, "Tom Murphy's Remarks," "How Dennis Took the Pledge"—Mrs. Fred Sheldon.

Piano duet—Mrs. Kiskaddon and Miss Ethel Curtis.

Roll call, answered by Irish stories.

A very jolly social hour followed when everybody told Irish yarns and Mrs. Curtis served lunch.

The next meeting will be with Supt. and Mrs. E. E. Crampton.

The Men's Brotherhood of the M. E. church will give a mother and daughter banquet Monday night at the church parlors at 7:30. Mrs. Dr. Hardy will give an illustrated lecture on scenic New Zealand. A musical program will be given by Mrs. Ella Hodges.

RIDGEWAY.

Last Fiday 160 members and friends of the Ridgeway Community Club met at the Gleaner Hall. During the business meeting several new members were added to the club. After the meeting a program given by the men of the club was thoroughly enjoyed by everyone present. The men surely proved that they knew how to entertain. This was followed by a banquet served by the women. Guests were present from Detroit, Ypsilanti, Oswego, N. Y. and Toledo, Ohio.

Mr. and Mrs. Guy Pocklington entertained Miss Ida Babcock of Detroit over the week-end.

TAXPAYERS

(Communication)

Do you believe that Chicago Street can be boulevarded for a figure anywhere near the estimate that has been submitted to you?

Do you think that the cost as submitted will cover the cost of moving water mains, sewers, etc?

Do you think that the plan of distributing the cost of paving between the west end and the east end of Chicago Street is a fair one?

Do you realize that the Village has a heavy frontage including the parks school houses and street intersections to pay for?

Do you know what the upkeep of a boulevard will be and if Tecumseh would want to maintain this without beautifying it as it should be?

Do you think this is a good time to use extravagance with our present rate of high taxation?

A few people who do not pay taxes will vote for a proposition of this kind as long as they get the benefit and do not have to pay for it, but under present conditions it seems to me this is absolutely out of question.

I am for Tecumseh first, last and all the time and would willingly encourage any improvement if we can afford them but do not think we can or should give this proposition our support.

If we can pave the two blocks, curb to curb of the business district at this time we are doing all that is necessary and save ourselves a lot of extra expense by constructing a 20 ft. strip of concrete for the 5 blocks mentioned outside.

Later if we want to build more pavement, construct one on Railroad Street from depot to depot and you will still have a town that will compare as favorably in improvements or better than 95% of the towns surrounding us.

Now is the time to decide this so turn out on election day and make your ballot for the best interests of Tecumseh.

A Taxpayer.

With my little rhyme
Hoping it's just

Novel Title For Film "The Hell Diggers" Refers To Giant Gold Dredges.

When picture fans read the title of "The Hell Diggers" Wallace Reid's new picture, which comes to the Bradley Opera House next Sunday, March 5, they will doubtless wonder what it means. The title of the film refers to the enormous gold dredges used in the great gold mining districts in California and elsewhere. This is the first time, so far as can be learned that they have been featured in a picture.

"The Hell Diggers" is a story of grit, sand, fighting blood and a great love. A story that smashes through to the biggest triumph that Wallace Reid has ever played in. "The Hell Diggers" is a romance of gold and guile in the primitive west, of towering mountains, rushing rivers, endless plain and among them—titans battling for mastery.

The scenic back ground in "Hell Diggers" is wonderful, the mountain and western 'shots' being some of the most beautiful ever seen in any picture and throughout the entire feature runs one of the best and strongest plays that Wallace Reid has ever been starred in.

"Let Me Explain" a new Christie comedy is also on the big Sunday night program.

"Girl In The Taxi" Coming Saturday Night.

"The Girl in the Taxi" a film production from A. H. Wood's greatest stage comedy, is billed for Saturday night, March 4, at the Bradley. The fun in this big comedy production runs faster than the milage on a taxi meter. From the time Carter DeHaven appears, and he is there when it open, until the final fade out hides his contagious grin from view, you are going to gasp for breath for the next laugh while you are still chuckling over the last one. Mrs. DeHaven is seen as "the Girl" and both Mr. and Mr. DeHaven are playing the same parts in the picture that they did in the original Wood's stage production and the larger range of action offered by the scope of the camera gives them opportunities for injections of comedy which could not be done in the limited sets of the speaking stage.

A selected comedy "Snooky's Blue Monday" completes the all comedy program Saturday night.

Two mannoth productions are coming to the Bradley in the near future, they are George Kleine's mammoth production of "Quo Vadis" and Rex Ingram's "Four Horsemen of the Apocalypse"—watch for these dates.

CLASS BANQUET

Most enjoyable and successful was the closing contest banquet given at the Methodist church parlors Friday evening last, by the Sunday-school classes taught by Mrs. Albert Benedict and Mrs. Seeber Wyman. Covers were laid for 34 young people. The program was as follows:

Prayer—Rev. W. A. Gregory

Winning captains, Miss Velma Harper and Webster Conklin introduced by Mrs. Wyman.

Miss Harper in a very clever manner called for original music from Mr. Conklin who gracefully responded with a couple of beautiful numbers.

Miss Christine Wilson gave a humorous reading and was loudly applauded.

Miss Ruth Skinner gave an instrumental solo and responded to an encore in a very pleasing manner.

The assistant Sunday-school superintendent, Miss Emma Rogers, gave a fine toast, "Co-Operation."

The Reds and Blues together sang an original class song with great vim.

Mrs. Benedict gave a toast, "Our Contest and It's Results."

The Reds also sang a song of congratulation which was greatly applauded by the Blues.

The table was beautifully decorated with red roses and blue birds

Rev. Gregory had charge of the games and the young people had a delightful evening and voted the contest well worth while.

Mrs. B. F. DePuy and daughter delightfully entertained for dinner Wednesday Mrs. W. E. Wright of Coldwater, also Mrs. L. L. Mangus, Mrs. Ida Spencer, Mrs. Willis Smith and Mrs. J. F. N. Bowen

Village Election Occurs Monday

Two Full Tickets In Field. People To Vote On Boulevarding Chicago Street And On Whether Eastern Time Shall Be Adopted During The Summer. Three Trustees To Be Elected.

The electors of the village of Tecumseh will have an opportunity to register their wishes upon two important questions next Monday besides electing the village officers for the ensuing year.

The biggest question is whether we shall boulevard Chicago St. this summer when the new State road is put through. This question has been thoroughly explained to the people by means of a circular letter put out by the chamber of commerce and it now awaits their decision at the polls.

The second question is one of adopting eastern time during the summer. This also will be decided by the people next Monday.

One question not always understood is the fact that in electing the village trustees, it is the three who receive the highest vote that are elected. No trustee runs against any other trustee though their names may be opposite each other on the two tickets. In fact if two names were opposite each other received more votes than any three others they would both be elected. Remember you can vote for any three you choose but you can only vote for three. You can vote for two whose names are opposite if you desire to do so providing you only vote for three names in all. Put a cross in the square before the name you wish to vote for and you have voted for that person. In voting for all other officers beside the trustees you can only vote for one for each office as there is but one to be elected while in the case of trustees there are three to be elected out of six names on the ballot. Remember that you can vote for any three trustees out of the six on the tickets whether their names come opposite or not.

And it is hoped that everyone eligible will come out and vote and thus register the opinion of the whole people on every question.

KEEP EFFICIENT MEN IN OFFICE.

(Communicated).

As a taxpayer of this village I wish to express myself on this important subject. I was interested in reading in your valuable paper concerning the fact that the books of our village clerk, W. L. Coller, balanced so quickly and perfectly with the treasurer's.

That is exactly as it should be and it certainly shows that Mr. Coller has performed the duties of village clerk with the greatest efficiency. It is not a well paid office as I understand it and it is hard to get men for such an important office who can and will attend to it in such a creditable manner, and I desire to bespeak for Mr. Coller the favorable consideration of those who believe in keeping the office conducted in such a careful manner and with everything up to the minute in our village records.

Mr. Coller is easily accessible at all times and he is always very willing to assist anyone who has business with the village, hence we believe that he should be returned to that office with a large majority as evidence of the people's appreciation for a careful conscientious and obliging public servant.

Previous to the Ceremony a banquet will be served at 6 p. m. (sharp) to all De Molays and a large class of candidates.

THE FRATERNAL ORDER OF EAGLES SPONSORS OLD AGE PENSIONS.

Chiefs Aerie No. 1563 of the Fraternal Order of Eagles, one of the active fraternal bodies of this community, in response to the request of the National Commission on Old Age Pensions of said Fraternal Order has appointed Messrs. Geo. A. Rathbun, H. S. Temple, Wade L. Jones, as the local committee. This committtee will immediately begin steps to organize Old Age Pension Clubs in this community. The purpose is to arouse public sentiment in favor of old age pensions in the hope that the next legislature will pass an Old Age Pension bill that will be approved by the Governor to become effective at an early date. Non-Eagles as well as Eagles and other organizations will be invited to participate in the formation of the club which will be a civic organization rather than a purely fraternal one. After the committee has worked out its plans, announcement will be made in the local press.

This Old Age Pension act is to care for the men who, having spent the vigor of their youth and the strength of their manhood in productive labor, find themselves "strapped" at 60 or 65, being no longer able to "carry on" with the swift-moving machinery of the present age.

BRITTON REBEKAHS VISIT TECUMSEH.

The Britton Rebekahs were guests of the local lodge Friday evening when the visiting staff, under the captaincy of Cass Zeluff, gave the degree to Mr. and Mrs. Hollis Clark. A bountiful pot luck supper followed the lodge session and later Clare Schlosser of Adrian furnished the music for dancing.

The local Odd Fellows and Rebekahs are planning for a big meeting for March 15th, when the Onsted, Brooklyn and Tecumseh lodges will join in entertaining the state officers of both orders.

ENTERTAINED AT "500"

Mrs. John R. Nyland gave a very pretty party to about thirty ladies Thursday evening when her decorations were spring flowers in profusion. There were seven tables at 500, Mrs. L. S. Schneider winning the high score and Mrs. Ella Glover and Dr. Pauline Bredow cutting for consolation. The doctor drew the little gift.

Mrs. Nyland served her guests a dainty lunch, assisted in the serving by the Misses Helen and Louise Nyland, Frances Tallman, Ruth Stone, Alice Barber and Josephine Daisher.

A FAREWELL PARTY.

Mr. and Mrs. Ed Aebersold, who have just moved to their farm north of town, were on Thursday evening given a kitchen shower at the home of their former neighbors, Mr. and Mrs. William Tilton, south of town. Cards, music and a pot-luck supper were the features of the evening and Mr. and Mrs. Aebersold received many gifts which will materially help out in their housekeeping arrangements.

POLLS OPEN UNTIL 8 P. M.

Owing to the special election for voting on the bond issue, the polls of the village will be open next Monday until 8 p. m. in order to give every voter a chance to cast his ballot.

REPLIES TO A T

To the Editor:

Replying to a com... last week's Herald sig... Taxpayer," I h... the use ... columns to answer some of the questions asked.

After studying the plans and figures submitted by the State Engineers at the meeting at the Council Building February 27th, and listening to their answers to the many questions asked them, I believe that all the expenses caused by this boulevard will be kept within the original estimate given sometime ago of $38,000.00.

Any work connected with the sewers and water mains will be a small item, but this work will be necessary anyway whether we have a boulevard or not.

The difference in cost between the West and East ends of town is prescribed by law, and is based upon 5% of the different valuations of the two districts, the district of the greater valuation paying more in proportion.

The upkeep of the boulevard will be far less than the upkeep of two narrow strips of ...wa... on each side of a twenty ... pavement and of two "V" ditches.

One advantage of the boulevard, which will save a good deal of money in the future, is the comparative ease with which connections with sewer and water and repairs of the same can be made. Sewer pipes run under the park space in the center of the boulevard, and water pipes just under the edge of the paving.

Everyone who pays rent is a taxpayer, and this question is so important that everyone should turn out and vote.

No time, whether taxes are high or low, is a good time for extravagance, but now is the time when Chicago Street can be paved for the least money possible. It must be done now or never. If by any chance the boulevard should be defeated, later it will be proposed to pave the entire width of the street. Then you will have a [illegible] be inaccessible and the water pipes inaccessible from one side of the street. It will cost you at least $5.000 more for paving, and you will have to hire your own engineers and do your own grading.

It is up to the voter of Tecumseh whether we have a beautiful main street or a country road running through it with ditches on each side, an eyesore to everyone, including ourselves.

PRESIDENT OF M. S. N. C. COMING.

The Parent-Teacher's Association has been most fortunate in securing for the meeting of Thursday, March 23. President Charles McKenny of the Michigan State Normal College who will address the association.

Other pleasing features will be music by the High School Orchestra, and exercises in physical training will be given by Miss Holmberg's classes.

The President, Mrs. Reed, especially desires a good attendance at this meeting as the speaker is one of note and will have something worth while to give you. Let's fill the room for this meeting. Watch next week for President McKenny's subject and the hour of meeting.

WRITES INTERESTING LETTER

(Continued from page two)

Nov. 5, had better roads nearly all of the p. m. At 1 p. m. we crossed the Tenn. river on Gunter's ferry, only cost $1.03 (including war tax). Floyd thought it was the one Noah had. Our next stop was Guntersville, where we did our Saturday shopping. It seemed as though the people here were about 50 years behind the times and that we were traveling through uncivilized country all day. It was right here that we started in to go over the Sand Mountain, it seemed quite a sight to wind around up and down on the side of those mountains where the roads were hewn from the solid rocks, the roads were fierce, going through ruts and honestly we drove over stones as large as bushel baskets in places but for all of the hardships in these places, there was wonderful beauty, the clouds hung over us so low it seemed like we could nearly touch them and it was a lovely sunshiny day too. We drove 31 miles that day, we had to drive so slow as we were going down around those bad places, could see down for hundreds of feet. One has to watch the road all of the time as the turns are very short and steep and if one should make a misturn they would go down the embankment to eternity. The springs are so beautiful the water coming out of the rock but we did not stop for water in those places, but found a level place to camp, about half way down the mountain in a saw mill yard. There were 5 tents of us here, all of them we had camped with before. One Neb. car, one Ind. and the other three of us from good old Michigan. We can-

...its wonderful geysers, hot rivers, beautiful mountains, wonderful verdure and the people, and most interesting feature of all is the fact that she has travelled the country over several times—not the civilized section, the ordinary path of the tourist but through its wonderful jungles and among the native tribes.

Mrs. J. S. Temple closed the program with a jolly toast to "The Men."

The men's class owe the fine success of their evening to Heman Lockwood who worked early and late to prepare the dinner.

TAKE UP INTERNATIONAL LINE.

Drewyor and Robison of this place have taken on the agency for the International line of implements and tractors. They have located on West Logan St., just off from Evans St. for the present and will be glad to see those who are interested in their line.

Both of these men have had a wide experience in the farm machinery work and they are young men of energy and anxious to give their patrons the very best of service. They are also very favorably known in Tecumseh and sure to make a success of this work because they expect to do it upon the grounds of good values and real service.

As they are starting clean from the beginning, all of their implements are bran new and they have nothing to trade off. Their patrons will be sure of a square deal with these boys. We bespeak success.

FORMER BUSINESS PLACE RAZED.

Thomas Elliott is having torn down the old shop building just south of Dr. Hardy's home on South Pearl Street, recently vacated by Lawrence Van Tyne. This building was erected about fifty years ago by G. W. Griffith who maufactured wagons and was used by him as a display room for his wagons. Most of the older citizens remember it as the Chinese laundry but in recent years Mr. Van Tyne occupied it as a furniture shop.

Mr. Elliott plans in time to erect another building on this site to be used in his wood-working business.

DRAWS SOME MILK.

Manassas Sipe who works the Occidental Dairy Farm one mile west of town has milked from 20 cows during the past year, 158,599 lbs. of milk. This was from March 1st, 1921 to March 1st 1922.

The milk was sold to W. M. Powell and sold in Tecumseh. This is a large amount of milk to get from one herd and speaks well for their care and breeding. Can't get too much milk for Tecumseh kids.

...mann... for the evening, Mr. Alvin Brazee.

Mr. Brazee told some delightful stories and proved a very clever after dinner story teller. His introduction of the speakers brought forth much applause as did their responses. We regret that lack of room prevents these stories from being printed for they poved extremely entertaining. The toasts were as follows:

"If I were a Preacher"—Ted McConnell.

"What I would do if I were president of the Brotherhood"—Mrs. Lillian Owen.

Vocal solos, "Mavourneen" and "Sweet as Tipperary in the Spring Time"—Mrs. R. S. Moore, accompanist, Mrs. Charles Williamson.

"If I were Chairman of the Board of Trustees"—Mrs. Hazel Beland.

"If I were Supt. of the Sunday School"—Mrs. Bryant.

Orchestra selection.

A letter was read from Dr. North who is spending the winter in St. Petersburg, Florida in which he expressed his regret that he could not be present.

This closed the entertainment for the evening, the remainder of the time being given to more serious thoughts.

Mr. Ashley then spoke of the work of the Brotherhood and their study for the year. It was the first meeting of the Brotherhood at which a woman had prepared and read a paper; "New Forms of Service" by Mrs. Justine Camp was most interesting and instructive.

A speech by Jay Morse dealt chiefly with the new era in religion. A discussion of the paper and speech followed in which some very able points were brought out by Fay VanValkenburg who demonstrated that "necessity is the mother of service" and by A. O. [illegible] well expressed.

Ira Ladd then made a very apt talk on "what I would do if I were a member of the Baptist church," and was followed by a few remarks of appreciation from Rev. Curtis and Henry Beard, president of the Brotherhood.

It was a meeting of much pleasure and distinct profit to those who were privileged to attend it.

Mrs. Jay Morse was chairman of the supper committee.

Novel Title For Film "The Hell Diggers" Refers To Giant Gold Dredges

When picture fans read the title of "The Hell Diggers" Wallace Reid's new picture, which comes to the Bradley Opera House next Sunday, March 5, they will doubtless wonder what it means. The title of the film refers to the enormous gold dredges used in the great gold mining districts in California and elsewhere. This is the first time, so far as can be learned that they have been featured in a picture.

"The Hell Diggers" is a story of grit, sand, fighting blood and a great love. A story that smashes through to the biggest triumph that Wallace Reid has ever played in. "The Hell Diggers" is a romance of gold and guile in the primitive west, of towering mountains, rushing rivers, endless plain and among them—titans battling for mastery.

The scenic back ground in "Hell Diggers" is wonderful, the mountain and western 'shots' being some of the most beautiful ever seen in any picture and throughout the entire feature runs one of the best and strongest plays that Wallace Reid has ever been starred in.

"Let Me Explain" a new Christie comedy is also on the big Sunday night program.

yard, the wind blew a perfect gale and I thought every miunte the tent would blow over. There were three other tents there in the yard. We had driven 104 miles that day. On the morning of Nov. 1, had a tire down and had to change tires the first thing.

The roads were terrible to Greensburg then found acadamized road to Jeffersonville where we crossed the Ohio River at about 1 p. m. on the ferry boat Andrew Christi to Louisville, Ky., a very large city. It had begun to rain again, but the roads were fine. Drove for miles along the Ohio River to West Point and began to climb the mountains about 2:30 p. m., winding up and around through solid rock. Made a rise of 700 feet in about 30 minutes, we thought that wonderful but found lots worse places later on.

Passed Camp Knox at the top of these mountains, it made us think of war as there were several reminders in view. Several government tanks, large motor trucks, several officers patrolling on horseback and several guardsmen on foot with guns, both on entering and leaving camp they saluted us each time as we passed by. Camped near Elizabeth town that night, could not find a place to camp without paying 50c a car, but was protected, so we camped in a farmer's yard between his house and barn. Here we saw our first tobacco, it looked odd to see the barns full of tobacco instead of hay and grain.

Passed through Upton and Mumfordsville, the roads were full of mud and water and we had to ford so many streams, sometimes the water would fly up and come down all over the car just like a rain storm. Floyd said that our "Hiney" would be a full-fledged Baptist by the time we arrived as it had been immersed several times. Crossed Green River on a high and crooked wooden bridge 50c toll and made Cave City. Found some real hills, even driving down stone steps 12 to 18 inches high, a Ford can do most anything.

Nov. 2nd we camped in an oilman's yard and things looked pretty rough here, this was near Scottsville, Ky. We enjoyed seeing sheep, goats and Shetland ponies. Nearly every man, woman and child were driving a pony, I did not think there could be so many of them. The climate was wonderful but the roads on the Jackson Highway were pretty rough. On Nov. 3d we camped near Murfreesborough, Tenn., on the banks of Stone River, it being rightly named, about 50 miles south of Nashville. The roads were just fine for miles north of Nashville. In fact the roads in Tennessee were fairly good all the way.

Nov. 4th camped on the Tourist Camp Grounds at Huntsville, Ala., had only made 87 miles that day as it was just one thing after another, had a blow out and then our gas was low going up one of the mountains and our brakes gave out and the car started to back and Floyd applied the emergency brake, but the mountain was so very steep that he could not hold it so I jumped out and found a place to back into the bank until several cars came along and offered assistance, one drew us up, but believe me our gas tank was kept filled all the rest of the way through Alabama. There were twelve tents besides ours, the camp grounds were equipped with quite modern conveniences for the use of the tourists, such as stoves, electric lights, city water and rest rooms and we had electric lights in our car. Our old Big Ben clock hung on a hook, we put our clothes under our pillow. Some of the people we met here we saw several times until we left the camp at Gainsville, Fla.

MYSTERIOUS PAINS AND ACHES

Make Life Hard to Bear For Many Tecumseh Women.

Too many women mistake their pains and aches for troubles peculiar to the sex. More often disordered kidneys are causing the aching back, dizzy spells, headaches and irregular urination. Kidney weakness becomes dangerous if neglected. Use a time-tried kidney remedy — Doan's Kidney Pills. Hosts of people testify to their merit. Read a Tecumseh case:

Mrs. E. H. VanVleet, 204 N. Pearl St., says: "I had an attack of lumbago and my back was lame and painful and I was always worse when stirring around. My kidney's weren't acting regularly and in other ways showed signs of disorder. A friend advised me to try Doan's Kidney Pills, so one of the family got me a box at Wright & Son's Drug Store and I began taking them. It wasn't long before I got relief. The pains through my back eased up and my kidneys became regular in action. I take pleasure in recommending Doan's Kidney Pills."

SUFFERED FOR EIGHT YEARS

Rheumatic pains, lame back, sore muscles and stiff points most frequently can be traced to overworked, weak or disordered kidneys. Daisy Bell, R.F.D. 3, Box 234, Savannah, Ga., writes: "I was suffering for eight years from pain in the back and could not do any of my work, but since I have taken Foley Kidney Pills, I can do all of my work." Foley Kidney Pills have given relief to thousands who suffered from kidney or bladder trouble. Try them.

WRITES INTERESTING LETTER

(Continued from page two)

Nov. 5, had better roads nearly all of the p. m. At 1 p. m. we crossed the Tenn. river on Gunter's ferry, only cost $1.03 (including war tax). Floyd thought it was the one Noah had. Our next stop was Guntersville, where we did our Saturday shopping. It seemed as though the people here were about 50 years behind the times and that we were traveling through uncivilized country all day. It was right here that we started in to go over the Sand Mountain, it seemed quite a sight to wind around up and down on the side of those mountains where the roads were hewn from the solid rocks, the roads were fierce, going through ruts and honestly we drove over stones as large as bushel baskets in places but for all of the hardships in these places, there was wonderful beauty, the clouds hung over us so low it seemed like we could nearly touch them and it was a lovely sunshiny day too. We drove 81 miles that day, we had to drive so slew as we were going down around those bad places, could see down for hundreds of feet. One has to watch the road all of the time as the turns are very short and steep and if one should make a misturn they would go down the embankment to eternity. The springs are so beautiful the water coming out of the rock but we did not stop for water in those places, but found a level place to camp, about half way down the mountain in a saw mill yard. There were 5 tents of us here, all of them we had camped with before. One Neb. car, one Ind. and the other three of us from good old Michigan. We cannot express the awful sensations of those lonely places, yet the beauty of them takes away all fear.

Nov. 6 was a lovely day, found real good roads to Gadsden. This was our first day of real summer weather; drove 121 miles. One thing which pleased us most here was crossing the Alabama river on the railroad bridge which was of long boards laid down over the ties. There were guards at each end. Here we fund a large tourists camp.

We had been advised before we left home to take the left hand fork in the road here and go by way of Rome, Ga., but at the gas station they told us to take the right hand fork instead which would take us over what is known as the Florida short route. It was a mistake, though we are not sorry, now it is over with but such experiences. If it was not sand and barren country, driving for miles without seeing a living thing, it was rocks and hills. One detour was going down a bank nearly perpendicular. It seemed as though we were going to turn summersaults and the stones were so large that we would go nearly over one way and strike another time enough to balance us back the other way. This continued for nearly a mile then when we went to go up it took three men to push. We were so heavily loaded we

"JOHN THE BAPTIST" THEME AT COMMUNITY SERVICE.

The ministers of the town now plan to hold the first Sunday evening of each month for their community services. Last Sunday night the service was held at the Baptist church with Rev. Edw. Escolme of the Friends church the speaker. The other clergymen took part in the opening services.

Rev. Escolme took for his theme "Thoughts from the Life of John the Baptist," and from this wonderful and holy character he drew the inspiration for a splendid address. Hinting on the power of heredity, the speaker gave much credit to the godly parents of John the Baptist for his spirituality also the prophet was eulogized for the attitude he took toward The Holy One as just His herald or forerunner and his willingness to obliterate himseuf as soon as Jesus appeared when he said, "He must increase, I must decrease." This quality is so seldom found in the church, the home, society or business life and is correspondingly appreciated.

"BOBBED HAIR AND BOULEVARDS."

Rev. W. A. Gregory drew a fair sized audience Sunday evening when he announced his topic "Bobbed Hair and Boulevards.". In his opening remarks he declared his pleasure in the fact that the Commerce Club and Village Council see that the churches are consulted and pulled out of their corners to work for any question of village improvement.

He took his text from Amos, the prophet who dared say things to stir the people to a sense of their danger in living as they did. Mr. Gregory says he is censored for preaching sensational sermons but how else can he reach his people only as Amos did. The people, seemingly, find it easier to support pool rooms than churches. We "follow our leader" in every phase of life, having not enough initative to break away, even in styles. The bobbed hair year with our girls is like any other style, no worse nor better than the styles for a decade. Then it was bustles and hoops and other ridiculous fashions.

The nation is drifting as the people of Amos' time. The unchaperoned dance room, indecent picture show, card party night after night and day after day pulls the attention and interest of the people and a community service of all the churches of the town draws 73 people.

If the proposition for the boulevard is defeated it will be by the vote of those living off Chicago street," said the speaker. It is up to the membership of the churches to get out and vote for these improvements for our home town. Any Christian who wont get out and vote better get down on his knees and pray."

R. K. Anderson used the remaining time of the service in a talk upon the boulevard question, setting forth the points in the proposition very plainly.

BANQUET FOR JUNIOR CASTE

Wednesday evening the Juniors of the high school gave a banquet honoring the caste of the play which they gave so successfully last week. The function was held in the domestic science room, the tables beautifully laid with the class colors, blue and gold, in decorations. At each place were pretty programs tied with the same colors. The following menu was served by seven Senior girls: escalloped potatoes, meat loaf, pickles, rolls, cabbage salad, ice cream, cake and coffee.

Miss Mildred Curry was the toastmistress and in a jolly manner announced the following program:

Bond Issue Carried By Good Majority

Chicago St. to be Boulevarded From One End to the Other. Eastern Time Also Carries. Hard Work By W. L. Jones And His Assistants Gets Out Favorable Vote. McIntyre Ticket Elected. W. L. Coller Leads Entire Field.

The bond issue carried by a substantial majority after heroic work by Wade L. Jones, Pres. of the Chamber of Commerce, and his assistants who worked hard to show the people the value of the improvement and get out the vote favorable to it. Largely to these men who worked and explained is the credit due. Probably Atty. Geo. Rathbun did the hardest work of any man as he was the legal adviser and the firm of Wood and Rathbun engineered the whole matter that no question can possibly arise concerning it. These men are entitled to great credit and on account of the enormous amount of work entailed and exactness with which it must be done, the village is most fortunate in having such brilliant Attorneys in our village and at the service of the people. Too much cannot be said in their behalf for the clever work and the hard work they do for the people and almost gratuitously.

The street will be one of the prettiest villages in the country when this improvement is put in this summer.

The question of eastern time carried by 244 majority. The total vote polled was 870, of which 626 voted for the paving issue and 281 against carrying the issue by 53 votes over the necessary two thirds.

The following is the vote for village officers. W. L. Coller carried off the honors by receiving 681 votes, the highest polled for any candidate.

THE MERRY-GO-ROUND DINE

The Merry-Go-Round enjoyed one of their usual delightful evenings on Tuesday when Mr. and Mrs. G. A. Rathbun. Mr. and Mrs. Paul Bowen and Miss Ethel Garlinghouse were hosts and hostesses at the home of the latter on West Chicago street.

Spring flowers, including hyacinths, tulips and daffodils were used in profusion throughout the rooms, dainty place cards and favors in St. Patrick's colors added to the table decorations.

A delicious two course dinner was served and the evening spent in playing "500". Honors went to Mrs. Harry Moore and C. H. Williamson while Joseph Smith and Mrs. R. A. Heesen were consoled.

FOUND DEAD IN HIS HOME

Charles Barry, One of Our Oldest Residents, Lies Dead in His Home Several Days.

Charles Barry, one of the oldest residents of the town, was found lying dead on the floor of his home [illegible]. Since the death of his wife last August he has lived alone in his home on Logan Street, just a block from the business section. He frequently went to the wagon shop of Herbert Richart across the street from his residence to visit. Tuesday he was a caller but not seeing him Wednesday or Thursday in the afternoon of the latter day Mr. Richart went over to see if he was all right. The house was locked so Mr. Richart looked through the bay window of the sitting room and saw Mr. Barry lying on the floor. Dr. Beardsley was called and pronounced the man dead from natural causes.

He probably had been dead since Tuesday evening as he was partially undressed as though preparing for bed and the fires were completely out. A letter mailed from Toledo Monday morning by his stepdaughter, Mrs. Roy Collins, was found in the mail box when Mrs. Collins came to attend the funeral. It had been delivered Tuesday.

A badly bruised spot on the side of Mr. Barry's face and a pool of blood on the floor in front of the bay window indicated that he had fallen when he attempted to draw the shades at evening and struck his head on the corner of a stand as the stand and two chairs had been overturned. He had then managed to crawl to his bedroom door before death came.

Charles E. Barry was born in New York, Sept. 16, 1830, making him over 91 years of age when summoned to his last rest.

He was a veteran of the Civil War and came here from Petersburg nearly forty years ago with his wife and son, Charles. Mrs. Barry died many years ago and the son went to California. Mr. Barry married for his second wife Mrs. Anna Simmons who died last summer. Mr. Barry worked for many years as a glazier for the Temple, McClure & Co. lumber [illegible] Lumber Co.

The funeral was held Saturday morning at the Belding funeral home. Rev. W. A. Gregory conducted the service, the bearers being members of Beers Post, G. A. R. The only relatives attending were Mr. and Mrs. Roy Collins of Toledo.

CELEBRATES 57th WEDDING ANNIVERSARY.

Mr. and Mrs. H. G. Daniels celebrated their 57th wedding anniversary in a quiet way at their home on March 5th.

Their children being unable to be present sent loving remembrances of congratulations, cards, letters, sweet meats and fruit. The daughter, Mrs. H. H. Halladay wrote an original poem for the occasion. Mr. and Mrs. Nolton were their guests for dinner.

Word comes from Toledo that Mrs. E. J. Mann, who moved from Tecumseh two years ago, is a helpless invalid following a stroke of paralysis.

Spitler & Horn Buy Hardware

Enterprising Young Business Men Of Tecumseh Purchase Stock Of D. L. Whitenack & Co. Will Add To It And Carry A Complete Stock Of Shelf And Heavy Hard-Ware.

One of the important business deals of the past few months was completed last week when Spitler & Horn, two of Tecumseh's most popular and business like young men purchased the stock of D. L. Whitenack & Co. and took possession last Monday.

These young men some few months ago sold their pool room and lunch business and have again launched into business as stated. There re no better young business men in Tecumseh than these boys. There are no better young business men in Tecumseh than these boys. They are active, courteous and business like in all their dealings and they are alive to the demands of the public. They desire to please and will give their best efforts to conducting the business in a modern and progressive manner that will attract patronage. We bespeak for them the best of success.

AMENDMENTS TO BE VOTED ON THIS FALL

Lastly, there is the Nagel amendment to alter the wording of the constitution so as to apportion the members of the legislature in proportion to the population, leaving aliens out of the calculation. This is intended to do away with the moiety clause of the constitution which gives disproportionate representation to some of the smaller counties and decreases the representation of Wayne county by a number of seats. The task of securing signatures for this amendment may be a difficult one, as it is of benefit directly only to Wayne county and indirectly to some other counties which have large city population and whose interests are allied to those of Wayne county in taxation matters. On mere abstract justice, the ar[illegible] seems concuisive, but the upstate voters do not always remember abstract principles.

These would all have to pay a larger share of state taxation than they do at the present time. Inasmuch as very few of these realize that the measure is aimed at them, they are not likely to organize to fight it.

Indeed, it is possible that many of the very workers and salaried people in the cities who will be hit hardest by an income tax will vote for it, under the impression that they are putting more of the tax burdens on the corporations.

* * *

A fourth constitutional amendment which is in process of securing signatures is that for county home rule. From the standpoint of political strategy, this might be expected to fare better at the spring election of 1923 than in the [illegible] petitions for it are already out and these name the general election next fall at the time for submission. It is sure to meet with strong opposition in many counties which nurse a fear that their cities would overwhelm the rural townships and thus take over complete political control of the counties under a home rule plan.

MRS. JAMES WATSON CLAIMED BY DEATH

PROMINENT MACON LADY SUFFERS BROKEN LEG.

Mrs. M. R. Pennington of Macon, but well known in Tecumseh, fell Sunday and fractured the bones of her leg below the knee. While caring for her chickens she turned her ankle on a corn cob. JAPANESE DAY

Very Interesting Session of Monday Club with Wonderful Display of Japanese Articles

"Japanese Art" was the theme of a delightful afternoon at the Monday Club this week. The room was gay with beautiful potted tulips and other spring flowers and brightly hued Japanese lanterns hung from the ceiling while through the center of the room were many articles from Japan on exhibition on tables. On the walls were Japanese robes and pictures. Many of these were loaned by the club members and friends but Mrs. Allan Ellsworth, of Portland, Oregon, a cousin of Mrs. F. B. Wood, has sent from her far-off city over $300.00 worth of Japanese goods for this art day.

Mrs. J. H. Smith, Mrs. G. A. Rathbun and Mrs. Wood had charge of the day, the first named announcing the program as follows:

Vocal solo, "A Japanese Love Song"—Mrs. J. M. Mulvaney, in costume, accompanied by Mrs. Wood.

Paper, "Japanese Art"—Mrs. H. R. Conklin, supplemented by a talk by Miss Beth Widney, descriptive of several Japanese paintings which she had on exhibition.

Afterward luncheon was served by a committee in charge of Mrs. P. C. Satterthwaite and Mrs. B. J. Pulver, the former and Mrs. W. D. Reed presiding at the tea urns. Several of the ladies on the committee wore beautiful Japanese kimonas.

Next week another interesting program is assured with Mrs. Warren Jones leader. The program is to be as follows:

A Japanese Household — Mrs. V[illegible] Hodges
The Fetes and Flowers of Japan—Miss Susanne Casey
A Japanese Poem—Mrs. Elvin Bradley
Japanese Song—Mrs. Eugene T. Rosacrans.

BASE BALL MEETING MONDAY NIGHT

There will be a base ball meeting next Monday night at the Council rooms at 7:30. Everyone interested in base ball is urged to come out and take part in this meeing. No donations or subscriptions will be asked for.

This is the first start of the season and everyone, young, old, fat or slim, come on to this meeting and help Tecumseh put a good team in the field and get the proper spirit behind it. Come on, you fans and rooters, one and all let's get out in mass and put a little pep into the old game.

It's for all of us and all of us should get back of it and push.

STANDS HIGH IN LIST

The official organ of the Lincoln Life Insurance Co. carries a splendid photo of our genial townsman, Judge Ray Carr, who stood seventh in the list for the entire U. S. in 13 million dollars worth of insurance written by this company. This is mighty fine and shows the Judge is a hustler and produces the signatures on the dotted line. No wonder the boulevard went over with such workers as this getting their heavy shoulders behind the plan.

Registered Stock Sale Next Tuesday

Famous Herd Of Davidson & Hall To Be Sold At Auction. Thirty-Four Head Of Registered Milking Short Horns Go To Highest Bidder.

One of the biggest registered stock sales in these parts will occur at the Minor Davidson farm 2½ miles east of Tecumseh next Tuesday, March 21st when thirty-four head of registered milking short horns will be sold at auction.

The administrator, Claire Beland, had several hundred very pretty books printed at the Herald Office giving the entire pedigree of each animal and these will be sent broadcast to those interested in such stock so that a big crowd of active buyers is looked for.

The herd is one of the best in the state and has been very carefully bred and handled so that each animal is a splendid specimen of her kind.

Beside the cows there are offered several bulls with the best of pedigrees back of them. It will be a big sale and the dispersion of this herd will be a great loss to this vicinity.

NINETEEN TAKE DeMOLAY DEGREE

Nineteen young men took the DeMolay degree at the Masonic Temple Monday night at a big meeting of the fraternity. Six Tecumseh boys had already taken this degree at Adrian and such an interest in the work had been established among the Tecumseh Masons that Homer Whaley and others worked hard arranging for the degree to be given here.

A banquet was served at 6 o'clock at the Masonic diningroom for 80 boys, the majority being from Adrian who came with their team.

Afterward the degree was conferred on John Gratton Hastings, Robert J. Collins, Earl K. Pennington, Wilmot S. Pruyne, Burnell Moon, H. Lamont Camburn, Lawrence Gray, Kenneth L. Reutter, Wendall Pangle, Wendall L. Cleveland, Harold E. Davidson, [illegible], Raymond D. Taylor, Bertram J. Updyke, Edward Gripton and Carl Exelby, the two last from Britton.

CRAFTSMAN CLUB OF ANN ARBOR INITIATE TWELVE

Friday night was held one of the largest meetings held in the Masonic hall in years when the Craftsman Club came from Ann Arbor to confer the Master Mason degree on twelve candidates.

At 6 o'clock supper was served to 250. The members then adjourned to the lodge room and witnessed the very excellent work given by these young men. The home people were especially delighted to hear several solos thru the work by Harold Lowry.

The candidates were Wilbur Boyce, Roy Cadmus, W. J. Craig, [illegible] ry McCarbery, George Sanford, Fred Smith, Dr. N. D. Trask and Joseph Wiggins.

In the group of 25 coming from Ann Arbor there were men from Pennsylvania to Oregon.

MARRIED THIRTY YEARS.

Mrs. Nellie Ousterhout entertained a family gathering Wednesday evening at 6 o'clock dinner honoring the 30th anniversary of the wedding of her son and wife, Mr. and Mrs. William Ousterhout. The centerpiece at the table was a minature bride and groom gowned as the honored guests were on their wedding day. Present for the party was Mrs. Martha Poole of Adrian, a sister of the hostess.

TO THE PEOPLE

I am not unmindful of the confidence extended to me by the splendid vote I received last Monday and I desire to thank you all for the favor. I shall try to do the work of village clerk as faithfully and promptly as possible, and trust I may have the pleasure of serving you all to your entire satisfaction.

The three papers were full of thought producing matter.

The program for March 16 will be a miscellaneous one in charge of the president. The roll call to consist of "Household Hints." Mrs. Sara VanGeison has looked up carefully the history of the M. E. MAKE MONEY IN PRODUCING BEEF

Herd of Good Cows and Purebred Sire of Prime Importance in Making Start.

SELECT BEST HEIFER CALVES

No Method Adapted to All Farms and Conditions as Much Depends on Pasture Available and Nearness of Market.

(Prepared by the United States Department of Agriculture.)

We are a nation of meat eaters. The average American eats more than 140 pounds of this concentrated food each year. The importance of meat, particularly beef, is nowhere more emphatically brought out than at the great central stockyards, some of which cover nearly a square mile of ground. To keep the supply of animals moving through these yards, necessary to feed the millions of people, requires the raising of cattle, hogs, and sheep on hundreds of thousands of farms and ranches.

Improve Each Generation.

In profitable beef production a herd of good cows and a good purebred bull are of great importance. Each generation of cattle raised should be better than the preceding one. This can be accomplished by selecting the best heifer [illegible] the place of barren, shy-breeding, and old cows, and buying a better bull each two or three years. All other calves produced may be sold either as weanlings at six or eight months old, as stockers or feeders at one or two years, finished as baby beef at sixteen to twenty months, or as fat steers at an older age. The system employed depends largely upon the pasture and feed available, transportation costs, and the market price of milk and cattle.

A High-Class Beef Breeding Herd.

The systems of handling beef-breeding herds which are most extensively practiced are "beef," "baby beef," and "dual-purpose." In the first two systems calves run with their dams until weaned, the cows not being milked. They differ in that cows intended for producing calves for baby beef generally receive better care because their calves are to be fattened shortly after weaning, which makes it necessary to give them a good start on milk.

The straight beef system is primarily adapted to the range country of the West and South, which is too rough, dry, or sandy for cultivation. Where the climate permits, pasture is depended on the year round. Some cottonseed cake may be used during unusually bad weather or periods of feed shortage. Where snow covers the range a part of the year, hay is put up for winter feeding. Little grain is fed, except where grain sorghums can be grown. From southern ranges the cattle are usually sold as stockers at every age from weaning time to maturity. Recently many fat calves have been going to the slaughterhouses. From the North and West a large part of the cattle go to market grass-fat as three-year-olds.

Baby-beef production is a highly specialized business and is adapted to regions where there is a plentiful supply of fattening feeds together with good pasture for the summer maintenance of the breeding herd and nursing calves. The corn belt is the best place for this system, but it is practiced to some extent in other places.

When to Finish Baby Beef.

If spring calves are to be finished as baby beeves, they should be taught to eat grain before they are weaned. They should go into the dry lot at the end of the pasture season and be ready for market by June or July. If possible, they should have good pasture for a couple of weeks after weaning. Fall-born calves should be kept on grain when they are turned on pasture in the spring. The quantity of grain should be gradually increased throughout the summer and fall so that they will be finished for market in December or January. When the pasture fails, hay and silage should be supplied.

Stocker calves require some meal or grain during their first winter to keep them thrifty and growing. They can utilize to advantage much more roughage, such as stalk fields, meadows, silage, and straw than baby beeves. As yearlings and two-year-olds they may be wintered on roughage alone, some clover or alfalfa hay being given if available.

WRITES INTERESTING LETTER

(Continued from Last Week)

could not make it without a boost.

We had only made 73 miles to Alexander City, Ala., it was a nice place here and everything was free to tourists. We pitched our tents on the fair ground. We were very weary that night, so tired we could hardly sleep, but no matter how tired we were it was "hurry to bed ana hurry to arise."

Nov. 7th was a lovely day and we were in hopes of finding lovely roads, but instead from Alexander City for miles the roads were so crooked we could see but a short way ahead of us—up and dawn and around hills, crossed Talapoosa river on a hand-run ferry that was a thrill, no railing or brakes. The negro in charge told us a Sedan had gone over into the river a short time before, but it didn't effect us much.

We made it O. K. and came through the hills again where the roads were so crooked one met themselves coming back occasionally. We would see the rear of a car ahead one minute the front of the same car the next.

As we were approaching Columbus, Ga., from Opelika, Ala., there were lots of rivers and gulleys with corn and cotton fields between. It seemed so odd to us to see so many covered bridges, but we had to ford several streams until after we left Columbus, Go. Here we campbeauty of the country offset all disagreeableness in traveling.

Morning of Nov. 8th saw our It certainly is a beautiful city as is the surrounding country. The land is quite productive as there is much cotton and corn raised here and I believe we saw hundreds of cotton gins and cane mills. The ed on the base-ball park. first alligators at Columbus, Ga., and had seen oceans of colored people in Tenn. but through these parts there were very few white people. It is appalling the rapid increase of the colored race.

We had been informed that our road would be straight and level from Columbus but it was a mistake, for really the hills were really the steepest ones we had encountered, though not so long. We stopped on one with low gas again, I'll say we did some hustling to block the wheels. We carried an extra gallon of gas to use in case of an emergency. This put in, we started on our way rejoicing again. Shortly had a little trouble, could not get power enough to climb the hills. A couple of men stopped and offered their assistance. We sent word with them to Mr. Slater's who were traveling a little way ahead. They came back and after looking for over an hour finally located the trouble. Found No. 3 valve spring had caught.

After adjusting this we started on again then our next sensation was a discovery of dark storm clouds and when we stopped to eat our lunch at noon time a man came out from his place to give us warning of the approaching rain and directed us to the nearest camping ground before it rained, for he said we could not make a hill in that locality after it rained, so we drove through to Richmond.

The homes were better and the soil more productive. We saw peach and pecan orchards and were over the hills before it commenced to rain. The roads were clay and very slippery. The car would go to one side of the road to the other, would just miss the ditch on one side then on the other, but kept right on going through the rain until we reached the tourists camp at Sylvester, Ga.

We were welcomed in camp by the mayor of the city and we had unexpected conveniences for which we were very thankful, after having ridden 113 miles under unfavorable circumstances.

I had been feeling quite cheerful for a few days but while making our camp for the night Floyd went away forgetting that he left me holding the middle tent pole till he could tighten the ropes, during his absence the lamp chimney fell and broke and the electric light bulb came off and broke but by morning I had forgotten the past in our haste to prepare for one more day's drive to reach the camp on the bank of the beautiful Swaunee River.

Nov. 9th as we left Sylvester, Ga., we saw lots of reminders of Florida such as live oaks, spanish moss, sand, etc., and there were pretty little cottage homes and pretty little towns, flowers, saw roses blooming and of course scores of colored "belles" of the south. The sand roads were not so bad as we expected to find them owing to the recent heavy rains.

We reached the Paradise on earth Camp at Swaunee at 4 p. m. so that gave us a chance to partake of its beauty before dark. Certainly it is the sweet-heart of Florida. Those mammoth live oaks laden with Spanish moss, the over hanging rocks and vines and pure clean water, everyone seemed to enjoy it there.

There was a beautiful spring 20 feet or possibly more in diameter bubbling up from those rocky caves but it was too late to get any pictures. Here we saw beautiful flowers, ferns, mistletoe and holly growing in abundance. There were 30 tents pitched here, some just for the one night while others were planning on staying a week or longer.

Nov. 10th, broke camp and at 7:30 a. m. we were on our way to Gainsville, our last camp. The roads were terrible, the land appeared to be almost barren, although we saw some staple cotton, and some fine herds of dairy cattle and the "razor-backs" you know about them after once seen, they never die in one's memory.

Made Gainsville early. Found a white city of tents laid out in streets. Had a tourists clubhouse and lots of prominent people were camping there for some little time, some for the winter. There were ladies rest rooms, shower baths and stores. They held religious services here on Sunday.

Our men joined the (T. C. T's.) "Tin Can Tourists" here. Had a good meeting, some told of their experiences on the road, some of how they had been treated at different camps in the state while some told stories and others told of what they had seen that day at the fair. The meeting opened by singing "America" and closed by singing "Tenting on the Old Camp Ground."

We wanted to go to the fair the next day, Friday, Nov. 11th as it was Armistice Day and the last day of the fair. They were planning on a large parade and the Governor of the state was to speak on the fair ground in the p. m., but for all this it wasn't much of a temptation for us as we were too near our journey's end.

We made an early getaway for Leesburg by way of Ocala. The roads were quite poor and instead of viewing the country was looking straight ahead for Leesburg.

Between Lady Lake and Leesburg we had a little tire trouble which delayed us for about three-quarters of an hour, but arrived here about 4:30 p. m.

Found my sister and family all well. Saying that we were all glad to see each other would be just stating it mildly. Their grove looked fine, also the new house although it wasn't near completed, was not expecting to find the fruit so green, but enough soon ripened to keep us eating and we are enjoying the oranges and grapefruit immensely. I think I eat from one to two dozen daily. We expect to start for home about April 1st and will come by way of Washington, D. C. an entirely different route, I should hope so at least.

TO OUR PARENTS.

(Mr. and Mrs. H. S. Daniels)

Accept our love and good intent
Our wishes for your calm content,
And may your thoughts of us contain—
Proof that loving children we remain.

So we say,—be happy, be proud and glad
That so many years of service you've had,
That fifty-seven years of upright life
You've given together in noble strife.

We prize you more each day you live
And recall the influence you always give,
Your brightness, courage and ready wit
Add to human happiness quite a bit,

So banish care and all regret
And thank God for the day you met,
We hope that another happy year
May be enjoyed by our parents dear.

Including 2 to 4 insulators or electrodes that cost 90c each, the insulated lead in wire, the ground wire and ground switch would not cost to exceed $10.00.

Britton Makes Good Showing.

In its defeat of Hudson high school Thursday night our high school basket ball team completed a successful season and lays claim to the county basket ball title.

We hve won 11 of the 16 games played and close scores have resulted in all its contests. Most of the games we have won have been in the last quarter when the players have played spirited "comebacks." Our team have 347 points against its opponents 334.

Gibson as a forward has a record of making over one-half the points scored by the team during the season.

ADDRESS CROWD AT HOLLOWAY

Last Wednesday evening Edward Frensdorf of Hudson and E. T. Armstrong of the Tecumseh Herald addressed a crowded house at Holloway on the subject of Taxation.

Blouch's hall was packed to the doors and the audience was very attentive and seemed to enjoy getting more light on taxation in Michigan. Mr. Armstrong made a few remarks and introduced Edward Frensdorf who gave the address of the evening which was vigorous and full of information on where the people's money is going and what we are getting for the enormous taxes that are being collected in Michigan. [illegible] very forceful speaker and being very familiar with the subject he gave the people a splendid address which was highly appreciated. According to a bulletin issued by the Mich. Manufacturers Assn. taxes in Michigan have increased 298% in the last ten years, surely something to think about.

Wireless Bug Hits Tecumseh

Big Chief Garage Installs Set. Hears Newark, N. J. Plainly. Gives Friends Fine Concerts. Ed. Heilman Also Has Set. Several Others Around Town.

The wireless telephone has hit Tecumseh hard and several sets are now able to pick up Detroit, while the Big Chief Garage has one that plainly heard Newark, N. J. last night.

The old phonograph is due to drop out of sight with the wireless phone which can be installed for about half what a good phonograph would cost and with the wireless you can have the best concerts in the U. S. for several hours each night. They begin about five p. m. and last until after ten.

Also you get the weather reports and market reports and much other valuable information. The M. A. C. says it will be the greatest thing for the farmer yet invented as it puts them in close contact with everything doing from coast to coast.

The Tecumseh Big Chief has several sets ready for installation and they are going fast as the people are just commencing to realize what it means to have one of these instruments in the home.

Regular concerts are given each night by celebrated artists from New York to Chicago and they are as plain as if the company were in your own home. Its truly the most wonderful invention of the age.

NEAR EAST RELIEF AND RUSSIAN FAMINE RELIEF.

At a meeting held in Tecumseh, Wednesday, to relieve the appalling conditions in Armenia and Russia, the following committee was formed: chairman, Mrs. Hardy, vice chairman, Mrs. Jay Morse, treasurer, George Isaacson, publicity, Rev. W. R. Curtis, committee, Rev. Kiskaddon, Rev. Escolme, Rev. Gregory, Rev. Preston, Mrs. A. O. Howard, Mrs. Helen McNeil, Mrs. Edith Cotton Smith, Mrs. W. R. Curtis.

America is trying to keep alive 100,000 orphans in Armenia, as many more are condemned to die outside the orphanages, unless America helps.

If the children of Russia and Armenia die, we cannot evade responsability, for WE KNOW that every hour loaded carts are carrying away the hunger dead.

Both clothing and food are needed.

The first week in April will be OLD CLOTHES WEEK. Anything however old, if wearable, or mendable, will be accepted. Please leave with any member of committee, or Mrs. Hardy's house.

Mrs. C. A. Wright Has Passed On

Prominent Club Worker Dies After Long Illness. Was One Of Tecumseh's Most Accomplished Women.

The death of Mrs. C. A. Wright, who had long been ill, occurred Thursday evening at 6:30 at the family home. Mrs. Wright was very well known in this part of the country, being a highly cultured lady and prominent in society and club work. She bore the honor of having been the first president of the Monday Club and has always been one of the strong supports of the club since its inception.

Mary Fraser, a daughter of Judge and Mrs. George W. Fraser, was born in Palmyra 64 years ago. When she was seven years of age the family moved to Tecumseh and this has since been her home.

In 1882 she was married to C. A. Wright who passed away only last June. Surviving are one son, Donald F., of Tecumseh, one daughter, Mrs. Julia Wright McClure of Pittsburg, four grandsons, one sister, Mrs. Allan Bell of Centralia, Ill., and a niece, Mrs. J. P. Junkin of Milwaukee.

The funeral service was held at the home Sunday afternoon, Rev. J. F. Kiskaddon of the Presbyterian church of which Mrs. Wright had long been a member, officiating. The bearers were Floyd Elliott, Charles Burridge, F. B. Wood, F. S. Turner, Leon Rosacrans and S. L. Wyman. The burial was in the family lot in Brookside.

Mrs. Wright enjoyed travel and made two trips to Europe and several extensive ones over her own country.

She will be sincerely missed by a host of friends who sympathize with her family in their great loss.

CELEBRATES HER BIRTHDAY AND ST. PATRICK'S.

Mrs. F. D. Rector gave a delightful St. Patrick party Friday celebrating her own natal day besides Her Sunday-school class of ladies were her guests, when a two course dinner was served at a beautifully laid table. St. Patrick green was used in the decorations, the favors being shamrock leaves. The green and white were carried out in the menu.

Mrs. Rector who was 79 years of age, presented flowers to two other members of her class who also celebrated their birthdays that week. Mrs. Horace Holdridge was 82 the day before and Mrs. George Burroughs' birthday was remembered.

The guests presented their teacher with a book and she also received many other gifts. Mrs. Rector has been the faithful and efficient teacher of this class for over twenty years.

NEW PAPER EXPIRES.

According to the Adrian Telegram, the new paper started in Tecumseh Jan. 9th expired with [illegible]

Tecumseh is not large enough for two papers, and in fact, a second paper has been a failure in Kalamazoo, Port Huron and many other places many times our size, consequently it was to be expected that a second paper here could not survive.

It is impossible to get a subscription list as the Herald covers the field, and the merchants do not care to double their advertising cost by using two papers when one covers the field, hence for these reasons, and the fact that it was largely a reprint of the Clinton Local, it very naturally expired after a brief existence.

BEREAN CIRCLE MEETS.

Mrs. Helen McNeil was hostess for the ladies of the Berean Circle Monday evening when they made children's underwear for the box which Tecumseh is to send to Armenia in April.

Mrs. E. G. Harris read a paper on "The Great Obstacle" the discussion being led by Mrs. E. H. McConnell. Mrs. McNeil read several articles on the terrible situation now in Russia which were generally discussed.

As the program closed an invitation was received from Mrs. Jay Morse for the ladies to come to her home and join the Men's Brotherhood in their lunch which she had just prepared.

ENTERTAINS "500" CLUB.

Mrs. Glover was hostess last Thursday afternoon to her "500" club and a few friends. Spring flowers added to the loveliness of the beautiful home. Six tables were filled for the game and the afternoon was much enjoyed. A delicious lunch was served at the small tables centered with lighted candles and dainty St. Patrick decorations.

DeLand To Force License Clean-Up

Orders State Police To Check Up On Plates Loosely Hung And Illegible.

Lansing, Mich., March 18.—Automobile owners and operators who have been careless about displaying their license plates properly and have allowed them to become seared over with mud, oil, and dust, had better get them properly located on front and rear of cars, and keep them bright and clean, for if they don't the state department and police officials will enforce the law.

This announcement was made from the office of Secretary of State, DeLand last week, in view of numerous complaints about the manner in which many automobiles carry the license plates, and reports made by state police and other law enforcing officials.

It was stated at the department's office that the law which requires one plate plainly displayed in a rigid position on both front and rear ends of every motor vehicle, is not observed by many, and to verify that statement means only to observe a number of cars from any busy street corner.

"This is especially true of Ford cars," says the state department's announcement. "In many instances the license plates are just tied on or hung on in any old way and in any old place. In the case of trucks many times the rear license plate is far underneath the body which extends several feet to the rear of the frame and a person or an officer would have to get down on his hands and knees to see the number. These numbers must be plainly displayed and must be rigid in their position.

Also, the fellow who smears oil and grease over his plates so they collect dust and dirt and thus the numbers are concealed, would do well to stop that practice or he will be "pinched." They must be kept clean so the numbers are plainly visible at all times.

The state department is notifying local sheriffs and police officers over the state to strictly enforce the law, and the state police will do it where local officials fail.

TECUMSEH BOY WINS SINGLE PRIZES AT COUNTY TOURNAMENT.

The tournament of the boy's basket ball teams of the county held at the Adrian college "gym" Friday and Saturday attracted a large number of Tecumseh people both for the Friday evening and Saturday afternoon games when our first boys team were among the contestants.

Friday evening our boys played the Petersburg five winning 39 to 9. On Saturday afternoon the local lads met Morenci in an over-time game, the score standing 25 to 18 in the latter's favor. This left the final game Saturday evening between the teams from Morenci and Deerfield. This, too, was an over-time game, the teams being well matched. Morenci walk- [illegible] winning the silver basket ball as a school and for the players miniature gold basket balls.

Britton was there in force Friday night and backed their team in terrific yells. This won them the "yelling" cup. But a Tecumseh boy won the best of the single prizes. Lawrence Harrington gets county recognition as making the most field goals during the tournament. this prize a nice sweater. He also won a leather belt with sterling silver buckle for making the most field goals in any one game and a bottle of toilet water as the best all-round forward.

MAKE A FINE SHOWING

In last week's issue of the Herald we carried the official statements of the People's Bank of Britton and The Lilley State Bank of Tecumseh and it is very gratifying to note the splendid showing both of these strong institutions made.

The surplus, capital stock, and undivided profits show that the management has been of the very best and that the depositors are increasing steadily doubtless due to the large reserves carried by these banks which makes them especially strong and able to take care of all their customers whenever aid is needed and proper security is available.

These banks have an especially large clientele among the farmers whom they serve with every facility in keeping with sound banking. It certainly speaks well for the town and the people will be glad to read these statements.

A box social will be held Friday evening at the home of Wallace Bryan. It is for the benefit of School District No. 5, Raisin, and the pupils and their teacher A. C. Brazee will present a short program. Come and enjoy a social evening with your neighbors.

Round-Up Meeting Held At Tecumseh

Largest Gathering Of Odd Fellows And Rebekahs In Tecumseh In Years.

Wednesday night was certainly Odd Fellow Night in Tecumseh. All winter visits have been exchanged between the I. O. O. F. and Rebekah lodges of Britton, Brooklyn, and Onsted and Wednesday night's meeting was the grand round-up of the series of "Down the Pike League." Witherell hall was converted into a huge dining room, covers being laid for 400. The room was decorated with the Rebekah's pink and green. Members from the eight lodges were the waiters in charge of Mrs. Clare Schlosser and George Hoag.

G. H. Tansley was in charge of the program but on account of hoarseness invited Ben J. Beasley of Britton to announce the numbers.

After music by the orchestra, Mr. and Mrs. W. L. Coller and Archie Boyd, the company sang "America" and listened to delightful addresses from these officers of the Rebekah State Assembly and the I. O. O. F. Grand Lodge: Carrie B. Rogers, Detroit, grand president; Henrietta Yarick, Tecumseh, grand vice president; Lottie E. Mekeel, Cadillac, asst. grand warden; Etta M. Smith, grand secretary, Grand Rapids; Addie Smith, grand treasurer, Detroit; Laura Gillett, Ann Arbor, grand conductress; Adlie Cutler, grand inside guardian; Birdie Jones, Hillsdale, grand chaplain; Rev. Wm. Forbes Emery, Grand Rapids, grand chaplain; Fred Rogers, Wliliamston, grand secretary, I. O. O. F.

Lester Waring gave two delightful solos and George Sanford of Clinton, harmonica solos and dance.

This was the largest gathering of Rebekah officers ever held in the state outside of an Assembly meeting. This Pike League has netted 45 new members to the I. O. O. F. lodges connected and 89 in the Rebekahs. The splendid success of the whole is due mostly to the untiring efforts of G. H. Tansley, who with a committee from each lodge arranged the great meeting.

CLINTON AND TECUMSEH M. E. PREACHERS TO EXCHANGE PULPITS.

Rev. W. A. Gregory and Rev. G. R. Millard of the Clinton M. E. church will exchange pulpits on Sunday evening. Rev. Gregory will give a recital of "Jean Valjean" of Les Miserables and Rev. Millard will give a review of "Main Street," Sinclair Lewis' popular book. This review and comparisons to the home town Rev. Millard gave two weeks ago in his own church and the address was so highly appreciated that Rev. Gregory invited him to give it here.

The Clinton people will find this recital by Rev. Gregory every bit [illegible] time ago in his church here with splendid effect.

GAVE ANNUAL ST. PATRICKS BANQUET.

The Grange gave their annual St. Patricks banquet at their hall last Friday and about 80 were present to enjoy the good time.

Dr. Nagel of the Red Cross work was present and gave an address. Lester Waring favored the audience with a solo and a piano duet was given by Mesdames J. F. Kiskaddon and Wilfred Waldron. The grange also gave a St. Patricks story which was greatly enjoyed.

These get-to-gethers are very entertaining and everyone present enjoyed the banquet and the program. The grange is becoming a real live organization that does an immense amount of good for everyone, not only the farmers, but the city people benefit as much for whatever helps the farmer certainly helps the city folks. We are all dependent on the farmer and he must prosper first before the rest of us can. Let the good work go on.

WILL BUILD NEW HOME.

H. A. Friedlander of Ridgeway, whose home burned last Thursday and which was completely destroyed, states that his entire loss of house and furniture will amount to $5000 with insurance of $3400. Mr. Friedlander will take up temporary quarters in a house that he owns at Britton, but will begin building operations almost immediately on his lot in Ridgeway. The community is much pleased to know that they are not to lose this estimable couple, and that they will build an attractive home in their midst.

Capt. and Mrs. G. H. Rathbun have returned from an extended visit with their daughter and family in Illinois.

Mrs. Will Lockard Dies Suddenly

Prominent Church Worker Passed Away Saturday Morning. Was Sick Only A Few Hours.

The community was greatly shocked Saturday when word was received on the street of the sudden death of Mrs. William Lockard. Mr. and Mrs. Lockard had attended the Methodist church supper the evening before, Mrs. Lockard going to bed in her usual good health. On arising Saturday morning she complained of intense pain in her head. Dr. Hendershott was called but could give her only temporary relief as she had suffered a cerebral hemorrhage and she passed away at 11 o'clock.

Mrs. Lockard was formerly Miss Ada Coon, born in Frankfort, Ind. As Mr. Lockard was a railroad conductor the family has lived in many towns, coming here from Dundee three years ago.

Surviving are the husband and three children, Mrs. Teresa Colladay of Detroit, Loren who is attending the college at Angola, Ind., and little Billy at home, also two sisters, Mrs. Ida Dowd of Phoenix, Arizona, and Mrs. H. L. Kloeffer of Detroit, and two brothers, Fred and Will Coon of Frankfort, Ind.

Mrs. Lockard was an energetic worker in the organizations of the M. E. church, of which she was a devoted member. She also was affiliated with the Order of the Eastern Star, the Auxilliary of the Order of Railway Conductors and the Pythian Sisters.

The funeral service was held at the M. E. church Tuesday afternoon, Rev. W. A. Gregory officiating, assisted by Rev. W. D. Willett of Walled Lake. The Methodist choir rendered two beautiful songs, "Beautiful Isle of Somewhere," and "Abide with Me." The coffin was covered with handsome floral tributes attesting the love of the community for the deceased. The bearers were Glen Tansley, Andrew Taylor, Sidney Wilson, Verdi Skinner, Claud Gray and W. L. Coller.

The Sunday-school class of which Mrs. Lockard was president, attended in a body. The burial was in Brookside cemetery.

Coming from away for the funeral were Mr. and Mrs. Max Lockard of Coffeyville, Kans.; Miss Nellie Coon, Frankfort, Ind.; Mr. and Mrs. Claude White, Walkerville, Ont.; Mrs. Nellie McKone, Mrs. Clara Lockard and son, Mr. and Mrs. Gilbert Owen, Mr. and Mrs. Arthur Moran, Mr. and Mrs. Harry Koeffler, Mrs. Teresa Callody, all of Detroit; Frank Lockard of Toledo; Mr. and Mrs. Charles Stone, Mr. and Mrs. Claud Young and Mr. and Mrs. Don Young of Napoleon; Rev. and Mrs. W. D. Willett and son Kenneth of Walled Lake.

Rachal, Charlotte, Helen, her college friends—The Misses Luella Colson, Leora Gregg, Mildred Benedict.

Mrs. C. von der Witt-Jones, a traveler and lecturer—Mrs. J. S. Temple.

A fair sized company witnessed the play and its repetition is solicited.

Crampton Says The Referee Was Fair

Takes Exception To Article Appearing In Lansing Paper Stating E. Lansing Game Was Won Because Of Unfair Referee. Says Lansing Coach Congratulated Him After Game On Its Fairness.

Supt. E. E. Crampton of the local schools takes exception to an article appearing in the Lansing paper which stated that the E. Lansing Coach reported the game with Tecumseh was lost because of unfair refereeing and it went to considerable length to show how the referee favored the Tecumseh team by calling too many fouls on the E. Lansing bunch.

Supt. Crampton called attention to the fact that the referee was brought here by the E. Lansing team and that the umpire was from the physical education department of the U. of M. and no better official can be obtained in the state.

The real facts are that E. Lansing is a poor loser and after being fairly beaten pulled a sob story to help make the folks back home believe they are still the best team.

Tecumseh has had the reputation of being the fairest and most sportsmanlike of any team in these parts. When they are beaten they take their medicine and when they win they do so strictly on their superior playing. They have gone to great expense to get the very best officials possible in order to assure both teams of perfectly fair and impartial officials and other teams have repeatedly congratulated the local team on the fairness of their officials so that the story from Lansing does not carry any weight in these parts.

When a team cannot take a defeat with as good grace as they do a victory, they are not good sportsmen and this sob stuff does not appeal to the fans in the least. Play hard and fair and take defeat as gracefully as victory makes athletics desirable in any institution, otherwise not.

MEN'S BROTHERHOOD ENTERTAINS LADIES.

Short talks by Joseph H. Smith and John H. Smith were followed by a lunch served by the men.

The new officers just elected by the club are

WHAT IS NEXT?

To those who have heard the wireless telephone in operation whereby by stringing a small copper wire up in the air, and attaching it to a simple set of receiving apparatus, one may hear a singer in NewYork as easily as if they were in the same room, the question arises what is next?

Are these accomplishments any more of mystery or of any more certainty than that we may soon bridge the great and hitherto impossible chasm between this life and that to come?

Will theologians soon turn their attention to the concrete instead of the abstract concerning the human soul? Will the human soul stand out clear and isolated so that all men may know what this element of life actually is?

Is science and invention just getting a foothold upon the unknown laws of the universe which soon may reveal even more astounding things to the mind of man? Who denies that soon the distant stars will communicate with us and tell us the story that man has longed to know for lo these many centuries?

How long before life itself will be known in its entirety and man will go on living for ages untold, in direct communication with the All Wise Creator who holds the beginning of all natural law in the hollow of his hand?

Verily this is an age of wonderful things and still more wonderful are yet to come.

ONSTED NEWS QUITS.

The Onsted News, one of the best small town papers in this county, quit business last week and gave up the ghost after an honorable existence for several years.

Onsted is a thriving little town to the west of us and it will be greatly handicapped by the lack of a paper for publicity purposes. It is too bad that the paper was forced to quit for lack of sufficient patronage to make it pay, but such seems to be the case.

It takes considerable capital and an immense amount of hard work to run a newspaper and unless it gets splendid support from the town it represents it will be a poor paper in a worse town. And be it remembered that no town is any better than its newspaper for that is the publicity end and with the city papers coming into the community from every source with their so called bargains spread before the people's eyes, the home merchant is against a hard proposition unless he can and does advertise so the people will fully understand what kind of bargains they can get in his store, hence a good paper is of vital importance to every town.

When you knock the home town paper you knock the home town and sooner or later it will be felt by the knocker, for the home town paper is really one of the home town's most vital industries and sometimes makes its position keenly felt by those whose selfish interests are not in harmony with the bigger interests of the home town.

FIRE AT VALLENBURG'S HOME.

Thursday was a great fire day for this vicinity. Just as we went to press the fire alarm sounded, calling the department to the home of Gus Vallenburg, the target man at Tecumseh Junction. Here the roof was burning from sparks from a passing train.

While there the alarm came in from Ridgeway when the home of Harry Friedlander was destroyed and several other buildings some damaged.

The roof of the M. E. Church at Deerfield was damaged by fire that day and Saline also suffered a fire loss.

Our firemen could not leave the Vallenburg house burning but our minute men went to Ridgeway to assist in the trouble there which they did very materially.

The Vallenburg dwelling lost the roof on the north side and there was some loss inside, all of which is covered with insurance.

RIDGEWAY.

Last Thursday fire broke out in our village, burning one house, damaging another and several buildings. Had it not been for the prompt assistance from Britton and Tecumseh the damage would have been much worse. When one of the Toledo bread men drove in with his truck he saw the fire in [illegible] the aid of a small chemical tank he carries tried to put it out. Finding this impossible the most of the furniture in the lower part of the house was carried out and saved. The Britton men brought up their chemical outfit and by their hard work saved the Lafe Pocklington house. The other fires that broke out were on old barns and were quickly put out. Ridgeway is thankful that there was not a strong wind and that everyone turned out and helped so well.

Mr. and Mrs. Elmer Pocklington and son, Clare, of Detroit, spent the week-end with relatives here.

Lelah McCarbery is home from the M. S. N. C. this week, sick with the mumps.

While coming to the fire last Thursday, Mrs. Frank Southard drove her horse in front of an automobile driven by Lester Coller. Both the car and buggy were damaged and the horse slightly hurt. Mrs. Southard was thrown out and bruised some. Dr. Hardy was called and attended her.

Emma Lowe was home from the M. S. N. C. for the week-end.

HAS A PERFECT MODEL.

W. L. Coller has on display in his front window a perfect working model of a combined reaper and mower made by the Buckeye Mfg. Co. about 1874.

It evidently was made by a professional model maker as it is simply perfect in every detail and works just like ye old time reapers did many years ago. There are still left a few of the old pioneers who have "raked and bound" after the reaper and possibly some after the cradle but they are scarce now and few there be that can make a straw band to bind with that will hold until you get to the barn.

Feed for an Egg Harvest NOW!

IT must be done with an *egg ration.* A perfect egg ration contains material for an equal number of whites and yolks. Grain, the usual winter ration, goes largely to yolks and unnecessary fat, while it is short on white-making material. Grain-fed hens can't lay many eggs because yolks alone can't be laid.

Purina Poultry Chows

BRITTON DEPARTMENT

Obituary.

The sudden death of Miss Lana Covell last Thursday morning came as a severe shock to her friends and neighbors for although she had been a victim of tuberculosis for the past four years yet her condition was apparently no worse than it had been for sometime.

Lana Covell one of five childeren born to Warren Covell (deceased) and Melissa Covell was born in Ridgeway township, Aug. 3, 1881 and passed away March 16, 1922 at the age of 40 yr. 7 mo. 18 days.

The father together with two sisters and one brother have preceeded her to that better land, the father passing away about 24 years ago. Since that time she and her mother have been very close to each other, in fact were inseparable.

She is also survived by a brother, Byron Covell, four nephews and a niece in the immediate family and numerous relatives and friends.

The happiest part of her life was spent on the farm where she lived until about a year and a half ago, before coming here. She will be sadly missed in the home and by her loved ones and her place will be hard to fill. Although a quiet disposition yet she confided to her friends that she was ready and willing to go to meet her maker, Jesus Christ, and her life truly bore evidence of that statement.

The funeral services were held Saturday afternoon at 1 o'clock at the home with Rev. DeRemer officiating.

The pall bearers were B. J. Beasley, Chas. Gorham, E. H. Oliver, George Price, Fred Hensen and Wm. Rendel. Burial was at Ridgeway.

Those from away attending the funeral services were Mr. and Mrs. Lawrence Miller, Roy and Ray Covell of Northville, Mrs. Chas. Covell of Tecumseh, Bry Caswell and son of Dundee and Mrs. Mary Jane Smith of Adrian.

Card of Thanks.

Our heartfelt thanks is extended to our neighbors and friends and all who were so kind during the sickness and at the death and burial of our beloved one, Lana Covell. We would especially thank Rev. J. C. DeRemer for his comforting words, Mr. Palmer for his songs and those who sent the flowers.

Mrs. Melissa Covell,
Byron Covell and family.

A USEFUL PAIN

Tecumseh People Should Heed Its Warning.

Have you a sharp pain or a dull ache across the small of your back? Do you realize that it's often a timely sign of kidney weakness? Prompt treatment is a safeguard against more serious kidney troubles. Use Doan's Kidney Pills. Profit by a Tecumseh resident's experience.

John B. Smith, farmer, says: "I suffered from pains in the small of my back. When I had an attack it was all I could do to go about my work. When bending I was seized with dizzy spells, causing spots of fire to pass before my eyes and at night I rolled and tossed in bed and woke up in the morning feeling unrefreshed. I used other kidney remedies but received no permanent benefit. I heard of Doan's Kidney Pills and was induced to try them. After taking a few more boxes I was completely cured."

How Firestone Has Reduced the Cost of Tire Service

Size	Jan. 1921 Prices	Jan. 1922 Prices	Reduction
30 x 3 Fabric	$18.75	$ 9.85	47%
30 x 3½ "	22.50	11.65	48%
30 x 3½ Cord	35.75	17.50	51%
32 x 4 "	56.55	32.40	43%
33 x 4½ "	67.00	42.85	36%
33 x 5 "	81.50	52.15	36%

HOW the cost of building quality tires has been brought down to the lowest level in history was explained by H. S. Firestone, President of the Company, to the stockholders at the annual meeting on December 15, 1921.

1. *All inventories and commitments at or below the market.*
2. *Increased manufacturing efficiency and volume production reduced factory overhead 58%.*
3. *Selling costs reduced 38%.*

Mr. Firestone stated, "This reduction in prices is made possible by our unusually advantageous buying facilities, and the enthusiasm, loyalty and determination of our 100% stockholding organization.

"Due credit must be given to Firestone dealers who are selling Firestone tires on a smaller margin of profit. This brings every Firestone saving direct to the car-owner."

The saving through first cost plus the saving through high mileage doubles Firestone economy and is daily adding new fame to the Firestone principle of service—

BANKER SAYS CONDITIONS ARE GROWING BETTER.

"When a farmer watches his growing grain from day to day," said Mr. H. S. Temple, Cashier of the Lilley State Bank, "he cannot SEE it grow but he knows that it is growing.

"He has faith in the soil, in the rain, in the sun and looks forward with confidence to the time when his grain shall mature.

"Even when the rolling fields show nothing more than a tinge of green, the farmer can see wind-swept billows of wheat, he can see their transformation beneath the summer sun into a golden expanse of ripened grain and finally, he can see the long rows of shocks at harvest time.

"General business conditions in America today," continued Mr. H. S. Temple, "may be likened to rain which has just broken through the soil.

"As we watch for growth and progress our day to day observation may not show the improvement we hope to see, but because we have an abiding faith in our economic laws, in the natural resources of our country and in the courage of the American people, we know that slowly but surely business conditions will improve and that better days are ahead of us.

"We are pretty well off after all in this section of the country. If all the interests which affect local business conditions will continue to work together, we have every reason to be optimistic."

YOU DON'T REMEMBER?

The first railroad in Toledo had been in operation six years prior to the completion of the Miami & Erie canal in 1845. This was the first railroad west of the Allegheny mountains and wsa called the Erie & Kalamazoo. The road was opened for business between Toledo and Tecumseh, Mich., Aug. 9, 1838. The rails were of strips of wood covered with strips of iron. Horses were first used for motive power. The next year a steam locomotive was made for the road by the Baldwin Locomotive works, Philadelphia and shipped by water to Toledo. So Toledo has the distinction of being the first city in Ohio to claim interest in a locomotive. The road did a big business carrying immigrants into Michigan and supplies for them. The panic of 1837 prevented the extension of the line to Kalamazoo. With the reviving of the railroad building spirit in 1850 other railroads were built. These were later grouped under the name of Michigan Southern & Northern Indiana, and Toledo had railroad connections with Chicago.

He went to bed in his usual good health and his death occurred after only a few minutes illness with heart trouble. He leaves the wife, two daughters and one son. The funeral will be held at 2 p. m. Saturday from the home.

Mr. and Mrs. Paul Hunt and baby have moved from James Cole's house on West Pottawatamie street to Mrs. Henry Smith's house on North Oneida street, recently vacated by Mr. and Mrs. Will Stewart. Mr. and Mrs. Cole are expected home from Florida the first of April when they will occupy their own home.

The law suit of George Seitz vs. David Ghertner has occupied the attention of Judge Hart this week and created much interest in Tecumseh. The verdict was given yesterday in Seitz favor, his judgment being $348.50. He was sueing Ghertner for an account on junk. Wood & Rathbun and Herbert Clark were Seitz' attorneys and Baldwin & Alexander for the defendant.

Friday evening the Young People's Class of the Friends' church met at the home of Mr. and Mrs. J. G. Wilson. A short business session was held after which the class spent an enjoyable time together playing various indoor games. Mrs. Wilson served delicious ice cream and cake in generous measure. The young people held this meeting also in celebration Rev. Escolme's birthday and gave him a nice gift as a remembrance.

Celebrates Birthday With Family Dinner.

For the pleasure of her husband, whose birthday it was, Mrs. Verl Osburn entertained at a family dinner Sunday which was [illegible] were Mr. and Mrs. Charles Osburn and family, Mr. and Mrs. Raymond Osburn and children, and Mr. and Mrs. Garland Osburn and children, Mrs. Florence Osburn and children, and the Misses Mabel Allison and Elizabeth Johnson.

Mrs. Homer Whaley and daughters were in Adrian yesterday.

GEORGE M. ZIMMERMAN DIED SATURDAY NIGHT.

Millwright for Gratz Milling Company Past Five Years.

George M. Zimmerman, for the past five years millwright for the Gratz Milling Company, passed away Saturday night at 11:05 o'clock at the home of Mr. and Mrs. J. F. Stauffer, corner of Kilbuck and Evans streets. He had long been a sufferer from cancer.

He had only returned a month ago from Ft. Wayne, Ind., where he had received treatment. A brother and sister, Abe and Miss Susie Zimmerman of Snydertown, Pa., came to Tecumseh about three weeks ago to assist in caring for him. The brother returned home after a week but the sister remained here until the end. The brother came again last Tuesday in response to a wire and with the sister left that night with the remains for Snydertown where the burial will be made today.

Mr. Zimmerman was born Jan. 22, 1862, at Snydertown and took up the milling business as a profession. He became an expert in his line, being called all over the country. Since locating here he has made frequent trips to mills where his expert advice was invaluable.

In addition to the above mentioned brother and sister, two other brothers survive, Isaac and John Zimmerman, also of Snydertown.

Mr. Zimmerman was of a quiet, retiring disposition, making few friendships but those were of the lasting sort, and those friends sincerely mourn the death of the faithful, honest man.

DEATH OF CLARA ANDERSON.

Mrs. Clara Anderson died Friday morning at her home on North Maumee street after an illness extending over several months.

Clara Swick was born in Bath township, Allen county, Ohio, Sept. 16, 1854. Fourteen years ago she came to Tecumseh with her sister, Mrs. Wm. Pletcher, and family. She married William Anderson and they made their home on his farm north of town until his death seven years ago. Then she purchased the home where she afterward died and her brother, William [illegible] her during her last illness. [illegible] also survived by the sister, Mrs. Pletcher.

Mrs. Anderson had been a member of the Methodist church since she was 16 years of age and the missionary societies and her Sunday-school class were very dear to her.

The Sunday-school class attended in a body at the funeral service which was held from her late home on Sunday afternoon. Rev. W. A. Gregory officiated and beautiful songs were rendered by Mrs. R. T. Meade and Mrs. Ella Hodges. The following were bearers: John E. Murphy, Charles Sutton, Jay Furman, Jacob Colson, Harry Abbott and J. K. Waldron. The burial was in Brookside.

Many were present from away, among them Mr. and Mrs. Wm. Pletcher, Mr. and Mrs. Arthur Pletcher and Ellsworth Broillier of [illegible] of Jackson; Mrs. Ella Stull of Grand Rapids, Mich.; Mr. and Mrs. Will Miller, daughter Hazel and Miss Ethel Swick of Grand Rapids Ohio.; Mr. and Mrs. Roy Bowersocks of Toledo.

Miss Marie Koernig has been ill since Saturday and unable to fill her position as stenographer at Wood and Rathbun's office.

Monday Club Gave Japanese Program

Committee Reported Community House Fund Is Now $413.15. Program Proves Very Entertaining. Next Meeting Will Be Illustrated Lecture.

The Monday Club met in regular session on Monday afternoon. The usual business meeting was held with the different committees giving their reports. Mrs. J. J. Orr gave the total amount realized from the bake sales and reported that the Community House Fund had now reached $413.15.

The program was in charge of Mrs. Warren Jones as leader and was particularly pleasing. It was as follows: "A Japanese Household," by Mrs. Vera Hodges, was the story of a Japanese woman from babyhood through life and of whom the two words *renunciation* and obedience describes the life of every Japanese woman. Vocal solo by Mrs. Eugene Rosacrans, with Mrs. Ella Hodges accompanying, delighted all and she responded with an encore. "Fetes and Flowers of Old Japan," by Miss Susanne Casey, made one see vividly the fairy like beauty with which nature has so lavishly decorated this small country.

A Japanese song by Mrs. Frances Stone of Ridgeway with Mrs. F. B. Wood accompanist, was especially pleasing and she responder to encore; the history of the Japanese poem with verses by Mrs. Elvin Bradley concluded a very delightful program.

Mrs. F. B. Wood had on display some very beautiful Japanese articles that came too late for the art exhibit of two weeks ago. Japanese pictures were shown by means of the radiopticon and miniature toy gardens of old Japan illustrated the paper by Miss Susanne Casey.

The next meeting will be an illustrated lecture by Miss Schlegelmilch of Adrian. Refreshments will be served by a committee with Mrs. Louis Schneider, chairman.

HAS MADE A SPLENDID RECORD.

[illegible] Stevenson, of the township of Macon has made one of the best records for looking after the interests of the people of his township and the county in general of any man on the board of supervisors.

Mr. Stevenson is one of those men who is not afraid to vote No when it comes to spending the peoples' money and he has at all times shown keen foresight in analyzing the demands of every cause for more of the peoples' money. He believes in taking proper care of all necessary projects and also in curtailing every unnecessary expense.

This is exactly what the people need and it is doubtless the good people of Macon will return him to office by a very large majority as an appreciation of what he has done for the township and county.

The rest of the ticket will doubtless go through intact as all of the officers have been very efficient, painstaking and obliging and doubtless no opposition will come up against any of the ticket.

JOLLY 16 HONOR MRS. SMITH'S BIRTHDAY

Celebrating Mrs. John W. Smith's birthday the ladies of the Jolly 16 gave her a "jolly" surprise Tuesday evening. The twenty ladies met at the home of Mrs. Guy Belding and loaded down with chairs, tables, etc., walked in on Mrs. Smith to her profound amazement. They played cards to their heart's content and presented their prizes to Mrs. Smith. One was a nice silver teapot. The high score was won by Mrs. Belding and Mrs. Will Powell consoled. Orange ice and cake made the chosen refreshments.

LISTEN, IT'S IMPORTANT

The treasury of the Ladies Band is nearly depleted and here comes an opportunity for the band to buy $200 worth of music for $40. It is good stuff and just what the band needs.

Now, we all know that our Ladies Band is the best organization in our village and we are distinctly proud of it. Well, they need money and need it right now. What will we do? We will raise it of course. Just shake the hat and every true and loyal son of Tecumseh will drop in a big shining coin for such an enterprise that helps our village when ever they can and they do it gracefully and now we can show our appreciation by helping them in return. Lets go.

While at work at the R. A. Heesen home the other day Mrs. Paul Stevens fell and broke one of the bones of her wrist. Dr. E. E. Hendershott was called and cared for the injured woman.

ALBION GLEE CLUB GAVE EXCELLENT CONCERT

We were told repeatedly that the concert to be given last Friday evening by the Albion Glee club would be a musical treat and indeed it was truly delightful. The boys were full of pep and ginger and musical to a high degree. Their accompanist was also an ar- artist on the pipe organ and they had in their group a fine violinist and a reader.

The boys were entertained at supper at the church by Mr. and Mrs. Harry Abbott, Mr. and Mrs. Alfred Wright, Mr. and Mrs. G. S. Field and Mr. and Mrs. H. R. Conklin, whose young people are students at Albion college, and through whose influence, largely, the Glee club came to Tecumseh. The young men spent the night in the different Methodist homes about town and Saturday left for Detroit where they gave their concert that evening.

Commerce Banquet Decided Success

Fathers and Sons Enjoy Big Feed and Splendid Program. Over 150 Sit at Banquet Boards. Dinner and Service Exquisite.

One of the most enjoyable banquets of the many held by the local chamber of commerce was given at the high school gym last Tuesday night when over 200 fathers and sons sat down to the banquet board and enjoyed one of the best "feeds" yet served.

The ladies of the St. Peters Guild are deserving of great credit for the royal entertainment they furnished the inner man and their service was most excellent making this part of the program especially delightful.

The speakers, Prof. John Henry Muyskens of the U. of M. and Dr. Gunther of the same institution, both gave very instructive and entertaining addresses. The former dealt with the subject of father and son and gave a very able and forceful talk upon this vital subject. His thoughts were both practical and of the highest ideals which with his pleasing manner of address greatly inter- [illegible]

Dr. Gunther is from the botanical department and during his talk he gave a series of pictures showing what flowers and shrubbery will do to beautify and elevate home life and civic virtues. It was both instructive and very entertaining and added greatly to the pleasures of the evening. Coming as it does just ahead of our proposed boulevard, it will tend to arouse interest in beautifying the whole city.

Wade Jones, President of the club, presided in his usual clever manner and kept the whole program moving in a very agreeable manner. Fred Dickinson gave a very pleasing solo and was roundly encored. Wm. Barrett led the Pep singing and his work put the whole crowd in the best of spirits for the good things to follow. It sure was a great success and as one stranger said, it shows Tecumseh is the livest wire along the pike for progressive and enthusiastic ideals put into concrete form. Let the good work roll along.

ENTERTAINS BASKET BALL TEAM.

For the pleasure of their son, Robert, Mr. and Mrs. James R. Collins gave a delightful banquet for the boys of the basket ball team and their coach, Gordon French.

Black and orange, the high school colors, were freely used, both in the rooms and on the tables. Dainty hand made menus were tied with the black and orange and the bountiful repast was served by the Misses Frances Case and Cora Collins.

In the company were Coach French, Capt. Lawrence Harrington, Bert Ousterhout, Dale Bowen, John Erwin Anderson, Lawrence Gray, Raynor Aylesworth, Harold Kent, Wade Hendershott and Robert Collins.

PONY WAS THE CENTER

The center piece of the photo graveur section of the Sunday Free Press was the pony "Ben" ridden by P. W. A. Fitzsimmons on his trip into the Canadian North West. The Pony looked as if he enjoyed the trip and was waiting for his master to start on the return.

The picture was taken at the head waters of the Rocky River in the Canadian Rockies and it certainly made a fine center piece for the other photos. Ben is a pure white, he seemed to carry his equipment as if he thoroughly enjoyed the outing. It is needless to say he received his eats generously if he carried our good friend P. W. A. who is an admirer of good horses.

Senior Play Next Thursday-Friday

Students of Senior Class Will Entertain Public With "All A Mistake." Said to be One of the Funniest Plays Ever Written. Lets Go.

The senior class of the local high school will give their annual play at the high school auditorium next Thursday and Friday nights when they will present the laughable play "All a mistake" and from the appearance of things it will be a hummer.

The class has some splendid talent which is being used to good advantage and everything is set for a very clever entertainment which contains "miles of smiles" and has two laughs every minute.

The young people have practiced hard and with their clever talent, they will surely entertain the good people to the "Queens taste." Better lay aside all engagements for these two nights and take the whole family to see and hear one of the most laughable farces ever presented in the local high school. You will certainly laugh and no mistake. Tickets on sale at Gastons, Grace Gillespie's and all seniors will take your money.

CLASS MEETING

The March meeting of Mrs. Eaton's class of the M. E. S. S. was held at the home of Mrs. Bert Fox.

Owing to the death of the president and absence of the vice president, Mrs. Eaton presided. After devotionals the following program was announced by Mrs. Fox.

Poems by Mrs. Newsom and Mrs. Chiverall. Recitation by Mrs. John Temple. The usual potluck supper and visiting closed a very pleasant afternoon.

The next meeting entertaining the men is to be held the last Friday in April in the church parlors

MY LAST APPEAL!

Through too much rain and too much rheumatism I have been unable to make a canvass of the [illegible] with the usual political glad hand and taffy sweet smile and convince you good people what a good fellow I am and how badly I want that office of township treasurer. About every citizen of the town knows me and part of you too well, so perhaps it is as well I let the Herald convey my message.

First I've been on my own for ten years and cared for my three responsibilities. For this I am entitled to no laurels for any animal will care for their own until they can do for themselves. I did not ask for a mother's pension for that should go to the poor dear mothers who have larger broods and not my good health of ten years ago.

Second I've conducted a man's business in an honorable, honest fashion and I trust made substantial friends in so doing.

Third I have proved to the people of this township that I was capable to care for the moneys of others before and hope for their backing again. VOTE FOR

Democratic candidate for
Township Treasurer.

CLOTHING AND FOOD IS SCARCE

Only the ragman could keep warm during the winter in Armenia. This was proved by the recent experience of a group of Near East Relief workers in Erivan, capital of the Armenian republic and the centre of the Transcaucasian famine belt.

When the relief workers attempted to buy enough wood for the vast system or orphanages in the city they found few sellers when rubles, worth about a dollar for three million, were offered in exchange. "They couldn't buy anything and they were not substantial enough to make a good fire. So we were compelled to look about for a more attractive medium of exchange. A shipment of old clothes, had just arrived. Now next to food, clothing is the most sought after luxury in Armenia. So we offered clothes for wood. Enough big logs can be obtained for a battered old overcoat to keep the orphanages fires burning for some time."

There will be a gathering of clothing the first week in April to send to Russia. Leave your contribution with Mrs. Dr. Hardy.

W. R. Curtis, Com.

The Colvin district school held a box social Friday evening at the home of Wallace Bryan. Irving Gove was the auctioneer and the result of his efforts brought a tidy sum toward the serving of noon lunches to the pupils. The fifty present afterward enjoyed a good program. Alvin Brazee is the hustling young man in charge of the school.

PARENT TEACHER'S ASSOCIATION HOLD SPLENDID SESSION

Thursday's meeting of the Parent-Teachers Association was the largest attended of any previous gathering of the organization. The different rooms of the school were open to the public and the work of the students on exhibition. The domestic art classes gave an unusual display of garments from dresses to underwear and fancy articles. This was presided over by the teacher, Miss Rankin, but the other teachers' work was as pleasing.

At 7:30 in the "gym" Miss Holmberg the physical training teacher, conducted her junior and senior high classes through some excellent drills, ending with a cricket game between the 8th and 9th grades. An Indian dance by Marion Jones and Teresa Deery and a fancy dance by Myrna VanVleet, Dorothy Saum, Frances Mominee and Mabel Gill were especially pleasing. The high school orchestra gave several numbers. They are improving splendidly under the training of Prof. C. D. Wilcox.

Later in the auditorium Dr. Charles McKenny, President of the Ypsilanti Normal gave an address on "School and Life." He said that we should be proud to say our highest tax is the school tax for it is just that feature of our country which makes us the biggest, best country in the world. In nearly every other country the biggest tax is the military tax. The highest thing men can do is to help train the coming generation in the good things of life. Our biggest problem is to educate our children to get the right kind of pleasure outside of their work as their leisure time is when they become criminal. A good school gives the right ideals about life and to have good schools we must be willing to pay the price for good teachers. "Since you have this splendid building don't let any spirit of economy lead you to take chances on teachers who have not personality to make a good teacher, the best is none too good."

The president, Mrs. W. D. Reed, is proving very efficient as a leader and with the help of the faculty has engendered much interest in this association as is proven by [illegible] ings. The May meeting will be the last gathering of the organization for the year and already Mrs. Reed is planning an interesting session.

Money is, however, very necessary as the speakers must be paid for their time and expenses, so would the members kindly pay their dues to F. S. Turner, the treasurer or any of the teachers.

K. OF P. GO TO DUNDEE

Sixty of the K. of P. lodge went to Dundee Friday night in response to an invitation from the brothers there. The Tecumseh team exemplified the third rank work, with four candidates, three being local men: At Mangus, Vern Hall and Milburn Brooks. The Dundee men served their guests an excellent supper after the work.

Wit and Wisdom Enjoys Musical

Club Met At Home of Miss Alice Wimple, Mr. and Mrs. Fred Dickinson Assisting. Musical Treat Was Greatly Enjoyed.

At the Wit and Wisdom club meeting Monday evening an unusually fine program was rendered. The meeting was held at the home of Miss Alice Wimple with Mr. and Mrs. Fred Dickinson assisting. Mrs. J. F. Rector, the president, conducted a short business session and Mrs. Dickinson was leader of the program, the theme of which was "Humor in Music." The musical numbers were taken from the opera, "The Mikado," and the whole program was delightfully rendered as follows:

Duet, "Were You Not to Ko-Ko Plighted?" Nanki Poo and Yum Yum—Miss Edna Taylor and F. C. Dickinson.

Solo, "The Little Tom Tit," Ko Ko—W. S. Dickinson.

Mrs. F. B. Wood and Mrs. Ella Hodges were the accompanists.

After this program the hosts served refreshments. Mrs. Edw. Koernig kindly opened her home for the pleasure of the guests for the evening.

The club meets April 10 at the Rector home.

It is especially interesting to those who lived druing those times and to others versed in the doings of the boys who lived during that period. We hope to publish extracts from them as time and space permits.

NOW WHICH IS IT?

Gov. Alex Groesbeck is reported to have said in his speech at Adrian last week that he knew the state prison at Jackson had never been self supporting.

Auditor General, O. B. Fuller, says that not one cent of money was drawn from the state treasury from 1913 to 1919, a period of six years, for the support of Jackson prison.

It is true that during this period Edward Frensdorf, a democrat, was warden of the prison and is that the reason why Groesbeck says he knows that the prison has never been self supporting? The people would like to know the truth but it seems they are oppositely informed by two of the states officers.

If no money was drawn from the state treasury for a period of six years where did the support of the prison come from? Surely it was not from public contribution or from the air. To our mind it must have been earned by the prison itself. The time has come when the people are not much interested in republicans or democrats or in the political welfare of any person whomsoever. They are interested in knowing the truth about who saves the public money and who squanders it on unnecessary projects, and it is no wonder that us common folks are losing faith in many of the office holders and believe the only remedy to reduce our extortionate taxes is by electing a man whose record for holding down expenses is positively known or at least sending someone to the legislature who is not a political wheel horse of [illegible] whose record [illegible] among the lea[illegible] [illegible] pocket book.

My back got so painful I couldn't stand it. Many times I had to go and sit down. I had dizzy spells, too. Doan's Kidney [illegible] Son's Drug Store relieved me of this complaint. I willingly recommend Doan's."

AUTHORIZED Buick SERVICE Emblem of Satisfaction BUICK AUTHORIZED Buick SERVICE Emblem of Satisfaction

A striking phase of the automobile industry is the supremacy of the four-cylinder car. In 1920 there were approximately 1,750,000 passenger automobiles sold in the United States. Of this number, 73%, or 1,275,000 had four-cylinder motors.

Why All Cars Are Purchased

Endurance 15% Economy 14%. Comfort 9½%. Price 9½%.
Appearance 8%. Service 7½%. Hill Climbing 7%. Speed 5½%
Flexibility 6½%. Endorsements 6½%. Specifications 6%. Finish 5%.

Why Buicks Are Purchased

The first six points of the above survey, compiled by the National Automobile Chamber of Commerce, cover the reasons for the purchase of nearly two-thirds of the cars bought in this country, and every one of the six is a business reason. These same six fundamentals—endurance, economy, comfort, price, appearance, service—are the basic qualities of the Buick car. We have every reason to believe the Buick is the most perfect combination of the business and recreation motor car on the market today.

A vision comes before us,
So fair, so pure, so sweet
Of one whose lips are silent
Whose heart has ceased to beat.
Our hearts grow sad and weary
As we sit and oft recall,
The good deeds he has done.
We could never name them all,
His well remembered footsteps
We listen for in vain;
Our eyes grow dim with tear drops
When we speak of his dear name.
He bid no one a last farewell
He said good-bye to none;
The heavenly gates were opened
A low voice whispered come.
On this farewell unspoken
You left us here alone.

CREDIT BELONGS IN TECUMSEH.

The first person to advocate a state park near Wampler's Lake which has finally been established was Wm. Eccles of this city and to him more than any other person belongs the credit of pushing that idea to a final conclusion.

Mr. Eccles has long been an advocate of a park sight in this part of the state where the most beautiful scenery in the entire state lies and by constantly keeping the matter alive he at last interested the state authorities and finally the matter was definitely concluded. We are greatly indebted to Mr. Eccles for his efforts which have so well succeeded and which will give this part of the state a splendid park.

Pure yeast
now concentrated in small dose

With the introduction of Yeast Foam Tablets you don't need to eat large quantities of baking yeast to secure its great health-corrective properties

This yeast corrects a wide-spread disease

Vitamin deficiency, that the leading medical men are all discussing, is a disease that thousands of people nowadays suffer from, but which has only recently been recognized.

Unlike other diseases, which come from germs or infections, vitamin deficiency comes from a lack in modern foods of the recently discovered element, vitamin.

Its symptoms are failing appetite; indigestion; loss of weight, strength and vigor; unhealthy skin; nervous troubles and other signs of a "run down" condition.

If you are suffering from any of these disorders, your trouble may simply be vitamin deficiency, and in all such cases Yeast Foam Tablets are recommended because they are made entirely from pure, whole yeast—the richest source of the essential vitamin.

Yeast Foam Tablets rebuild tissues

By supplying this vitamin, which many foods wholly lack, Yeast Foam Tablets stimulate the appetite, aid digestion, enable you to get strength and energy from the food you eat and thus rebuild the sick tissues and tone up the whole body

Extraordinary advantages of Yeast Foam Tablets

For Sale–Real Estate

Take heart! Property is beginning to move a little.

Two all modern but small homes on South Maiden Lane, both have garages. Will go very reasonably.

Mrs. Henry Scofield's house, corner of Pearl and Kilbuck street is a "best buy." All modern, big barn and lot and only 2 blocks from stores.

Then have several cheap places on edge of town, but many more expensive ones.

A 166 A. farm between here and Clinton. Brick house, big barns, best of equipment.

Call me up and at any rate don't forget me on Town Meeting Day. I want that treasureship!

BIRDS, POISON AND RATS

By W. L. Coller.

Rats—I'll never forget the rats. While I have been village clerk in Tecumseh I have written several hundred dollars in vouchers for bounty on rats. There is a bounty of 10 cents each on rats and I would rather have them brought in, just heads or the ears only, instead of the whole carcass "9 days old."

One of the greatest enemies of the human race is the Rat. He is a friend of dirt, which kills more people than gun powder, and an ally, companion and carrier of the microbe, which takes of human life the greatest toll of all. Rats do not bulk large in the public eye. They are not new. They have always been with us. They do not attack in the open, but sulk in dark places. They do no boasting, have no propaganda and do not advertize, but keep busy. Rats destroyed as much in England in 12 months as was destroyed by submarines around English coasts during the war. Thru the bubonic plague and other diseases which they propagate, rats will destroy as much human life in a year as was destroyed during the war.

The devastation wrought by our three common foes, the rat, fly and the mosquito, far exceeds the havoc of any war. Men have always fought rats, and there seems to be quite as many of them as ever. They are as vigorous, as numerous and as destructive as in the days of our grandfathers.

Birds and Poison

In the west where birds, both game and insectivorous are very thick the poison grain method has been in operation by the Federal government to destroy the rodents which are very harmful to agriculture.

Dr. Fisher of the U. S. Bureau of Biological Survey told of many different test where game birds had been fed on oats and barley poisoned with strychnine without affecting their health in the least. Twenty prairie chickens could eat without ill effect poison that would kill 1641 prairie dogs. A five ounce quail could eat with impunity enough strychnine to kill squirrels weighing at least 20 lbs.

This would not be a very good way for us to kill rats as our mixture would likely kill the birds also. Our stock of birds is small enough now. Here is a little rat biscuit. Read it if you have time.

We have cursed him in eating and cursed him in drinking,
We have cursed him in coughing and sneezing and winking,
We have cursed him in sitting and standing and lying,
We have cursed him in living and cursed him in lying.
There never was such a terrible curse.
But what gives rise to no little surprize—
[illegible]
a penny the worse.

THE COOK OR THE BOOK, WHICH?

(Contributed)

The early church Prayed in the Upper Room, the Twentieth Century church cooks in the Supper Room!

Today the Supper Room has taken the place of the Upper Room! Play has taken the place of Prayer, and Feasting the place of Fasting. There are more Full Stomachs in the church than there are Bended Knees and Broken Hearts. There is more fire in the Kitchen Range than there is in the Church Pulpit. When you build a fire in the church kitchen, it often, if not altogether, puts out the fire in the Church Pulpit, Ice Cream chills the fervor of Spiritual Life.

The early Christians were not Cooking in the Supper Room the day the Holy Ghost came, but they were Praying in the Upper Room! They were not Waiting on Tables they were Waiting on God. They were not Waiting for the fire from the Stove, but for the Fire from Above.

They were Detained by the Command of God, and not Entertained by the Cunning of Men. They were all Filled with the Holy Ghost, not Stuffed with Stew or Roast.

O, I would like to see the Cooking Squad put out, and the Praying Band put in. Less Ham and Sham and more Heaven. Less Pie and more Piety. Less use for the Cook and more use for the Old Book. Put out the fire in the church kitchen and build it on the Church Altar.

More Love and more Life. Fewer Dinners and get after Sinners. Let us have a church full of Waiters, Waiting on God, a church full of Servers, serving God and waiting for His dear Son from Heaven.

LIBBY HERE NEXT WEEK

Frederick J. Libby, executive secretary of the National Council for Reduction of Armaments, has lived in fourteen countries of Europe and Asia and brings to his work for international peace a knowledge of many peoples. He will speak at the Friends church next Thursday, April 13 at 2:30 p. m. on the subject of reduction of armament.

After serving as pastor of the Union Congregational church of Magnolia, Massachusetts, for seven years, Mr. Libby visited and studied the countries in the region of the Pacific ocean, Japan, China, Australia, New Zealand and the various smaller islands.

His varied and long European experience not only convinced him of the necessity for harmonious cooperation among the nations of the world but provided him with the best possible background for the work of the National Council.

Hear him next Thursday.

MONDAY CLUB CLOSES JAPANESE STUDY.

The Monday Club met in regular session Monday afternoon at the club rooms with the president, Mrs. Turner, presiding.

At the business meeting three names were presented for membership and duly elected, namely, Mrs. Edward Everett, Mrs. Edward Smallidge and Mrs. George Isaacson. It was voted to study for the coming year South America and Departmental Work which will doubtless prove an interesting subject.

The afternoon's program included a piano solo by Mrs. Wilfred Waldron who chose for her selection "The Raindrop" one of Chopins' beautiful works and for an encore a "Japanese Romance."

The lecture on Japan by Miss Schlegelmilch of Adrian, illustrated by stereopticon views was especially interesting and a fitting close to the three months' study that the club has given to this country. Miss Schlegelmilch has a very pleasing personality and this with her own experience that covered a number of years in Japan gave a glimpse of the country and people that could not have been obtained otherwise. The beautiful views were all taken by Miss Schlegelmilch and colored by a Japanese artist in their natural colors.

The last meeting for the year will be a one o'clock luncheon next Monday afternoon at the club rooms, followed by a Japanese musical program.

Each member of the club is requested to notify the ticket committee composed of Mrs. Leon Rosacrans, Mrs. E. T Armstrong and Mrs. E. E. Berry or any one of the club officers before Friday night if they expect to be present. This is very necessary so that the correct number can be properly served.

The president appointed the following committees: luncheon, Mesdames Floyd Heesen, H. S. Temple and Chas. Williamson. Dining room, Mesdames Pauline Bredow, H. S. Waring, N. D. Trask. Decorating, Mesdames Paul Bowen R. A. Heesen and Miss Ethel Garlinghouse.

RECOVERS STOLEN PROPERTY.

Deputy J. B. Smith assisted by John Keinath of Deerfield recovered the stolen rear axle and wheels taken from Wm. Gray of Raisin some time ago.

Last week thieves entered the barn of Wm. Gray and removed the rear axle and wheels from his auto and made off with them.

Last week Deputy Smith got track of the stuff and arrested Howard Swift and Norris Moorehouse taking them to Adrian where they are held for trial.

The stolen parts were partly on a car but the wheels were found east of town under a barn where they had been hidden.

This was good work to trace down the stolen material and land the parties alleged to be responsible for the crime.

STAULTER'S ORCHESTRA [illegible] DANCES.

Tonight (Thursday) Staulter's orchestra will play for a big dance to be given in Lenardson's hall at Britton and next Tuesday night they will play at Milan.

This popular orchestra is in great demand right now and whenever they play the people are sure of most excellent music and a delightful time. Remember the places and dates if you enjoy a good dance.

RESIGNS HER POST AFTER TEACHING 43 YEARS.

After forty-three years of very successful work as teacher in our schools, Miss Alice Wimple has sent her resignation to the board of education to take effect at the close of the school year. This is greeted with genuine sorrow by both the board, faculty and scholars and the many parents who have been her students in the years gone by, for Miss Wimple is regarded as one of the best educators ever in Tecumseh.

EVERYONE WELCOME

Union Services Held Sunday

Rev. W. A. Gregory Preaches Forceful Sermon On Unity. Attendance Not As Large As Should Be. All Pastors Take Part In Service. Union Choir Renders Beautiful Music.

On the first Sunday of each month the churches of the town are joining in a union service. Last Sunday evening the services were held at the Methodist church with Rev. W. A. Gregory the speaker.

He took for his text "And Pilot washed his hands" with "Putting Unity in Community" his theme. He lamented the fact that out of 1000 church members in Tecumseh only about 140 were at that union service. The church members cannot stand for God and mammon. They better leave the church for a time until they really make up their minds which they wish to serve. Christian service is not a life of ease.

"As in the labor world is the call for union, so is God's message that his church stand firm. We must win as we have the right, brains and soul on the side of God."

One assertion the speaker made was that of all the towns in which he had lived Tecumseh is the first where the pool rooms are not licensed.

Where anything worth while is attempted here the community stands united—and so must the churches accept the challenge of Christ for things which make for righteousness. "Be a 'Come-outer or a Get-outer'." The program of Jesus Christ has never been altered. In a thousand ways He is reminding us of our debts to others. The religion of Jesus Christ cannot be mixed with anything else.

It seems that a new Litany is appearing and our children are praying "From all sorts of church services, Good Lord, deliver us."

The speaker said he found in his notes that his typewriter has written "onion" for "union" and he applied that "onion" to the wall of the Israelites who tiring of the manna given freely, wanted the leeks and garlic they had left behind in Egypt, [illegible] look longingly for the works of the Devil which they have foresworn.

We are not watching for the signals of sin as we are accustomed to them and the fear of the speaker is that we will run by them to certain destruction. It was Pilot, the man who washed his hands, who crucified the Savior, not the multitude.

"The forces of evil in Tecumseh stand together and we must put out some of the little fires close to us before we can see God's signals."

The other pastors took part in the opening services and the choir, made up of singers from Methodist, Presbyterian and Baptist church, led the singing.

1921 CLASS ENJOY PARTY.

Part of the 1921 graduating class were guests of Miss Alice Whelan Thursday evening. Many of the class were home for the spring vacation so they took this opportunity of getting together again and certainly enjoyed the evening hugely. Games and music filled in the hours and a pot-luck supper was served.

CHAPLAIN HOPP COMING.

The Tecumseh Grange will have as a speaker at their meeting next Friday night, Rev. Wm. Hopp, chaplain of Jackson prison. He will also exhibit motion pictures. This is free to the public and all are invited.

AFTER THE BATTLE

To the Voters of Tecumseh Township.

To the faithful 180 who supported me at the caucus. To the larger number, without regard to party, whose votes at the polls made my election possible.

To all others who, by reason of ill health or the infirmities of age, now unable to vote but who were interested in my success, one and all I want you to know that I appreciate your help and I am thankful for it. In dealing with the public I shall try to serve you with the same degree of accuracy and courtesy that you have received from other treasurers, of both parties, in the years that are gone.

If I can come some where near being as competent and courteous as our retiring treasurer has been during her two years of official life I shall be abundantly satisfied.

Very gratefully yours,
adv C. H. Snedecor.

Mr. and Mrs. C. H. Williamson and family and Mr. and Mrs. C. N. Graebner drove to Toledo Sunday accompanying Miss Marion Williamson back to the Smead school after her spring vacation.

WHITING'S CIGAR FACTORY ROBBED.

When the employees of Whiting's cigar factory came to work Friday morning they found a window at the rear of the shop broken open and cigars lying all over the back yard. In a gunny-sack on the ground below the window were a number of boxes of cigars, as though dropped through fright.

On looking over the stock it was discovered that [illegible] "Chics" were missing. Evidently a clean-up was planned but the robbers must have been disturbed in their work and in running spilled their loot as cigars lay all over and spoiled on the ground beside the boxes in the sack.

It will be remembered that on Thursday night the crossed wires caused by the heavy ice thereon made many fires [illegible] the power had to be turned off at midnight. The pitch darkness made a fine time for this sort of work.

Photographs of the finger prints left about were taken and a finger print expert called but he could do nothing with them as the storm had partially obliterated them. Deputy Smith is on the job.

Big Play Tonight At High School

Seniors Present "All A Mistake" A very Funny Farce Full Of Pep And Joy. Everything Set For Big Crowd. Play Said To Be One Of Funniest Ever Given.

Come on lay aside your cares and drop in at the high school tonight and see one of the funniest plays ever put on by the local students. Its said to be a scream from start to finish and the seniors certainly have practiced hard under the supervision of their instructors to make the play a great success.

The title is a cue to what may be expected and it certainly is some mistake all through. Its a comic farce abounding in complicated and funny situations that will bring forth peals of laughter. Its a good remedy for indigestion or the blues and don't forget to take the family and enjoy yourself [illegible] night at the high school.

PRESBYTERIANS HOLD ANNUAL MEETING.

Following a Bohemian supper the Presbyterian congregation held their annual meeting at their church Tuesday evening, John R. Nyland, chairman of the board of trustees, presiding. H. S. Waring secretary of the trustees, acted as secretary of the meeting.

After a prayer by the pastor, Rev. J. F. Kiskaddon, the annual report of the church treasurer, D. F. Wright, was read, showing the organization out of debt, all bills paid and a small sum with which to open the new year's books.

The different church societies report good sized sums in their treasuries after the year's work which has been active. In all the gathering was harmonious and the outlook for the next year good.

GOOD PICTURES SUNDAY NIGHT.

"Alice in Hungerland" the three reel picture to be shown following the community service Sunday evening has proved a very popular picture where shown, bringing the people to a greater realization of the needs of the starving Russians and Armenians. A canvas of the town will be made very soon for old clothes that will be sent to these needy people.

PASSION WEEK SERVICES.

Passion week services will be held in the Tecumseh churches at 7:30 p. m. as follows: Tuesday at Friends church; Wednesday, Baptist church; Thursday, Presbyterian church; Friday, Methodist church. The pastors will speak in their respective churches. A good attendance at these services is earnestly desired.

Republicans Elect Nearly Full Ticket

Paul Bowen Elected By Democrats Over Chas. Covell. Schreder Elected For Seventeenth Time. 941 Votes Cast. No Special Issue Up.

For the seventeenth time John Schreder was elected as supervisor of Tecumseh Twp. last Monday at the annual spring election. Mr. Schreder has served the township continuously in some capacity for twenty-eight years without a break, probably one of the longest terms served by any man in Lenawee Co.

There was no special issue up for consideration and only the normal vote was cast totaling 941. The only break in the republican ticket was election of Paul Bowen as overseer of highways over Chas. Covell. Don Cleveland made the second best run for the democrats losing out by only 24 votes for highway commissioner. The following is the vote cast for each candidate:

Supervisor, Schreder 512—Boyce 429.

Clerk, Hanna 650—Snow 270.

Treas., Snedicor 525—Gillespie 414.

Justice, Pratt 567—Barrett 359.

Bd. Review, Avery 511—Snell 419.

Overseer, Covell 401—Bowen 528.

The constables elected were John H. Smith, Ed Prichard, Ed Berry, and Bert Nominee, all republicans.

Hugh Hanna, our popular clerk, made the best run on the ticket receiving 650 votes.

HOLD-UP MAN AGAIN IN TECUMSEH.

Last Saturday night as Wilson Aldrich was going home after closing up the store he was the victim of an attempted hold-up.

Mr. Aldrich said it was near twelve o'clock when he left the store with a considerable sum of money with him taken in after the banks had closed and as he neared a big elm tree about a block east of the C. F. Smith store, a man stepped out from hebind the tree and struck him over the head with some instrument. But seeing the move in time Aldrich ducked and the blow just grazed the side of his head not doing much damage. At this Aldrich struck the man and knocked him down and then took to his heels and ran home.

Mr. Aldrich said he was a small man and wore a long overcoat with a high collar turned up about his neck evidently to hide his identity. The matter was not reported to the officers and no arrests have been made. Pretty bold work for our quiet village.

Mrs. H. S. Waring entertained 46 members of Miss Kyle's class at one of their wonderful pot-luck suppers Monday night. After the supper Mrs. Frank Snedicor, the class president, announced the following program:

BETTER GET READY

When the supervisor comes around this spring you will be amazed at the information he must have as this is the year an agricultural report is to be taken and it includes everything on the farm and in the garden.

You will have to know the number of acres in each crop, woods, pasture and what you raise in the garden. Also each animal is listed in its proper classification and much other information will be called for. Better get it figured out so as to assist the supervisor as much as possible in saving time. He will be long enough at it at best.

Big Damage Done By Sleet Storm

Electric Light Company And Telephone Company Damaged More Than $3,000. Manager Church Says It Was Worst Storm Company Ever Experienced.

Last week Thursday morning a sleet storm struck lower Michigan and did millions of dollars damage to trees and wires. The lighting and telephone companies were the worst hit and last Tuesday Manager Geo. Church said the damage to the Electric Light Co. would be upwards of $1,000. The company made heroic efforts to keep the "home lights burning" but Thursday night part of the service went off and was off until Friday night. However, the interruption was very slight considering what a tangled mess the wires were. Friday all light wires were working except the Lake Ridge line.

Manager M. E. Pruyne said the local telephone company would be damaged close to $2,000 and the wires certainly are the worst tangled mess that this county ever saw. Telephone poles were broken off by the score and the wires piled up in a twisted tangle that will be hard to unsnarl. As late as Wednesday no long distance wires were working out of Tecumseh except to Adrian and Monroe. Clinton could not be reached nor any other town except the two mentioned. Manager Pruyne and his crew have worked incessantly to restore the service as fast as possible and have succeeded beyond the expectation of any reasonable person but the job is a terrific one and only time will tell the extent of the damage and how long it will take to repair it.

The farm lines all over the county are down and demoralized so that it will be some time before they can possibly be put in shape for use.

The trees were picked bare in many places and the limbs were scattered over the ground as if sheared off with a scythe. Big limbs, whole trees and small limbs were mixed together as though a terrific power had scattered them broadcast. The ice coat held on till Saturday noon when the sun came out and the ice began to melt.

Railroad wires were down and trains delayed in many parts of the state and news wires were out of commission entirely. Probably no storm of the kind was ever so destructive in this part of the state. The damage will run into the millions over the state.

CIVIC DUTY.

Every person has a civic duty to perform. If he neglects or refuses to do it, he is not a patriot but a slacker.

And the government under which he lives and of which he is a part suffers just in proportion to the importance of the duty he fails to perform. Everyone likes to be called a partriot i. e. one who loves his government and makes sacrifices for it.

Everyone knows that the boys who go to war and endure the hardships, and possibly give up their lives on the field of battle, are patriots in the highest sense. But those who remain at home and into whose hands is cast the "torch to carry on" are bound by the life blood of those who perish to "carry on" the great government for which these same boys gave up their lives.

And in carrying on, we must perform our civic duty as we see it with the same courage and sacrifice that those who gave up their lives on the field of battle showed, or we are truly slackers and undeserving to live under the greatest flag that ever floated to the breeze.

It takes courage to do our duty How many will sacrifice even a nickle when it comes to a choice between civic duty and the probable loss of a little cask? Or who will take a chance on making someone who is prostituting our community with lawlessness, our enemy by standing openly for law order and common decency?

The trouble with civic duty is that too many believe in "let George do it," and shirk their own responsibilities wholly. If there is honor to be had or glory to be distributed, the front seat is full of recipients who are eager to share in the distribution, but alas when there is need of men "tall men sun crowned who dare to do their duty" there is a dearth of patriots.

Perhaps this is due to the money greed which has siezed all of us but its common name stripped of all superfluous verbage is simply pure unadulterated cowardice. We elect officers to carry on the work of the government, and right there too many of us think our duty done. We do not hold up their hands and assist them to do their duty fearlessly and with justice to all. We almost take the part of those who are naturally law breakers when the officers try to do their duty, and instead of holding up the hands of those who would do their duty to the full extent, we laugh at their inability to do things and give them little or no support in their efforts to perform their duty with force and effect.

We live to tell them to go ahead and we will stand back of you but when they look behind them for assistance, alas we are back of them—but so far you couldn't reach us with a telephone.

It is no wonder that things run at loose ends and that those who decry law and order, and who imagine they are a law unto themselves, get away with conduct that would be stopped immediately by the said offender promptly landing in a cell at police station if it were done in a city?

Do we stand by (not behind) our peace officers for doing their duty promptly and efficiently? Do we speak words of commendation to those who carry out the mandates of the law fearlessly? Do we "tell the world" we are for law and order and civic decency? We do when we are among those who believe the same way but when our words might bring down the wrath of the offenders we are as busy as a one-armed paper hanger with the itch, trying to keep away from the subject for we might loose a nickle in trade or "get in wrong" with the gang. What is that if not cowardice?

We are distinctly thankful for one thing that in our delightful little village, that we have an institution where law and order stands supreme and that is in our public schools. Supt. Crampton and his corps of teachers are to be congratulated upon the fact that law and order is properly respected at our public schools and that is one of the biggest things in the education of our youth.

Perhaps these few lines will count for naught but if those who believe in patriotism and civic pride would search themselves and step boldly out on the side of those who do stand for law and order and public decency and fearlessly hold up the hands of preachers, teachers and all civic officers, the problems that now go unchallenged and which are a disgrace to American life would be settled instantly and we could look a patriot in the face whenever we combed our hair. Until then we shall grow steadily worse. Its the people's business and cannot be shirked nor side stepped, we must all stand for the best in education, government and public affairs if we would "carry on the torch" the boys have thrown to us. What say you?

BUSINESS ON THE GAIN.

Everywhere right now there are reports coming that business is picking up and better times are already here. After two years of depression this is very welcome news for every community is dependent upon its business conditions and when they are prosperous, everyone is contented and life is much more worth the living.

The greatest industry of all—the farms, is about the last to feel the effects of better times and in an agricultural section like this, all business is directly dependent on the farms, so that until they are in still better condition, we cannot expect the best of times. However, the farmers are beginning to get better prices for some things and we hope that very soon they will get top prices for every product they raise.

It is not possible to keep prices down very much longer as the world markets are already showing signs of activity and foreign made goods are coming to our shores in ever increasing quantity with the effect that the ships return laden with American raw material so that very soon our export trade will increase to such an extent that prices will raise on our farm products and then prosperity will set in in real earnest.

The tide of prosperity is beginning to flow and its rise will be steady until the high point is passed and we reach higher levels than we have known in normal times for many years. Let it flow fast and rise high.

It will take a generation of dime novels to make the Far East as dear to heart of America as the Far West.—Canton Repository.

Foster Ideal Toe Trip Cribs

They are without question leaders in the field.

The spring always fits the head and foot ends. The post and rail connections being malleable iron, breakage is reduced to a minimum. One side is lowered by simple toe pressure (without the use of hands). They are noiseless, accident-proof and sanitary.

If in need of a crib, see the Foster.

ROADS BREAKING UP.

It is already reported that the new road just built from Tipton south to Adrian is already in very bad condition due to breaking up of the road bed. From three to four miles of this road is already broken up and the road commission is taking steps to have it repaired.

We presume this must be the fault of either the specifications or the manner of building for surely a road that cost 20 thousand dollars per mile to build should last longer than one year.

If the peoples' money is to be used for building such roads or the traffic is so heavy that they will not stand up until they are fully paid for, what is to be the result of our enormous taxes piled up on the real estate to put such roads down?

Surely this is food for reflection and one of the problems that should be solved if possible and very soon.

Either the construction is faulty or the loads are too heavy for such roads and one or the other must be corrected or the money is absolutely wasted that is used to construct them, and the amount is far too burdensome to result in such a farce. Evidently here is something our road commission can well give their attention to.

There will be a meeting of the taxpayers of Lenawee Co. at Adrian in the court house next Sat- [illegible] meeting is absolutely non-partisan and is called for the purpose of getting a free expression on the question of how to reduce the taxes on real estate which have become so burdensome to the people.

If you are a tax payer and are interested in taxes, take the trouble to go and help get relief. If you are not interested, it will not pay you to go but unless sufficient numbers turn out there is no use trying to get relief. It is up to the taxpayer to help himself.

IN MEMORY.

In loving memory of James G. Murphy who passed away April 5, 1921.

A precious one from us has gone
A voice we loved is stilled;
A place is vacant in our home,
Which never can be filled.

God in His wisdom has recalled,
The boon his love had given,
And though the body slumbers here
His soul is safe in heaven.

The vacant place, the empty chair,
We see them day by day;
And Oh! it fills our hearts with care
Since our loved one went away.

Peaceful be thy silent slumber
Peaceful in thy grave so low;
Thou no more will join our number
Thou no more our sorrows know.

Yet again we hope to meet thee,
When the day of life is filled,
And in Heaven with joy to greet thee
Where no farewell tears are shed.

Mrs. James G. Murphy
and sons,
Merrill and Melvin.

SAFETY + SERVICE

Pay Bills on April 10th

One good way in which every man and woman in Tecumseh can help to promote the prosperity of the community is to pay bills promptly when due.

When you make charge purchases at a local store, remember that this is a courtesy extended to you by the merchant and that the bills fall due on the first of the month following—payable not later than the 10th.

It is not fair to ask a merchant to sell you goods on a cash basis and then make him wait longer than thirty days for his money. Put yourself in the merchant's place and you will quickly realize how necessary it is to promptly collect outstanding obligations.

A big help to the prompt payment of bills is to open a checking account at this strong bank so that you can pay by check. Try it!

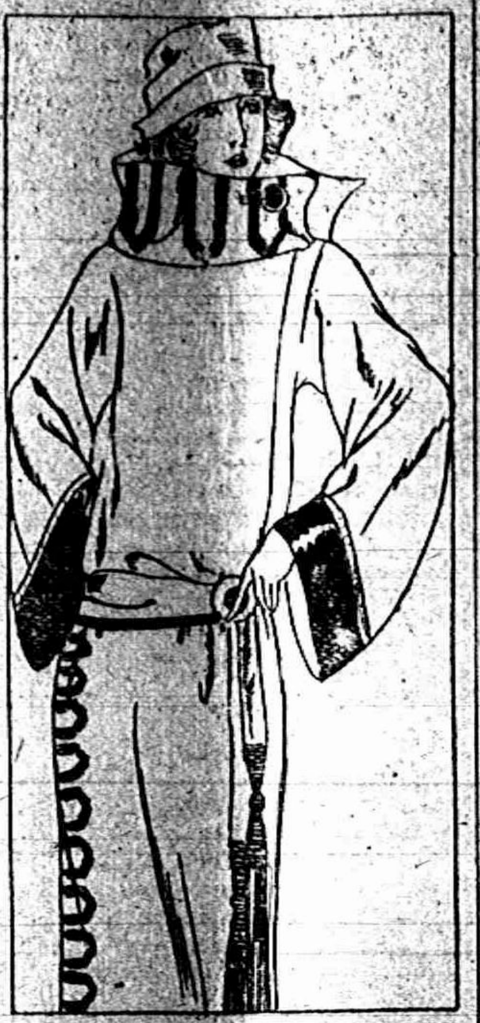
PALE GRAY SUITS

Striking Garments Collared and Cuffed With Seal.

High-Neck Finishes, Large Sleeves and Low Waistlines Are Outstanding Features.

Very attractive are the suits of palest gray velours de laine, the coats deeply collared and cuffed with seal and lined with black satin. The contrast is almost as startling as black and white, yet the grayish tone makes them possible for winter wear.

The dress coat and the coat dress are still important, and the resemblance between them is so great that it is difficult to distinguish one from the other. There are models designed for coat purposes which look like dresses; again there are models, distinctly dresses, that have a most coat-like appearance. Both types agree on high-neck finishes and large sleeves. Practically all [illegible] long sleeves and low waistlines. If they are of the chemise type they must blouse over a low-placed girdle of some sort. The day of permitting this type of garment to hang in a perfectly unbroken line has passed.



Black Broadcloth Coat With Bright Green Broadcloth Cuffs and Braid Trimming.

A new idea appears in the coat dress, or robe manteau, as the French call it, developed in velvet or heavy woolen material and shown with a short circular cape and muff of fur. The muff is crescent shape.

BOON TO HOME DRESSMAKERS

Remnant Counters Offer Attractive Materials for Blouses Featuring Color Combination.

An unusual number of blouses are shown this season that feature a fabric or color combination. This should play right into the hands of the economically inclined woman who does her own sewing or has her clothes made at home or by the neighborhood [illegible] offer as attractive materials for blouses as they do for children's clothes and hats. With fabric and color combinations approved, it is a very easy matter to find blouse materials among the odds and ends.

Brocades of various sorts combine well with plain silk, chiffon and georgette. Wool fabrics are frequently combined with sheer silks with excellent effect. A very smart blouse is made of rust-colored velours in a fine light weight, combined with chiffon in the same shade. Another smart blouse combined black duvetyn with gray chiffon, the duvetyn forming a peasant bodice, with sleeves of the sheer gray material. A black satin waistcoat blouse had wide bell sleeves of silver gray chiffon. The waistcoat was embroidered in silver thread and fastened with metal buttons in the silver tone.

IRREGULAR HEM IS FEATURE

Distinctive Fashion Carried Out by Use of Panels and Draperies—Fur in Favor.

The irregular hem, such a distinctive feature of many of the new fall frocks and which is carried out by the use of panels and draperies, is also to be met with in the long suit coats which as a rule are inclined to flare around the bottom.

The lavish use of fur is another characteristic of suits and coats. Often an entire jacket front will be fashioned from some soft fur such as mole or caracul, while here and there a winter wrap is seen which besides having a fur collar will also have the sleeves of this rich material.

Pile fabrics which imitate such flat furs as broadtail and caracul are employed as trimmings on the new frocks of silk or wool. Often these manufactured furs are as soft and silky as their prototypes and add a touch of luxury which the plainer velvets cannot give.

LOCAL AND PERSONAL

Dr. B. F. Steinhoff who has been confined to his home for a couple of weeks with illness is again at his office we are glad to say.

Cabinet Is Split On Road Bonds

Administrative Board Clash Expected Tuesday When Issue Comes Up.

Rogers Wants Approval of $8,000,000 Committments, Johnson Opposed.

In view of the following article appearing in the Detroit Free Press the people of Tecumseh and vicinity should be interested as one of the uncompleted sections of highway is through this village and it is planned to complete it this summer which will give Tecumseh one of the finest highways in the state and will tap an immense territory for its business interests.

Lansing, Mich., Feb. 4.—Indications are that the question of discontinuing or greatly reducing the $14,000,000 highway program planned for 1922, which comes before the administrativa board Tuesday, will participate the first open fight since the board's organization last spring.

Frank F. Rogers, highway commissioner and member of the board declared Saturday that he will try to obtain approval for the whole program. He declares that roads can now be built for from 25 to 30 per cent less than last year. He says the state should take advantage of the lower costs and should furnish as much employment as possible during 1922.

Contracts Already Let.

He points out that 12 contracts on federal aid projects and 15 contracts on state trunk line projects for 1922 have already been let, and that the state is practically committed to expenditure of at least $8,000,000. The contracts were let, he declares, at the earnest solicitation of the administration at Washington and after conference with Governor Groesbeck.

Thomas E. Johnson, superintendent of public instruction and member of the board, declares that he does not believe the action of the highway commissioner in letting these contracts in advance of approval of bond issues by the administrative board was legal. He favors reduction of the program and discontinuance of bond issues of highway improvement.

Johnson Asks Curtailment.

"If the highway commissioner has let these contracts without proper authority, he can pay for them himself," Mr. Johnson declared today. "I think the issuance of bonds should be stopped. Perhaps we should spend enough to get the federal aid money that is coming to Michigan, but I would not spend anything beyond that, under present circumstances."

O. B. Fuller, anditor general and member of the board, says he favors honoring all contracts made to date, but would stop all highway bond issues except those necessary to do this and obtain the federal aid.

"I have never believed that these bonds should be issued," he said. "The roads that are being built with the money will not last as long as the bonds that build them. We are asking posterity to pay for these roads and then go ahead and build their own roads. That is what it amounts to."

Says Tax Burden Light.

Mr. Rogers points out that the [illegible] was only 24 cents on $1,000 of valuation in 1921, and was 49 cents in 1920. He claims the tax burden attributable to roads is insignificant and that the farmer does not pay a large share of it.

"Cities pay 61 per cent of the state highway taxes and of the county highway taxes too," he declared. "Villages pay 7 per cent. This leaves only 32 per cent that is paid by the townships and agricultural communities. I do not think that the farmers, who pay only 32 per cent of the tax and constitute 33 per cent of the state's population should vote all the stock in the corporation known as the state of Michigan.

Mr. Fuller says the present highway tax is no criterion by which to judge what the roads are costing. Michigan's yearly interest on bonds now outstanding is $2,907,095, he points out.

Bond Cost $5 a Minute.

"We are paying more than $5 a minute in interest charges right now," he declares. "We have not commenced to provide sinking funds. There are bonds due in 5, 15 and 20 years, but no sinking funds. We must begin to create a sinking fund out of taxation, and that means more than doubling the outlay on the score of bond issues.

"I believe the state should make the automobiles pay a larger share of the cost of good roads. What cannot be paid that way should be paid out of current income or the roads should not be built. Pay as you go should be the rule in dealing with anything that wears out as fast as the roads."

It is probable that Charles J. DeLand, secretary of state, and Frank E. Gorman, state treasurer, will adopt an attitude similar to that of the auditor general and superintendent of public instruction. Governor Groesbeck and Merlin Wiley, attorney general are expected to favor continuance of road building.

Has $14,410,000 Program.

The program that Mr. Rogers will lay before the board Tuesday contemplates construction of 1,000 miles of trunk line roads, at a cost of $14,410,000. Of this, $8,123,652 would be on state projects and $6,278,078 on federal aid projects. The cost to the state would be slightly less than $10,000,000, the rest being paid by the counties and the sections that are thus discriminated against will undoubtedly make themselves heard.

Because of this, there is a possibility that some members of the board may endeavor to put the whole highway question over until after the meeting of the state association of supervisors here the middle of the month, to find out whether the sentiment against continuance of the road program is as widespread as is claimed.

Passes Buck to Board.

When the commissioner presents his program he will submit to the administrative board a map showing the exact location of each road to be built, and if the board cuts the budget he will ask it to specify what roads are to be left out. Such a cut would inevitably deprive some sections of the state of badly needed connecting links in highways practically completed, and federal government.

The greatest cuts that can now be made in this program, according to Mr. Rogers, would have at least $8,000,000 to be spent, $5,000,000 of which would be paid by the state. This would be divided between $3,000,000 necessary to obtain Michigan's share of federal aid and $2,000,000 to carry out contracts already let on state trunk line projects.

YEAST FOAM TABLETS
Vitamin

Abundant vitamin now contained in small yeast tablet

Yeast Foam Tablets are from 4 to 5 times as concentrated as the ordinary baking yeast. The necessary vitamin potency, therefore, is contained in a much smaller dose.

"I CONGRATULATE YOU," writes a well-known physician, "on your new therapeutic yeast. I am sure it will be welcomed by the medical profession and by thousands of people who dislike eating such large quantities of fermentative baking yeast—as well as by countless others who sought in vain for any appreciable tonic benefits in many drug-laden and untested 'vitamin' preparation."

This yeast supplies what modern foods lack

Yeast Foam Tablets correct a serious deficiency in present day diet by supplying the essential vitamin which is found in many raw foods but which is completely eliminated, in many cases, by the time these same foods reach our table.

This vitamin is necessary to digestion and the conversion of foods into healthy tissue and bodily vigor.

Without sufficient quantity of vitamin your body goes sick and you are only too aware of it in such signs as loss of appetite, failing strength and endurance, nervousness, sallow skin and other definite signals of vitamin starvation.

Yeast richest source of vitamin

In the yeast plant is an abundant store of this indispensable vitamin and in Yeast Foam Tablets there is nothing but pure whole yeast—millions of these tiny plants being concentrated in each tablet.

The vitamin potency of this new yeast is therefore high and, consequently, its tonic and reconstructive properties are most unusual.

Yeast Foam Tablets are made by the world's largest manufacturers of dry yeast, the makers for 45 years of the famous baking yeasts, Yeast Foam and Magic Yeast.

They are the result of two years of experiment conducted under the guidance of some of the country's leading medical scientists. Recommended by physicians and sold by druggists everywhere.

Extraordinary advantages of Yeast Foam Tablets

The only pure, whole yeast in easy-to-take tablet form.

They contain no drugs or other ingredients.

They do not form gas nor cause belching.

They are the only pure, whole yeast suitable for children; they do not cause fermentation.

Each lot is tested to insure high and uniform vitamin potency.

HOW TO MAKE YOUR OWN RADIOPHONE OUTFIT

ARTICLE I

Make your own radiophone!

Get the latest news, concerts, sermons, right in your own parlor—through the air.

It's easy.

Anyone can make his own receiving set.

There are no batteries or electrical current to frighten you.

The work involved is little. The cost is small.

A man on the farm or in the city can build an instrument and rig it up for less than $5. But he will have to buy a set of receivers that will increase the cost tonearly $10.

Some boys have built their sets for $2—but they probably picked up most of their parts.

What You Need.

The materials are:

Fifty to 120 feet of No. 12 or No. 14 copper wire—bare.

Two porcelain insulators.

One porcelain tube.

A wooden base—6 x 12 inches.

Four bits of wood—half an inch thick 6 x 6 inches.

A cardboard tube—an old cereal box will do—six inches long.

Two slider rods—seven inches long.

(Two slides more cheaply bought than made).

One-half pound of No. 22 enamel copper wire.

Four binding posts—with screws.

One clip or detector cup.

One piece of galena—lead sulphite.

Six inches of tinfoil—3x4 inches.

Six layers of wax paper—4 x 5 inches.

A bit of fine springy wire—No. 36 or No. 38.

Some small nails.

One of these home-made sets should cover a field of nearly 100 miles from the broadcasting station.

Aerial Comes First.

The first thing to be considered is the aerial, which catches the wireless waves.

This consists of 50 to 120 feet of wire stretched above the ground as high as possible. The height should be at least 30 feet.

A good place to string the aerial is between the house and a barn or a tree top.

Tie a piece of rope to the tree or pole. Attach one of the porcelain insulators (they cost about 5 cents each).

Then take one end of your wire and connect it to the insulator.

Carry the rest of the wire back to the house. Pull it up to the roof—your other terminal point. Attach another insulator to another bit of rope and complete your aerial connection.

Don't pull too tightly. Allow the wire some sag for the blowing of the wind.

Double Wire Aerial.

If you want, you may use a double wire aerial, but this is not necessary for the small receiving set.

From the insulator run your aerial wire as the "lead-in" to the instrument. Use a glass or porcelain tube as insulator as it enters the house.

Now the aerial is completed. The next step is the construction of the instrument.

Get a cardboard tube five inches wide by six inches long—an empty cereal box will do.

Dry it in the oven or on the radiator.

Then take a bit of half-inch board—about six inches square—and mark on it the circumference of the tube. Cut along the line and fit in to the tube.

Repeat this and you have the two heads for your tube.

Making the Sides.

Repeat this on two other boards, which will make the sides of your instrument.

Before you slip them into place drill holes for your binding posts—one through each board.

Take the No. 22 enamel wire and start winding it about half an inch from the wood. Do this tightly and smoothly in a single layer—each turn touching the next. Finish about half an inch from the end.

This tube becomes the tuning coil. Shellac it and bake it—to make it more durable.

Radio waves are sent out in certain lengths—dependent upon the instrument and the distance. To catch these waves of varing length, the receiving set must have some adjustment.

This is made on the tuning coil by two slider rods.

You may purchase these cheaply at any supply store.

Making Adjustments.

If you want to make them, take two bits of brass seven inches long by three-sixteenths square and bore holes about a quarter of an inch from the ends.

Get some brass tubing that will just fit over the rods. These pieces, two in number, should be about half an inch long.

A short bit of brass is soldered to the underside of these sliders.

Nail these rods on the board heads of the coil—on top and half way down the front.

Adjust the tongues of the sliders so that they touch the wire of the coil. Scrape this carefully so that there is a path of contact under the sliders. Use penknife and clean the strands three or four at a time.

These sliders pushed along the rod will give the variations in wave length.

In the center of each of the wooden back mount a wood screw binding post.

The right hand end of the coil is connected to the post on the right hand side. The binding post on the left is connected to the slider rod mounted on the front of the coil.

ARTICLE II

With the tuning coil constructed, the making of the fixed condenser comes next.

Get six sheets of tinfoil—three by four inches.

If you can't get any better, use the foil found in cigaret boxes.

Take six sheets of waxed paper—four by five inches.

Sandwich these in alternate layers. Solder a piece of copper wire to two ends. Wrap together—with the two wires sticking out. Tape the roll.

Be sure not to damage the paper when rolling it.

This condenser stores up the signal current that is rectified when a message is coming in.

If you want to be neat, you may make a case—of tin—for the condenser, but it is not necessary.

How Waves Come.

The radio waves coming through the air are oscillatory. They will have no effect on the telephone receiver unless they are changed into direct current.

A little device called a detector turns the trick.

This consists of a bit of mineral—galena is the best—clamped under a fine wire point.

A bit of tested crystal costs about 25 cents.

This mineral may be held in place by a clip—an old suspender clasp. But it is better to have it screwed firmly in a small cup.

The "Cat Whiskers."

Resting lightly on the mineral should be this fine wire—"cat whisker" it is called.

This should be supported in some way so that it can be adjusted easily.

A good way is to attach the wire to a little rod, supported on a stand. If no rod is available, the end of the wire can be screwed firmly to the base of the instrument, and the wire adjusted by the fingers.

Ifthe beginner has difficulty making this part of the apparatus he may buy it for $1 in a supply store.

It is the heart of the radiophone receiving set—a very delicate part. Be sure that it is properly constructed.

When you are all set, prepare for the mounting.

Mounting the Apparatus.

Take your base—6 by 12 inches.

Fasten the tuning coil by two screws passing through the base to the head pieces of the coil.

The "lead-in" wire from the aerial is attached to the slider rod on top of the coil.

The other rod—set in front of the coil—is connected to the left binding post.

It is from this post that the instrument is grounded.

Draw a piece of wire to a water pipe, lightning rod or any other fixture that is grounded. Clean a part of its surface. Draw a band of metal around it. Solder your wire to this.

Ground Link Important.

It should not be forgotten that the ground connection is quite as important as the aerial.

If there is any difficulty soldering the wire, buy a ground clamp. It sells for 10 cents.

From the slider rod in front of the coil draw another wire through the base. String it on the underside where it is connected with the left-hand wire leading from the fixed condenser.

This condenser should be set on the right-hand side of the base. The detector should come between it and the coil.

The right-hand wire of the condensor goes to the screw holding the base of the detector—the cup or clasp holding the crystal in place.

From the other side of the detector—which holds the "cat whisker" in place—connect a wire to the binding post on the right-hand side of the coil. This is the same post to which the coil wire is attached.

Binding Posts

In front of the condensor set two more binding posts.

Connect one post to each side of the condensor.

Then hook up your telephone receivers—and your circuit is complete.

See that none of your wires touches another.

In fastening them under the base, use small tacks—or gummed paper.

Look at your binding post to the right. Be sure that it is connected to the aerial.

Look at the binding post to the left—be sure that it is grounded.

Start listening in.

Move your slider back and forth; adjust your detector.

If you have carried out these instructions carefully and are within range of a radio station—

You will soon be in touch with the world—

Through the air!

Note—You can get the above material at the Big Chief Garage for a few dollars.

LOCAL AND PERSONAL

Miss Marie Koernig is ill with mumps.

Wiley McCann, Dale Bowen, Morris Coller played at a dancing party in Jackson Thursday night.

Dr. C. E. Moorman was called to Grand Rapids last week by the illness of his father. Mr. Moorman is reported gaining at this writing. Mrs. Moorman accompanied him.

H. K. Hay was home from Monroe Sunday. Mrs. Hay returned with him to assist in the C. F. Smith store which he is managing.

Mrs. H. H. Smith has sold her home, corner of Cummins and Union street to Chester Richards, who will move his family therein at once. Mrs. Smith's son and daughter of Norwalk, O., were here over the week-end assisting her in packing her household effects for shipment to her new home at New London, O.

Mr. and Mrs. Kenneth Hay left Sunday for Monroe, Mich., where Mr. Hay is connected with the C. F. Smith store at that place. Their new home will be at 124 West Front St. for the present.

Both basket ball teams met at the home of Miss Arlene Gillespie Thursday night in her absence and her surprise was complete upon her return. They brought a lunch and enjoyed games of all sorts. The burning out of the phones in the neighborhood and the electrical display of crossed wires from the ice storm only lent variety to the evenings entertainment.

Thursday was the birthday of Mrs. Wm. Waldron and her daughter, Mrs. Wilfred Waldron invited Mrs. Hurry's Sunday-school class to their home in the country to assist in the celebration. A little thing like an ice storm dont give these ladies "cold feet" so a large crowd of them attended and had a very happy day. A nice dinner was served at noon and Mrs. Waldron's surprise was complete.

The Baptist church has been receiving a thorough house-cleaning The members have been working faithfully a few days last week and this, eating a pot-luck dinner at noon in the church. The great carpet in the auditorium was sent to Adrian to be cleaned. It is now in place and the pews all set again. Beside the nice clean church the members are united in a closer bond of friendship so it has been a fine thing all around.

OUR CHURCH ACTIVITIES

METHODIST CHURCH
W. A. Gregory, Preacher.

Regular services morning and evening next Sunday, April 9th.

The congregations were very well maintained last Sunday. Six adults were taken into the church memberships at the morning service. Two received the sacrament of Baptism. At the close of the evening service a meeting of the representatives of the different churches was held to consider the offer of the Clase and McCombe Evangelistic party to come to Tecumseh for the month of June. They ask no guarantee as to finances only that we provide a place of meeting and entertain the 4 members of the party. That works out at less than one for each This is an opportunity that will not knock at the church doors again. Will the Christian churches of this town realize it or fail?

Senior Play Proves Brilliant Success

Given Two Nights At High School. Draws Crowded House. Players Given Great Ovation For Splendid Work. Play Proves Exceptionally Entertaining.

The senior class play "All A Mistake," given at the high school auditorium Thursday and Friday evening was witnessed by good houses. On the last night the seating capacity was taxed. The girls of the class were the ushers with the boys not in the cast acting in various capacities. Archie Waring, as business manager was everywhere, selling tickets, attending to the lighting, etc. To his good management and to his assistant, Ethel Randall, are the class indebted in a large measure for the tidy sum they realized.

The story of the play is as follows: Lieut. Geo. Richmond (Dale Bowen) and his bride (Arlene Gillespie) were called to attend the funeral of his uncle, Capt. Obadiah Skinner, a retired sea captain (Bert Ousterhout). The captain was very much alive (first mistake) and the lieutenant was much concerned how to explain his bride as the uncle had ordered him to marry Nellie Huntington, a neighbor girl (Clara Wilson). The estate was next door to an insane asylum and when "Ferdy" Lighthead, a neighbor, (Alton McIntyre) appeared the party thought him an inmate of the asylum. He had advertised for a wife and Cornelia, the captain's sister (Claudyne Newton) had answered and had the 46 letters from "Ferdy" to prove his affections. Richard Hamilton, a country gentleman (Mills Swick) was in love with Nellie Huntington and found her in the asylum. The maid, Nellie McIntyre (Euena Easlick) must not be forgotten as she was a large part of the show.

The caste did splendidly, but the work of the whole made it the success it was. Miss Newton was exceptionally good but it is hard to choose favorites from the bunch of young amateurs.

Prof. Wilcox had worked harder than the rest [illegible] between acts so this kept him "on the bob" every minute.

The two property helpers, Myrna VanVleet and Mildred Haines, have been constant at the practices and helped materially though not in evidence and Earl Pennington as stage manager hustled everybody.

DeMOLAY BOYS ATTEND CHURCH SERVICE.

Twenty-eight boys of the Order of DeMolay and quite a few members of the Masonic order were in a body attending the Presbyterian church Sunday morning in response to an invitation from Rev. J. F. Kiskaddon.

As the young men marched into the church led by Usher John H. Smith the audience applauded heartily. They were a fine looking set of young fellows [illegible] eyes and clear complexions of clean young men. They followed the service through most attentively and impressed the audience when they knelt during the pray-er[illegible]

Rev. Kiskaddon took for his theme "Kingly Manhood." He told of the organization of the Order of DeMolay and of the heroic Frenchman, Philip DeMolay, after whom the order was named. He told his young friends of the life of a king, his domain and influence He declared they were each kings in this glorious America with their domain control of themselves. His address was splendid and each could not help but be benefitted by listening.

The altar was profusely decorated with flowering plants and ferns and special music given by the full choir commemorating Palm Sunday. "The Palms" was rendered by Lee B. Menor of Alabama, a guest of Lester Waring.

Several of the DeMolay members were from Clinton.

DELIGHTFUL CLASS PARTY

Mrs. J. H. Smiths class of young girls of the Presbyterian Sunday school were guests of Miss Alice Hall Heilman at her home on South Pearl street Tuesday evening. Miss Heilman as president of the class conducted a business session, later contests of various sorts most delightfully entertained them. Illustrated life books were made and in a contest of advertisements the honors went to Alice Beasley and Frances Gillespie.

Miss Heilman served her guests dainty refreshments at the close of the party.

A BIRTHDAY SURPRISE.

Mrs. William Witherell was the victim of a surprise Friday afternoon when upon returning from down street she found the home of her daughter, Mrs. W. L. Coller, where she resides, had been invaded by the ladies of Mrs. Hurry's Sunday-school class of which she is a member. The day was Mrs. Witherell's birthday and the ladies had come in response to an invitation from Mrs. Coller to help in the celebration. They brought well filled baskets for a pot-luck supper and passed a delightful afternoon. Mrs. Witherell received several very pretty gifts.

N. Evans Street May Be Paved

Plans On Foot To Pave First Block North Of Chicago St. Property Owners Favor It. State Will Pay 40%. And Take Over Balance Of Street To Village Limits For Permanent Maintainance.

Quiet work has been going on for some time to get N. Evans St. from Chicago St. to the north depot paved. However, this has been found impossible but it is very probable that the first block from Chicago to Logan will be paved.

The state offers to pay 40% of the entire cost (approximately $4,000) of paving 80 feet wide and the property owners are willing to pay ¾ of the balance which will leave but a fraction over ⅛ for the village to pay. And in addition the county road commission has signified its willingness to take over N. Evans St. and Mill St. to the village limits for permanent maintainance if this block is paved. This would mean thousands of dollars saved to the village in a few years as the up-keep of this street would cost many times what the paving would cost the village in the course of years. In fact it would be a splendid investment for the people to trade the permanent upkeep of this long street for the cost of ⅛ of the paving of one block on N. Evans [illegible]

A committee consisting of Perry [illegible] road commission for maintainance as above stated and [illegible] went to Lansing and Mr. Rogers gave them the assurance that the state would pay the 40% as above stated.

Last Monday night a petition was handed to the council asking for the appropriation of the cost of ⅛ of this pavement amounting approximately to $500 but the council believed it should keep absolute faith with the people on the boulevard costs and referred the matter to the chamber of commerce for action.

It is planned to take up a subscription and see how far that will go toward securing the amount necessary to complete the deal. The matter would not have been touched at this time except that the paving of this strip could be [illegible] ment on Chicago St. is being put down than should we wait and have to bring in the equipment for so small a job later on.

It remains to be seen just how the matter will be handled but many prominent business men said it would mean such good business to have Mill St. to the village limits maintained by the state for such a small cost, that it would be wise to close up the matter at once.

Mrs. Gadd and her little daughter came here from Manchester, nearly two years ago and both made hosts of friends whose best wishes accompany them to their new home.

Union Service At M. E. Church

Musical Reading Followed By Appeal For Armenian And Russian Relief.

At the Methodist church Sunday evening was a union service when Rev. W. A. Gregory in celebration of Palm Sunday read the story of "Tor, the Blind Beggar of Jerusalem." The choir sang the hymns interspersed through the reading and the service was truly beautiful. Afterward the film "Alice in Hungerland" and Mrs. Hardy made an appeal for the starving Armenians. This Rev. J. F. Kiskaddon followed with a statement [illegible] in Russia. [illegible] for the support of these very worthy causes but before the ushers had hardly started with them the audience began to disappear so only those in the front of the church were there to be asked for their support.

Nevertheless the committee will see to it that every person in Tecumseh is asked for their contribution. Armenians and Russians are starving by the millions and those with plenty but who cant realize the awful suffering of those people will in the next life answer for their indifference.

CHAPLAIN HOPPE GIVES SPLENDID ADDRESS.

A large crowd came out last Friday night to hear the address of Chaplain Wm. F. Hoppe of the Jackson State Prison. Mr. Hoppe has been chaplain of this institution for the past three years and has done most excellent work among the inmates of that institution. He is [illegible] charming personality, very sincere in his work and withal a most interesting speaker.

In his lecture the Chaplain gave a very intimate account of the human side of his work together with what it all accomplishes in helping to make those with whom he comes in contact better citizens from every angle. He is an inspiration in himself and imparts this to those with whom he deals. His address was listened to with the closest attention and every person present went home with a new and enlarged vision of the work at this prison.

It was indeed fortunate to secure this very able man to present such a vital subject and especially as he presented it in such an able and understandable manner that his audience was truly enlightened as well as highly entertained. We trust Mr. Hoppe will again come into our midst.

SET THE CLOCKS AHEAD SATURDAY NIGHT

All clocks in the village are to be set ahead one hour Saturday night when we go on Eastern time. Church services will be held on the Eastern time so don't forget and accuse Janitor Linn of being "off". Schools and factories begin operations one hour earlier so we will have to enjoy the early crow of our neighbors roosters and see the sun rise which we probably have not for some time.

But in the evening we will have that extra hour for base ball, gossip with our neighbors and helping with the rugs and stoves in the spring cleaning.

Miss Mabel Gill, a high school junior, has been forced through ill health to give up her school work and is with her parents in Adrian.

TAKE OVER RESTAURANT.

Mr. and Mrs. Roy Pritchard have taken over the Boston Lunch room formerly owned and operated by F. E. Rude and they have made many improvements in the place for greater convenience and to better cater to the needs of their trade.

These good people are experienced in the work and will give the trade a first-class restaurant service in every particular. They will specialize on a business men's lunch at noon and will give special attention to this feature of the work.

Luncheon And Japanese Program

Monday Club Closed Work With Delightful Afternoon.

A charming 1 o'clock luncheon was a fitting close of the very interesting year's work of the Monday Club. In the lecture room and parlors of the M. E. church were laid the tables, with spring flowers and flowering shrubs everywhere, on the tables, and in the window seats. White candles beamed from crystal holders spreading a cozy light over all and at each plate was a hand painted place-card.

The compny of 150 assembled in the vestibule of the church, filing into the dining room to the tunes of a march played by Mrs. F. B. Wood. A charming menu was served by club ladies under the chairmanship of Mrs. F. G. Heesen, the dining room being in charge of Dr. Pauline Bredow and Mrs. Paul Bowen and committee looking after the decorations.

At the business session which followed the year's work was closed. The secretary, Mrs. E. D. Brown, and the treasurer, Mrs. W. J. Morse, gave their annual reports, one item of which was the fact that the club has received 45 new members this year, making the membership 196. This gives the club second place in the county list, the largest being the Adrian Woman's Club with 200 members.

Mention was made of the meeting of the County Federation at Clinton April 28.

By motion it was decided to send [illegible] Memorial Fund.

Dr. Bredow, who now begins her work as president of the Monday Club, announced the program committee for next year as follows:

Departmental work, Mrs. F. C. Dickinson, Mrs. P. C. Satterthwaite and Mrs. Glen Tansley.

South America—Mrs. Jenny C. Law Hardy.

Music—Mrs. F. B. Wood and Mrs. R. S. Moore.

Mrs. F. C. Dickinson then acted as leader of the program which was of Japanese music and before each number she gave a sketch of the opera from which it was taken. Most of the numbers were from the opera "The Mikado," with Mrs. Wood accompanist.

"Japanese Cradle Song"—Mrs. [illegible] Mrs. Ella Hodges.

"A Wondering Ministrel, I"—F. C. Dickinson.

"Were You Not to Ko Ko Plighted?"—F. C. Dickinson and Miss [illegible] Taylor.

"Little Tom Tit"—W. S. Dickinson.

"One Fine Day" from "Madam Butterfly"—Mrs. R. S. Moore.

"Three Little Maids from School"—The Misses Lillian Kennedy and Edna Taylor and Mrs. Vera Hodges.

Piano duet—Mrs. Wood and Mrs. Hodges.

"Here's a How-de-do"—Miss Kennedy, W. S. and F. C. Dickinson.

"The Moon and I"—Mrs. E. T. Rosacrans.

"The Flowers that Bloom in the Spring"—W. S. Dickinson, F. C. Dickinson and chorus.

At the close the out-going president, Mrs. F. S. Turner, in a few words heartily thanked the ladies for their loyal support and help during her administration.

Quite a number from out of town were present, among them being Mrs. Etta Walker of Dundee, Mrs. Lynn Rogers of Detroit, Mrs. Charles Ruthruff of Jackson and Mrs. Raynor Haeussler of Manchester.

MEMORIAL WEEK PLANS.

The following arrangements have been made for memorial week. Rev. W. A. Gregory will give the address Decoration Day; Rev. Kiskaddon will preach the Mothers' Day sermon the second Sunday in May in the Presbyterian church; Rev. Curtis will preach the Memorial sermon on Sunday night before Decoration Day in the Baptist church.

By Order of the Committee.

A son, William Martin, was born to Mr. and Mrs. Russell Kern at Cedar Rapids, Iowa, April 1st. Mr. and Mrs. Kern have recently moved from Tecumseh, he being in the employ of the Quaker Oats Co.

Say Michigan Is Rich In Oil

State Geologist Adds, However, That Deposits Are Difficult To Reach, Says Deerfield Field Is Well Located.

LANSING, April 8.—For 40 years or more men have been exploring for oil in Michigan. At present oil explorations are under way in half a dozen localities. Companies drill for oil are being promoted. In nearly every well of the hundreds that have been driven over a wide area of the state, oil in small quantities has been found. Occasional pools of water in swamp and low lands are so oily that live stock will not drink the water.

These and some other facts are accepted by geologists as conclusive that Michigan is rich in oil deposits. Prof. R. A. Smith, state geologist says there is plenty of oil here, probably not in large quantities as in Texas and Oklahoma but enough to make many fortunes. But the trouble, he adds, is that, geologically speaking, Michigan is wrong side up. The beds of rock lie one on the other like a nest of basins. If the basins were turned upside down making what is called a dome, then the oil from all sides would rise upwards toward the upturned bottoms, the top of the dome, and form an enormous pools, or group of pools of oil and gas, perhaps rivaling in some places those in Texas and Oklahoma.

In these two latter states Prof. Smith explains, the bowls have great wrinkles or folds in which oil and gas are trapped. Not so in Michigan. The Michigan basins, so far as has been ascertained, are about the most perfectly formed in the United States, being without the huge wrinkles of the Texas and Oklahoma basins. Hence, in this state, the oil escapes upward from the rock, penetrating the surface of the earth. This explains the widespread indications of oil, not, only on the surface but in shallow wells.

Still there are wrinkles, geologically called anticlines, in Michigan favorable for trapping oil and gas. According to Prof. Smith they are Michigan's main hope, but it so happens that the bedrock [illegible] gravel and clay, making it [illegible] or impossible, in most places to tell in advance of drilling where the anticlines are.

Geological surveys have revealed anticlines at Port Huron at Saginew and at Seul Choix Point, Schoolcraft County. The first two yielded oil in small quantities, and with more complete exploration might, in the opinion of Prof. Smith, produce far more. Anticline structures appear to exist at Allegan, near Niles, at Muskegon and Manistee, on Little Traverse Bay, along the Detroit river and in Monroe County. Oil found in wells now being drilled near Deerfield, Lenawee County, appear to be on a pronounced anticline or terrace-like fold [illegible] tion and size are yet to be determined.

The first well at Deerfield is said to be producing four barrels a day. A much larger well is now being drilled. The Deerfield oil formation is the same as the famous Lima and Findlay oil fields in Northwestern Ohio, so it has possibilities worthy of thorough testing. A well near Mt. Clemens is down 8,500 feet, but a break in the drilling outfit has caused a suspension with the supposed oil sand within a few day's reach. Near Brown City, Lapeer County, drilling is nearly down to the oil formation. A fourth well is being drilled near Devil's Lake, Jackson County. It is already down more than 1,700 feet and the plans are to go over 3,000 feet. Drilling will soon start near Peck, Sanilac County; also at Seul Choix Point, Schoolcraft County. Two companies contemplate driving wells near Manistee, where showings of oil were found in several salt wells. One of these Manistee wells spouted oil 150 feet.

Prof. Smith's advice to persons disposed to invest in oil explorations in Michigan is this:

"With so many showings of oil it is reasonable to expect that somewhere in the state oil will be found in profitable quantities. But just where no one can say in advance of the drill. Probably the long chain of failures, however, is not wholly due to unfavorable geological conditions as a whole, but to misguided haphazard and cross-brained exploration. Brains, honesty and experience are necessary to succeed in oil exploration in Michigan. Without these the chances of success are no better than one in 1,000. With more intelligent development it is possible that the state would have been a profitable producer of oil long ago.

CONDITIONS GROWING BETTER.

The bulletin issued by the Seventh Federal District has the following to say concerning business conditions in this country during the month of March. It is a very hopeful view of affairs and shows that we are approaching normal business conditions as fast as can be expected after such a world wide cataclysm.

"The outstanding feature in business development during the past few weeks has been the improvement in basic industries, including steel, especially railway equipment copper, and other metals. A marked increase in the production of automobiles has also been a feature of the month. Building which has been on the upgrade for several months past continued its growth in activity, February permits being about forty per cent in excess of those of February, 1921; while the advance is still continuing.

As against this favorable trend in the physical volume of production in basic lines is the fact that a variety of conditions have operated to offset the encouraging improvement which has been noted in textiles during the winter months. Prominent among these unfavorable influences is the disturbed relation with labor, but uncertainty as to cost of production and lack of forward orders has had a depressing effect in those districts where no labor troubles have made themselves felt. No important changes have been observed in other manufacturing lines, such as leather, boots and shoes. Agriculturally, the month has been one of favorable development considering the season. According to official figures a marked, even if still limited, decrease in unimployment is underway.

In trade, both retail and wholesale, the tendency has been on the whole downward although not pronouncedly so. Retail trade is uniformly lower than it was a month ago or than it was at this time last year. The movement of commodities to market during the month has been very satisfactory. Increase in car loadings has been noticeable in many parts of the country. The advance in the index number of wholesale prices shown by the Federal Reserve Board compilation amounts to four points for the month.

Financially, the month has shown but little change. Discount and interest rates have not [illegible] materially. Foreign trade shows a somewhat further decline with a much closer approach to adjustment of export and import figures both here and abroad. Increasing stability in foreign exchanges, with the exception of marks, has been the rule."

AGED RESIDENT DIES IN CHICAGO.

Mrs. Miles E. Baldwin passed away Thursday, April 6th, 1922, at the home of her daughter, Mrs. Fred Lines of Chicago, having passed the three score and ten mark. The remains arrived in Tecumseh Saturday at 3 p. m. and were taken to the Belding Funeral Home where short services were conducted by Rev. Edw. Escolme. The remains were laid at rest by her husband in the family lot in Brookside under a wealth of beautiful flowers sent by her many friends. The services were attended by the ladies of the T. B. A. in a body, Mrs. Baldwin being one of their number.

Mrs. Baldwin went to the home of Mrs. Lines last September to spend the winter. In January she fell and broke her hip and has been confined to her bed since, growing steadily weaker.

Surviving Mrs. Baldwin are two daughter and two sons, Mrs. Lines of Chicago, Mrs. Nellie Wright of Ft. Penn, Del. Arthur Baldwin of Chinook, Mont., and Will Baldwin of Tecumseh. The older daughter, Mrs. Millie Schmires passed away several years ago, followed shortly afterward by Mr. Baldwin.

Mrs. Baldwin was a member of the Friends society. Though not being able to attend the services the last few years, she was interested in all that was good.

She was loved by all who knew her, always doing her part to making those around her happy, especially in her home, as a tender and true mother. She will be missed but we feel she is with loved ones gone before.

NEW BRIDGE PLANNED

The exact location of the Detroit-Windsor Bridge will be announced which will connect Detroit with its 1,500,000 inhabitants with the Border Cities on the Canadian side.

All preliminary details required by both the United States and Canadian Governments have been completed and actual construction it is stated, will begin shortly.

More people, or nearly double the entire population of Canada crossed the Detroit River between these two cities last year. In addition, more than 1,500,000 railway cars, 600,000 automobiles, 73,000 auto trucks, and 18,000 horse-drawn vehicles made the crossing.

The new King's highway, which will be complete this summer, (connecting with the bridge), will save 110 miles between Detroit and Niagra Falls and Eastern Cities.

The Detroit-Windsor Bridge will be the largest single span bridge in the world, with a capacity of 30,000,000 automobiles a year; two 7 foot sidewalks, and two street-car tracks in the center. Later a lower deck will be added with four railway tracks for railroad traffic. The bridge will be of the most permanent type of construction of steel, granite and concrete. The towers will be of heavy steel design, 380 feet in heighth, and the bridge proper will be 110 feet above the water.

MRS. FANNIE WALDRON, WELL-KNOWN HERE, PASSED AWAY MONDAY.

Mrs. Fannie Waldron, a well-known resident of Tecumseh fifteen years ago, passed away Monday at the home of her daughter, Mrs. Frank Russell in Ann Arbor. Mrs. Waldron has spent most of the time since she left Tecumseh with a daughter, Mrs. Wade, living near Adrian. This winter she has been with her daughter in Ann Arbor. Three weeks ago she became ill with heart disease, being critically sick from the first and unconscious much of the time.

The funeral was held yesterday with burial in the family lot in Zion cemetery, Ogden township.

Mrs. Waldron was a nurse much of the time while here and made hosts of friends through her kind ministrations. She was an ardent member of the Methodist church and attended the meetings of the church faithfully. Though 80 yrs. of age at the time of her death, she had enjoyed unusually good health. She is survived by several children, Mrs. Anna Russell and John Harris being the two best known by Tecumseh people.

MRS. FRANK STEAD DIED IN PERSIA.

Word comes to friends of the family here and at Holloway of the death of Mrs. Frank Stead, a missionary at Kermanshah, Persia, which took place February 21 after an illness with sprue, a Persian disease. Rev. Frank Stead, the son of a former Presbyterian minister of Holloway, graduated from the Tecumseh school with the class of 1895. After studying for the ministry he went to Persia and there married his wife. She was a graduate of a Chicago college and the work of the two has been very successful though unusually full of hardships. During the war their mission was beseiged and their American friends did not hear from them for months so mourned them as dead. The couple were granted furloughs at the close of the war but on account of the stress of their work at Kermanshah could not both leave so Mrs. Stead took her vacation first, returning to Persia a year ago. Rev. Stead is now in Balboa, Cal., on his furlough and there the message of his wife's death reached him.

Now you can get yeast the way you want it

For the first time you can get a pure whole yeast in agreeable and convenient tablet form

Of surpassing interest to you thousands of men and women who understand the remarkable health-building properties of yeast is the knowledge that you can now get yeast the way you want it.

Ever since the therapeutic value of yeast was definitely determined by leading scientists, there has been an insistent demand for a pure whole yeast of high vitamin potency—that would keep; that would be easy and agreeable to take; that could be conveniently carried about in the pocket, and, finally, that would not form gas nor cause flatulency or belching.

In Yeast Foam Tablets these demands have been met.

A food—not a medicine

Yeast has within itself the amazing therapeutic element, *vitamin*, the corrective properties of which are more astounding than any known drug or medicine.

If you wish to take drugs or medicine, do so on the advice of your physician. If you wish to take a supplementary food, for its tonic action on the whole body, take pure, whole, concentrated yeast—Yeast Foam Tablets.

What this new yeast does

"Foods which lack vitamin will not maintain health," says a noted medical authority, "and many foods which originally contained this element reach our table with all vitamin eliminated, due to various heating and preparing processes."

The vitamin thus eliminated is restored through the addition to your regular food of Yeast Foam Tablets. They stimulate the appetite, aid digestion and enable the body to convert food into firm, healthy tissue.

What to take Yeast Foam Tablets for

For that ill health, commonly known as a run-down condition, and all its distressing symptoms such as sluggishness, anaemia, failing strength and endurance, lost appetite and malnutrition, you will find nothing more efficacious than a prompt treatment of Yeast Foam Tablets. They are sold by all druggists.

Northwestern Yeast Co., Chicago

"Princess Bonnie" Coming. May 2-3

Comic Opera Will Be Given By American Legion At The Bradley. Miss Lillian Kennedy and Kenneth Lowry Take Leading Parts. Will Be Another Good Entertainment.

The comic opera, "Princess Bonnie," will be given at the Bradley Opera House on May 2 and 3d under the auspices of the American Legion which guarantees that the people will again have the pleasure of seeing one of the best light opera's now playing to the people.

Miss Lillian Kennedy and Kenneth Lowry will take the leading parts and these two talented young people are very well known for their ability as local players, and being supported by the pick of Tecumseh's local artists, the show cannot be otherwise than first class as the others have been.

The play itself is a musical extravaganza of the comic type and is said to be especially brilliant and catchy furnishing the audience with some very extraordinary entertainment and much pleasure. In fact, it is a whirlwind of fun, frolic and flappers. You better get the dates in mind and get set to attend if you dont want to miss one of the best evening's entertainment that will adorn your sweet young life for many moons to come.

A special trainer will be here for the next two weeks instructing the caste in their different parts and putting the whole program in shape for proper public appearance. In fact, constant drill is going on so that the whole affair will move with that smoothness which comes only from hard work and plenty of drill. Its some play and dont forget that.

WELL-KNOWN YOUNG COUPLE MARRIED AT THE METHODIST CHURCH ON TUESDAY.

Over 400 people gathered to witness the tying of the knot when Tom Thumb (Robert Lowe) and Lily Midget (Carolyn Gregory) were married according to the Liliputian Ceremony.

Some 75 guests made up the party which assembled on the specially constructed platform at the end of the church.

Thebride attired in white china silk, with a long train and lace veil, carried a bouquet of beautiful flowers. She acted as though she were used to being married but the groom was evidently somewhat bored by the proceedings. During the intervals, whilst guests were arriving, songs were rendered as follows:

"Darling I am Growing Old"—Grandfather Midget (Robin Gregory).

"I cannot sing the old songs" and "When You and I were young Maggie"—Grandfather and Grandmother Thumb (Richard Williamson and Majel Jones).

"O Promise Me"—Cousin of the bride (Helen Hodges).

"Heart of the Rose"—Kathryn Whaley.

"I love you truly"—Barbara Williamson.

Song by the three old maids—Josephine Crampton, Kathryn Heesen, Mary Waring.

Rev. Mr. Tie-em-up—Buford Barber.

The two ushers—Bub Leighton, R. LeBaron.

After the ceremony, a wedding supper was served and during the preparation of the supper Mrs. Eugene Rossacrans rendered a song with her usual finished skill.

The acting throughout was without a flaw. The little folks were perfect mimics and showed their parents the necessity of care lest their elders' examples should be perpetuated in the rising generation.

The whole performance was full of humor from start to finish and was one of the cleanest and best Tecumseh has seen.

The newly weds have lived in Tecumseh many years and have hosts of friends who extend their best wishes.

Dr. and Mrs. Murphy have begun housekeeping in the doctor's home on West Pottawatamie where their friends are always welcome.

SAYS DRAINS SHOULD BE POSTPONED.

Conrad Ottgen, County Drain Commissioner said today, he was advising the postponing of all drainage work which it is possible to get along without, until financial conditions have adjusted themselves, so they will be less burdensome, and he thinks it is having some effect, for at the present rate applications are coming in, there will be much less drain construction in 1922 than in the last 3 or 4 years past, and the work and material is costing much less money than in the past, which he says will mean at least 50% reduction in Drain Tax for the coming year.

Easter Services Most Beautiful

Morning Breakfast Served At M. E. Church. All Churches Give Beautiful Programs In The Morning. Union Services Held At Presbyterian Church.

It seemed that all nature was commemorating the awful death and glorious resurrection of our Christ. Friday was one of those cold, rainy days of which we have had so many this spring. The Good Friday services were held at the M. E. Church, the last of the Passion Week union meetings held at the Friends, Baptist, Presbyterian and Methodist churches. Rev. W. A. Gregory gave a vivid portrayal of the Crucifixion in an excellent sermon.

Easter dawned beautifully bright the earth gleaming newly washed.

The first call to the worship of the Christ came at 6 o'clock when the early risers were greeted by the Methodist bell pealing out the invitation. The Easter breakfast at the M. E. church is becoming an annual event for the young people's societies of the town. The following is the program as given with Miss Katherine Reed leader:

Song service, led by Earl Dunn of Ann Arbor.

Vocal solo, "Resurrection of the Dead"—Miss Mildred Haines.

"What Young People's Work has done for Me"—Alvah Knight.

"Why I Joined the Church"—John Erwin Anderson.

"The Value of Christian Service"—George Newsom.

Vocal solo—Earl Dunn.

"The Church in Relation to the School"—Miss Ethel McIntyre.

"What Young People's Societies Mean to the Church"—Rev. W. R. Curtis.

"The Value of Young People in the Church"—Rev. Edw. Escolme.

"The Church and Young People"—Rev. W. A. Gregory.

After the program the young people enjoyed an excellent breakfast and the hour of visiting before the usual morning service.

At all the churches Easter lillies and flowering plants were used profusely in decoration and at each were held Easter programs by the Sunday-schools. Holy Communion was observed usually and in several was the rite of baptism observed and new members given the right hand of fellowship.

In the afternoon all churches joined in a wonderful union vesper service at the Presbyterian church when a most excellent program was rendered by a combined choir of the best talent from all the churches. The accompanists were Mrs. F. C. Dickinson, Mrs. Ella Hodges and Miss Edna Taylor.

The program was as follows:

Organ Prelude—Mrs. Ella Hodges.

Doxology—Congregation (standing).

Invocation—Rev. J. J. Preston.

Hymn No. 224—"Jesus Christ is Risen Today."

Anthem—"Awake Thou That [illegible]" ([illegible]).

Duet—"Crucifix" (Faure)—Mr. W. S. and Mr. F. C. Dickinson.

Reading of Scripture—Rev. W. R. Curtis.

Prayer—Rev. J. F. Kiskaddon.

Anthem—"Christian, the Morn Breaks Sweetly O'er Thee." (Shelley).

Cornet Solo—"The Lost Chord" (Sullivan)—Mr. Clare Camburn.

Offertory—Mrs. F. C. Dickinson.

Anthem—"The Seal is Broken" (Watson).

Ladies Quartet—"The Resurrection" (Shelley).

Anthem—"Prophecy and Fulfillment" (Greene).

Hymn No. 241—"Lift Up Your Voices"—Congregation (standing).

Benediction—Rev. Edw Escolme.

Organ Prelude—Miss Edna Taylor.

At this service a collection was received to pay the necessary expenses, the balance to go for Armenian relief. The balance was $11.17 which was given the committee for this purpose.

The Easter service at the Baptist was well enjoyed by a full house Sunday. The pageant "The Ever Living Christ," given in three acts was so well received that it has been requested that it be repeated at a community service in the near future.

There was a splendid attendance of the M. E. church members at the Morning Communion Service. This service was held prior to the Sunday school Exercises and owing to the large number of communicants it was one hour before the Sacrament was administered to all who participated. This is more as it should be on Easter Sunday.

Methodism is making an experiment during the Easter week. Members have been asked to make a special thank offering, preferably to tithe during that week. The offerings on Sunday were within a few dollors of the century mark. If all our members lined up on the support of the church we should have special committees to decide what to do with the surplus.

TOLEDO BUSINESS MEN COMING.

Tecumseh will be visited on May 9th, by a delegation of Toledo business men making their first after-the-war Trade Tour. The party, which will comprise 100 prominent business men, representing as many Toledo concerns, will arrive in Tecumseh at 8 a. m., Eastern time, on a special Pullman train. They will spend thirty minutes here, meeting various Tecumseh business men, and will leave at 8:30 a. m. for Manchester.

Fred Lower's famous band will accompany the Toledo business men on the trip, and they have informed us that they will come into town in the spirit and to the tune of "I want to go back to Michigan."

Manufacturers of automobiles, automobile accessories, electrical appliances, scales, children's vehicles of all kinds, paints and varnishes, paint sprayers, atomizers, optical supplies, steam traction engines, grain, bean and pea threshers, hay presses, lubricating oils and greases, food products, candies, beverages and tobaccos and many wholesale lines will be represented.

PLANS MADE EARLY FOR HIGH SCHOOL ALUMNI MEETING.

Mrs. Florence Osburn, as president of the high school alumni, called a meeting of the executive committee Monday evening to start the ball rolling toward a successful alumni gathering for this year, Committees were appointed, the main one being that of the program, the members of which are Dr. Pauline Bredow, Misses Marjorie Boyce and Muriel Halladay.

The commencement exercises will be held June 8th this year so the alumni banquet will follow, June 9th. Lester Heesen will have charge of the decorations. The music is in the hands of Mrs. R. S. Moore and Miss Edna Taylor who never fall down on their job and already Lyster Dewey of Washington D. C. and Charles Hurry now in Europe have sent word they are coming.

Arrangements are working out early so the alumni gathering will be a greater success than ever.

MUCH MOVING ABOUT TOWN

Quite a little moving has been the program about town during the past week. Mr. and Mrs. Albert Foster have vacated Dr. Conklin's house on East Pottawatamie street, storing their goods as Mr. Foster is with the D. T. & I and does not know where his headquarters will be. Ray Pocklington and family moved into that house.

Mr. and Mrs. John Frost moved their household goods to Ann Arbor last week as they have bought a home in that city. Mr. and Mrs. E. H. Ahrens moved from Blissfield into the Nevison house on West Kilbuck street which Mr. and Mrs. Frost have vacated.

Mr. and Mrs. Fred Chase have moved from Saline into the house [illegible] Bell.

Fred Daisher and family have moved from the Scofield house back to their farm near Holloway.

As Mr. and Mrs. Charles Courtad and Miss Mildred were returning from Toledo about 10 o'clock Sunday night in their sedan, they collided with a Blissfield car near Riga. The Blissfield car was only injured slightly, but the Courtad machine had three wheels and the front axle broken and nearly all the glass in the machine is missing. The Tecumseh people were scratched up some and were fortunate to be picked up by a passing autoist and brought home. The car was returned home yesterday all in good running order.

McComb-Clase Party Coming

Noted Evangelistic Party Which Has Caused Such a Stir in Adrian, Monroe and Ypsilanti are Coming to Tecumseh for One Month—All Local Churches are Backing it.

The noted evangelists, McCombe and Clase, are coming to Tecumseh on May 21st to be here for one month. They are now in New York and were in Adrian sometime ago when they made hosts of friends and did most excellent work. In fact they set Adrian and Monroe ablaze with religious enthusiasm and accomplished wonderful results.

This is one of the strongest evangelistic parties now working in the United States and Tecumseh is very fortunate to secure them for a month's work. They made friends by the legion in Adrian and wherever they have been and the crowds attending their meetings were enormous. It will be one of the biggest things Tecumseh ever had and all of the churches are making preparations to assist in the work.

Without doubt they will bring more people into Tecumseh than any attraction we could get for they will come by the hundreds from Adrian and other points where these men are known. They draw enormous crowds wherever they appear and Tecumseh will be no exception. Their coming will surely be a great event for this part of the county.

SPEAKER FOR REDUCTION OF ARMAMENT.

At the Friends church Thursday afternoon a lecture was given by Frederick J. Libby, the executive secretary of the National Council for the reduction of Armament. Mr. Libby talked for this council telling of the necessity for the reduction of armament in the minds of the other nations. As he has lived in fourteen countries in Europe and Asia he is well conversant with the attitude of the world toward the United States. For several years he was with the Friends Relief Commission and saw the terrible suffering which accompanies war. This gave him the strong antipathy to war which is evidenced in his speeches.

He spoke at the school that afternoon and at the Presbyterian church that evening. Knowing we are in a campaign for Near East Relief, at the latter place he told of the pitiful conditions now existing in both Russia and Armenia and of his personal experience in the famine stricken districts.

K. OF P. VISIT TIPTON.

Over one hundred K. of P's visited the Tipton brothers Monday evening, the local men exemplifying the third rank on twelve candidates. Nine were Tecumseh men as follows: W. B. OUR BATTING AVERAGE.

It has been authentically figured out that there are over one million chances to make a typographical error in the preparation of an ordinary newspaper of eight pages.

Therefore if in the preparation of a paper there should be 100 errors, our batting average would still be 99.9% perfect. Some average left after making quite a few mistakes and the average newspaper of first class composition usually has less than 20 errors so that the wonder grows how nearly perfect the ordinary newspaper is when there are so many opportunities to make errors.

However, there are often individuals who seem to think that everyone else except themselves should be absolutely perfect and through their lack of understanding, (high mental specific gravity) they also seem to believe that to find an error someone else has made greatly magnifies their own perfection and shows themselves off under very favorable lights. To be sure no one of average intelligence ever attempts to show off their own smartness by picking flaws with the work of others as they realize that to do something correctly themselves is vastly different from finding fault with others, and hence they are sufficiently intelligent to understand that the degree of perfection one attains is shown by their ability to perform complicated work with a high degree of accuracy. In other words their batting average depends upon how they bat against regular pitching.

The other fellows work always appears very simple to the ignorant who are quite free and very raucus to explain how simple it is and how very easy to improve upon their crude methods. This is to be expected from those whose mental developement is very deficient which accounts for both their uncouth attitude and their laughable explanations of how to do it right. However, they furnish considerable entertainment for those of average mental caliber and are perfectly harmless in their neighborhood so that their cynical criticisms and noisy manifestations of superiority keeps everyone in good humor as does the buffoonery of the clown at the circus—only the clown knows he is a buffoon.

Yes, sir, the fellow who maintains a 99% batting average is among the top notchers and if everyone who essays to faultfinding could bat with the average newspaper force, this old world would soon take on the appearance of worldly perfection. But what a dull old place it would be without the buffoon to tickle us before the big show begins so the cynical critic has his work to do the same as the rest of us and he usually does it well. Next batter up.

LET 'EM ROAR.

An awful roar is going the rounds of the newspapers because 17 girls have been expelled from the State Normal College during the school year for various infractions of the rules of the school.

Much unwarranted and ridiculous criticism has been leveled at the school authorities for being so severe on these young people who are striving so hard etc. to get an education.

We know nothing of the merits of the cause but we do know that the Dean of Women and the President of the School are both educators of the highest rank and that they would never send any student home from such a school unless they had weighed the matter carefully and found it for the best interests of the school to do so.

When it comes to the point where the school authorities can't run the school without politicians dipping in and meddling, the schools better be closed up. If our State Normal College doesn't stand as an example of what teachers should be and can't be allowed to conduct the institution on that basis, then the sooner it is closed and the door nailed shut the better it is for the taxpayers and citizens of the state.

It will be remembered that Gov. Groesbeck took an active part in changing some of the methods in use at the Industrial Home last fall. Maybe the Governor knows how to run all these institutions better than those in control but we certainly doubt it, and we haven't the slightest doubt but that an investigation if kept free from politics will show that our State Normal authorities are absolutely right in their position and deserve the hearty commendation of all good citizens.

CLINTON.

Mrs. Jas. B. Hause Passes On.

Mrs. James B. Hause, aged 81, died Saturday evening at her home of cancer of the breast.

Mrs. Hause was born in Ann Arbor and passed the earlier years of her life there. She was twice married, her first husband being Mr. Chas. Calkins of Napoleon. There were three children of that marriage, one daughter and two sons. Only one of whom is still living. Mr. Elmer Calkins of Toledo. A part of her early married life was spent in Jackson where Mr. Calkins and her only daughter, Ina, lie buried. During the time of her widowhood she found a home in Toledo. Fourteen years ago she came to Clinton as the wife of J. B. Hause, a prominent business man here. Her friends in Clinton are all with whom she came in contact. During the long terrible illness which it seemed her portion to pass through she was tenderly cared for by the children of Mr. Hause, all of whom lived near her.

Mr. Hause has the sympathy of the community in the great loss he has sustained.

Funeral services were held in Clinton at [illegible] o'clock on Monday, with burial in Jackson by the side of her first husband and only daughter.

Dr. and Mrs. D. M. Matteson of Adrian visited Dr. and Mrs. J. L. Tuttle Sunday and attended the Cantata at the Congregational church in the evening.

Neil Hause of Detroit was a week-end visitor at the home of his parents, Mr. and Mrs. H. R. Hause.

Miss Nettie Martin of Scottville is visiting her uncle and family, Mr. and Mrs. Bert Martin of Bridgewater.

Work was commenced Monday on the interior of the M. E. church. It is expected the audience room will be closed two Sundays during which time church services will be held in the Town Hall.

Those who worked together to present the Easter Cantata at the Methodist church Palm Sunday enjoyed a pot luck supper and social evening together Thursday at the church. At that time the singers gave to Mrs. Millard a beautiful amythest and silver broach and to Mrs. Scriver a cut glass creamer and sugar bowl.

Nearly all business places in Clinton were closed from 12 to 3 on Good Friday.

Mrs. George Freese is spending the week in Detroit.

Ralph Halladay will have charge of the new gasolene station in the south side of Main street.

Mrs. James Fitzgerald returned Monday from Charlotte where she has spent the winter caring for a relative.

Mr. and Mrs. G. W. Freese entertained at dinner Saturday eve, Mr. and Mrs. W. H. Gadd and the Misses Blanche and Lillian Robinson.

Mr. and Mrs. Ira Van Geison of Chelsea called upon his mother, Mrs. Louise Van Geison Sunday afternoon.

The Easter morning program at the Methodist church given by the younger portion of the Sunday-school in charge of Miss King was very pleasing and a credit to the young people and to Miss King.

Mrs. Louise Van Geison has so far recovered from her recent illness as to be able to return home. She has been with her daughter, Mrs. Wilbur Hogan for a month.

A baptismal service took place at the M. E. church Sunday morning. Seven young children, four boys and three girls were presented by their parents for the ordinance.

William Demuth returned Friday evening from his winter's stay in Florida.

Mrs. E. R. Smith recently entertained at dinner and afterward at a theatre party in Los Angeles, Cal., Mesdames Carrie Reeves, Lizzie Marrs and Carrie Woodward, all former Clinton people.

The Congregational church seated a capacity audience Sunday evening to listen to the Cantata, "The Resurrection and the Life" given by a band of thirty-five singers, members of the choirs of the Cong. and Episcopal churches. They were so fortunate as to make it a rare musical treat and a true spiritual inspiration.

Miss Hazel Van Geison of Detroit spent Easter Sunday at her parents home.

Miss Nora Rentschler of Ann Arbor visited her father and mother, Mr. and Mrs. John Rentschler, east of town Sunday and Monday.

Mr. and Mrs. Vance Ogden of Chelsea came to spend Easter Sunday with their parents.

Mr. Jake Tuckman who has been cobbler for Tag & Son for a few years closed his work there last Saturday and left for Chicago.

The ladies of the M. E. church sent a case of eggs to the Methodist Old People's Home at Chelsea last week.

Mr. and Mrs. Ray Kemp of Adrian came Sunday to visit her mother, Mrs. Mary Halladay.

The union services of the Congregational and Methodist churches at the Town Hall next Sunday evening will be in charge of Rev. G. R. Millard. His theme will be "Smatter Pop?" The Ladies Band of Tecumseh will furnish music.

Mr. and Mrs. Del Moulton, daughter Ruth and husband and Miss Dolly Steffens, all of Jackson visited Mr. and Mrs. Louis Steffens Easter Sunday.

Mr. and Mrs. John Hetinger of Detroit spent Sunday at the home of her mother, Mrs. Sara Halladay.

Edward Judge has discontinued his school work for the present and has taken work on the Clark fruit farm.

Mr. and Mrs. J. P. Cullen and children drove over from Detroit Sunday. Mr. Cullen returned the same evening but Mrs. Cullen and

IT IS SERIOUS

Some Tecumseh People Fail to Realize the Seriousness of a Bad Back.

The constant aching of a bad back,

The weariness, the tired feeling,

The pains and aches of kidney ills

May result seriously if neglected. Dengerous urinary troubles often follow.

A Tecumseh citizen shows you what to do.

J. H. Hall, 210 W. Logan St., says: "I had considerable trouble with my kidneys for eight or ten years and at times my back was almost doubled up with pain. My kidneys didn't act regularly and in various ways, showed signs of disorder. I also suffered from rheumatic trouble in my lower limbs which was painful, especially in damp weather. I saw Doan's Kidney Pills advertised and went to Pulver's Drug Store for some. I used two boxes of Doan's and they fixed me up in good shape."
